## Solar Revolution 2010/2011 for Johnny

### Introduction

This 2010/2011 Solar Revolution is valid from one birthday date to the next, from June 9, 2010 to June 9, 2011 for you. It has been computed for your presence in Paris (Ile-de-France), France, on June 9, 2010, at 01:15 AM, Paris time (the exact moment of the Solar Revolution does not necessarily match your legal birthday date).

It is indispensable to take into account the natal aspects which are repeated in the Solar Return chart. Should it be otherwise, the Solar Return (SR) affects the inner plane and is not very likely to bring about tangible events. The effect of a SR is to "wake up" or activate the potential inscribed in the natal chart. Nothing, or very little, can occur which is not rooted in the symbolism of the natal chart.

As a secondary comment, we believe that it is necessary to be careful not to give too much credit to the principle and the meaning of the planetary dominants found in the SR chart. Indeed, since each author has his/her own method, there may be differences among rating systems used and thus, ranking of planetary dominants may vary. As a result, the interpretation may be slightly distorted.

The SR chart describes the astrological climate of the year starting on your birthday, with its assets and weaknesses. More than a predictive method, it is a comprehension tool which sheds light on the evolution of your personality. It enables you to seize opportunities to blossom, and it helps to avoid traps. It is necessary that you adjust your life context to the situations explained in this Report. Indeed, everyone can take charge of one's life in order to change the nature of an event, grab dormant opportunities, or overcome hurdles. After completing the analysis of your planetary dominants and the assessment of your SR Ascendant (these components give information on psychological trends prevailing throughout the year), we compare your natal and SR charts in order to identify the type of climate in which your life is most likely to unfold during this specific timeframe. Lastly, we review your planetary aspects in order to pinpoint possible opportunities and dangers.

Please, also bear in mind that forecasting is first and foremost done using the transit technique, and that this Solar Return Report must be considered as its complement. Indeed, SR forecasts may be less reliable than transit forecasts, and therefore, the former should be taken with a few reservations, although it has numerous proponents, and it is definitely a valuable technique. For all its passionate partisans, the SR Report constitutes a fully fledged forecast. Nonetheless, we recommend that you read it in addition to your yearly forecast, established on the basis of your transits, and that you consider it as the main Report.

## Your Solar Revolution 2010/2011

### Uranus is one of the planetary dominants of your Solar Revolution chart

You take on your responsibilities, even though you must disrupt your habits. Therefore, this year may be an unexpected life-turning period. You open your eyes to a new situation. It is the time to take action and show your worth. You assert your personal values and display your determination to put forward your choices, and even to impose them. The danger may be that you surprise your entourage and that you question numerous conventional ideas. You are driven by an exceptional determination, and it is useless to try to convince you to take decisions which go against your inner certitudes. You know where you want to head for, and in order to achieve the autonomy you aim at, you do not shrink from obstacles. This configuration suggests an exceptionally intense awareness building. Everything becomes crystal clear and simple. It is perhaps simplistic, and the danger is that your line of conduct is intransigent to the extent that it may not stand the imperatives of harsh reality. Therefore, it is advisable that you do not systematically turn down compromise solutions and agreements. Of course, it does not mean that you should forsake what is so essential to you: the independence you badly need.

### Mercury is one of the planetary dominants of your Solar Revolution chart

Communication and open-mindedness are your forte this year. You establish new contacts, and you increase the number of your activities and undertakings without hesitating to involve your entourage. You want to communicate and to spark up encounters and discussions. This is a very constructive behaviour, particularly if your profession is based on relationships. Human contacts take a special dimension here: both commercial transactions and personal matters lead you to discover new perspectives, to broaden the scope of your centres of interest and your methods of interpersonal approach. Several encounters may prove decisive in the social area more than on the affective plane. Do not dread to launch trial balloons, or to face unknown situations. Indeed, the experiments you make "just to see", or for fun, have every chance to result in opening new and fruitful paths.

## Your Natal And Solar Revolution Chart

Houses indicate in which areas each planet expresses its function. The natal houses where the SR Ascendant and SR Midheaven are posited are of utmost importance and indicate the sectors on which you focus your activities. The values symbolised by the tenanted houses are the best assets you should rely on in order to harmoniously experience the energies of your SR chart.

