Björk's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Your Planets, Houses, Aspects, and Natal Chart

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have

absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Björk, the nocturnal North-eastern quadrant, consisting of the 1st, 2nd and 3rd houses, prevails in your chart: this sector favours self-assertion and material security to the detriment of your perception of others. You consider self-transformation to be a hazardous adventure. You are inclined to seek stability and you tend to protect yourself with your actions. Possession, acquisition but also communication, without opening up too much, are part of your deep motivations. You are rather autonomous and constant, however it is important that you pay more attention to others, so that you can improve your outcomes.

Your Dominant Modes and Elements

Björk, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

The predominance of Water signs indicates high sensitivity and elevation through feelings, Björk. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

Like the majority of Earth signs, Björk, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Fire's qualities are not very present in your chart, with only 6.92% instead of the average 25%, which means that you may lack warmth, enthusiasm, conquering spirit, or energy. You may look indifferent to others, with almost no desire, no joy of life or no enterprising ability. Actually, it is not true, but you should let go, force yourself to be more daring, and show your amazement as well as your vitality. You certainly have as much energy as others, you just need to release it, and it is up to you to display more of it, since it will be all to your benefit: shout, sing, pull faces, dance! That's the right mean for you... In the end, you'll never be accused of being sad, phlegmatic or a killjoy!

Air is under-represented in your natal chart, with only 2.56% instead of the average 25%. Air symbolizes the values of communication, exchanges with others, but also adaptability and flexibility abilities: if you don't get out of your cocoon to talk, to show interest in others, and to socialize, you may have problems understanding others. Because of your lack of flexibility or of your refusal to adapt yourself, you may be suddenly overwhelmed by events. You should get into the habit of talking, of phoning, and of thinking in terms of "mobility, flexibility, adaptability, change" in every circumstance. It will spare you so many troubles!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Mutable mode is the most emphasized one in your natal chart, Björk, which indicates a mobile character that is curious and thirsty for new experiences and evolution. You are lively and flexible, and you like to react quickly to solicitations, but don't confuse mobility with agitation, since this is the danger with this configuration - and with you, stagnation is out of the question. Security doesn't matter as long as you are not bored. You optimize, you change things, you change yourself... all this in a speedy way.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Björk, here is the evaluation diagramme for your planets:

The three planets that are most highlighted in your chart are Pluto, Neptune and Uranus.

With Pluto as a dominant planet in your chart, you are a magnetic and mighty predator, like the Scorpio sign ruled by this planet, who needs to exert pressure on others in order to "test" them. You are always ready to evolve, to risk destruction for reconstruction - including your own - to live more intensely whilst imposing your secret authority on things and on people you encounter.

You may come across as wicked, cruel or too authoritarian, but actually you only follow your instinct, you sound people out, and you like to exert your domination simply because your vital energy is too powerful to remain inside. You are inclined to be passionate, with hidden motivations. You are sometimes misunderstood but one of your great Plutonian assets is to go successfully through each life ordeal with ever growing strength.

With Neptune as one of your three dominant planets, you are a secretive and ambiguous person, often confused or unclear about your own motivations! Indeed, you are endowed with unlimited imagination and inspiration, as well as with an extreme sensibility that may turn you into a psychic or a clairvoyant. On the other hand, your impressionability is such that you may have difficulties in separating what is concrete and solid from illusions or dreams.

A mystic, a visionary or a poetess, you daydream, like any Neptunian, and you see what few people only can see, all of this being shrouded in aesthetic mists when you are fired with enthusiasm.

A boundless, infinity-loving woman like you is inevitably likely to be more vulnerable and easily hurt because of your acute perception of events. In such cases, you are hit full in the face, and you may sink into gloomy daydreamings and dark melancholy.

That said, this mysterious aura definitely gives you an indefinable charm in the eyes of your close friends who are often fascinated by your unique ability to feel and to see what ordinary people can never see!

Uranus among your dominant planets: just like Neptune and Pluto, Uranian typology is less clearly

defined than the so-called classical seven planets that are visible to the naked eye, from the Sun to Saturn. However, it is possible to associate your Uranian nature with a few clear characteristics: Uranus rhymes with independence, freedom, originality, or even rebelliousness and marginality, when things go wrong...

Uranus is Mercury's higher octave and as such, he borrows some of its traits of character; namely, a tendency to intellectualize situations and emotions with affective detachment, or at least jagged affectivity.

Therefore, you are certainly a passionate woman who is on the lookout for any kind of action or revolutionary idea, and you are keen on new things. Uranians are never predictable, and it is especially when they are believed to be stable and well settled that... they change everything - their life, partner, and job! In fact, you are allergic to any kind of routine, although avoiding it must give way to many risks.

Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Scorpio, Virgo and Capricorn. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With Scorpio as a dominant sign, you are a strong and astute person, complicated and passionate, sometimes destructive and intolerant, but strong-willed, tough and daring, sometimes bordering on aggressive. So many qualities and dangers combined in one person! Obviously, this often results in a natural selection of people around you: those who stand up to you or admire you and those who can't bear you anymore! But that is precisely what you want. You are what you are and you are not going to transform yourself just to please. You are too proud and you never dread confrontations, although your way of fighting is secret, as is your nature that, mysteriously enough, you are so reluctant to reveal even to your close friends who will never understand you. That said... what a hellish charm you have!

