Alanis Morissette's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Alanis Morissette, the diurnal South-eastern quadrant, consisting of the 10th, 11th and 12th houses, prevails in your chart: assertion and goals achievement are at the centre of your concerns. You are very keen to implement your dreams and your plans. You achieve your ambitions as soon as possible, whether through an active social life, highly charged friendly relations, or an urge to take actions in order to reap - in the eyes of the world, of course - the rewards of your dynamism. It is likely that spirituality or humanitarian actions are part of your motivations, sometimes at the price of some degree of isolation.

Your Dominant Modes and Elements

Alanis Morissette, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

The predominance of Water signs indicates high sensitivity and elevation through feelings, Alanis Morissette. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

Cheers for communication and mobility, Alanis Morissette! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Alanis Morissette, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Alanis Morissette, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Venus, Uranus and the Sun.

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

Uranus among your dominant planets: just like Neptune and Pluto, Uranian typology is less clearly defined than the so-called classical seven planets that are visible to the naked eye, from the Sun to Saturn. However, it is possible to associate your Uranian nature with a few clear characteristics: Uranus rhymes with independence, freedom, originality, or even rebelliousness and marginality, when things go wrong...

Uranus is Mercury's higher octave and as such, he borrows some of its traits of character; namely, a tendency to intellectualize situations and emotions with affective detachment, or at least jagged affectivity.

Therefore, you are certainly a passionate woman who is on the lookout for any kind of action or revolutionary idea, and you are keen on new things. Uranians are never predictable, and it is especially when they are believed to be stable and well settled that... they change everything - their life, partner, and job! In fact, you are allergic to any kind of routine, although avoiding it must give way to many risks.

One of the dominant planets in your birth chart is the Sun. He symbolizes will, magnetism, sense of honour and dignity. You are a Solar being, and you often display charismatic and leadership qualities. Your warmth and your persuasive power lead you far away from pettiness. You enjoy thinking big and,

consequently, you move forward according to what you decide.

Your Solarian weakness may be related to the sin of pride or to excessive authority. The frontier between pride and vanity is tenuous: be careful not to overstep it and to keep the nobleness of heart that is part of your charm.

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Cancer, Taurus and Leo. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Cancer is one of your dominant signs and endows you with imagination and exceptionally shrewd sensitivity. Although suspicious at first sight - and even at second...- as soon as you get familiar with people and let them win your confidence, your golden heart eventually shows up, despite your discretion and your desire for security that makes you return into your shell at the slightest alert! Actually, you are a poetess and if you are sometimes blamed for your nostalgia and your laziness, it is because your intense inner life is at full throttle...

With the Taurus sign so important in your chart, you are constructive, stable, and sensual. Good taste, sense of beauty, manners, and unfailing good sense - all these qualities contribute to your charm and seductive power. Furthermore, if some people criticize your slow pace and your stubbornness, you rightly reply that this is the price for your security, and that you like the way it is - slow and steady...

With Leo as a dominant sign, you naturally shine brightly. Your dignity, your sense of honour, and your generosity can almost turn you into a solar mythological hero, a knight or a lord from the ancient times. People may blame you for your selfishness, your pride or your somewhat loud authority, but if you are self-confident, kind-hearted and strong-willed, it surely makes up for your little flaws, as long as they remain moderate...

Your Dominant Houses

Houses 11, 4 and 10 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

The 11th house is among your dominant houses. Therefore, social life and/or friendships are very important, even strategic to you.

You think that group activities, whether in the humanitarian field or simple gatherings of friends, are endless sources of inspiration and of enjoyment, provided that there are no tensed aspects in this sector. Everything human is important to you, often more important than your own success, unless your 10th house is also powerful.

With an important 4th house in your chart, your private life, your intimacy, as well as your family and home, play a fundamental role. Your security and your family unit, the one you come from, but also the one you set up when you get married and start a family - or even as a girl bachelor living alone in your sweet home - are necessary for you to blossom. According to the Tradition, your father may play an important role in your life.

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Gemini and your Ascendant is in Leo

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

With your Leo Ascendant, you come across as a conquering and dignified person who is marked by an indefinable nobleness. Your highly developed sense of humour is much appreciated. Indeed, it is one of the best weapons of this sign which particularly enjoys being accepted and acknowledged. You display at the same time boastfulness, sense of honour, and false modesty. When people meet you for the first time, they notice your assertive and haughty facet, and they find it tremendously magnetic. If they scratch this veneer, they see your Gemini Sun, which is less emotionally and intellectually committed. You are more flexible than you appear to be at first glance. You seem to use your image and remain intellectually detached or spurred by undying curiosity. You cannot be accused of taking yourself too seriously. You master the art of handling human relationships, and you know perfectly well how to help people show

themselves off to advantage without endangering your interests.

You were born with the Sun in Gemini

Your mobility is such that you are in every place where you are not expected. You spend lots of time asking questions and... answering them. Your curiosity and your quick-wittedness are insatiable. Your mind is in constant turmoil, hopping from one topic to another, solving problems, accumulating anecdotes and knowledge within a short range of time. Your mobility is mostly mental, it takes you afar and turns your daily life into a mosaic of intense and pleasant moments that are not necessarily related to one another...

