Austin Butler's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Austin Butler, the nocturnal North-western quadrant, consisting of the 4th, 5th and 6th houses, prevails in your chart: this sector favours creativity, conception and some sort of specialization or training, with helpfulness and relations as strong components. You need others' cooperation in order to work properly, although you are not very expansive: creating, innovating and thinking are what matter most to you because this self-expression enriches you and totally satisfies you.

Your Dominant Modes and Elements

Austin Butler, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Like the majority of Earth signs, Austin Butler, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Austin Butler, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

Your natal chart shows a lack of the Water element, with only 7.12% instead of the average 25%. Whether you are aware of it or not, affective values bring about problems, for you or your close friends. In general, a lack of Water does not necessarily mean that you are unable to love as much as others do. However, you may find it difficult to express the deepness of your heart and of your feelings. In the best cases, you come to terms with it, you adjust, you manage to show more affection or, why not, you pretend to be really affected! In the worst cases, you get into the terrible habit of repressing these essential values and you tend to forget that they are the basis of the richest and strongest bonds between human beings.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Austin Butler, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Austin Butler, here is the evaluation diagramme for your planets:

The three planets that are most highlighted in your chart are Saturn, the Sun and Pluto.

Saturn is part of your dominant planets: among the facets of your character, you have a grave and serious side, wise and somewhat severe, since your concentration can be powerful, to the detriment of carelessness and friendliness.

You often look austere, but it is only an appearance, a kind of modesty or reserve; however, it is true that the Saturnian, who is fond of time, effort, asceticism, rigour and sobriety, may have popularity issues. Nevertheless, honesty and straightforwardness, reliability, as well as slow, wise and deep mental process, although not very popular and visible qualities, eventually become noticed and appreciated. Saturnians' second part of life is usually easier and more fulfilling.

Like the Jupiterian, your Saturnian facet prompts you to seek the essential, security, and longevity. However, the difference with the former is that you will never give priority to wealth or "the bigger, the better" philosophy for the sake of power. Saturn, like Jupiter, symbolizes social integration, and it is usually considered positive to have a harmonic Jupiter and Saturn in one's chart because of their social adaptation capacities.

Your vulnerability lies in your too serious and austere side, which may lead to unwanted loneliness and affective frustration. This generally does not last because Saturnians often hide deep down a golden heart that ends up revealing itself...

One of the dominant planets in your natal chart is the Sun. He symbolizes will, magnetism, sense of honour and dignity. You are a Solar being, and you often display charismatic and leadership qualities. Your warmth and your persuasive power lead you far away from pettiness. You enjoy thinking big and, consequently, you move forward according to what you decide.

Your Solarian weakness may be related to the sin of pride or to excessive authority. The frontier between pride and vanity is tenuous: be careful not to overstep it and to keep the nobleness of heart that is part of your charm.

With Pluto as a dominant planet in your chart, you are a magnetic and mighty predator, like the Scorpio

sign ruled by this planet, who needs to exert pressure on others in order to "test" them. You are always ready to evolve, to risk destruction for reconstruction - including your own - to live more intensely whilst imposing your secret authority on things and on people you encounter.

You may come across as wicked, cruel or too authoritarian, but actually you only follow your instinct, you sound people out, and you like to exert your domination simply because your vital energy is too powerful to remain inside. You are inclined to be passionate, with hidden motivations. You are sometimes misunderstood but one of your great Plutonian assets is to go successfully through each life ordeal with ever growing strength.

Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Virgo, Leo and Aquarius. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Virgo, associated with perfectionism, numbers and reason, is among your dominant signs: you inherit its sense of responsibility and tidiness, a clear mind, an unfailing logic, as well as a need to be useful and to fulfil your task to the best of your abilities. Obviously, people may think that you are too modest or reserved, suspicious or pessimistic because of your exceedingly critical mind, but aren't logic and wisdom great qualities? Of course, they are. Moreover, you keep your feet on the ground, you never behave irrationally and you are helpful and hardworking - what more can you ask for?!

With Leo as a dominant sign, you naturally shine brightly. Your dignity, your sense of honour, and your generosity can almost turn you into a solar mythological hero, a knight or a lord from the ancient times. People may blame you for your selfishness, your pride or your somewhat loud authority, but if you are self-confident, kind-hearted and strong-willed, it surely makes up for your little flaws, as long as they remain moderate...

Aquarius is one of the most important signs in your natal chart: it endows your personality - at least one of its facets - with originality, to the point of eccentricity, in spite of a sometimes distant and humane

side. Likeable and impassive at the same time, you are a paradoxical man, very hard to define because the two planets Uranus and Saturn blend their qualities to create the so complicated and endearing sign that inspires your character. Saturn's seriousness and impassivity is added to Uranus' rebellion, talent, individualism, charisma, extravagance, and unpredictability! One of your main characteristics is that you never open up on a personal basis, but you tend to do so easily in public. You are actually quite strange. Sexy and charming in public, despite your nice and sociable character, you could frustrate many of your admirers in private because of your impossibility to show deep and warm affection, emotions, tears... But appearance and reality are two different things anyway - you are a kind of a genius, or you have at least a tremendous charm with this sign. You have many friends and an active social life. If you are detached in your love life - only in this aspect, since the rest of chart will confirm it or not - this is no big deal!

