Catherine Middleton's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Catherine Middleton, the nocturnal North-western quadrant, consisting of the 4th, 5th and 6th houses, prevails in your chart: this sector favours creativity, conception and some sort of specialization or training, with helpfulness and relations as strong components. You need others' cooperation in order to work properly, although you are not very expansive: creating, innovating and thinking are what matter most to you because this self-expression enriches you and totally satisfies you.

Your Dominant Modes and Elements

Catherine Middleton, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Cheers for communication and mobility, Catherine Middleton! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

The predominance of Water signs indicates high sensitivity and elevation through feelings, Catherine Middleton. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Catherine Middleton, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Catherine Middleton, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Jupiter, the Sun and Venus.

Jupiter, the planet of expansion, organization, power and benevolence, is quite emphasized in your chart. Like any Jupiterian, you are warm, open, sociable, consensual, active and optimistic. You can use your self-confidence to erase differences of opinion, and you leave the task of analyzing and perfecting things to specialists. Your role, and you know it since you were young, is to gather, to demonstrate your synthesizing and conciliatory mind, and to naturally reap its fruits - power.

You appreciate legality, social order but also order in general. With you as a leader, every plan or human entity can be organized and structured. You excel at supervising. The Jupiterian type is indeed the politician par excellence, and a positive Jupiter in your chart is synonymous with good integration into society, whatever the chosen path.

Is this idyllic picture really perfect? Certainly not: each planet's typology has its own weaknesses. One of yours is pride, like the Solarian, but your will of expansion at all costs may generate a form of exaggeration in everything, endless pleasure, inappropriate self-confidence that could lead you to rough materialism and the thirst for absurd material comfort - in the worst cases, of course.

One of the dominant planets in your birth chart is the Sun. He symbolizes will, magnetism, sense of honour and dignity. You are a Solar being, and you often display charismatic and leadership qualities. Your warmth and your persuasive power lead you far away from pettiness. You enjoy thinking big and, consequently, you move forward according to what you decide.

Your Solarian weakness may be related to the sin of pride or to excessive authority. The frontier between pride and vanity is tenuous: be careful not to overstep it and to keep the nobleness of heart that is part of your charm.

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense

are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Aquarius, Libra and Capricorn. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Aquarius is one of the most important signs in your natal chart: it endows your personality - at least one of its facets - with originality, to the point of eccentricity in spite of a sometimes distant and humane side. Likeable and impassive at the same time, you are a paradoxical woman, very hard to define because the two planets Uranus and Saturn blend their qualities to create the so complicated and endearing sign that inspires your character. Saturn's seriousness and impassivity is added to Uranus' rebellion, talent, individualism, charisma, extravagance, and unpredictability! One of your main characteristics is that you never open up on a personal basis, but you tend to do so easily in public. You are actually quite strange. Sexy and charming in public, despite your nice and sociable character, you could frustrate many of your admirers in private because of your impossibility to show deep and warm affection, emotions, tears... But appearance and reality are two different things anyway - you are a kind of a genius, or you have at least a tremendous charm with this sign. You have many friends and an active social life. If you are detached in your love life - only in this aspect, since the rest of chart will confirm it or not - this is no big deal!

With Libra as a dominant sign in your birth chart, you love to please, to charm, and to be likeable. Moreover, you are naturally inclined towards tolerance and moderation, as well as elegance and tact, as if you were meant to please! Of course, you always find malcontents who criticize your lack of authenticity or of courage and your half-heartedness, but your aim is to be liked, and in this field, you are an unrivalled champion!

Capricorn is one of your dominant signs and endows you with a grave and serious style that seems to stick to you constantly. But if you have that reserved and cold side - as some extrovert people may think - on the other hand you possess sturdy qualities: you are strong-willed and tough. Your long-term vision, your sense of duty, and your ambition are not affected by the derisory and erratic motions that seem to upset most mortals less steady than you. Besides, you are like a good wine, you age well and your natural solemnity or serious side paradoxically turns into an almost cheerful appearance, as you grow older. You are actually very sensitive when it comes to love. Faithful, caring, sweet, and sensitive, your behaviour is very different in your everyday, sentimental life. A golden heart beats under your tough and austere appearance...

Your Dominant Houses

Houses 6, 3 and 5 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

Your 6th house is quite emphasized and indicates interest in work and daily occupations that take up a lot of your time: in analogy with Virgo, this house inclines towards perfectionism and training; somehow, you may be fulfilled through the process of being useful and investing your energy in your work. An environment appealing to you may be involved - your colleagues, for example - or a passion for one of these daily occupations. Medical positions or pets may play a role in your life; or ancillary love affairs too... These are a few possibilities indicated by an important 6th house.

As the 3rd house is one of the most important houses in your chart, communication plays a major role in your life or in your deep motivations: frequent short trips, open-mindedness - which may offset a lack of mutable signs for instance - listening, discussion, interest in learning, knowledge accumulation or long-term studies, etc., are all areas that greatly appeal to you and are part of your daily life.