As you are born under this sign, you are nervous, expressive, lively and adaptable, with a quick mind and a good sense of humour. You are bubbling, playful, sociable, clever, curious, whimsical, independent, intellectual, flexible, ingenious, fanciful, imaginative, charming, cerebral, and you are into everything. You may also be whimsical, unfocused, quirky, superficial, indiscreet, opportunist, unmindful, selfish, sarcastic or mercurial.

In love, Madam, you are full of intelligence and liveliness. You are so subtle, so whimsical, that you could be seen as a “teaser” because you can seduce in any situation. The more complex they are, the more numerous the contacts, the better.

Among all the Zodiacal signs, you are the outstanding one who can “manage” several simultaneous love affairs. It is not a matter of vice, but only of voluptuous pleasure of the instant. If they do not take place at the same time, your amorous encounters may be short-lived. But their number is very considerable because you constantly want to keep boredom and monotony at bay and you frantically run away from any source of peace and calm.

You will probably marry more than once. For you, the Sun symbolizes first the father then the husband: Gemini being a double sign, and your father being unique, it is likely that you will have two or more husbands. However, this is not a fatality and the rest of your chart can easily tell you more.

Your Ascendant is in Leo

Psychologically speaking, your nature is powerful and self-assured. You are a leader whose strength and nobleness naturally arouse your entourage’s respect and adherence and your legitimacy is unquestioned. Your sense of commandment, the honour your person constantly exudes, your prestige and your charisma is a whole which puts you into the spotlight wherever you go.

As you are born under this sign, you are proud, determined, wilful, loyal, solemn, generous, ambitious, courageous, heroic, full of vitality, creative, confident, seductive, happy, daring, proud, majestic, honest, magnanimous, charismatic, responsible, noble, brilliant, radiant, dramatic, affectionate, full of humour, demonstrative, swaggering and self-confident. You can also be domineering, conceited, touchy, authoritarian, stubborn, intolerant, self-centered, irascible, violent, and nonchalant

In love, Madam, you are so proud and you have so much self-confidence that, at the beginning, you will probably need some time to find the partner whom you deem worthy of you.

You shine and you need to be told so; more often than not, your partner, too, must shine... Pre-requisites

seem to abound. However, as you mature, you will understand that all that glitters is not gold and that gold may be even more solid when it is less apparent. Then, you will reach higher levels of harmony with your partner.

Your weakness probably lies in your sensitivity to splits, a sort of major ordeal you will not be able to overcome rapidly.

You are a charming partner, with a lot of humour. You are brilliant, bubbling and you receive your guests wonderfully well, all the more so if they belong to your world. Your children will be particularly important to you and they will immensely contribute to your happiness.

The ruler of your chart is in Gemini

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

In your chart, the ruler of the Ascendant is the Sun. This specific feature means that the Sun's characteristics previously delineated are strengthened.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Alanis Morissette. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Leo Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Neptune trine Ascendant, orb -0° 28'

Neptune in soft aspect with your Ascendant endows you with a sharp intuition which enables you to instinctively adopt the behaviour which your entourage appreciates, Alanis Morissette. You have the natural flair which prevents you from making errors of judgment on people. You understand the crowd, and you have the good reflexes for being well-accepted by all.

★★★★★ Sun sextile Ascendant, orb -2° 02'

Your will is fuelled by a strong energy, Alanis Morissette. It enables you to take quick decisions which totally match your personal ethics. Thanks to this good harmony between the Sun and your Ascendant, you feel rather good about yourself, and your inner self perfectly matches the image you are willing to show!

★★★★★ Pluto sextile Ascendant, orb -4° 32'

Pluto, the planet of instinct and secret, is in soft aspect with your Ascendant, Alanis Morissette. It endows you with exceptional lucidity, which enables you to behave in society in an appropriate, though slightly scathing and domineering way. You exploit your nose and your magnetism, and you do so very successfully!

★☆☆☆☆ Moon square Ascendant, orb -7° 11'

Sometimes, Alanis Morissette, your sensitivity clashes with the image you want to project. As a result, you may feel vulnerable and suffer if you let yourself be disheartened. Try to put things into perspective

and to confront your emotions without fearing your external image. This is how you can compensate for this minor dissonance between the Moon and your Ascendant.

★★★★★ Venus square Ascendant, orb 7° 11'

In certain circumstances, Alanis Morissette, you tend to adopt an attitude that is not necessarily in line with your real emotions. This discrepancy between your behaviour and your feelings, caused by Venus, may disconcert the people you mix with. Have self-confidence, don't be too pushy or... withdrawn, and forget your fears. Then, people can have a better perception of your personality, and you can harvest the fruits of your efforts.

★★★★★ Jupiter bi-quintile Ascendant, orb -1° 11'

Jupiter in soft aspect with your Ascendant naturally endows you with a reassuring, calm, and benevolent side, Alanis Morissette. You honour your commitments without qualms, and thanks to your heart of gold and your generosity, your behaviour is protective and nice. You like to please other people, and whenever it is possible, you enjoy finding compromise solutions to all problems.