Virgo, associated with perfectionism, numbers and reason, is among your dominant signs: you inherit its sense of responsibility and tidiness, a clear mind, an unflinching logic, as well as a need to be useful and to

fulfil your task to the best of your abilities. Obviously, people may think that you are too modest or reserved, suspicious or pessimistic because of your exceedingly critical mind, but aren't logic and wisdom great qualities? Of course, they are. Moreover, you keep your feet on the ground, you never behave irrationally and you are helpful and hardworking - what more can you ask for?!

Capricorn is one of your dominant signs and endows you with a grave and serious style that seems to stick to you constantly. But if you have that reserved and cold side - as some extrovert people may think - on the other hand you possess sturdy qualities: you are strong-willed and tough. Your long-term vision, your sense of duty, and your ambition are not affected by the derisory and erratic motions that seem to upset most mortals less steady than you. Besides, you are like a good wine, you age well and your natural solemnity or serious side paradoxically turns into an almost cheerful appearance, as you grow older. You are actually very sensitive when it comes to love. Faithful, caring, sweet, and sensitive, your behaviour is very different in your everyday, sentimental life. A golden heart beats under your tough and austere appearance...

Houses 9, 2 and 1 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

Your 9th house being one of your most tenanted house, or at least emphasized, travels and faraway places play a major role for you: travels may take place in a symbolic sense, namely mind speculations or conceptions about political matters, philosophy, religion or spirituality, or in the literal sense, such as real long distance travels by plane. You may also spend a part of your life far from home, etc. You are driven by a kind of rebelliousness, which urges you to explore the Unknown; it may also be the call of the adventure. Besides, if the rest of your chart concurs, you may be considered as a real draught, often up hill and down dale, constantly on the lookout for exciting discoveries and new, enchanting horizons.

The 2nd house is among your three most tenanted houses: life's material aspects - with everything that is implied in terms of security, appetite for life, desire for possession - are deep-seated and you can never be content with living on love and fresh air. On a more abstract level, you may have similar feelings regarding relationships: possessiveness and jealousy in the worst cases, but also faithfulness and

durability.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or a in reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Scorpio and your Ascendant is in Scorpio

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

What a nasty creature! Please, admit that life with you is anything but a bed of roses! You are twice a Scorpio, you would not budge an inch whatever the situation may be, and you assert yourself forcefully, even though it means hurting your interlocutors. However, Scorpio does not impose itself as openly as Leo, for instance, and prefers to work more insidiously. Since you are hypersensitive, your emotions are acute and intense, and you sometimes need to explode so as to release the pent-up tension underlying your stubborn stands. Although you are proud of your deep-seated capacity for self-control, you are not scared by bellicose behaviours. You use your legendary perspicacity to throw your contenders off balance because you can quickly identify their weak spots. Determination is one of your major qualities, but it can turn into extremism or obsession if you are not careful. Indeed, you look for breathtaking

experiences and you enjoy so much dangerous pleasures that you sometimes get lost in them...

The sign and the Ascendant in Scorpio

Psychologically speaking, your nature is bilious, with aggressive impulses that lead you towards the transformation of your entire being and, continuously, of the situation surrounding you. You seem to be constantly struggling for your self-assertion. You cannot refrain from testing others with cutting remarks, not because you want to hurt them, but because you want to know them better through their reaction; for you, life and the feeling of aliveness are experienced through rebellion and tension. You may be manipulative and your aggressive attitude may equate with sly inquisition. You often remain silent, introverted and secretive, mulling over turbulent thoughts in the depths of your mind, leaving others puzzled by your somewhat peculiar behaviour.

As you are born under this sign, you are secretive, powerful, domineering, enduring, intuitive, assertive, charismatic, magnetic, wilful, daring, clear-sighted, passionate, creative, independent, vigorous, generous, loyal, hard-working, persevering, indomitable, possessive, shrewd, stubborn, ambitious, instinctive, tenacious, sexual, sexy, proud, intense and competitive. But you may also be aggressive, destructive, stubborn, anxious, tyrannical, perverse, sadistic, violent, self-centered, complex, critical, cruel, nasty, jealous, calculating, vulnerable and dissembling.

You are a hard-worker, enduring and serious. You follow all things through and your obstinacy is nice to see, particularly when your undertakings are not wrong, which seldom happens thanks to your immense insight that is almost that of a medium.

In love, Madam, you are all passion and sex appeal. Since your young age, you understood the sexual and magnetic attraction powers that you convey: like a predator, you choose, you take action and you catch in your nets the men you desire until you lose interest in them. The only men who can really stand the test of time are those who will resist you or subject you unconditionally, and whom you will respect for the rest of your life. They can also be men who will be totally submissive and, because of their absolute love for you, accept to live a hell of a life by your side, totally depending on you.