The 5th house is one of your dominant houses: hobbies, love life, sports, and games, including speculation and all kinds of entertainment, are fields that you actually take seriously! On a more subtle level, artistic creation as well as other forms of creation - including begetting children - could be one of your assets. You gain from taking part in leisure associations and various activity clubs in which a catchword resounds more than for most people: pleasure.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Capricorn and your Ascendant is in Leo

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

You obviously know what you want! Capricorn and Leo give the place of honour to personal and large-scale undertakings. Self-control, dignity, and sense of duty are their highly regarded qualities. Although they are often said to be as dissimilar as night and day, they both have an excellent opinion of themselves because they want to live up to people's expectations and never forget their legendary perfectionism. When you are in society, you come across as a warm and fun person, but your bombastic and pompous manners are also irritating at times. You are aware that your outward appearance does not match your Capricorn inner self, which is more oriented towards abstraction and restraint. Indeed, Saturn, ruler of your Sun sign, is the Lord of Time and endows you with patience, simplicity, and a strong inclination for asceticism, whereas the Sun, ruler of Leo, suggests generosity and all the

glamorous aspects of life. Your brilliant mask thus conceals your solitary nature which is fond of order, long-lasting qualities, and logic. Anyway, it is obvious that you are high-minded and ambitious.

You were born with the Sun in Capricorn

Psychologically speaking, your nature is introverted and cold, totally controlled and phlegmatic, at least regarding the image you project invariably. You seem unemotional and austere. Actually, due to your secondarity, you chew over your strategies or your reactions required by your environment. You are slow but very thoughtful, solid and balanced. You are as curt as you are cold and you put the entire strength of your character at the service of your huge and long-term ambition or of your detachment from earthly riches and you focus on spiritual values.

Like all the persons born under an apparently reserved and tough sign, your inner personality is often charming and gentle, as if the thick armour, forged throughout childhood, had entirely preserved the purity and the warmth of the soul imprisoned within.

As you are born under this sign, you are serious, cold, disciplined, patient, focused, thoughtful, ambitious, indomitable, cautious, lucid, persistent, provident, steady, introverted, stern, wilful, hard-working, responsible, persevering, honest, realistic, loyal, reserved, resolute, moralistic, quiet, rigorous, attached and reliable. But you may also be curt, withdrawn, calculating, petty, cruel, unpleasant, ruthless, selfish, dull, rigid, slow or sceptical.

You are courageous and rational, Madam, but you need affection and tenderness in spite of what you say. You try constantly to be reasonable and to repress the sentimental weaknesses that come up once in a while. In general, there are few amorous encounters at the beginning of your life.

But quite rapidly, you become aware that solitude is not good for your balance. You remain on the defensive, you are hurting in your shell, that convenient ivory tower where you protect yourself in all areas, except this particular one...

With an aching heart, you will finally forsake your defences and you eventually experience a few rare exceptional encounters. Among them, you will meet with your soul mate, to whom you will dedicate all your time and your love with loyalty, faithfulness, a strong sense of duty and maximal efficiency.

You will control your children's education, inculcating in them the values of effort, patience, perseverance and social rules. You will teach them that the old saying applies to them too, that slow and steady wins the race. To be early is not to be on time... but their time will come!

Your Ascendant is in Leo

Psychologically speaking, your nature is powerful and self-assured. You are a leader whose strength and nobleness naturally arouse your entourage's respect and adherence and your legitimacy is unquestioned. Your sense of commandment, the honour your person constantly exudes, your prestige and your charisma is a whole which puts you into the spotlight wherever you go.

As you are born under this sign, you are proud, determined, wilful, loyal, solemn, generous, ambitious, courageous, heroic, full of vitality, creative, confident, seductive, happy, daring, proud, majestic, honest, magnanimous, charismatic, responsible, noble, brilliant, radiant, dramatic, affectionate, full of humour,

demonstrative, swaggering and self-confident. You can also be domineering, conceited, touchy, authoritarian, stubborn, intolerant, self-centered, irascible, violent, and nonchalant

In love, Madam, you are so proud and you have so much self-confidence that, at the beginning, you will probably need some time to find the partner whom you deem worthy of you.

You shine and you need to be told so; more often than not, your partner, too, must shine... Pre-requisites seem to abound. However, as you mature, you will understand that all that glitters is not gold and that gold may be even more solid when it is less apparent. Then, you will reach higher levels of harmony with your partner.

Your weakness probably lies in your sensitivity to splits, a sort of major ordeal you will not be able to overcome rapidly.

You are a charming partner, with a lot of humour. You are brilliant, bubbling and you receive your guests wonderfully well, all the more so if they belong to your world. Your children will be particularly important to you and they will immensely contribute to your happiness.