Your Sensitivity

Your sensitivity is intuitive and clear-sighted Alanis Morissette. Your exacerbated affectivity and your emotions are secretive, intense, deep and sensual. Your magnetic nature seduces. You are aware of the strange fascination you exert and you gladly cultivate this mysterious aura. Your feelings are so powerful that you may feel you should repress them sometimes. But the more you try to control them, the stronger they grow. Therefore, your jealousy may reach such levels that it may hurt. Without half-measure, you become aggressive and you can harm because your inner radar instinctively detects other people's weaknesses. Your emotions are often filled with eroticism and you are an explosive blend of lucidity, amorous intensity and constant provocation but... you are so charming! Your nature is attractive, even bewitching. After all, the only persons you offend are the middle course followers...

Your family, your home and often your mother, Alanis Morissette, have a strong emotional importance. You feel attached to your roots and the intimate surroundings in which you live are essential; you are deeply fulfilled by this continuous source of affective charges: your home and private life are sacred for you, and you can feel very uncomfortable or unsafe if you are deprived of your haven of peace.

Paradoxically, the Tradition indicates that you are predisposed to frequent home moves.

★★★★★ Moon opposite Venus, orb 0'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life's simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible, although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★★★★★ Moon trine Saturn, orb -3° 1'

This harmonious Moon-Saturn aspect is an element of stability for your private life. Your daily life lives up to your demands, you are totally true to yourself and logical through your very intimate behaviour. You do not choose the easy way out: on the contrary, it is in difficult situations that you are at your best. It is very unlikely that you become destabilized by trifles. This aspect indicates stability and also perfectionism. You are longing for a private life respectful of your heart of hearts and your genuine desires. Your well being is at this price, and its quest remains perpetual. Despite your reserved private behaviour, your emotions run very deep. You have a strong need for protection and for security. Your aspirations lead you towards contemplation or studies, more than towards social futilities.

★★★★★ Moon conjunction Uranus, orb 7° 24'

This harmonious Moon-Uranus aspect indicates that your well being depends on the original quality of your charm and on new-ness. You are not influenced by prevailing trends and fashion. You have a personal view of what a balancing private life should be. You enjoy unexpected situations, even extravagant ones. But if you feel that your living environment hampers your freedom, you suddenly change your attitudes and your habits. Independence is your true realm. You may show an exceptional inflexibility when your intimate life moves away from the patterns you need, deep down. Your entourage

must get used to your demands and to the values you are determined to keep with all your might and on which you are uncompromising. This determination does not allow for a laid-back attitude, or an indolence that so often causes degradations. You keep your own daily rhythms under control.

★★★★★ Moon sesqui-quadrate Jupiter, orb $-0^{\circ} 36'$

When this aspect is not well integrated, there is a tendency to conceal your true nature and to cheat on your true self. Appearance, emphasis and games hide the essence of your aspirations and may trouble your intimate life. Despite your apparent joviality, it is often difficult for you to live in conformity with your inner demands. Actually, it is difficult for you to reconcile your social life with your private life. The former excludes the latter. To properly integrate this aspect, you must learn to harmonize your external attitudes (social and professional ones) with your daily rhythms. It implies that, when you are in a trustworthy situation such as your family or your home, you accept to behave differently from when you are in a larger context, exposed to social stress. You must neither ignore them, nor should you favour them.

★★★★★ Moon square Mars, orb $6'$

This Moon-Mars dissonance suggests touchiness and sometimes, aggressiveness. You are irascible and very sensitive to all sorts of threats and dangers. You react very quickly, too hastily. To protect your well being, you must learn to control your mood, to coordinate your actions and to balance your opinions. You are often disturbed by plain facts: either you seek refuge in your intimate realm and refuse to face the truth or, on the contrary, you are engaged in altercations, which forbid all tranquillity. It is important that you balance these two tendencies and that you alternate moments of action with phases of carelessness and relaxation. These two attitudes are relatively irreconcilable.

Your Affectivity

In your chart, the Sun is in Gemini and Venus, in Taurus. In love as in other matters, the ideal is to never stop quivering and discovering, and to continuously remain amazed at everything and at nothing. Gemini's ideals are strongly offset by Venus in Taurus who needs stability. Your curiosity gives you a searching soul, whereas your affective fulfilment requires time. Discovering is fine, provided that you appreciate the savour of your relationship and that you patiently build a couple that does not mature instantaneously. Indeed, many experiences, successes and defeats are needed before the indispensable mutual trust can develop. Your attitudes may be disconcerting: you are looking at the same time for a steady but shifting love affair that is long-lasting, but not uneventful. When not well integrated, this configuration may indicate a possessive person who is uncompromising with her personal freedom... How can one deny one's partner what one allows oneself to do? The danger is to aggravate the gap between your concepts and your affects, for instance to claim a mind-openness free from blinkers, whereas your feelings imply possessiveness and chronic jealousy. However, your solar and Venusian signs complement and balance each other: Taurus' attachments stabilize and steady Gemini's erring ways, a sign whose company is never boring.