You use your seductive powers wonderfully well but when you find your soul mate, hopefully he will be as strong as you are, you will be a one-man woman, throughout your life. You will be an exceptional lover, loyal, possessive but sentimental, courageous and magnetic. There will be no boredom in your relationship where passion will be expressed with all the violence and the thirst for the absolute that inhabit you.

The ruler of your chart is in Virgo

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Björk, is Pluto. In the sign of Virgo, it turns you into a cautious and rational person, sometimes to the detriment of your feelings. You like to improve yourself, and you pay a great deal of attention to details. You respect the rules, and you appreciate well-done work. However, you may lack self-confidence or you may hesitate, perhaps because you hate to make mistakes, since you believe

that truth is a major quality.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Björk. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Scorpio Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Neptune conjunction Ascendant, orb 1° 45'

With Neptune in conjunction with your Ascendant, Björk, your intuition, your imagination, and your sensitivity may be remarkable. You feel other people even before understanding them. Your behaviour is ruled by emotions and instincts rather than by reason. Besides, this beneficial aspect is often found in clairvoyants' charts, and you might be one of them, since your "radar" is so highly-developed! An aura of mystery endows your personality and your behaviour with undeniable charm...

★★★★★ Pluto sextile Ascendant, orb 0° 05'

Pluto, the planet of instinct and secret, is in soft aspect with your Ascendant, Björk. It endows you with exceptional lucidity, which enables you to behave in society in an appropriate, though slightly scathing and domineering way. You exploit your nose and your magnetism, and you do so very successfully!

★★★★★ Uranus sextile Ascendant, orb -0° 47'

Uranus is in soft aspect with your Ascendant, Björk. Although your behaviour is original, nonconformist, and free, it is not unpleasant. On the contrary, this facet of your personality is sometimes considered by other people as endearing and unpredictable, in the good sense of the word. One never gets bored in your company because you are often found where you are not expected, whether regarding your ideas, your lifestyle or the way you react. You possess the charm independent and free persons are endowed with!

★★★★★ Venus sextile Ascendant, orb -2° 26'

Thanks to Venus, Björk, your behaviour is in harmony with your affective life, and you need not make any special effort in order to express your feelings in a natural way and without arousing people's criticisms. This asset enhances your natural easiness and charm, which is definitely not unpleasant!

★★★★★ Mercury semi-sextile Ascendant, orb 0° 31'

You are endowed with quite good adaptation capacities, Björk. Thanks to Mercury, your behaviour matches your intellectual concepts, or your style of communication, which is quite an effortless one.

★★★★★ Saturn trine Ascendant, orb -7° 46'

Saturn is in soft aspect with your Ascendant, Björk. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

★★★★★ Sun conjunction Ascendant, orb 10° 32'

The conjunction of the Sun with the Ascendant represents the perfect fusion of will and vitality, and will and external appearance, Björk. This conjunction indicates an above average charisma or magnetism. Moreover, there is a concentration of energy which enables you to naturally shine and attract, as well as to move mountains provided... you decide to do so!

Your Sensitivity

Your sensitivity is intuitive and clear-sighted Björk. Your exacerbated affectivity and your emotions are secretive, intense, deep and sensual. Your magnetic nature seduces. You are aware of the strange fascination you exert and you gladly cultivate this mysterious aura. Your feelings are so powerful that you may feel you should repress them sometimes. But the more you try to control them, the stronger they grow. Therefore, your jealousy may reach such levels that it may hurt. Without half-measure, you become aggressive and you can harm because your inner radar instinctively detects other people's weaknesses. Your emotions are often filled with eroticism and you are an explosive blend of lucidity, amorous intensity and constant provocation but... you are so charming! Your nature is attractive, even bewitching. After all, the only persons you offend are the middle course followers...

Björk, you find it hard to show what you feel, or you simply consider that it belongs to you and must not be exposed. Anyway, even if your emotions are rich and deep, you keep them inside and you don't wear your heart on your sleeve. Very few persons are able to guess your mood of the moment.

Obviously, you still can be popular, and in that case, it is probably related to a humanitarian context or it involves your dedication. Indeed, the personal side is blurred and this fact allows you to express your feelings without having to open up too much.

★★★★★ Moon sextile Mars, orb -1° 4'

Your vivid imagination goes hand in hand with you desire to make your dream come true and to fight, so as to remain true to yourself. You easily mobilize your energy and your resources. This harmonic Moon-Mars aspect indicates the will to keep your intimate balance under all circumstances. You thrive in action; you court danger, particularly when your regular environment is endangered. In the private sphere, you exhibit complete straightforwardness. This planetary configuration allows you to quickly get back on your feet within a new context. You adjust well to unprecedented situations. Your capacity to integrate events rapidly can only increase your adaptation abilities.

★★★★★ Moon trine Saturn, orb 3° 29'

This harmonious Moon-Saturn aspect is an element of stability for your private life. Your daily life lives up to your demands, you are totally true to yourself and logical through your very intimate behaviour. You do not choose the easy way out: on the contrary, it is in difficult situations that you are at your best. It is very unlikely that you become destabilized by trifles. This aspect indicates stability and also perfectionism. You are longing for a private life respectful of your heart of hearts and your genuine desires. Your well being is at this price, and its quest remains perpetual. Despite your reserved private behaviour, your emotions run very deep. You have a strong need for protection and for security. Your aspirations lead you towards contemplation or studies, more than towards social futilities.