The ruler of your chart is in Capricorn

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

In your chart, the ruler of the Ascendant is the Sun. This specific feature means that the Sun's characteristics previously delineated are strengthened.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Catherine Middleton. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Leo Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Saturn sextile Ascendant, orb 1° 5'

Saturn is in soft aspect with your Ascendant, Catherine Middleton. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

★★★★☆ Neptune trine Ascendant, orb 5° 28'

Neptune in soft aspect with your Ascendant endows you with a sharp intuition which enables you to instinctively adopt the behaviour which your entourage appreciates, Catherine Middleton. You have the natural flair which prevents you from making errors of judgment on people. You understand the crowd, and you have the good reflexes for being well-accepted by all.

★☆☆☆☆ Sun inconjunction Ascendant, orb -0° 47'

There may be a contradiction between your will and your external appearance, Catherine Middleton, which slows down your natural spontaneity and in some circumstances, gives rise to doubts regarding your behaviour towards other people and the need to be true to your own beliefs. There is certainly nothing serious with this minor dissonance between the Sun and your Ascendant, only choices that are to be made, so as to remain in harmony with yourself.

☆☆☆☆☆ Moon semi-sextile Ascendant, orb 1° 18'

Your instinct seldom misleads you, as far as your external appearance is concerned, thanks to the Moon's soft aspect with your Ascendant, Catherine Middleton. You keep your emotions under rather good control, in instinctive and smooth ways.

Your Sensitivity

Affectivity and intuition are very developed, Catherine Middleton, and you are very sensitive to your environment. You “feel” atmospheres, moods and other people's emotions and when you capture negative influences, a feeling of ill-being immediately overwhelms you, all the more so because your lively imagination may destabilize you as it amplifies your receptiveness. Your nature is anxious and you tend to worry for your entourage. You strive to offer them a reassuring family atmosphere, the much needed comforting and warm sort of cocoon where you can laze around, at will. Because you care so much for your family, they may think that you are intrusive and that you try to rule their life through subtle affective blackmail. Trust them... and also learn to have more confidence in yourself!

You are popular with your friends, Catherine Middleton. You easily shine, thanks to your sensitivity, your whimsical side, your mobility and your charm tinged with imagination. Even at work, you often win your clientele's favours, and if by chance, you are in a commercial team, you are chosen and sent ahead to deal with customers because you are so likeable!

You can happily express your emotions through shared projects - with your friends, preferably - in which you shine with selflessness and your childlike but endearing charm.

★★★★★ Sun opposite Moon, orb -0° 3'

In your chart, two polarities are clearly opposing - or complementing – each other: on the one hand, solar values, the image you project and the models you follow. On the other hand, lunar values, moments of letting-go and well being through casualness. When you commit yourself in a project, it is often to the detriment of your peace of mind. Conversely, you completely feel that you are your true self only when you are no more under the scrutiny of the outside world. Therefore, you separate your social and professional activities from your private life and you seldom match the requirements of the former with those of the latter. It may be a hurdle, a fundamental anxiety. It may also be an obvious asset, when it is well integrated: in that case, you succeed in assigning to yourself, and in fulfilling, objectives that are not necessarily in line with your intimate natural demands, which are preserved and separated from your intentions, your ambitions and your expectations. Thus, a strong will can turn this Sun-Moon hard aspect into a rich instrument for creativity. A shadow zone, or uncertainty, still remains: on the affective plane, you are very sensitive. May be too much, to the extent that you become vulnerable in many circumstances. Because in different periods of your life, your landmarks (solar) and your intimate balance (lunar) will be simultaneously challenged.

★★★☆☆ Moon square Saturn, orb 3° 08'

When this aspect is not well integrated, there is no feeling of integration and security. You feel that you are not understood or even, that you are rejected. It is difficult for you to find inner peace and tranquillity. You lack the quietness and the primordial confidence that would allow you to lay back and to be carried away and pampered by life. This configuration indicates questionings and doubts regarding the unconditional affection that each individual longs for. You do not trust the world. You tend to dismiss social models, as well as your close friends' attachment and tenderness, probably because you need to test them and to get the feeling of being loved that you naturally lack. It would be a mistake not to see that you desperately need affection. You are particularly vulnerable to relationship flaws and you strive to find the gestures of love that would allow you to let go and to be nurtured by life. In such a context, the sincerity you display, as you give or refuse your trust, is highly commendable.

★★★★★ Moon sesqui-quadrate Uranus, orb -0° 33'

The Moon and Uranus intrinsically share little in common: they get along as well as fire and water! It is difficult for you to reconcile your desire for well being and intimacy with your destiny's dazzling passions and thunderbolts. You may feel that your intimate and family realm hampers your freedom. There is a potential for crises, explosions or splits. The desire for independence does not get on well with security concerns. There may be strong temptations endangering your very life foundations and you may embark upon a liberating and personal adventure. However, you fear rash decisions. Your need for security may temper your impulses and put a brake on your individualistic aspirations. To harmonize these tendencies within your intimate life, you must leave yourself enough room for personal expression or for an activity of your own. Otherwise, as days go by, built-up tensions may jeopardize the quiet course of your life.