There is so much voluptuousness and so much charm in your personality, Alanis Morissette! You are what is called a "nature" and when confidence is established, slowly but steadily, you become deeply attached to your partner and you can be filled with passion. It may take months, even years, but you are so generous and affectionate that, in most cases, your relationship has many chances to blossom, with time. You are very physical and sensual and you are very keen to delight in your intimate moments. This

aspect of your amorous relationship usually contributes to its sustainability. Everything seems idyllic, Alanis Morissette. It would be so if your jealousy and your possessiveness did not get started simultaneously with your powerful feelings. But you have so many assets, so be content!

If there are no tense aspects with other planets in your chart, this configuration suggests that you are prone, Alanis Morissette, to create a link between your career and the sentimental area, even though it may come under various guises: you may be in favour with women in general and enjoy their support as you climb the social ladder and you achieve success more quickly making use of your charm and of your seductive ability. Sometimes, you may mingle love and career (or marriage), thus combining business with pleasure and indeed even... with your destiny. In other cases, you will be interested in Venusian occupations such as the arts, aesthetics, decoration, luxury trade or diplomacy. Whatever your activity, you will appreciate it tremendously and you will feel very much at ease. You will enjoy affective popularity and consequently, an aura of the luck of the devil that can propel you to the top or, at least, to where you dream of being. You are often a perfectionist and the careful zeal you dedicate to the attainment of your objectives greatly contributes to their achievement. Never do you forget them, and nothing pleases you more than to rub shoulders with important people in the higher spheres of diplomacy, politics or business. You love to act as the mediator or the go-between and to have your irresistible charm duly acknowledged and rewarded. In some adverse circumstances, you may lack constancy or perseverance in love, or this area may, to some extent, contradict your career objectives, owing to your carelessness. You may be dominated by women, lack authority or you may find yourself doing a balancing act between your love life and your professional life, and being unable to make a choice, thus damaging both.

★★★★★ Mercury sextile Venus, orb 2° 29'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitise to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

★★★★★ Venus sextile Saturn, orb 3° 09'

You favour deep feelings and a sincere affective life. In love, you are not content with shams or uncertain compromises. Your couple's relationship is based on mutual trust. You strive to build a lasting link, a true love that complies with your aspirations and your heart of hearts. This harmonious Venus-Saturn aspect indicates wisdom. Inexpressible truth is preferred to appearances. A love affair is an adventure, above all. Discovering the other one, step by step... any relationship takes a fundamental dimension right away. It is relevant to mention a little puff of romanticism and a passionate nature, although quite modest and reserved. You do not commit yourself thoughtlessly! This is a major asset for long lasting love. You are able to question your affective behaviour and to adjust to your significant other. You handle crises quite well and you overcome all the difficulties inherent to amorous rapports.

★★★★★ Venus opposite Uranus, orb -7° 25'

Your sentimental life is adventurous: you prefer Bohemia to the comfort of a quiet but shaky love affair. You are a hard-liner and you think that love should be genuine or it should not be at all! You have difficulties in resisting your heart impulses and untimely passions that may challenge your affectivity. You need air, freedom and a relative independence. You also need to fully experience your love impulses, regardless of the price to be paid. The heart has its own reasons that no rules can hamper... The obvious danger may be to cause dramatic hurly-burly. Your inflexibility on the affective plane does not favour a quiet life where « one makes do with very little ». You are the all or nothing type. But does the absolute really belong to our world?

★★★★★ Venus square Mars, orb -6° 01'

This Venus-Mars aspect indicates a sensitivity all on edge and an impulsive character. Emotions and heart impulses cause a marked tension. Life is an affective battlefield. Love is omnipresent but often fragile: impulsiveness reigns over the realm of feelings. The object of desire may become irresistible and implacable, or the sense of confrontations prevents affective tranquillity. However, the richness of your emotional responses is to be noted: you are more inclined than others to be guided by amorous fevers and you live intense passionate experiences. Your overwhelming impressionability must be contained. Romantic people seldom enjoy tranquillity!

★★★★★ Venus semi-square Jupiter, orb 0° 37'

This Venus-Jupiter dissonance indicates a strong will to seduce. However, there may be discrepancies between your words and your actions, as well as between your behaviour and your instinctive reactions. You may be carried away by a maelstrom of emotions, feelings and pleasures and you do not consider the possible consequences of your superficial attitude. Therefore, the apparent state of grace may turn into delusion. Proprieties and necessities of the moment forbid you to experience your desires. What you deem reasonable does not suit your heart's impulses. What a dilemma... Hopefully, as time goes by, you may reconcile your desires, your life patterns and the reasons of your heart with those of your mind.

★★★★★ Venus bi-quintile Neptune, orb -0° 42'

Your sentimental life unfolds like a strange dream. Love is too delicate to be tamed or controlled. You follow your heart impulses in an idyllic ambiance, far from reality's ordinary constraints, far from conventions and conformism. You exude a particular charm, discreet and subtle. But your affectivity may be disconcerting. You are very sensitive to marks of affection and tenderness, although you are aware that love cannot be bought or won. What is meant to be will be and it is impossible to know the hows and the whys behind a prevailing harmony. The obvious danger is that you may refuse to make any effort in such conditions. Living as a couple must feel natural and you do not need to objectively build the foundations of a relationship. You are an idealist and you dream of an affective paradise, which may be too good to be true...