Houses 4, 9 and 7 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With an important 4th house in your chart, your private life, your intimacy, as well as your family and home, play a fundamental role. Your security and your family unit, the one you come from, but also the one you set up when you get married and start a family - or even as a bachelor living alone in your sweet home - are necessary for you to blossom. According to the Tradition, your father may play an important role in your life.

Your 9th house being one of your most tenanted house, or at least emphasized, travels and faraway places play a major role for you: travels may take place in a symbolic sense, namely mind speculations or conceptions about political matters, philosophy, religion or spirituality, or in the literal sense, such as real long distance travels by plane. It may also be that you spend a part of your life far from home, etc. You are driven by some kind of rebelliousness, which urges you to explore the Unknown; it may also be the call of the adventure. Besides, if the rest of your chart concurs, you may be considered as a real draught, often up hill and down dale, constantly on the lookout for exciting discoveries and new, enchanting horizons.

Your 7th house is one of your dominant houses: it symbolizes other people, marriages, associations,

contracts, and partnerships. Your personal achievement and maybe your problems - depending on the rest of your chart - are mainly influenced by your rapports with others, the area in which you tend to commit yourself a lot. You appreciate communication, and you give importance to others' opinions. Success requires the support of others, which seems obvious and natural to you. Your marriage generally contributes to your fulfilment.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Leo and your Ascendant is in Taurus

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

How tough you are! Fixed signs are believed to have a powerful and stubborn behaviour. Your Taurus Ascendant gives you a thoughtful and composed outward appearance which charms your entourage. Catching simplicity and cheerfulness prevail in your relationships. Indeed, as a spring sign, Taurus has a sanguine temperament beneath its calm facade, and its sensuality enables it to appreciate the delicious side of life. Your Leo Sun, which defines your true personality, shows up in familiar settings only, and people who know you well react differently to your ardour which they find either scaring or admirable. You are playful, obviously narcissist, and you enjoy being the centre of attention. However, you leave no stone unturned when it comes to helping vulnerable people. You marvellously blend Taurus' pragmatism with Leo's creativity! However, for your own good, you would be well-advised to remain flexible and to

adjust to people's needs because this may prove very profitable.

You were born with the Sun in Leo

Psychologically speaking, your nature is powerful and self-assured. You are a leader whose strength and nobleness naturally arouse your entourage's respect and adherence and your legitimacy is unquestioned. Your sense of commandment, the honour your person constantly exudes, your prestige and your charisma is a whole which puts you into the spotlight wherever you go.

As you are born under this sign, you are proud, determined, wilful, loyal, solemn, generous, ambitious, courageous, heroic, full of vitality, creative, confident, seductive, happy, daring, proud, majestic, honest, magnanimous, charismatic, responsible, noble, brilliant, radiant, dramatic, affectionate, full of humour, demonstrative, swaggering and self-confident. You can also be domineering, conceited, touchy, authoritarian, stubborn, intolerant, self-centered, irascible, violent, and nonchalant.

In love, Sir, you are very demanding. You are a powerful and loyal lover. Your partner must be the most beautiful and the most brilliant person and she must make you feel that she admires you. In such a case, your generosity has no limit and you give your love without reservation, with nobleness, liberalities and luxury. You set up a stable and brilliant home where children have the essential part.

The main danger is that you value trust to the extent that you grant it generously but too hastily: if you happen to find out that your trust is misplaced, the whole world around you crumbles and the relationship is forever damaged. In this regard, you are cut-and-dried and you feel so hurt and humiliated that you seldom can forgive.

Another similar danger comes from the fact that your expectations are very high and it is very unlikely that real life offers such unconditional and lasting love: for this reason, it is not unusual that you never marry, all the more so because your self-centered character is not prone to self-questioning...

Your Ascendant is in Taurus

Peace, joy of life and sensuality are essential to you: You have a simple and quiet nature. You easily find happiness because you are not competitive. In addition, your relaxed attitude and your common sense always take you to places where you are happy, even though you are not the number one, even though you do not move in haste. The important thing for you is to construct, with patience and persistence. These two qualities yield strong, steadfast, and sustainable efforts that can withstand any pitfalls.

You are gentle, with a slow thinking process, but once you have opted for an orientation, nothing, no one, can make you change your mind. You loathe changes in general, and once you have taken the few major unavoidable decisions in the course of your life, you are on track!

As you are born under this sign, you are loyal, steadfast, strong, patient, enduring, persistent, attached, sensual, realistic, constructive, tenacious, with a strong need for security. But you may also be stubborn, rigid, possessive, materialistic, static and slow.

In love, Sir, more often than not, your passions are strong. It may take you some time to be moved, but once your choice is made, it is a lasting one and you are particularly endearing and loyal. You are not interested in infidelity or in having numerous partners.

Your love emerges slowly but it grows in depth, like a root which solidifies with time. You are not too romantic because you are so practical and conventional... but your style and your sexiness compensate for your lack of idealism. You tend to associate the concept of marriage with that of lifestyle or of the benefits that come with it.