★★★★★ Moon trine Jupiter, orb 7° 26'

Why should one complicate one's life if it is possible to enjoy the simple joys of the present? This harmonic Moon-Jupiter aspect indicates a cheerful nature, which earns your entourage's liking and protects the balance of your intimate life. Your sociability is supported by your desire to smoothly adhere to a group, a social or family cell. You are fond of moments where you unwind and relax. You value your daily comfort and, to preserve it, you accept to play by the rules of privacy. When this aspect dictates your attitudes, you behave like a person easy to get along with... even though your personal demands, relegated to the backseat, come up again at top speed and force you to behave more in line with your inner needs.

Your Affectivity

In your chart, the Sun is in Scorpio and Venus, in Capricorn. Your solar and Venusian signs share a common capacity to resist and to dismiss people's judgments. Your amorous behaviours reveal a strong will to remain true to yourself, despite all opposition. Of course, you may have to abide by conventions and to yield to your partner's demands. But you do so quite reluctantly and grudgingly. For you, life together does not mean giving up your own values. Your judgments may lack flexibility and reveal an intransigence that your partner finds hard to accept, depending on his character. Better than anyone, you stick to your principles, you keep the same line of conduct, regardless of circumstances. You may have a tendency to complicate situations or to aggravate problems. This is only the other side of the coin of your unparalleled honesty and the expression of your desire for absolute, flawless and unfailing love, inaccessible to many people... You are an idealist and you frequently adopt clear-cut attitudes, dismissing shaky compromises and enjoying your passions to the fullest.

Björk, it is obvious that you do not easily fall in love. But when you do, your feelings are deep, quiet, serious, and above all, lasting. Your need for security is indispensable for your well being and to enable you to give. You offer security and stability with your sense of duty even though you mix up responsibility and love. The charm of your partner does not only include physical features or aroused sentimental attraction, but also intellectual and moral qualities: you fiercely need authenticity and seriousness because this is the way you are. In general, your loves are not numerous and you become able to express yourself quite late in life. Your quiet and stable feelings are really worth it. If you do not get what you want, the danger is that you may seek refuge in cynicism and that you isolate yourself.

Björk, you usually make connections between the possessive aspect of things and your feelings, which are expressed slowly but will grow deeper and steadier as soon as you become attached. Therefore, you need to trust the person you set your heart on and to feel that, somehow, he belongs to you. As a matter of rule, feelings and material well being go hand in hand, and the material conditions in which you experience your love affair are important to you: you cannot live on love and fresh air, a cosy and opulent-looking nest or a quite fancy environment are almost indispensable conditions for you to freely express your feelings. This doesn't mean you are self-interested, you actually have great qualities, such as generosity and compassion. However, you have difficulties in separating the pleasant and material aspect of things from the well being of your couple. Your needs for emotional security are important and you will see to it that you get it at any cost, should you need it.

★★★★☆ Venus trine Pluto, orb -2° 21'

You exercise exceptional clear-sightedness in love. Your passions are subtle, deep, although disconcerting and imperceptible to the outsider. You display no gullibility and you keep your distance. This is part of your charm. You detect what is really at stake in your couple's relationship and in your sentimental attitude. You drive the boat of your sensitivity without falling victim to mirages and affective traps. The only danger is that you may be too calculating. As you try to totally control love and to constantly pull the strings, you may lose the ingenuity and innocence which are necessary to nurture a relationship. You give proofs of your love in a very personal way and you never hesitate to use paradoxes to preserve the authenticity of your relations. You can anticipate problems and prevent difficulties.

★★★★☆ Venus trine Uranus, orb -3° 13'

Your charm lies in the originality of your approach to love and in your uncompromising attitudes. Your motto? Freedom of love, whatever the price! Should your sentimental life become dull, you find a solution: you are romantic and you reinvent your couple's life, you give a new and unexpected

momentum to your emotions. You create the kind sharpness that contributes to your exceptional affective life. You do not fear love at first sight or blazing passions. On the affective plane, you know where you are heading for, whom you love ... or love not. There is an indisputable intransigence. The heart impulses are irrevocable and implacable. You dream of a sentimental life that fulfils your aspirations and you use all possible means to achieve your ideal. Even though you may have to make the necessary sacrifices.

★★★★★ Venus sextile Neptune, orb -4° 12'

Your sentimental life unfolds like a strange dream. Love is too delicate to be tamed or controlled. You follow your heart impulses in an idyllic ambiance, far from reality's ordinary constraints, far from conventions and conformism. You exude a particular charm, discreet and subtle. But your affectivity may be disconcerting. You are very sensitive to marks of affection and tenderness, although you are aware that love cannot be bought or won. What is meant to be will be and it is impossible to know the hows and the whys behind a prevailing harmony. The obvious danger is that you may refuse to make any effort in such conditions. Living as a couple must feel natural and you do not need to objectively build the foundations of a relationship. You are an idealist and you dream of an affective paradise, which may be too good to be true...