★★★★★ Venus inconjunction Pluto, orb 2° 38'

Nothing is simple in love. You consider your love life with a distant and remote glance. You do not believe in obvious, transparent relationships. Love is a complex issue and its machinery is beyond you. To avoid delusions and indifference, the rules must be changed. Your feelings are alternately cruel and passionate, distant and burning, often paradoxical. Are you the executioner or the victim? Power struggles are omnipresent in your affective life. You seem unable to take life as it comes and to love without asking yourself questions, without doubting. You often love those who are indifferent towards you, while you despise those who love you. It is important that you change your attitude if you want a

smooth and happy life. Rely on your forte: an indisputable lucidity that makes it impossible to delude your heart.

The Way You Take Action and Your Sexuality

It is difficult to find a more sensitive person than you, Alanis Morissette. You are able to contain your aggressiveness and it may be hard for you to exteriorize your feelings. You are usually passive and you draw your strength from inertia and resistance more than from the will to take action. Your mood is changing, you show little of yourself and you may surprise with your inopportune reactions that come late, when people have forgotten what it was all about. The only area where you express yourself with zeal and where your actions are successful is the area of home or, more symbolically, in the fields where you can achieve security. In other words, you need to feel comfortable before you can move, in concrete matters as well as in sexuality.

As strange as it may seem, Alanis Morissette, to you, action means behind the scenes and secrecy. The form of your action is important, as compared to what you actually do. You want no publicity on what you are doing and the reasons of your struggle!

You loathe being seen when you are on the move. You have the uncomfortable feeling that you are spied upon, that people may judge you. Or you are afraid to displease others. You enjoy taking action in the dark. You may be dedicated to charitable causes, and it is natural to you that you must focus your energy on them.

Humanitarian works, secret settings (hospitals, prisons, convents, etc.), remote and forgotten places (charity missions operating abroad, etc.) constitute privileged settings for the expression of your capacity for action (and for devotion), that is as strong as anybody else's, although it is marked by these quite peculiar characteristics.

Struggles may crop up in the guise of hidden pitfalls and enemies: you may have to fight in some secret ways, in order to face these dark events. It is an art which you master quickly and which enables you to triumph over adversity, more often than not.

★★★★★ Mars square Uranus, orb -1° 24'

This Uranus-Mars dissonance indicates frequent commotions. Your actions may be foolhardy and thoughtless. You may not control your temper and you let impulsiveness take over logics. This brings about drastic, whimsical or untimely decisions. There is no monotony in your life: thunders and tyrannical behaviour are on the agenda! Your fighting spirit certainly allows you to cope with life hardships. Nevertheless, beware of damages. As one wants to act as a hero, one can make mistakes. Because forces are overestimated or because inflexibility forbids compromise solutions. Therefore, it is important to balance your decisions and to avoid solutions that are as final as inappropriate.

★★★★★ Sun semi-square Mars, orb -0° 14'

This aspect shows impulsiveness, a fiery character and sensitivity all on edge. Excess of strength and of energy may jeopardize your life balance and cause impulsive and unconsidered actions. Your ideals are not always in line with your deeds. You are certainly reactive and you stand for yourself heroically. But your untimely fits of anger may worsen existing tensions and bring about uncontrollable situations. Facts

contradict your aspirations. When this configuration is properly reined in, it becomes an inexhaustible source of passion and energy.

★★★★★ Mars sesqui-quadrate Neptune, orb $-2^{\circ} 16'$

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

Your Intellect and Your Communication Style

Your intelligence is sensitive and delicate, with good comprehension abilities, Alanis Morissette, which endows you with a strong intuition and receptivity. To you, impressions and feelings prevail over facts and your excellent selective memory is not cluttered with useless elements. Although you are not aware, your fertile imagination may lead you to change your daily reality so that it matches your dreams better. If you are creative, you may make use of your imagination in literary pursuits where you can freely invent beautiful stories taking place in the past. Your passion for History is such that you may immerse yourself into it with too much nostalgia and therefore, you may miss opportunities the present offers to design projects and to think of the future.

You are intelligent and brilliant as soon as you have identified a goal and you have partners to work with you. You are less inclined to undertake strictly personal projects, Alanis Morissette. Your mind and your curiosity include friends and collective projects. You believe that your particularly well-developed sociability is an asset for them.

Collective works, customers and public domain appeal to you, and you feel that you can achieve in those fields. Your negotiating skills are paradoxically stronger when you face the anonymity of a group rather than in intimate individual exchanges, may be only because you have no real interest in your own projects, for several reasons.