### The Solar Revolution Ascendant in House VII

This year turns out to be the year of Other People! The focus is on life together, regardless of the type of partnership involved. Each of you must learn to share the activities or the aspirations of the other one. Events require the joint consultation, willpower and commitment of two persons. On the affective plane, you go through an intense and crucial period. You must adapt your behaviour to your partner's, and take her needs and expectations into account. It is also possible that you make a new encounter, or that you give a fresh impetus to an already established relationship. Events prompt you to reconsider the causes behind your attitudes towards people and your interpersonal relationships, and to adopt a different form of interaction. You are more sensitive than ever to the quality of your exchanges, and therefore, you try to build a harmonious life for your couple and to overcome any difficulty. You discover that it is impossible for you to be fulfilled solely through self-reliance and caring for your own projects or desires. Constructive reflection is under way despite the self-questionings implied. One last point is worth mentioning. This year is auspicious for starting up all kinds of associations and contracts, including in the professional area.

### The Solar Revolution Midheaven in House V

The 5th house is traditionally considered the house of romance and children. You are very likely to experience an intense and passionate love story. This period is particularly rich on the affective plane. It is a year for love, and you may live in a passionate climate, depending on the context of your existence. You may fall in love with a person you have just met, or you may rediscover the personality of someone you know. This possibility also applies to your work, your child, etc. Besides, it does not matter! The only important thing is the exaltation of a life that may have become monotonous. In a different register, leisure, gambling, and encounters occupy a major part in your life, a life that you wish were more dramatic, intense, and richer than ever. The danger may be that you to precipitate events and speed up any change susceptible to throw a dramatic light on facts. Of course, daily routine may seem quite obsolete to you now. But dismissing all established values and habits would be exaggerated... More than ever, you are sensitive to the world of childhood either because some event leads you there, or because your desires prompt you to give an essential part of yourself.

## The Solar Revolution Ascendant

The SR Ascendant often differs from your natal Ascendant. The SR Ascendant is the sign rising on the horizon at the very moment of your astrological birthday (when the Sun is posited at the exact point of the Zodiac he occupied at the moment of your birth). Your personality takes on the characteristics of the rising sign for the whole year. The SR Ascendant describes the nuances of the human character in perpetual evolution.

### Your Solar Revolution Ascendant: Aquarius

The Ascendant of your SR chart, not to be mistaken for your natal Ascendant, is posited in Aquarius. You are more sensitive to all matters involving groups of friends, associations, and collective goals. This configuration heralds a constructive period in the relationship area. More than ever, all human matters are of concern to you. It may be that ideals of fraternity give you a humanitarian bent. Or it may also be that you just feel more sociable - despite some intransigence - and show unlimited affectivity. In any case, your concepts are liberal and original. You are seduced by new ideas and bold innovations, some of which may be quite utopian... Never mind! Hope makes life brighter and enables us to consider the future with some degree of serenity. You are more sensitive to what tomorrow may bring than to the hazards of the moment. You demonstrate an amazing capacity to overcome any problem while banking first and foremost on the future. Thus, this year proves auspicious for hatching up ideas and projects which, as unattainable as they seem, can go a long way. Nonetheless, it is perhaps wise to be more realistic, once in a while...

## The Aspects of the Solar Revolution

The aspects of your SR chart describe the relationships among planets. They may be harmonious (trines, sextiles), tense (squares, oppositions) or ambivalent (conjunctions). They give information on opportunities to seize, or possible hurdles to overcome. They imply no inexorable sense of fatality whatsoever, since free will can significantly change the course of events. The strength of each aspect is indicated by stars, from \* (mild) to \*\*\*\*\* (potent, very meaningful configuration).

★★★★★ Trine ♄ Saturn ♀ Mercury, orb 0°00'

You display great clear-sightedness and you retain your objectivity in many circumstances. Your attitudes are marked by rigour. You strive to understand the whys and the hows of all events and you explore the backstage of your life setting. Superficial rapports don't interest you any more. You must now deepen your judgments, examine the hidden machinery of your life and

# Your Solar Revolution

understand your close friends' real motivations. This period is very good for all types of tests and clarifications. More than ever, you need to tell the truth and do your utmost in order to clear up your relationships. You are realistic and you don't hesitate to dispel ambiguities, which open the way to healthy and enduring human relationships. This period also favours new experiences such as discovering the unknown and increasing the number of enriching encounters. Even if sometimes it means questioning yourself with an open mind and welcoming concepts that yesterday were still unfamiliar to you.