★★★★★ Venus sextile Saturn, orb -5° 2'

You favour deep feelings and a sincere affective life. In love, you are not content with shams or uncertain compromises. Your couple's relationship is based on mutual trust. You strive to build a lasting link, a true love that complies with your aspirations and your heart of hearts. This harmonious Venus-Saturn aspect indicates wisdom. Inexpressible truth is preferred to appearances. A love affair is an adventure, above all. Discovering the other one, step by step... any relationship takes a fundamental dimension right away. It is relevant to mention a little puff of romanticism and a passionate nature, although quite modest and reserved. You do not commit yourself thoughtlessly! This is a major asset for long lasting love. You are able to question your affective behaviour and to adjust to your significant other. You handle crises quite well and you overcome all the difficulties inherent to amorous rapports.

The Way You Take Action and Your Sexuality

Björk, you are so resistant and so solid that you are able to cope with any challenge, any ordeal. You behave with persistence, rigour and discipline. You are so obstinate and patient that no effort is impossible to you, as if sensitivity and emotions were unable to divert you from your goals. With calm and lucidity, even coldness, you face up to things and you plan on a long-term basis. Nothing and no one can prevent you from fulfilling your responsibilities. You are a rock, a hard worker, and your iron will equals your resistance to blows. Your practical sense is at the service of your ambition which is real and energetic, even though it may not be obvious. Sexually, you are active and vigorous. If you show more warmth, you may become an excellent lover; indeed, being demonstrative is not your major concern.

Björk, your capacity for action perfectly matches your personal enrichment and enhances your earning abilities! It is easy for you to engage into fights aiming at ensuring your material security, as it is the best outlet for your energy: it must serve a purpose, otherwise why bother? Consciously or not, your ardour is going full steam ahead for the success of your business and the protection of your interests.

This energy may also be understood in a figurative sense, and in that case, it involves your affective,

family or professional security and has no direct link to money. You may be possessive, and you defeat those who intend to come too near to what belongs to you.

In any case, you are well-equipped and you usually get what you want. This is a valuable asset throughout your life because, indirectly, it turns you into a more independent person who does not need any protection..

★★★★★ Mars opposite Jupiter, orb -5° 46'

You mobilize your energy as soon as there is an opportunity to turn your chances into concrete reality. You assert yourself in a spectacular and demonstrative manner as soon as an assembly gathers and there is a chance for success. However, too much haste and zeal may harm your projects and spoil your expected outcome. The danger with this aspect is your overzealousness as you strive to achieve your objectives and your ambitions, forcing your way through events, whereas the situation requires diplomacy and patience. Too much fieriness may make you miss your target. With this planetary configuration, it is important that you keep in mind that some circumstances need to be handled with precision and clear-sightedness. Not all opportunities are necessarily good. It would be a pity to lose your efficiency through excesses of opportunism or of enthusiasm.

★★★★★ Mars semi-square Neptune, orb 0° 17'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Mars sextile Saturn, orb 5° 1'

Persistent action always bears fruit eventually. All that is needed is patience... A quality you have, undoubtedly. As confrontations become unavoidable, you show strong persistence and indisputable perseverance. Potential obstacles are more stimulating to you than they are discouraging. You are naturally fit for effort and for confronting realities and facts. You quickly overcome difficulties and you respond to crises in an efficient and considerate manner. You are enduring. You handle events with rigour and precision. These are valuable qualities nowadays, for they often come with the capacity to undertake adventurous experiences and to take limited risks!

Your Intellect and Your Communication Style

Your thirst for learning is considerable, Björk, and you can spend a lifetime studying languages, geography, philosophy and law, particularly. You are open-minded and you want to abolish all kinds of frontiers. The humanist, who is dormant in you, may turn into a “frequent traveller” reaching out to others in order to understand them and communicate with them. You express your opinions and your beliefs with honesty and clarity and likewise, you receive others' views with enthusiasm. You have numerous centres of interest and you may be perceived to be superficial, heedless and over-optimistic. However, if you manage to control your tendency to scattering, all your encounters, all your discoveries

can positively influence your philosophical life approach.

You have your feet on the ground and a particularly well-developed practical good sense, Björk. With you, no excessive emotions or fuzzy, abstract thoughts: you know where you are heading to, and your sharp and clear intellect usually enables you to efficiently manage your personal affairs.

You may be stubborn and concerned about your earnings and your success, particularly in the financial area, where your intellectual abilities are remarkably exploited. You manage to get out of a tight spot thanks to your logical mind and clear vision.

★★★★★ Mercury square Uranus, orb -0° 15'

You are the champion for useless intellectual speculations, for crazy and revolutionary ideas. This Mercury-Uranus dissonance is the signature for an eccentric character, more ready to ridicule generally accepted ideas than to build up stable patterns. Your sense of humour reveals a critical and forceful mind. You can stand for an idea in the face of all opposition but you do not hesitate to support the opposite thesis the day after... with the same conviction. The coherence of your points of view is harmed by these spectacular reversals that constitute your speciality. In the relationship area, you may also provoke dramatic turns of events if your ideas are conflicted. The good news is that it seems difficult to convince you to accept points of view running counter to your principles. Intransigence also has its virtues.