Your Affectivity

In your chart, the Sun is in Capricorn and Venus, in Aquarius. This configuration opposes two idealisms. For the Sun in Capricorn, love needs to be built, protected and perpetuated... For Venus in Aquarius, love is constantly evolving and desire stems from the promise of an emotion that is yet to come. This configuration is traditionally considered to be of a cerebral nature. Intellectual pursuits, fraternal exchanges and closeness are important components. The balance is certainly fragile but it is so exciting... Venus in Aquarius does not want the relationship to stiffen, whereas the Sun in Capricorn strives to maintain it as it is. What seems assimilated once for all is yet to be reinvented. These signs are either complementary or opposite. Your desires may contradict your aims and upset your beliefs. Or Capricorn's prevailing values may dismiss all unexpected events. It may also be that Venus in Aquarius, attracted by new prospects, upsets the structured world of the Sun in Capricorn. Your affective balance is based on challenges. These two signs may succeed in their quest for the absolute. You are rightly seen as an idealist. Indeed, is there anything more beautiful than ideals?

In love, you are more cerebral and friendly than really passionate, Catherine Middleton. You are made for amorous friendships, for refined and light feelings where each partner retains one's freedom, and almost detachment, without getting really committed. Sometimes, you may be distant from, and indifferent to, love matters for a while, because you can be completely engrossed in original intellectual pursuits and the collective atmosphere which you are so fond of. You substitute a great number of friendly and light contacts to amorous relationships and it is fair to say that they satisfy you. To fall in love, you need spice and a partner who is original, who amazes you and whom you admire; under such conditions, you can freely express your feelings in an ambiance devoid of constraint, where freedom is perfectly respected and shared within the couple.

Catherine Middleton, the position of your Venus is quite particular in the sense that the nature of the planet does not blend easily with the house symbolism. Indeed, Venus deals with feelings and the absence of limitations and control, whereas the 6th house deals with constraints, daily life and work, lifestyle, subjection and service rendered to others: as a consequence, feelings are associated with a framework or with obligations, but this is not necessarily disturbing. More often than not, you meet your spouse or your romantic partner in a setting related to work, an association, or a specific occupation (leisure or rather common work project, etc.). It seems that, for you, such contexts can more easily lift the inhibition or the natural restriction produced by this house-planet combination. Besides, it is commonly believed that amorous adventures with servants (i.e. with subordinate or "socially inferior" persons), or with colleagues, are very much favoured by this configuration. In addition, if no adverse

aspect affects Venus in the 6th house, your daily life is entertaining, you appreciate your work, you easily combine business with pleasure, experiencing nice encounters and discovering constantly renewed and enthralling centres of interest. Most of the time, you can count on the favour, the dedication and the esteem of your colleagues, particularly women. Therefore, it is in your interest to work. You are one of those rare persons who approach work as a daily pleasure and never as a constraint because you probably know how to aim at what you like. Just beware not to fall in love too often in this context !

★★★★★ Mercury conjunction Venus, orb 0° 59'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitise to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

★★★★★ Venus square Jupiter, orb -0° 03'

This Venus-Jupiter dissonance indicates a strong will to seduce. However, there may be discrepancies between your words and your actions, as well as between your behaviour and your instinctive reactions. You may be carried away by a maelstrom of emotions, feelings and pleasures and you do not consider the possible consequences of your superficial attitude. Therefore, the apparent state of grace may turn into delusion. Proprieties and necessities of the moment forbid you to experience your desires. What you deem reasonable does not suit your heart's impulses. What a dilemma... Hopefully, as time goes by, you may reconcile your desires, your life patterns and the reasons of your heart with those of your mind.

★★★★★ Venus trine Mars, orb -3° 14'

With this aspect, innate affective behaviours prevail over opportunism and calculations. You do not cheat with feelings and you prefer to be guided by your likes ... or your dislikes. Love is neither to be reasoned upon nor to be explained. It is important to experience one's passions spontaneously and to give free rein to the heart's tumultuous manifestations as well as to the body's demands. In other words, to be one's true self in the "now". You need to live intensely, to try all kinds of situations, sometimes to get hurt. Your sensitivity is the driving force behind your decisions and your actions. Real experiences are worth the best intellectual concepts. Spurred by your thirst for emotions, you try to build your life on bases that match your desires. Here, the trap may be that you pay too much attention to your moods and affects. But without them, life would be so dull. Even though emotionalism betrays you occasionally, it remains your best ally.

★★★★★ Venus sextile Uranus, orb 4° 05'

Your charm lies in the originality of your approach to love and in your uncompromising attitudes. Your motto? Freedom of love, whatever the price! Should your sentimental life become dull, you find a solution: you are romantic and you reinvent your couple's life, you give a new and unexpected momentum to your emotions. You create the kind sharpness that contributes to your exceptional affective life. You do not fear love at first sight or blazing passions. On the affective plane, you know where you are heading for, whom you love ... or love not. There is an indisputable intransigence. The

heart impulses are irrevocable and implacable. You dream of a sentimental life that fulfils your aspirations and you use all possible means to achieve your ideal. Even though you may have to make the necessary sacrifices.