★★★★★ Trine ♃ Pluto ☾ Moon, orb 0°28'

You step back from your private life and your family sphere. With subtlety and almost without your knowing it, your attitudes are changing. Unknown values or preoccupations are suddenly highlighted. In short, you are shedding skin. You are more clear-sighted and you understand the real stakes in your intimate life. This is a strange period, marked by slow transformations, not spectacular ones but deep and essential. You will become less vulnerable, less sensitive to small details that would have thrown you out of balance, not so long ago. You even reach a deep serenity that is more related to indifference than to letting-go. Nothing seems to hinder your will to avoid surrounding parasites. The traps of this configuration? Some degree of isolation and an excessive distance from people whom yesterday you considered your "close friends". Without challenging your new peace of mind, you must be careful not to under-estimate troublesome elements. Indeed, as one decides that nothing is of real importance, one may expose oneself to a few deceptions. Nevertheless, there is another very positive point that is worth underlining. More than ever, you have the ability to clear-sightedly manage your intimate life, in your own ways.

★★★★★ Opposition ♆ Neptune ♂ Mars, orb 2°12'

You are able to stand up for a lost cause with the greatest sincerity in the world. The exaltation of your feelings is undoubtedly commendable, however, your objectives are not too realistic. There is a danger that you let yourself be carried away in a whirl of upstream actions and that you waste your time with useless confrontations and struggles. Reason has little influence over your attitudes. Therefore, you have difficulties in keeping the situation under control. Beware of crazy feats. Exacerbated passions - a certain romanticism - endow you with a "Don Quixote" side. Events may surprise you though. As if some glitch were striving to jeopardize your plans! There is nothing magical nor unavoidable here: it is only that you let yourself be blinded by your certainties and in the process, you forget the realism that would prevent passionate, subjective and often unsuitable management. Beware of skids! There is a real danger when one is carried by one's dreams: the danger to get all mixed up whereas the situation requires lucidity and perspicacity, precisely. More than ever, you must not be lured into the snares of meaningless or illusive passions. A bit of pragmatism is needed in order to

# Your Solar Revolution

avoid mirage-hunting...

★★★★★ Square ♃ Neptune ♀ Mercury, orb 0°46'

Your intuition is a dangerous guide. Everything seems simple. However, the euphoria of the moment conceals an implacable reality. An unexpected solution may prove disappointing. You should beware of miracle cures and external help. Miracle is but a mirage. Your illusions are likely to vanish into thin air before long. Therefore, it is better to keep cool and not let fantastic promises get to your head. Words are often far from reality. However, insignificant discussions may conceal important stakes. It may be a dialogue that questions your quiet certainties or a new, unavoidable fact, or an encounter that forces you to redefine the rules of the game. In any case, in the relationship area, issues become clouded. You must remain vigilant, lest you fall under the spell of deceitful words and promises. This is the time for disconcerting experiences and interpersonal tests that offer unexpected prospects... or clumsy or extreme behaviour that closes all doors.

★★★★★ Trine ♂ Mars ☾ Moon, orb 3°09'

During this period, events are likely to concern your domestic sphere, your habits and your major bases. Anything involving your private life will be particularly highlighted. Whether you have to sort out a personal problem or to take an action related to your family life, you display a great deal of energy. You find the strength needed to get a situation out of the rut. In order to make your intimate realm evolve the way you want it to, action is more efficient than words. The situation develops quickly, very quickly. Facts prompt you to respond and to adjust your pace and your behaviours to the constraints of a situation that is new to you, in many respects. A chief preoccupation: how is it possible for you to feel at ease and to be in good shape? You try to find a balance between your peace of mind and your cravings, between your desire for quietness and your need to have your desires fulfilled in an intense way. This may be a very good time to improve your daily life... in sheer simplicity. You do not allow anyone or anything to hinder your efforts towards a new personal balance.

★★★★★ Square ♂ Mars ♀ Mercury, orb 2°59'

Electricity can be felt in the air! Your impulsiveness does not facilitate smooth relations and contacts. You are prone to verbal clumsiness and thoughtless actions. Your state of mind brings about criticisms and controversy. If you cannot take action, you will probably demonstrate verbal violence. If, on the contrary, you cannot explain yourself honestly, your foolish actions will probably provoke forceful events. Beware of all kinds of blunders! It is certain that this climate favours latent conflicts that are likely to break out in broad daylight, forcing straightforward and constructive explanations to take place.