★★★★★ Mercury conjunction Saturn, orb $0^{\circ} 39'$

Your vision of the world is rigorous and objective. An exemplary logic characterizes your mental attitude and your human relations. Your discerning faculties overlook no detail. You need to know the whys of your life and to explore the backstage of your surrounding world. The deepness of your relations dismisses superficial connections. It may be the reason why your interest is aroused when you are in touch with elements that are alien to your mode of functioning. You have the soul of a researcher, regardless of the form that your investigations may take. It may be an exacerbated curiosity for human topics or a will to understand relationship stakes. It may also be a hobby or a course of study that introduces you to a riddle. It does not matter! Life is a perpetual quest for the unknown. Your critical mind is highly developed and you take commonplaces for granted only after thorough consideration.

★★★★★ Mercury square Pluto, orb 0° 08'

Forget simplicity! You definitely enjoy acting behind the scenes and dealing with what is going on underneath. You play games and you operate in the dark. You leave the front of the stage to others and to the gullible ones. You don't display much sociability. When you are nice, it is because you are looking for flaws. This Mercury-Pluto dissonance mingles unconscious fantasies with reality. When it is kept under control, this aspect becomes an unparalleled source of discernment. To that aim, you must overcome your strong tendency for provocations. It is certainly amusing to play destabilizing games but it may also be dangerous. Keep this treatment for your opponents only.

★★★★★ Moon trine Mercury, orb -2° 3'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 11th House

You definitely are a good soul, Alanis Morissette: above all, you like to assert yourself by means of friendship, the true one, that is deep and warm; nothing is more rewarding than to be accepted and loved by your friends and by the persons you select.

Collective activities are the source of great satisfactions and it is through contacts and regular acquaintance with your colleagues that you are able to give of your best: your sincere desire to forge strong friendship bonds while implementing your activities, (not necessarily of a professional nature), contributes to positively increase your charisma and even, to make you stand out prominently as a person at the same time benevolent and unselfish.

People are not reluctant to offer their valuable help. They are not fearful because they feel that you are a person who is not looking for any kind of power or domination but who only wants to earn their sympathy without reservation.

Supports and protections from higher-ups are repeatedly granted to you, and not in parsimonious ways. They help you to successfully implement your different projects, preferably within an affectionate and warm entourage; indeed, isolation does not suit you because you would feel that your efforts serve no purpose; your need for recognition and your thirst for warmth are very strong and you cannot spend too much time striving in solitude.

You are idealistic and very sociable. Teamwork, participation in humanitarian and artistic projects or works of public interest, are perfectly suitable.

Rivalries and squabbles may affect friendly relationships that you thought to be so steady and strong: it

is obvious that it is impossible to make everyone happy. In such occasions, don't get into a terrible state about it. Your nature is so loving, simple and pleasant that you will quickly find elsewhere more loyal and reliable friends who will make you forget your few disappointments.

The ruler of your chart is in the 11th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your Ascendant is in the same House as your Sun. This specific feature of your chart strengthens the Sun's characteristics previously delineated.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Uranus opposite Midheaven, orb -0° 35'

Uranus is in opposition to your Midheaven, Alanis Morissette. Strictly speaking, this is not a dissonance since it is at the same time a conjunction with your Imum Coeli which symbolises your roots, your family, the home where you were born, as well as the home you set up. Since he symbolises deep changes, Uranus brings about repeated and continuous changes in your private life. It does not mean changing partner, but home moving, new human environment, removals, dwelling in very different places, and experiencing unexpected lifestyles. These areas are the ones most affected by changes, which is not the case for the professional plane, although in some circumstances, both are linked of course.

★★★★★ Sun opposite Neptune, orb -2° 3'

If this Sun-Neptune dissonance is not well integrated, it may bring about confusions and errors of judgment. It is the signature for Don Quixote in search of chimera, pursuing impossible dreams. Your intuitions may lead to an incorrect estimation of facts. Bohemian life is certainly pleasant. But it is often necessary to remain realistic, lest to be exposed to delusions. Carelessness and letting-go is not suitable. In order to properly integrate this aspect, you must control the possible drift of a wandering and fabulous sensitivity. This aspect favours poetic and romantic inspiration. But you must not let it rule your concrete actions. It is important to allow your intuitive capacities to be fully expressed while keeping a lucid mind, simultaneously.

★★★★★ Mars square Midheaven, orb 1° 59'

Because Mars is in dissonance with your Midheaven, in some circumstances, you may feel misunderstood, Alanis Morissette. In society, you may even feel hostility towards you as you try to climb up the steps of your professional life, or when you strive to reach a higher social status. Your efforts may be resented. You must be twice as careful as you usually are and tone down your behaviour in order not to be rude to other people, even though from your viewpoint, and it is actually most often the case, it only has to do with misunderstandings or some eagerness on your part.