The Way You Take Action and Your Sexuality

No one can say that you are particularly aggressive, Catherine Middleton! Actually, it takes a great deal for you to become able to express your anger because you belong to the wavering type and you are not prone to risk-taking; you loathe violence and you would rather not intervene than start a conflict. Moderation and the happy medium in all things are your favourites. One of the only areas that makes you wage war is injustice, whether you are the one who is stricken or whether it is someone who is helpless. In this particular field, as in that of sexuality, you are not impulsive and you appreciate it very much when your partner shows the way, preferably with much serenity and gentleness. Actually, the form and characteristics of your sexuality depend on the rest of your personality.

Your entourage becomes quickly aware of your liveliness and of... your contentious and witty mind, Catherine Middleton. Your energy efficiently focuses on communication, writing, verbal jousting, speeches, etc. but also on the numerous short trips you make to meet with people.

For you, to take action means to communicate, to convince, to accumulate contacts and, somehow, to assert yourself as you hold sway over your entourage. You may be restless. You think that communication is the basis of any progress and that it is much more useful than any direct initiative: in your opinion, if people are convinced, everything else always follows naturally.

Your siblings, if you have any, have probably felt the warrior hint in the way you communicate. As you mature, you may learn to tone down your manners as soon as someone is around...

Your Intellect and Your Communication Style

You are a “free-thinker”, Catherine Middleton, and you tackle problems with a swift and efficient mind. Freedom, progress and originality are your driving forces. You are resolutely future-oriented and with ingenuity and inventiveness, you reform what is outgrown and you constantly innovate: psychology, computer sciences, new technologies... have almost no secret for you. Your human and idealist qualities are obvious, you are a very pleasant and interesting interlocutor, even though your rebellious and revolutionary side may be criticized. Indeed, you seem to be driven by a strong argumentativeness: you seldom share your friends' views and, although you may come across as obstinate, intransigent and unpleasant, you do not hesitate to speak the truth! Instead of causing sudden break-ups with your friends, it is advisable that you express your creative potential more persistently whenever your nervous tension is too high.

It is at work that you can release your mental power full steam ahead, Catherine Middleton. What's the point of racking one's brains if it's not to show one's professional value, to climb the social ladder, to earn one's colleagues' esteem, and to improve oneself every day. You adjust very well to your work environment or at least, this is one of your main concerns.

Your intelligence is rather practical or concrete and you are often interested in health and sometimes in pets, and you are very keen to turn each day into a source of intellectual stimulation.

★★★★★ Mercury square Jupiter, orb -1° 02'

You play with social norms and you scoff at them. Your morality is seldom questioned: you adopt the most rewarding behaviour, precisely the one that wins you your entourage's consideration. But you sometimes cheat. You are an opportunist and you act according to circumstances, particularly because your moral stand is only a superficial mask. You enjoy concealing your beliefs: life is a social game and you change its rules to suit your convenience. Your flexibility and your adaptation abilities are appreciated. However, it is important that you do not behave inconsistently. A stable and transparent course of conduct may help you avoid many pitfalls or delusions. Beware of words spoken thoughtlessly, of empty promises, and do stick to your indisputable cleverness.

★★★★★ Mercury trine Mars, orb -4° 13'

This harmonic Mercury-Mars aspect is the signature of a quick wit and an energetic character. You take decisions rapidly and you implement them straight away. You never accept stiff situations. You need to design, to take action, to fight to express your acute sense of relation: the world, the people, everything is of concern to you... You need to be involved in relationships and in dialogues. Your sharp retorts earn you a reputation of straightforwardness. On the relations' area, your quick wit and your mobility are greatly appreciated. You find the allies and partners you need at the right time. An art of resourcefulness that is precious...

★★★★★ Mercury sextile Uranus, orb 3° 06'

Your state of mind is innovative and turns the surrounding world into a constantly moving field of experiences. You ask relevant questions ... and you answer them. Although you are flexible when you ought to, your principles and your beliefs are unwavering. It seems difficult to catch you off your guard. You multiply observations, relationships, contacts and you never lose face: actually, your mobility hides an unshakable determination and a deep lucidity. In a split second, you are able to catch the useful information or the enriching relationship. The original and fanciful steps you take exclude monotony. Your approach to life is amazing!

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 5th House

Catherine Middleton, your main motivations and your will lead you towards activities related to creation or to the outwards expression of yourself. It may take the form of the mobilization of your energy aiming at artistic, literary or technical creations and works, innovative projects design, or symbolically, projecting yourself into your descendants: creation via procreation...

You are usually very sociable, warm, honest and straightforward, but sometimes inflexible and you are interested in leisure under all its forms. Love pleasures, firstly, but also outings, parties, games (gambling and other amusements), and all kinds of activities containing a part of risk that can increase your adrenalin level! You loathe anything that is too solemn and too serious in general and you prefer the authenticity of the present to intellectual meditations that seem too static to you.