★★★★★ Mercury square Pluto, orb 0° 36'

Forget simplicity! You definitely enjoy acting behind the scenes and dealing with what is going on underneath. You play games and you operate in the dark. You leave the front of the stage to others and to the gullible ones. You don't display much sociability. When you are nice, it is because you are looking for flaws. This Mercury-Pluto dissonance mingles unconscious fantasies with reality. When it is kept under control, this aspect becomes an unparalleled source of discernment. To that aim, you must overcome your strong tendency for provocations. It is certainly amusing to play destabilizing games but it may also be dangerous. Keep this treatment for your opponents only.

★★★★★ Mercury semi-sextile Neptune, orb -1° 13'

Your sense of psychology and of human intimate mechanisms is acutely developed. Your relations are nuanced, clever and guided by a good intuition of individuals. Without effort, you pick up what is at stake in relationships and in contacts. Your « sixth sense » inspires you and may take you into strange roads. On the relations' plane, there is an indisputable subtlety. You know what you should not say or, on the contrary, you naturally find the suitable words. Your natural and non-rational attitudes often prove right. The unknown fascinates you... Your curiosity for occultism and mystery is keen. Besides, life is a huge human enigma for you.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 1st House

Willpower and appearance united! You are so lucky, Björk, that your inner self and your behaviour merge to increase your energy and your vitality. Since the Sun represents your self-assertiveness and your profound personality, he expresses itself best when this configuration is strongly featured. Indeed, you

form a whole block and there is no discrepancy between your real identity, as perceived by you and your close friends, and the image you project.

With this nice association, your behaviour matches your true nature. You act externally according to your willpower, without filter, nor reservation. It endows you with a wilful, personal and magnetic temperament. You attract, you charm and when you are in the middle of a crowd or a meeting, your personality stands out with depth and brilliance because you have the kind of radiance and warmth that can never go unnoticed.

With this configuration, the only goal in your life is to assert yourself, proudly and decidedly, through what you are and through your actions, everywhere you go. Your ambition is to experience your temperament to the fullest, in all areas. You are sheer energy in motion. There is no gap between the image you project and your real self and for this reason, your inner qualities are never wasted.

The other side of the coin is that people may find that you are self-centered and that you do not take people's opinions into account... Practice some humility if you can, because too much magnetism may arouse fears in people who are not yet well acquainted with you.

The ruler of your chart is in the 9th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 9th House, Björk. This position often gives you a strong taste for travels and foreign matters, whether through frequent real trips, or symbolically, through the pleasure to devote yourself to noble subjects: politics, religion, spirituality, or sciences. You feel the constant need to reach a higher level and to be on the move.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Uranus conjunction Midheaven, orb 6° 2'

Uranus is in conjunction with your Midheaven, Björk. This very important aspect usually indicates a destiny which, in some rare life occurrences, takes most surprising twists. Like trans-Saturnian planets, out of the blue and beyond free will events occur by accident, as if they were caused by some sort of fatality. Thus, it is possible that your life changes its course completely and repeatedly, in a more than above average way, when transits and progressions activate your Uranus-Midheaven conjunction. Uranus stands for life upheavals, surprise, rebellion, freedom, and nonconformism. Whether it indicates inner needs or external events, which is the most frequent case, your destiny is very likely to be deeply disrupted, especially when transiting Uranus forms major aspects with your natal Midheaven (towards the ages of 21, 28, 42; 56, 63, and 84). Uranus' half-return (around the age of 42), is the most important one. It is also possible that your career or social destiny takes a stronger Uranian tone, with tight connections to modernity, space, astrology and out-of-the ordinary subjects, as well as physics, electricity, speed, etc.

★★★★★ Jupiter square Midheaven, orb $-4^{\circ} 09'$

Jupiter, the planet of law and social achievement, is in mild dissonance with your Midheaven, Björk. You may experience difficulties in climbing up the steps of your social status, or in having your true worth fully recognised. There is definitely nothing serious to worry about. It is up to you to remain self-confident and not to be too impatient. With effort and perseverance, you can reach serenely the goals you have set for yourself. The only mistake you must avoid with this configuration is to jump the gun and to forget hierarchy and laws, or just to underestimate the work you must put in to that end.

★★★★★ Pluto conjunction Midheaven, orb $7^{\circ} 12'$

Pluto is in conjunction with your Midheaven, Björk. This very powerful aspect indicates that your career may have a fatality nature in the sense that, as with all trans-Saturnian planets (Uranus, Neptune, and Pluto), events of the collective category may deeply influence your personal destiny. Pluto is the planet of secret power, domination, unspoken words, taboos, police forces, and investigations. Therefore, depending on the other configurations found in your natal chart, it is possible that your career or your social destiny inherits a Plutonian note, and is connected with mysteries, sexuality, inherited money, or some sort of occult power, such as the grey eminences or leaders working in the dark.