★★★★★ Sun square Jupiter, orb -5° 09'

This Sun-Jupiter aspect indicates a strong desire for social and professional integration but it may cause a few difficulties of expression in that regard, owing to excesses or immoderation. There may be discrepancies between your objectives and the means implemented to achieve them. The danger of this configuration may be that you forsake an essential part of yourself for some ambitious but out of proportion plan. Too many efforts of adaptation and an excess of opportunism may make you miss the target. It is important that you remain true to your values and that you do not seek, at any cost, to adjust your attitudes to the situation. However, do not fall into the opposite trap: a need for the absolute that forbids compromises, although they are so necessary. You must reconcile idealism with the demands of the moment, the respect for principles with the sense of timeliness. When this configuration is not well integrated, things get out of hand. Extravagances are glaring. They may translate into an exuberant, overly demonstrative disposition. Personal ambition turns into pride, and joviality becomes immoderation. Outbursts of anger are frequent. However, in a reserved and cautious context, this configuration reveals its positive nature.

★★★★★ Venus conjunction Midheaven, orb 8'

With Venus in conjunction with your Midheaven, Alanis Morissette, it is all your natural warmth, or just your natural way to express your feelings, that is well received in society. This usually enables you to shine with happiness in your professional circles, or to accomplish your social destiny with reliable assets. It may be that a female, or the fair sex in general, favours your career progression and helps you because your personality arouses spontaneous sympathy. The professions you thrive in are of a Venusian nature, meaning that you deal with the world of beauty, the arts, pleasures, fashion, aestheticism...

★★★★★ Neptune sesqui-quadrate Midheaven, orb 0° 16'

Owing to this dissonance between Neptune and your Midheaven, Alanis Morissette, you may have difficulties in knowing what you want regarding your professional orientation. Your imagination and your flexibility cause contradictory feelings and sometimes result in indecisiveness. You are doubtful about the path your social or professional destiny should follow. There is definitely nothing serious to worry about. It is just that Neptune represents a heavy emotional burden which you must firmly deal with, so as not to delay your trek towards success!

★★★★★ Moon opposite Midheaven, orb -7° 59'

The Moon in opposition to your MC does not create a real dissonance in your natal chart, Alanis Morissette. Actually, the Moon is also in conjunction with your Imum Coeli which represents your roots, your family, and your home. In fact, you take pleasure in letting yourself go when you are with your entourage, in the privacy of your home, rather than in society, where you keep your guard on, for fear of criticisms. Thus, your emotions are not at the service of your career, but rather exclusively dedicated to your family circle.

★★★★★ Sun trine Pluto, orb -6° 34'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

★★★★★ Sun sesqui-quadrate Uranus, orb -1° 38'

This Sun-Uranus dissonance indicates a dazzling will to be the centre of attention and to proclaim your specificity, by all means. This aspect belongs to the rebel and the revolutionary restive to all forms of authority and of model. To balance this interpretation, the strong need for autonomy bordering on frenzied individualism must be highlighted. You allow nothing or no one to hinder your chosen line of conduct. Obviously, your attitudes are inflexible. You prefer to continue to the bitter end, even when you are wrong, rather than to be more open to people's ideas. Tyrannical attitudes often turn against the perpetrator... However, this configuration is a powerful agent for creativity, provided your hothead and extremist nature is kept under control.

★★★★★ Saturn quintile Midheaven, orb -0° 49'

Thanks to this soft aspect between Saturn and your Midheaven, your long-term efforts and your perseverance are rewarded, and you gradually climb up the stairs of success. Time is your ally as far as your career and social destiny are concerned. Carry on the good work, and rest assured that your seriousness and your obstinacy are appreciated. They are instrumental in your success, especially during the second part of your life.

Your Assets and Your Part of Joviality

Alanis Morissette, your sensitivity, your emotions, and your artistic capacities, particularly regarding music and rhythm, are strongly increased with this position of the planet of Greater Fortune in this borderless sign. It endows you with an artistic and endearing side as well as with flexible and mobile ways to consider your relationships and your environment. Your dreamy state of mind and your sensitivity to other people's sufferings may prompt you to get involved with compassion in great humanitarian causes.

Alanis Morissette, the planet of Greater Fortune in this house is a heaven-sent present. It indicates inheritances, intense and fulfilling sexuality as well as a strong and secret intuition. You may be content! Your feelings also are magnified and deep. Undeniably, you are very lucky with this position of Jupiter in your chart.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Pisces increases your natural generosity and your dedication capacity. Your empathy is strong and you are inclined to offer your strength and your enthusiasm to the most deprived people and to give unlimited assistance to others. Your imagination is powerful and your feelings may flare up easily: with your sensitivity on the alert and your unbridled affectivity, you belong to the category of people who intuitively detect other people's sufferings and most valuable qualities of the heart, as if you were a human radar.

Your Serious Side

Your emotions are controlled and your imagination is analyzed through a magnifying glass. You gain in lucidity what you lose in emotionalism. You may be interested in your origins, in your roots and in real estate matters. You become thrifty as time goes by.

As soon as you become a member of a community, and when you are surrounded with people or with friends, you instinctively protect yourself, and you even hide, Alanis Morissette. There is nothing you can do against this. In public, you do not show your real face, but in friendship, you are loyal and reliable.

You prefer quality to quantity, and your friends have every reason to be happy that they won your confidence because they know that they can rely on you under all circumstances. Your friends are usually much older and more seasoned than you.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Cancer decreases your emotionalism. You are less vulnerable as you build a protective carapace, with all the good and the bad consequences that may be implied. You are provident and wise in the family and real estate areas, may be a bit too much.