Your physical urges are pressing; you are sensual and pleasure takes an important place in your life. You appreciate partners who cook like a cordon-bleu and who may cause a few gastronomic excesses, but you readily accept them.

The ruler of your chart is in Virgo

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Austin Butler, is Venus. In the sign of Virgo, it turns you into a cautious and rational person, sometimes to the detriment of your feelings. You like to improve yourself, and you pay a great deal of attention to details. You respect the rules, and you appreciate well-done work. However, you may lack self-confidence or you may hesitate, perhaps because you hate to make mistakes, since you believe that truth is a major quality.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Austin Butler. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Taurus Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Sun square Ascendant, orb -0° 55'

There may be a contradiction between your will and your external appearance, Austin Butler, which slows down your natural spontaneity and in some circumstances, gives rise to doubts regarding your behaviour towards other people and the need to be true to your own beliefs. There is certainly nothing serious with this minor dissonance between the Sun and your Ascendant, only choices that are to be made, so as to remain in harmony with yourself.

★★★★☆ Jupiter square Ascendant, orb -1° 11'

A dissonance between Jupiter and the Ascendant is not too serious, Austin Butler. In some circumstances, it may cause your behaviour or your opinions to be a bit exaggerated when you are in society. Therefore, you may come across as too proud or excessive. It is up to you not to overdo, so as not to arouse your entourage's incomprehension. This excess may also translate into a marked taste for pleasures or good food...

★★★☆☆ Mars trine Ascendant, orb -4° 42'

Your vitality and your taste for action are obvious, Austin Butler. Thanks to Mars, your behaviour is often perceived as energetic, or at least, as action-oriented and enterprising. Your dynamism is one of your constant assets.

★★★★★ Mercury square Ascendant, orb 5° 35'

Sometimes, you find it hard to behave the way you wish, Austin Butler. It is because of Mercury who is not really in phase with your Ascendant. You happen to dislike the way you communicate, either because you exceedingly intellectualise everything, or on the contrary, because you do not make the effort to thoroughly analyse the situation when you are with other people.

★★★★★ Uranus sesqui-quadrant Ascendant, orb 0° 31'

This dissonance of Uranus with your Ascendant endows you with a rebellious, original, and unpredictable side, which gives your behaviour a note of dynamism and nonconformism. Of course, other people are sometimes deeply disconcerted by your attitude which does not fit classical or social standards, and you may suffer its consequences, meaning that you feel misunderstood, incorrectly perceived, and considered as a disturbing free electron, or an untrustworthy person. You must remain true to yourself, but at the same time, you must exercise some caution in order not to fall prey to unpleasant misunderstandings.

★★★★★ Saturn trine Ascendant, orb -6° 08'

Saturn is in soft aspect with your Ascendant, Austin Butler. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

★★★★★ Pluto opposite Ascendant, orb -8° 05'

Pluto is in opposition to your Ascendant, Austin Butler. At the same time, he is in conjunction with the opposite angle, the Descendant, or DS, which represents other people, associations, and unions. Therefore, this is not strictly speaking a dissonance, but rather Pluto's qualities expressed within your external contacts. Your lucidity and your strength work wonders, sometimes slightly too much, but they operate a natural selection in your relationships, and it is all for the best. It is true that your behaviour may seem a bit domineering and secretive. Nevertheless... isn't it what you finally wish for? If it is at all possible, you must try to display more softness, a value you know nothing about, but which can offer you a few assets, do not doubt it, not even for a second!

★★★★★ Venus square Ascendant, orb 6° 14'

In certain circumstances, Austin Butler, you tend to adopt an attitude that is not necessarily in line with your real emotions. This discrepancy between your behaviour and your feelings, caused by Venus, may disconcert the people you mix with. Have self-confidence, don't be too pushy or... withdrawn, and forget your fears. Then, people can have a better perception of your personality, and you can harvest the fruits of your efforts.

Your Sensitivity

Your nature is optimistic and emotional, Austin Butler, and you are caught up in two incompatible longings: you are fond of exoticism and independence of movement, but at the same time, you feel comfortable in a form of middle-class attitude and conformism; in general, it translates into a succession of moods, now quiet and well adapted to the situations you experience, now marked by an irresistible desire for change and revival. You have a good and naïve nature, with a lot of self-confidence. Your emotionalism prompts you to live intensely a variety of numerous emotional experiences, a bit scattered, but with all the stimulations you need to be a balanced person. Your pleasant and welcoming attitude wins you some degree of popularity, all the more so because, despite your thirst for adventures that may scare away some people, you adjust to your environment's customs so easily.

You are dependent on your relationships for a large part, Austin Butler, and generally, you can open up only with people you are close to. Contacts are very important for you, however, you tend to listen to the one who spoke last. In fact you are easily influenced.

You will certainly find your dream wife and you will develop a close and intense relationship with her.

You are moody and impressionable. Your relationships with your audience are always put on a pedestal and you have a tendency to constantly change your personal image according to the persons you are dealing with and the reactions you get from them.