Your will to please is very strong and you can shine in the love area. Since the recreational world is linked to that of children, you easily deal with them. When you become a mother, one of your major goals is to dedicate yourself to their success. You are able to dedicate an amazing amount of time to their education and you succeed in that field better than anyone. Besides, you have the knack with children and everyone envy you!

One never gets bored in your company and you have loads of hobbies and occupations that are out of the ordinary. You are creative and playful, to a point that may border on fanaticism. Try to avoid role-plays or casinos that take up so much of your time... Be also wary not to surround yourself with sad or austere people who may not find you serious enough!

You spend too much energy in entertainment activities and you may lose sight of your real interests. If you listen to your instinct rather than to your reason, you take the risk of missing a few dates with your own success: you must sometimes put fun aside and force yourself into solemnity, in order to become more efficient and to achieve your goals more quickly. It is also likely that you face problems within the circle of your friends.

The ruler of your chart is in the 5th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your Ascendant is in the same House as your Sun. This specific feature of your chart strengthens the Sun's characteristics previously delineated.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Jupiter opposite Midheaven, orb $-1^{\circ} 58'$

As Jupiter, the most beneficial planet of the Zodiac, makes an opposition to your Midheaven, he also makes a conjunction with the opposite angle, the Imum Coeli which represents your family, your home, and your roots. Therefore, it is not correct to talk about a dissonance, strictly speaking. It does not indicate that your social ascent is slowed down, at least, not directly. It is more that you have a certain amount of good luck in the opposite area, meaning your domestic and family spheres. You feel more comfortable in your "home, sweet home" than in society, and you are more sociable or more blossoming when you feel in security with your close friends, in your territory. Indirectly, you may feel that there is a discrepancy between the success of your career and the fulfilment of your family life.

★★★★★ Mercury square Midheaven, orb $-0^{\circ} 56'$

You are not pleased with the way you intellectually approach your professional goals, or simply your destiny. Because of this mild dissonance between Mercury and your Midheaven, in some circumstances, your communication style is tainted with a few hesitations or clumsinesses. There is nothing serious to worry about, and it is up to you to gradually build self-confidence through the study and mastering of your projects.

★★★★★ Venus square Midheaven, orb -1° 55'

Venus is in slight dissonance with your Midheaven, Catherine Middleton. There is nothing really serious with this type of configuration, except that in some circumstances, you feel that your natural kindness is not acknowledged rapidly enough, or that it is not as appreciated as it should. It may happen that a female, or the fair sex in general, does not correctly understand you, or that she acts against your interests. There are usually no negative consequences since Venus is not a "harsh" planet. It is up to you to put in the effort to better show your sincerity and to avoid any misunderstanding.

★★★★★ Sun square Saturn, orb -2° 38'

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

★★★★★ Sun quintile Jupiter, orb -0° 04'

This harmonious Sun-Jupiter aspect indicates an optimistic background that usually wins the entourage's adherence. It also suggests ambition and generosity and favours social integration and success. The desire to earn general consideration prompts you to display energy, joviality and benevolence. However, opportunism may be the other side of the coin. As you strive to win everyone's esteem, you may fall into disrepute. It is important that you remain clear-sighted so as to persistently pursue your long-term aims without believing that you should always « grab each and every opportunity ». However, this aspect remains an element of success because it allows you to adjust your objectives to the context, to whatever the situation offers or, on the contrary, to force your way through events and to achieve your ideals.

★★★★★ Pluto opposite Midheaven, orb -8° 28'

Pluto is in opposition to your Midheaven, Catherine Middleton. Strictly speaking, this is not a dissonance since at the same time, Pluto is in conjunction with your Imum Coeli which symbolises your roots, the home where you were born, childhood, and your family. This configuration may indicate that transformations and upheavals affecting your career are finally less important to you than those occurring in your home, or at least, that values associated with the place where you dwell, or your family, are particularly sensitive and important to you. Since Pluto is a collective planet, you usually "undergo" removals more than you choose them.

★★★★★ Sun semi-square Uranus, orb 1° 04'

This Sun-Uranus dissonance indicates a dazzling will to be the centre of attention and to proclaim your specificity, by all means. This aspect belongs to the rebel and the revolutionary restive to all forms of authority and of model. To balance this interpretation, the strong need for autonomy bordering on frenzied individualism must be highlighted. You allow nothing or no one to hinder your chosen line of conduct. Obviously, your attitudes are inflexible. You prefer to continue to the bitter end, even when you are wrong, rather than to be more open to people's ideas. Tyrannical attitudes often turn against the perpetrator... However, this configuration is a powerful agent for creativity, provided your hothead and

extremist nature is kept under control.

★★★★★ Uranus inconjunction Midheaven, orb 2° 1'

Uranus is in hard aspect with your Midheaven, Catherine Middleton. There is definitely nothing serious to worry about. There may be a lack of perseverance in the efforts you put in order to move forward in your career or your social destiny. When unexpected hurdles crop up, more than anyone else, you must accept the unavoidable changes without losing sight of your aims, and above all, without getting disheartened. More than anyone, you must learn to accept the values of time and duration, if you are to reap their fruits.