★★★★★ Sun sextile Midheaven, orb $3^{\circ} 24'$

In the professional and social status areas, Björk, you know what you want, and you know how to cleverly obtain it. Because the Sun and your Midheaven are in agreement in your natal chart, you have no qualms and no hesitations when it comes to defining the strategy for reaching your goal.

★★★★★ Sun inconjunction Jupiter, orb $-0^{\circ} 44'$

This Sun-Jupiter aspect indicates a strong desire for social and professional integration but it may cause a few difficulties of expression in that regard, owing to excesses or immoderation. There may be discrepancies between your objectives and the means implemented to achieve them. The danger of this configuration may be that you forsake an essential part of yourself for some ambitious but out of proportion plan. Too many efforts of adaptation and an excess of opportunism may make you miss the target. It is important that you remain true to your values and that you do not seek, at any cost, to adjust your attitudes to the situation. However, do not fall into the opposite trap: a need for the absolute that forbids compromises, although they are so necessary. You must reconcile idealism with the demands of the moment, the respect for principles with the sense of timeliness. When this configuration is not well integrated, things get out of hand. Extravagances are glaring. They may translate into an exuberant, overly demonstrative disposition. Personal ambition turns into pride, and joviality becomes immoderation. Outbursts of anger are frequent. However, in a reserved and cautious context, this configuration reveals its positive nature.

★★★★★ Sun conjunction Neptune, orb $8^{\circ} 46'$

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★★ Mercury square Midheaven, orb -6° 35'

You are not pleased with the way you intellectually approach your professional goals, or simply your destiny. Because of this mild dissonance between Mercury and your Midheaven, in some circumstances, your communication style is tainted with a few hesitations or clumsinesses. There is nothing serious to worry about, and it is up to you to gradually build self-confidence through the study and mastering of your projects.

★★★★★ Neptune sextile Midheaven, orb -5° 21'

Thanks to this soft aspect of Neptune to your Midheaven, Björk, your intuition is very sharp, as far as your possibilities for success are concerned. Thus, you have no difficulties in finding your professional or social path, and your nose tells you whether something is good or not for you, even before you start to analyse it. Your imagination and your visionary qualities accompany you along your journey towards success.

★★★★★ Sun quintile Pluto, orb -1° 22'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

Your Assets and Your Part of Joviality

With the planet of Greater Fortune in this sign, Björk, your abilities to communicate and your curiosity are considerably strengthened. You are articulate, you have an eloquent pen, and you multiply your centres of interest. Better than anyone, you can handle numerous different intellectual pursuits simultaneously and you increase the number of your friendly and professional contacts. Short and frequent trips are favoured. Just be cautious not to spread yourself too thin.

Björk, the planet of Greater Fortune in this house is a heaven-sent present. It indicates inheritances, intense and fulfilling sexuality as well as a strong and secret intuition. You may be content! Your feelings also are magnified and deep. Undeniably, you are very lucky with this position of Jupiter in your chart.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Gemini increases your mental creativity, your imagination and your capacity for adaptation. The outcomes may not be seen externally but this configuration usually develops your sense of contact: when Gemini's well-known frivolousness and scattering meet with Jupiter's synthesizing mind and tidiness, it can only endow you with the best assets for your communication and intellectual pursuits.

Your Serious Side

The side effects of melancholy or isolation are the capacity to accumulate wisdom and the ability to step back. Therefore, if you really mean it, you have the possibility to make a better distinction between the concrete values that enable you to progress in actual life, and sugary daydreams that only bring some virtual pleasure and no real meaning.

Impersonal detachment or cold-looking demeanours may hamper your communications, Björk, although they increase your concentration, your patience, and your ability to study and to accumulate knowledge. As far as your entourage is concerned, quality prevails over quantity, and you can easily alternate agitated and eventful periods with periods of solitude.

Your challenge is certainly to make an effort in order to be less demanding from people and to keep a minimal number of relations. Nobody is perfect, and neither are you! Pay attention to people's qualities and forget their flaws, for they should not prevent you from enjoying their company.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Pisces limits your ability to feel other people's emotions or to profusely express your own feelings. For this reason, you are less vulnerable but at the same time, you can revel in isolation. On the other hand, you are genuine, you cannot be satisfied with chimeras and you remain far away from illusions but also... from dreams!

A Few Special Points

Your Uniqueness and Your Utopias

Your ideas and revolutionary concepts, at odds with what really exists, make you appear as a pioneer in your area. In your concrete life, several important trips are significantly involved in major turning points. Your instinctive need for strangeness, as well as your thirst for independence, must be given a positive outlet.

Sometimes, your positions are original to the point that they become marginal, and your dyed-in-the-wool desire for expatriation exposes you to undergo reversals that are as explosive as unexpected. More than anyone else, you must guard against fanaticism or the systematic exploration of remote and dangerous lands, even though the call of the unknown or of exoticism is deeply rooted in you and you find it hard not to respond!

On a more symbolic plane, you are generally interested in abstract topics which are out of the ordinary

such as metaphysics, religions, sociology, philosophy, etc.