★★★★★ Moon square Venus, orb 4° 49'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★★★★★ Moon sextile Saturn, orb -4° 55'

This harmonious Moon-Saturn aspect is an element of stability for your private life. Your daily life lives up to your demands, you are totally true to yourself and logical through your very intimate behaviour. You do not choose the easy way out: on the contrary, it is in difficult situations that you are at your best. It is very unlikely that you become destabilized by trifles. This aspect indicates stability and also perfectionism. You are longing for a private life respectful of your heart of hearts and your genuine desires. Your well being is at this price, and its quest remains perpetual. Despite your reserved private behaviour, your emotions run very deep. You have a strong need for protection and for security. Your aspirations lead you towards contemplation or studies, more than towards social futilities.

Your Affectivity

In your chart, the Sun is in Leo, and Venus, in Virgo. Leo is in love with love, anxious to shine and to be up to any promising situation. On the other hand, Virgo is more anxious to organize her realm than to expand her territory; she needs to control the elements at her disposal rather than to enlarge her sphere of activity. These contradictions are probably reflected in your affective behaviours: whereas your ambitions and your models bring about an offensive mind and you are absorbed in your intense thirst for domination, your desires and your natural tendencies are more balanced and reserved. Therefore, the image you project may conceal your true nature, which is sentimental, sensitive, modest and vulnerable. It is part of your charm but it is also your Achilles' heel: *quid pro quos* may come from the image you strive to give of yourself because, inevitably, it is distorted by your will to unreasonably show off. Your natural dignity (commendable as long as it is not exaggerate) is much to your credit, but it may also be the source of misunderstandings. Does the person who loves you know your affective aspirations? Mutual trust is one of the fundamental keys to your fulfilment. When passion and wisdom get along well, you become able to give of your best.

Austin Butler, inside yourself, feelings are strong and powerful. However, you never show them before weighing up and considering all the possible consequences of your words and your actions: fieriness and spontaneousness are toned down because you cannot help controlling yourself, probably due to your modesty, your discretion or your shyness; you are frightened because you are so concerned with other people's opinion that you see passion, or expressing your feelings too quickly, as sources of danger. However, you are helpful, simple, and you do not fuss around. Reason prevails in your love life but your heart may flare up when the context is well organized and everyday life is cautiously handled with good sense, tidiness and cleanliness. Your sensitivity prompts you to avoid excesses and outbursts and this is how you think that you can achieve happiness without risk.

Austin Butler, for a fulfilling sentimental life, you need a stable and securing family basis from where you can eventually look at the outside world and give free rein to your love agitations: even though you have had a loving and caring family environment during your childhood, and you now want the same secure and warm feeling to endure, at any cost, or if, on the contrary, fate had turned your childhood into a painful period with lots of emotional loneliness and you now want to obtain, at any cost, what you had been deprived of in the past, for the rest of your entire life, the harmony of your family structures will remain an absolute necessity for you, lest you feel unable to do your utmost. As a matter of rule, you also need security in the literal sense before you can be at your best and, as you start a serious relationship, one of your first preoccupations is to purchase or to beautify the necessarily cosy and opulent-looking nest for your new couple. You value interior decoration as much as security and you will spend lots of time hunting refined artistic works that will match your inner feelings: secrete, warm, reassuring but not extravagant.

★★★★★ Mercury conjunction Venus, orb 0° 39'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitize to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as

esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

★★★★★ Sun conjunction Venus, orb 7° 09'

This aspect gives a strong concern about the image you project. You pay a lot of attention to the impression you make and to the charm you exude. You need to know that you can rely on your seduction capacity and earn the liking of your entourage. What people think is important to you and you try to meet your close friends' expectations. You certainly want to please them, but above all, you need their attention. You are seeking pleasure, esteem and affection. But ideals and desires make up a whole: you can be at your best only with those who naturally attract you and for whom you have an esteem that is independent from facts. Your feelings are a response to your quest of the absolute: the persons you find likeable are adopted. Other people are rejected irrevocably! Your character is very affective and it constitutes an asset in many circumstances. Your capacity to seduce, to gain support and to earn esteem is above average. The only danger may be that you abide by the current fashion and trend more than by your own motivations and by what is essential, for the sake of appearances.

★★★★★ Venus conjunction Jupiter, orb 7° 25'

Charm and seduction are your assets. This harmonious Venus-Jupiter aspect favours your affective fulfilment and your sentimental well being. You earn your entourage's sympathy thanks to your conciliating sensitivity, your desire to please and your behaviour in society. In many circumstances, you arouse esteem and consideration – essential values to you. You like social whirls, life in society, the aesthetics and the arts. You often tend to look for the easy way out in your business and your affective relationships. You are known as a complacent person. However, your amorous commitments may be quite superficial. It is important that, without breaking the spell, you opt for a more genuine attitude, respectful of your essential desires. As we all know it, love cannot be bought. An indication of balance: because you are aware that compromises are necessary for a love affair to endure, better than anyone else, you know how to maintain harmony in love.