# Your Solar Revolution

But as we all know, settling of scores is not devoid of danger. For instance, there is the danger to overstep the line, at least verbally, and to utter loud and clear words that you had better kept to yourself. Therefore, even though you feel the urge to interfere, you must control yourself and strive to count to ten before you shout out words that cause irreversible harm. This is how you can get the best of this planetary configuration: straightforwardness that dispels many a misunderstanding.

★★★★★ Trine ♃ Pluto ♂ Mars, orb 3°38'

Your actions are powerful but quite peculiar. During this period, you prefer the subtlety of the backstage to open duels. Your actions are efficient, all the more so if you remain in the dark and protected from indiscreet people. Events require a certain degree of secret as well as an aloof and reserved attitude. You don't trust appearances and you patiently wait for the right time, without falling into the traps of a simple and quick intervention. Therefore, discreet and even underground actions are more efficient than open and transparent moves. More than ever, it is necessary to use guile, to circumvent facts and to discover their hidden meaning. You behave with sharp presence of mind because you are able to keep to yourself what is at stake. It is likely that your current actions and doings will become meaningful later on only. You prepare your assets for the future with subtlety. Some of your actions are visible and dramatic... but inefficient! Some other more subtle actions stem from your will to intervene behind the scenes: your strength lies in this quite Machiavellian choice. Indeed, efficiency is priceless!

★★★★★ Sextile ♃ Uranus ♀ Mercury, orb 2°23'

Events prompt you to opt for an original course of action and to find unexpected solutions. In a split second, you seize opportunities, be it a useful information, an enriching encounter or an idea coming out of nowhere. Apparently fanciful or fringe attitudes may turn out to be the most efficient ones. With a tiny touch of madness, but very tiny only, you will amaze your entourage and perhaps, you will be amazed yourself. You use a new language that matches your aspirations. Lively debates are to be expected as you are certain of your arguments and you initiate dialogues with a view to convincing and asserting your choices. Yesterday's hesitations give way to an unwavering will to assert your convictions and to tell outloud your inner certainties, even if it means hurting your entourage and upsetting commonplaces! This is a very good period for gaining more autonomy and experiencing a personal and independent path. In this regard, your encounters are likely to prove valuable and your meetings, decisive.

★★★★★ Sextile ♃ Jupiter ♀ Mercury, orb 2°27'

This period favours fruitful relations and useful dialogues. You easily mobilize

# Your Solar Revolution

your adaptation and insertion abilities. You display more diplomacy than ever, you make the most of your contacts and you make use of your improvisation skills. The influence favours any sensitive enterprise requiring persuasion powers. You charm and convince your entourage. Business or commercial initiatives are also protected... if your life context agrees, of course. You enjoy some degree of relaxation because you try to negotiate and dispel surrounding tensions. Social life prevails over individualism and personal plans. You are likely to make an encounter that offers new prospects, an agreement or a contract. In order to make the most of your current negotiations, you must constantly remain clear-sighted during your debates. Your open-mindedness may bring about amazing prospects.

★★★★★ Sextile ♀ Venus ♃ Mercury, orb 4°14'

In the romantic area, this period proves ideal for any sentimental dialogue or reunion. Both of you seek a new impetus and a more promising horizon... You expect a great deal from your partner, and you are right to do so because you will find together the key to a lasting relationship by adopting the most suitable strategy for a tense context. Do not hesitate to engage in thorough dialogues, as a lengthy discussion may lead to new solutions that are more conducive to growth than your previous attempts. Your main asset remains your appealing eloquence and your pleasure as you express your emotions and give free rein to your heart's impulses...

★★★★★ Sextile ♃ Saturn ♀ Venus, orb 4°14'

Nothing is simple with Saturn, the planet of interrogations and challenges. When the influence is harmonious, it becomes a drive for evolution, as one seeks the essentials in the relationship. During this period, if on the one hand it seems difficult to be contented with superficial loves, on the other hand, you find it easy to make use of the profoundness and sincerity of your feelings. You cannot be satisfied any more with shams and risky compromises. Your attitude is changing. The stage of falling in love head over heels is over. It is the time for enduring affairs, for true love matching your aspirations and your heart of hearts. More than ever, you must consider your affective life from a long-term perspective and consolidate your acquisitions or build up a relationship that is stable because it is loyal, and rich because it is based on mutual confidence and respect. It is time to ask your partner, and yourself, real questions, without fearing the "adventure" that any questioning constitutes. It is under this condition, and this condition only, that you can develop the mutual esteem without which all relationships remain shaky. You have passed a major step, that of relinquishing the illusions of the day so as to discover love's true roots. Wisdom is traditionally associated with this planetary configuration.