Your Inspiration and Your Illusions

You are particularly sensitive, intuitive, and you have very fertile imagination. You may seem mysterious to others, actually to yourself, too, and you may be unaware of the consequences your actions may trigger because you are wrapped up in nebulous impressions and cut off from the material world.

Your behaviour may be surprising because your sixth sense is so developed that you may adopt a completely different attitude and amaze your entourage by your very sharp perception of things that is often beyond ordinary mortals' understanding.

You are interested in new experiences that may not be respectful of proprieties or moral standards, just for fun and due to a certain degree of carelessness... You feel that you are beyond the law and rules, and your emotionalism may take you too far.

Your Passion and Your Authority

Your capacity for concentration and your mental power are your major assets for the study of higher knowledge and ideological concepts. You also tend to get away from your usual geographical cocoon! You are inhabited by passion and persistence, and you do not resist the temptation to explore foreign lands or to thoroughly explore ideas.

Besides, once you enter those attractive fields, it is most likely that you become deeply transformed and shattered. Nothing is any more what it used to be, and this is precisely what your unconscious suspected when you were magnetically drawn towards these remote realms.

Sometimes, these transformations may deeply hurt you, but isn't it the only way to change and evolve? Otherwise, all the benefits are yours: adrenaline increased by the passion and creativity of the moment, along with the happiness to be spiritually enriched, later on.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Björk, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Björk, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Björk, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, Björk, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Björk: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Cadent houses, namely the 3rd, 6th, 9th and 12th houses, are very emphasized in your chart, Björk. They indicate important potential for communication, adaptability and flexibility. These houses are symbolically linked to the mind and intellect. The relative weakness implied by these characteristics indicates your tendency to hesitate or to be indecisive, but also your remarkable ability to start off again, which is a nice quality, finally: you can easily get yourself out of a tight spot thanks to your mobility and casualness, in the best sense of the term. This group of houses corresponds to evolutionary characteristics of your personality. However, they are only indications and you must include them in the rest of your chart in order to see whether they are validated or not!

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, Björk: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

The Lunar Nodes highlight all types of discoveries and explorations. There is a strong desire for travels, whether actual trips or spiritual, inner ones. Since your childhood, you are particularly interested in unlimited spaces and total freedom. You never trusted smothering attachments and you always allow your thoughts and actions a free hand. The danger is that your life may be unstable because you so badly need to evolve and to discover... Life is an eternal quest of something else, some vital but hidden dimension that is beyond you. Therefore, it is difficult for you to blossom when your family or work environment is routine. However, it is important that you control your wild tendency (the other side of the coin of the wonderful freedom of thought): life requires more sociability. It does not mean that you must accept a conformism that is too far from your inner aspirations. More than other people, you need to develop your relations, your exchanges and your dialogues. In this regard, your destiny is marked by communication.

During the first part of your life, you manifested an acute sense of challenge, a taste for personal initiatives and an unflinching fighting spirit: these qualities prove helpful in handling any possible setback today. However, you must make an effort to accept your entourage and adopt more open and accommodating attitudes! Life teaches that you must become more sociable and develop the flexible behaviour that you lack. Do not play around with mavericks; It is important that you earn your close friends' affection and that you rely on their collaboration. You slowly become more aware of other people's reasons, of their desires and their concerns. Your destiny may be influenced by relationships. If you had a tendency to provoke people or events, now you have gained complementary qualities: diplomacy and human tact, cleverness in the art of reconciling opposite views. It is true that it required a huge personal effort!

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your

life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

It is in the humanitarian field that rebellion is best expressed. Your dream is to become the spearhead for a different project of society, the Quixote of altruism. Each individual must be independent, really free to think and to act. Any hindrance to free will makes you indignant! The danger is that you may not tolerate any external constraint. This is probably the price to be paid for a freedom of thought that constitutes the core of your progression.

Twin relations (those that include your fellow creature, your double) are an object of fascination. You are in quest of your soul mate, your identical being rather than your complement... This attitude brings about exaltations and setbacks: you think that you recognize that special one who really resembles you? Differences, however, grow more painfully as time unfolds. But your search of an absolute relation may also become the cement of a close and privileged couple, impervious to life vagaries.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 1st house: you aspire to be in full control of yourself. Your wealth is within... early in life you develop the taste for individual initiatives and you find your full balance as you give new impulsions to people and things. You are the initiator, the eternal starter. Like all the persons born at the new moon, you have a very personal way of handling life.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

With Jupiter retrograding on the day of your birth, the lesson is about grasping the opportunities that are offered to all of us but that some people take advantage of, while others don't. Persons who quickly adjust to circumstances are more likely to achieve their ambitions than those who need to be encouraged to take action. During your childhood, you may not have efficiently responded to life's concrete enticements, leaving other "luckier" people to achieve what you were dreaming of. You preferred to enjoy yourself, here and now, rather than to look for new paths of development or exploration. It is possible that you were not optimistic enough. Enterprising minds were alien to you... Later, you find out that, indeed, you give little importance to the credit of the frenzied expansion praised by the modern world. Your path is not oriented towards personal prestige. With subtlety, you integrate non-material values and you accept well the fact that you missed past opportunities.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