★★★★★ Venus inconjunction Saturn, orb -0° 05'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

★★★★★ Venus trine Uranus, orb 8° 14'

Your charm lies in the originality of your approach to love and in your uncompromising attitudes. Your motto? Freedom of love, whatever the price! Should your sentimental life become dull, you find a solution: you are romantic and you reinvent your couple's life, you give a new and unexpected momentum to your emotions. You create the kind sharpness that contributes to your exceptional affective life. You do not fear love at first sight or blazing passions. On the affective plane, you know where you are heading for, whom you love ... or love not. There is an indisputable intransigence. The heart impulses are irrevocable and implacable. You dream of a sentimental life that fulfils your

aspirations and you use all possible means to achieve your ideal. Even though you may have to make the necessary sacrifices.

The Way You Take Action and Your Sexuality

Austin Butler, you skilfully make use of your energy and you are like the arrow that reaches its target with great precision: with piercing eye and sharp mind, you take action meticulously and efficiently. Like the surgeon with his scalpel, you know exactly what you want and you belong to the category of specialists, not the generalists. Critical, pernickety, extremely organized, you want to foresee and to analyze. You prefer to master your business too well rather than not enough, even if you must put a huge, sustained, long lasting effort into it. Sexually, you remain fanatical about cleanliness. You may be prone to fantasies such as fetishism. Your love life is fine if you avoid the unforeseen events that you loathe.

Creativity and leisure are the best outlets for your capacity of action, Austin Butler. A conquest must be exempt of constraint, otherwise you cannot open up totally and unreservedly. Your energy expresses itself best in the fields you choose yourself, such as outings, personal projects, festivals, love affairs (Mars' conquering spirit...), sports, games, etc.

The Tradition also mentions children, and it is very likely that their upbringing is stern. Mars is never soft. He is hot and dry, and his efficiency in several areas of life is inevitably far from tenderness. You may be a conqueror in creativity, love and leisure, but please, be a doting father when this responsibility falls to you.

★★★★★ Mars sextile Pluto, orb -3° 23'

You have a very personal way of taking action and of experiencing confrontations and struggles. The laws of the world are subtle, often with complex and hidden mechanisms. For these reasons, you prefer to act behind the scenes rather than openly. You manage your daily life in a distant and subtle fashion while you try to understand the logic underlying observed facts. You may also provoke events although you act as if you were not concerned. Your interventions will be as efficient as they are discreet. You may secretly transform your life and you live through the inexpressible motivations that connect you with the invisible realm. Things, which cannot be formulated, must be experimented and felt. You test experiences that your entourage find uninteresting and meaningless.

★★★★★ Mars trine Neptune, orb -6° 41'

This harmonious Mars-Neptune aspect is a signature for the missionary or the inspired activist. You are guided by an irresistible and implacable ideal. Exaltation may border on sacrifice for the sake of the noble or rebellious causes that inspire your struggles and your actions. Far from intellectual speculations, you need to live through your passions, to take action and to let yourself be carried away by a mission, an ideal or sometimes, an illusion. Indeed, you may be a Don Quixote fighting windmills, dedicating all your energy to an indefensible or a fanciful cause. More often than not, your commitments are courageous, even heroic. And the faith you display turns perilous enterprises into feasible projects. You can successfully implement actions that are considered doomed to failure by others.

Your Intellect and Your Communication Style

Your capacities for logic and analysis are very good, Austin Butler, and you evaluate each and every aspect of a given situation in objective and critical ways. You are industrious, methodical, with a lot of nervous energy, you pay attention to details and you may spend lots of time in intellectual and painstaking works. Although you are articulate, you do not like to be in the forefront and you prefer to work in team rather than to take initiatives: you feel less anxious when you know what is exactly expected from you and what you need to do. You tackle problems with rationalism and you distrust imagination and intuition. You love letters as much as you love figures. Your caustic humour may destabilize your entourage who may prefer that you were less demanding and more demonstrative. Please bear in mind that not everything can be kept under control...

It is usually in the private sphere that you can communicate and think for your best interests, Austin Butler. Your family is very important to you, and your intellectual interests incline you towards real estate matters, asset management, family business, etc.

You may also work at home, and in any case, you are generally more outgoing when you are in a safe and private environment. When you are outside, you come across as unobtrusive, either because you don't pay much attention to events that are not directly related to you, or because you are just shy and on the defensive when it comes to worldly things or public domain.

★★★★★ Sun conjunction Mercury, orb 6° 3'

You know how to play with your image, how to give multiple representations of yourself. A precious asset: you are sensitive to other people's opinion and you adapt yourself to the audience. Of course, there is a "show" side in your manner that may prevent perfect cohesion. But that's the other side of the coin, for an extraordinary capacity to discover. This aspect translates into an acute sense of observation, an intense desire to learn and to bring everything to light. You strive to be informed in many circumstances, to understand the machinery of the world surrounding you, particularly regarding all human topics. And you will change according to that information and the knowledge gained. You have the chameleon's adaptation powers. And its vulnerability, as well.

★★★★★ Mercury conjunction Jupiter, orb 6° 46'

You display strong abilities for adaptation, social insertion and various learning capacities. You are credited with an acute sense of relations, probably because you can speak other people's language. You easily assimilate the most varied settings and your qualities are acknowledged. Your attitude and the words you use have the power to seduce and to convince your entourage. Diplomacy is an asset in your game. You are fit for negotiation and you seek compromise solutions. The only danger may be that sometimes, you too readily accept agreements that turn out to be less positive than foreseen, after a while. This is the other side of the coin for your exceptional flexibility and your unquestionable tact.