A Few Special Points

Your Uniqueness and Your Utopias

As a general rule, at the end of your childhood, you quickly leave your parents' home because your thirst for independence is incompatible with a quiet life with your parents; in other cases, the atmosphere in your family is quite extravagant, even chaotic, and it is difficult for you to become stabilized, to feel secure, even though you need it for your balance. You are craving for it and this is what prompts you to leave your roots, sooner or later.

You are prone to unexpected home moves. Paradoxically enough, it seems that, as soon as you achieve stability, something makes you itch. You may be too sensitive, and when tense situations emerge, you feel an irresistible need for change. The best way to handle these problems may be that you, yourself, organize your instability at home, for instance through extensive outings or trips. In any case, you should manage to create the impression that you are not in the same place for too long.

The stages of your life unfold without continuity as if there was a rupture between each successive environment created as time goes by. The past disappears quite abruptly and allows you to grow faster. It is up to you to find some stability or some security elsewhere!

Your Inspiration and Your Illusions

This pleasant combination may magnify your love affairs and your creativity and give them a romantic and whimsical side. If you are an artist, you often feel inspired and carried away by love and emotional impulses.

This area of your life is intense and, as a consequence, you are more vulnerable than other people. It is up to you to sort out among your positive, creative impressions on the one hand, and your out-of-proportion reactions caused by frustrating events, on the other hand.

You must know that you are exposed to love delusions. However, you are also entitled to the best part of love, when all is well.

In the fields of entertainment and relations with children, you are quite easily influenced and you follow your intuition more than your rational mind; rather emotion all on edge than reason...

Your Passion and Your Authority

Your mind is particularly clear-sighted and, if you are so inclined, you can show creativity in literature because your vision is extremely deep and intuitive.

Your clear-sightedness may be a source of troubles within your entourage or your siblings. Indeed, your penetrating mind may prompt you to say things that you should never utter. You may also show a form of authority that lacks diplomacy when you deal with others.

Your short trips may be surrounded with mystery. In a few rare instances, they may bring about turmoil or on the contrary, happy disruptions.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60

and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Alanis Morissette, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Alanis Morissette, the predominance of planets in the Southern hemisphere prompts you to take action, to draw attention on yourself, and to make your actions and what you have in mind visible to everyone. Sometimes, without giving a single thought to, and to the detriment of, a richer inner life and a deeper and wiser reflection. Action and communication are inevitable in your opinion and you tend to think that the only thing that matters is what is seen! This is not always true, and it is up to you to progress through the development of inner qualities such as meditation, solitude and imagination so as to become stronger.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Alanis Morissette, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, Alanis Morissette, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Alanis Morissette: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Alanis

Morissette: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive woman. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The first decanate, which means the part between 0° and 10° of any zodiacal sign, prevails in your natal chart, Alanis Morissette: this decanate is traditionally linked to vitality and physical constitution, and may indicate that you efficiently express your concrete energy on the material and sensual planes.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

You make friends easily and you earn your entourage's confidence and esteem. Very early, you develop an acute sense of fraternal relations, generously receiving and giving. This spirit of mutual aid may lead to a happy-go-lucky attitude that may border on carelessness... As you rely too heavily on friendship, there may be a danger to undergo a few setbacks: idealism and spontaneous dedication may meet with ungrateful reactions or the indifference of the very persons whom you try to help. Your destiny is probably marked with a quest of individual achievement. It is of utmost importance that you create, that you beget a fruit, a work or a child. Little by little, you become independent, without selfishness, but with the strength of those who know that they can only rely on themselves. Do not hesitate to live your dreams to the end and to engender, over and over again. Creation, whatever its form, is the path to your fulfilment. You slowly discover the pleasure to design as you please, without outside interference. It is important that you find an area for your personal expression and, as the poet says, "before the eyes, constantly, night and day, either a great labour or a great love".

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You have the feeling that you are different from your entourage because you are in charge of both a special mission, and an extraordinary destiny. This configuration may indicate an immoderate pride (when the Black Moon is not well integrated enough). However, when she is well integrated (and she will be, as time goes by), the Black Moon forges an exceptional destiny that implies sacrifices, asceticism and solitude to some extent. The danger is to show too strong an intransigence and to be unable to forgive your entourage's weaknesses as well as your own. But it is also where your strength is found: an innate sense of duty, regardless of the price to be paid for a slow ascension.

You are a person thirsting for precision and perfection. Your rebellions are frequent: any mechanism that is not running perfectly smoothly is dismissed. Any person whose attitudes seem inconsistent becomes the object of your refusal. Better than anyone else, you can ridicule social stereotyped models, too conventional and ineffective. It is likely that you often succeed in giving a logical dimension to the craziest situations.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 5th house: to you, success means to create, to produce a fruit or a work, or to give birth to a child. Being in this world does not content you; you need "to do", to design, to live hand-to-hand with your surroundings. You are sensitive to power and you want to arouse esteem and admiration in your entourage.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood

and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