★★★★★ Sun square Pluto, orb -7° 36'

You are dealing with both sides of the coin. People are mistaken when they think that they know you well, because the image you project does not necessarily depict what you really are. You may look like any given model, whereas you actually consider social values to be empty and childish. Deep down, you are an anti-establishment person and you do not belong to the world and its laws. Or, on the contrary, you may project a more marginalized image and make it a point of honour to literally stick to your aspirations' ethics. You do not know who you are really, and where you stand. You may choose some sort of marginality, the adherence to another realm and a different scale of values. Unless you choose a life that apparently lives up to the expectations of others. In that case, you preserve a corner for your private secrets, with no norms, no fashion concerns, relationships off the beaten tracks, passions very removed from conventions. Your attitudes may seem paradoxical as you shift from commitment to refusal and from involvement to withdrawal.

★★★★★ Moon quintile Midheaven, orb 1° 23'

Your sensitivity and your emotions are in line with your goal and your ambitions, Catherine Middleton. You do not need to curb your temper lest other people have a wrong perception of you. Indeed, by being your true self, very simply, your social ascent will unfold naturally.

Your Assets and Your Part of Joviality

The present of the planet of Greater Fortune to you Catherine Middleton, is the gift for investigation, the taste for mysteries and... the capacity to solve them. Your emotions are amplified and prompt you to take your actions to the end, without fear or restraint. You also have the talent to cleverly manage your financial investments. According to the Tradition, sexuality and sensuality are equally balanced with this lucky configuration. So enjoy and be happy!

Oh! The family! It is of utmost importance to you, Catherine Middleton, and you are happy there. Besides, the planet of Greater Fortune here gives you all the assets you need to successfully build a harmonious, secure and comfortable home. Your private life is favoured. You feel naturally attracted by the areas dealing with soil, stones and real estates.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the

Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Scorpio strengthens your emotional realm and your instinctive capacity to have more lasting and deeper feelings. Your sensuality and your sexuality are favoured by this configuration. You may enjoy strokes of luck in the areas of finance, speculations, investments and inheritances. More than anyone, you can deal with mysteries and anything linked to the unknown.

Your Serious Side

Your sense of justice and your moral rigour slowly grow in importance. You are a very serious and responsible partner.

Impersonal detachment or cold-looking demeanours may hamper your communications, Catherine Middleton, although they increase your concentration, your patience, and your ability to study and to accumulate knowledge. As far as your entourage is concerned, quality prevails over quantity, and you can easily alternate agitated and eventful periods with periods of solitude.

Your challenge is certainly to make an effort in order to be less demanding from people and to keep a minimal number of relations. Nobody is perfect, and neither are you! Pay attention to people's qualities and forget their flaws, for they should not prevent you from enjoying their company.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Libra gives you a serious and solemn nature. You may be tough in your contacts: you naturally focus on the essential and you have no concern for the charm you could display. You are irritated by flatteries or by thoughtless compromises. You are genuine and you value justice and authenticity.

A Few Special Points

Your Uniqueness and Your Utopias

As a general rule, at the end of your childhood, you quickly leave your parents' home because your thirst for independence is incompatible with a quiet life with your parents; in other cases, the atmosphere in your family is quite extravagant, even chaotic, and it is difficult for you to become stabilized, to feel secure, even though you need it for your balance. You are craving for it and this is what prompts you to leave your roots, sooner or later.

You are prone to unexpected home moves. Paradoxically enough, it seems that, as soon as you achieve stability, something makes you itch. You may be too sensitive, and when tense situations emerge, you feel an irresistible need for change. The best way to handle these problems may be that you, yourself, organize your instability at home, for instance through extensive outings or trips. In any case, you should manage to create the impression that you are not in the same place for too long.

The stages of your life unfold without continuity as if there was a rupture between each successive environment created as time goes by. The past disappears quite abruptly and allows you to grow faster. It is up to you to find some stability or some security elsewhere!

Your Inspiration and Your Illusions

This pleasant combination may magnify your love affairs and your creativity and give them a romantic and whimsical side. If you are an artist, you often feel inspired and carried away by love and emotional impulses.

This area of your life is intense and, as a consequence, you are more vulnerable than other people. It is up to you to sort out among your positive, creative impressions on the one hand, and your out-of-proportion reactions caused by frustrating events, on the other hand.

You must know that you are exposed to love delusions. However, you are also entitled to the best part of love, when all is well.

In the fields of entertainment and relations with children, you are quite easily influenced and you follow your intuition more than your rational mind; rather emotion all on edge than reason...

Your Passion and Your Authority

Your mind is particularly clear-sighted and, if you are so inclined, you can show creativity in literature because your vision is extremely deep and intuitive.

Your clear-sightedness may be a source of troubles within your entourage or your siblings. Indeed, your penetrating mind may prompt you to say things that you should never utter. You may also show a form of authority that lacks diplomacy when you deal with others.