★★★☆☆ Moon square Mercury, orb 5° 28'

The Moon suggests relaxation, whereas Mercury implies a discoverer's mind. They both make sense and each one requires special attention, as they are sometimes upsetting. This Moon-Mercury aspect is likely to bring about nervousness or instability. Nervousness stems from the multiplication of the spots of interest and the perpetual restlessness of your mind, which prevents relaxation and well being from settling in. The outside world constantly appeals to your attention and you shift from one issue to another, to the detriment of your tranquillity. Therefore, it is important that you find the balance between two antinomial attitudes: letting-go versus curiosity, tranquillity versus communication. The new

persons you meet with are not necessarily trustworthy and there is no certainty that the contact is harmonious. It is important that you use both influences alternately.

★★★★★ Mercury inconjunction Saturn, orb 0° 33'

This Mercury-Saturn dissonance does not allow for simple and spontaneous relations. Your vision of the world is complex. You are sensitive to the fragileness of human relations and you are doubtful of transparent situations. You need to look for hypothetical calculations and you suspect that unclear reasons are underlying beneath dialogues and encounters. Your sociability is limited. You are a loner because you dread relationships and you trust very few people among your close friends. You ask yourself more questions than you can find answers! Therefore, you are on the look out, troubled by the unknown. Everything is subjected to your questionings. It seems difficult to find certainties and to be satisfied with commonplaces that cannot soothe your doubting mind. The forte of this aspect is that it brings about undisputable capacities for discernment. Although your lucidity may hinder your relations, it also grants a lasting protection against gullibility. By nature, you belong to the category of the sceptics!

★★★★★ Mercury sesqui-quadrate Neptune, orb -1° 59'

With this Mercury-Neptune dissonance, relations may be distorted by the mirages of sensitivity. You have to make an effort to keep your objectivity. If this aspect is not well integrated, it may harm your good evaluation of human stakes. Your intimate beliefs may limit the dialogue, as if a very specific sensitivity prevented true communication. It may be difficult to find the right wording to express fragile and ineffable experiences. Imagination in power is not easy to share and the poetry of your speeches may be beyond your audience's understanding!

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 4th House

Unless salient factors indicate otherwise, Austin Butler, your nature is not very extroverted and your tendency is to keep to yourself emotions that may run very deep. Your will prompts you to create some sort of security, or cocoon, around you.

You are deeply attached to your family and to your initial home. You need this cosy and warm atmosphere, your parents' love and your family security, and later you reproduce them in your adult's home. Such strong bonds with your family and your home benefit your self-assertion as they combine professional efforts with presence at home. Working at home is particularly suitable, as are, indirectly, professions related to genealogy or even more, to real estate, because you are comfortable with the security aspects of the places you visit.

Your father often plays a major role, possibly an excessive one, with the danger that he may smother your desire for freedom and autonomy and contribute to aggravate your already strong natural introversion.

You are what is called belated and it is mainly during the second part of your life that you can concretely and efficiently exercise your will. Your assets lie in your determination to build a stable and comfortable home. However, family conflicts may exist and you may quarrel with your father over authority matters or over your projects; later, you may even undergo this sort of troubles in your own home if you are not flexible enough.

The ruler of your chart is in the 4th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your Ascendant is in the same House as your Sun. This specific feature of your chart strengthens the Sun's characteristics previously delineated.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Sun conjunction Jupiter, orb 0° 15'

This harmonious Sun-Jupiter aspect indicates an optimistic background that usually wins the entourage's adherence. It also suggests ambition and generosity and favours social integration and success. The desire to earn general consideration prompts you to display energy, joviality and benevolence. However, opportunism may be the other side of the coin. As you strive to win everyone's esteem, you may fall into disrepute. It is important that you remain clear-sighted so as to persistently pursue your long-term aims without believing that you should always « grab each and every opportunity ». However, this aspect remains an element of success because it allows you to adjust your objectives to the context, to whatever the situation offers or, on the contrary, to force your way through events and to achieve your ideals.

★★★★☆ Moon sextile Midheaven, orb 0° 41'

Your sensitivity and your emotions are in line with your goal and your ambitions, Austin Butler. You do not need to curb your temper lest other people have a wrong perception of you. Indeed, by being your true self, very simply, your social ascent will unfold naturally.

★★★★☆ Saturn conjunction Midheaven, orb 5° 37'

Saturn, the planet of perseverance, seriousness, time, and responsibilities, is in conjunction with your Midheaven, Austin Butler. It often indicates a strong potential for professional success - or bright destiny in general - even though with Saturn, nothing is easy or simple. If you are not careful, and if the situation does not fit what you wish for, reversals may occur quickly. Astrologers have observed that with this configuration, you can successfully launch an activity which matches your character, and if possible, which also corresponds to Saturn's principles, such as for instance politics, administration, sciences, agriculture. By extension, it includes all occupations requiring intense and sustained efforts (Saturn being the master of time), even though the said occupation is not too "Saturnian". Commit yourself for a long stretch of time, and with obstinacy, you can harvest the fruits of your hard work.