# Your Solar Revolution

## ★★★★★ Trine ♃ Uranus ♀ Venus, orb 6°38'

This planetary configuration often indicates a turning point in your romantic life. It is striking because your affectivity's dormant demands and unavoidable requirements shoot up all of a sudden. It is also outstanding because events may change the nature of your life and the quiet course of your heart. There is a vivid desire for personal assertion, freedom and autonomy. Therefore, this period is likely to give your love life an unexpected twist. It may be an encounter that awakens your aspirations or just a new impetus given to your couple's relationship, eventually freed from its fetters. Indeed, a decisive point where love reaches its maturity. You gain awareness of your real motivations. There are no more questions or doubts, there are only answers and assertions clearly put forward. Events are likely to transform the way you love, and to provide you with more freedom, liveliness and passion. For some people, it is the time for love at first sight and for revelations. For others, it is the time for freedom, whether it is taken or given. The freedom to be oneself in spite of the constraints of living together.

## ★★★★★ Trine ♃ Jupiter ♀ Venus, orb 6°41'

This planetary configuration is well thought of. It suggests a fruitful stage in romance that is favourable to some sort of legalization (such as getting married) or to perfect bliss. However, this interpretation must be relativized: of course, your forte lies in your seductive abilities and your capacity to adjust your desires to the constraints of the moment. Although feelings are wild, you don't lose the sense of realities. Therefore, more than usual, you arouse a sympathy for which you are willing to compromise. In most cases, you discover in yourself a new interest for socializing. You may seek easy contacts, sometimes in superficial ways. Love has got a price and you are ready to pay. The danger may be that you accept several concessions that turn out to be impossible to bear in the long run. The euphoria of the moment must be carefully balanced. Finally, this period is excellent for expressing (Jupiter is the planet of language) your feelings (Venus) and translating your heart's reasons into actions.

## ★★★★★ Sextile ♆ Neptune ☾ Moon, orb 5°22'

You listen to your intuition and you leave aside calculation and project preparation. It is better to rely on situations brought about by the whims of fate. Should a happy event take place, it will occur without your conscious intervention. New prospects are emerging in your daily or family sphere. This period is particularly good for revising your habits. You may bring changes in your home. This planetary configuration suggests nice indolence and balancing casualness. Everything is conducive to relaxation and calm and you refuse to let ordinary constraints destabilize or disturb you. This is precisely where lie the traps inherent to an astrological influence that inclines to easy-going attitudes: you may gradually be too laid-back, refusing all efforts

# *Your Solar Revolution*

---

and constraints, to the point that you become overwhelmed by the situation. Therefore, you must remain clear-sighted and control the very indolence that you are longing for, deep down. Although everything seems to be fine, many situations must be kept under control. Then, you will enjoy an atmosphere of harmony that truly matches your pace and aspirations. The quest of a new and deep-rooted equilibrium.

## Conclusion

It is important and even crucial that you get a good grasp of your natal chart if you want to fully appreciate the forecast of the current year. This principle applies particularly when computer programmes are used, as it is the case of this Report. Indeed, the aspects assessed are more powerful and meaningful if they are also found in the natal chart.

Besides, as stated in the introduction, we prefer to give priority to the yearly forecast, which is based on the transit technique, and we consider the forecast based on the Solar Revolution chart as a complement and not as a whole Report by itself. With the combination of both methods, it is possible to further fine-tune the diagnosis. In case there are contradictory elements between the two Reports, the priority should be given to the yearly forecast based on the transit technique.

It is always fruitful to re-read your forecast with the above pieces of advice in mind. Astrology discloses a wealth of secrets to those who are capable of observation, and it is very worthwhile. Never forget that we describe only climates, tendencies and probabilities, not fatality, and that there is much room available for initiatives and free will. Experience has demonstrated that the best of all planetary climates does not necessarily bring about positive concrete events if you demonstrate no willpower, and if you take no actions in order to achieve a satisfactory outcome. Conversely, the potential dangers forecasted can be alleviated or eliminated, on condition that you remain serene, stand back, understand how some ordeals may be beneficial, would it be spiritually only. Asking yourself relevant questions about the real meanings of life is the invaluable key to understanding them...