Your short trips may be surrounded with mystery. In a few rare instances, they may bring about turmoil or on the contrary, happy disruptions.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unsuspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unsuspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unsuspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Catherine Middleton, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Catherine Middleton, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Catherine Middleton, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Western hemisphere of your chart means that you are quite flexible, capable of empathy, convivial and communicative. An excellent factor for many professional activities or for your social or sentimental life for example.

A definite asset... provided that you are not at the centre of the decisions you must take in your life: you may be tempted to listen to the last person who spoke, and your flexibility won't always get you out of the tight spot. You are therefore advised to learn to decide alone and to cope with the consequences of your actions with courage and without regrets. This attitude will allow you to combine flexibility and action, adaptability and absence of hesitation.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Catherine Middleton: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Cadent houses, namely the 3rd, 6th, 9th and 12th houses, are very emphasized in your chart, Catherine

Middleton. They indicate important potential for communication, adaptability and flexibility. These houses are symbolically linked to the mind and intellect. The relative weakness implied by these characteristics indicates your tendency to hesitate or to be indecisive, but also your remarkable ability to start off again, which is a nice quality, finally: you can easily get yourself out of a tight spot thanks to your mobility and casualness, in the best sense of the term. This group of houses corresponds to evolutionary characteristics of your personality. However, they are only indications and you must include them in the rest of your chart in order to see whether they are validated or not!

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The first decanate, which means the part between 0° and 10° of any zodiacal sign, prevails in your natal chart, Catherine Middleton: this decanate is traditionally linked to vitality and physical constitution, and may indicate that you efficiently express your concrete energy on the material and sensual planes.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your entourage respects your manner: you belong to the category of persons who arouse their close friends' consideration because of their straightforward, sometimes rigid attitude. The concern that you must "maintain your rank" may increase the severity of your judgments and lead to intransigence. You are sensitive to the prestige of your social standing and you show an acute sense of responsibilities since your youth. You become an adult early in life and you always avoid dependency. Your life's challenge is to learn to handle your intimate and family life as well as you manage your career. In the private sphere, you may undergo difficulties: you are a real loner and you turn down any help and affection offered by your entourage. You deny yourself the sweetness of a comfortable and reassuring home. However, as time goes by, you will overcome your reluctance and you will allow what you most value, deep down: love and tenderness to blossom within a privileged relationship, within a family...

Your doings indicate the challenge to dedicate an important part of yourself to devotion and abnegation. Life imposes a few sacrifices on you, whether agreed upon (and voluntarily taken up) or imposed by daily vagaries. Very early you showed a sharp critical sense and your attitudes were rational, logical and reasonable, although individualistic. As time goes by, you learn to make concessions and to offer an essential part of yourself so as to outgrow the "every man for himself" principle. Ordeals are meaningful: people may not respond to your games and your entourage may thwart your plans and your ambitions... You may need to achieve the "old souls" detachment, those beings who have learnt that only essentials are to be kept – inner life or survival- and who know that this world "petty things" are vain. Better than anyone else, you cope with situations of crisis because, whatever the circumstances, there is a hidden spiritual dimension and a springboard for evolution. You will slowly get to know the art of accepting things without going back on what you have said or done. Compassion and altruism become the central theme of your life.

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

The notion of freedom takes a special meaning: to be free does not only mean being able to move as you please here and there, nor does it mean having a few hours of leisure available. Above all, it means being able to lead a spiritual quest, to access a different dimension in life: to encounter, to travel, to love and to never be hampered by contingencies, never be slowed down by daily life. That'll take some doing! The comfortable routine of the contemporary world, in this regard, puts you off.

One of the main drives of your life is your rejection of mediocrity: the intention is commendable although it is two-edged. You attach so much importance to charisma that you may reject a person whom you deem – wrongly – unworthy of your esteem! If you avoid this trap, the requirements that you demand from yourself as well as from your close friends become an exceptional springboard for evolution.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 7th house: you need the presence of the other one (whether the object of your desire, your husband or your partner), as the indispensable mirror of your life. You are in search of privileged contacts, of fusion and harmony. At each step of your life, there is an important relationship that is always experienced with intensity and in an absolute manner, regardless of its positive or negative consequences. Like all the persons born shortly after the full moon, you are particularly interested in the relationship with your loved one, your double and your model.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Venus retrograding in your natal chart emphasizes love: how did you see yourself when you were a child? You need to accept your identity if you are to fully experience love. As years go by, you learn to better accept your specificities, to open up and to love... What caused your affective problems during adolescence is slowly fading away. There still is a particularly acute sensitivity regarding the affection you receive: a couple relationship needs time to blossom and it is never perfect right from the start. Your problem is that you hardly take a laid-back attitude. Until you are reassured by the attachment of your

loved one, you cannot easily express your desires. Wrongly or rightly, you feel that you lacked affection during your childhood. Your sentimental balance will be all the more satisfactory as you endeavour to pour out love and tenderness, passion and dedication. You will then respect your own affective patterns and you will arouse the attention that you so badly lacked.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