★★★☆☆ Sun sesqui-quadrate Uranus, orb 0° 24'

This Sun-Uranus dissonance indicates a dazzling will to be the centre of attention and to proclaim your specificity, by all means. This aspect belongs to the rebel and the revolutionary restive to all forms of authority and of model. To balance this interpretation, the strong need for autonomy bordering on frenzied individualism must be highlighted. You allow nothing or no one to hinder your chosen line of conduct. Obviously, your attitudes are inflexible. You prefer to continue to the bitter end, even when you are wrong, rather than to be more open to people's ideas. Tyrannical attitudes often turn against the

perpetrator... However, this configuration is a powerful agent for creativity, provided your hothead and extremist nature is kept under control.

★★★★★ Mars sesqui-square Midheaven, orb 1° 28'

Because Mars is in dissonance with your Midheaven, in some circumstances, you may feel misunderstood, Austin Butler. In society, you may even feel hostility towards you as you try to climb up the steps of your professional life, or when you strive to reach a higher social status. Your efforts may be resented. You must be twice as careful as you usually are and tone down your behaviour in order not to be rude to other people, even though from your viewpoint, and it is actually most often the case, it only has to do with misunderstandings or some eagerness on your part.

★★★★★ Sun square Pluto, orb -7° 1'

You are dealing with both sides of the coin. People are mistaken when they think that they know you well, because the image you project does not necessarily depict what you really are. You may look like any given model, whereas you actually consider social values to be empty and childish. Deep down, you are an anti-establishment person and you do not belong to the world and its laws. Or, on the contrary, you may project a more marginalized image and make it a point of honour to literally stick to your aspirations' ethics. You do not know who you are really, and where you stand. You may choose some sort of marginality, the adherence to another realm and a different scale of values. Unless you choose a life that apparently lives up to the expectations of others. In that case, you preserve a corner for your private secrets, with no norms, no fashion concerns, relationships off the beaten tracks, passions very removed from conventions. Your attitudes may seem paradoxical as you shift from commitment to refusal and from involvement to withdrawal.

Your Assets and Your Part of Joviality

Your charisma, your natural authority, and your generosity are favoured with this position, Austin Butler. The devil takes pettiness: you think big and generously. You have a natural propensity to look at things pleasantly, although it often means that you put yourself at the forefront. Children appreciate you, and people in general are sensitive to your charm. Even if the rest of your chart indicates introversion, this position highlights the warmth of your personality. So much to your credit! If you are extroverted, you must beware of the danger of vanity.

Oh! The family! It is of utmost importance to you, Austin Butler, and you are happy there. Besides, the planet of Greater Fortune here gives you all the assets you need to successfully build a harmonious, secure, and comfortable home. Your private life is favoured. You feel naturally attracted to matters dealing with soil, stones, and real estate.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Leo gives you a strong inclination for luxury, arts, parties and shows: your nature is fond of

leisure, preferably in noble, proud, even dramatic ways. You feel comfortable in the field of entertainment. You love children, laughters and splendour... Your creativity is often remarkable.

Your Serious Side

Solemnity and concentration are at the service of your projects and your altruistic ideals. To the detriment of your own individuality, you become demanding with time, and you learn to better define the human values that are really important to you. Struggling in order to better assert your individual qualities can be highly profitable.

Despite what you may say, Austin Butler, you perceive all things foreign or remote as worrisome, and during the first part of your life, you do not travel, or you do not enjoy travelling. Your sober, sometimes conformist concepts of things and persons can hardly reconcile with the spirit of adventure, or with amazing and unknown events linked to foreign matters, both literally and figuratively.

With time, you become more and more interested in what you do not know and you often use your natural rigour and seriousness to gain higher knowledge in the fields of moral, philosophy, religion, or politics. During the second part of your life, your reluctance for long-distance trips may turn into a thirst for discoveries and an unbridled freedom to bite, at long last, into the fruit that used to seem so dreadful to you.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Aquarius endows you with the capacity to deliver in collective areas, humanitarian causes or avant-gardist projects. Your sensitivity is withdrawn but it is offset by your ability to handle human relationships in a daring and efficient way, which allows you to achieve your goals for the sake of a cause.

A Few Special Points

Your Uniqueness and Your Utopias

Unexpected events and surprises often occur in quite special areas: finance connected to investments, to inheritances and, more generally, to external possessions or losses (taxes, stock exchange, other people's money), to the fields of occultism and death and, more symbolically, to sexuality.

In general, in one of these fields, you are likely to experience one or several reversals of situation (positive or not), on the material plane but also, as a consequence, in your approach to life and the way

you transform your personality in depth.

In any case, you are predisposed to risk-taking, as if some inner force prompted you to create maximal psychical tension, or to challenge yourself in order to know yourself better, or to explore the unknown in a constantly deepening manner.

Your Inspiration and Your Illusions

Your concepts and ideas in politics, philosophy and, generally speaking, higher knowledge and abstract matters, are your sources of inspiration. But at the same time, your mind is a bit confused and unmethodical in these areas.

Remote lands, evasion, literally (long distance trips) or figuratively (higher knowledge) give you a confused feeling of the infinite, of fusion and communion with the world at large; the danger is that you may get lost. You must be cautious when you travel, and you should try to step back in order not to go astray when you deal with big concepts and ideals.

There is a strong tendency towards idealization, with many assets and many dangers at the same time.

Your Passion and Your Authority

Your relationships with your subordinates and your colleagues are marked with passion and may create domineering/dominated connections conducive to conflicts, unless you use your authority to stabilize the situation.

You do not accept your superiors' authority, and you continuously strive to reverse your relationships with them in order to eventually take the domineering role that better fits your nature.

In a few rare instances, severe health conditions may strike you down, but in principle, you overcome them like the phoenix that is reborn from its ashes.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Austin Butler, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Austin Butler, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Austin Butler, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Western hemisphere of your chart means that you are quite flexible, capable of empathy, convivial and communicative. An excellent factor for many professional activities or for your social or sentimental life for example.

A definite asset... provided that you are not at the centre of the decisions you must take in your life: you may be tempted to listen to the last person who spoke, and your flexibility won't always get you out of the tight spot. You are therefore advised to learn to decide alone and to cope with the consequences of your actions with courage and without regrets. This attitude will allow you to combine flexibility and action, adaptability and absence of hesitation.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Austin Butler: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Austin Butler: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive man. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The first decanate, which means the part between 0° and 10° of any zodiacal sign, prevails in your natal chart, Austin Butler: this decanate is traditionally linked to vitality and physical constitution, and may indicate that you efficiently express your concrete energy on the material and sensual planes.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your life is marked with the major challenge of developing your social image, of asserting your personality... and of leaving your shell. Your childhood and your family roots are very present. You have an inclination for quietness, protections and intimacy. You enjoy at will the moments when you feel "at home", in known territory and familiar situations. But you must learn to thrive in society, to give of your best, to socially shine, particularly when you feel that external pressure and opinions are upsetting. Do not fall in the trap of your dreams and souvenirs! Life implies responsibilities and the will to control, otherwise you cannot feel your true self. You may be too dependent and you must learn to slowly become autonomous, free to take decisions and to take action. Your sense of duty allows you to climb all the steps of a perilous, yet thrilling, social ladder. As years go by, you claim more autonomy, more power and more freedom of action.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she

touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You have the feeling that you are different from your entourage because you are in charge of both a special mission, and an extraordinary destiny. This configuration may indicate an immoderate pride (when the Black Moon is not well integrated enough). However, when she is well integrated (and she will be, as time goes by), the Black Moon forges an exceptional destiny that implies sacrifices, asceticism and solitude to some extent. The danger is to show too strong an intransigence and to be unable to forgive your entourage's weaknesses as well as your own. But it is also where your strength is found: an innate sense of duty, regardless of the price to be paid for a slow ascension.

This configuration predisposes to the quest of the absolute on two accounts: firstly, the very nature of the Black Moon, implacable and extremist, and secondly, she is in a sector of the Zodiac that is traditionally evolutional but extremist. Here, you flirt with death, danger and challenge. Everything suggests transformation, abandonment and revival, passion and cruelty. There is no half-measure in your behaviour, only a terrifying and marvellous thirst for the absolute... That'll take some doing for the person who will experience it with required intensity!

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 10th house: you give top priority to your social status and to the level of your "rank". You are very ambitious and you have every chance to achieve social and professional successes. You identify yourself with the part you are to play and with the expectations of your environment. Therefore, you can fully blossom through the adherence to the collective pattern that you are the first one to understand and that you personify. In other words, deep down, you are what your entourage admires and respects: you have a job that is "under the spotlight" and you fulfil your responsibilities as if you were in charge of a "mission".

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The planet Mercury was retrograde on the day of your birth. You probably have to make an effort to harmonize your relations: you are prone to screen others with a critical eye and you do not overlook the slightest flaw. You are exceedingly clear-sighted and you approach your contemporaries with distance rather than with natural. This type of behaviour may be an asset: your enquiring and pernickety mind prevents you from being too gullible. However, your reservations may impede your communication. As time goes by, you learn to establish contacts more spontaneously. During your childhood, you faced problems of expression in your heart of hearts: your doubts prompted you to project an image that was

out of touch with the reality... turbulent or withdrawn, you could hardly establish conventional ties. As an adult, you are in a better control of these elements. You still have to find the right way to tell who you really are: this is how you can improve your relationships.

Venus retrograding in your natal chart emphasizes love: how did you see yourself when you were a child? You need to accept your identity if you are to fully experience love. As years go by, you learn to better accept your specificities, to open up and to love... What caused your affective problems during adolescence is slowly fading away. There still is a particularly acute sensitivity regarding the affection you receive: a couple relationship needs time to blossom and it is never perfect right from the start. Your problem is that you hardly take a laid-back attitude. Until you are reassured by the attachment of your loved one, you cannot easily express your desires. Wrongly or rightly, you feel that you lacked affection during your childhood. Your sentimental balance will be all the more satisfactory as you endeavour to pour out love and tenderness, passion and dedication. You will then respect your own affective patterns and you will arouse the attention that you so badly lacked.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep, it is nonetheless safe.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
