Christina Applegate's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have

absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Christina Applegate, the nocturnal North-western quadrant, consisting of the 4th, 5th and 6th houses, prevails in your chart: this sector favours creativity, conception and some sort of specialization or training, with helpfulness and relations as strong components. You need others' cooperation in order to work properly, although you are not very expansive: creating, innovating and thinking are what matter most to you because this self-expression enriches you and totally satisfies you.

Your Dominant Modes and Elements

Christina Applegate, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Christina Applegate, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

The predominance of Water signs indicates high sensitivity and elevation through feelings, Christina Applegate. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

Earth qualities are under-represented in your chart, with only 0.00% instead of the average 25%. Deficiency in Earth may indicate that you have no interest in material and concrete values. It is likely that you live too much in your heart or in your mind, or even in your enthusiasm! The fact remains that you may end up in tricky situations, due to your lack of good sense or forethought: material life is unavoidable even if you are rather idealistic, dreamy, or easily content. You must tackle concrete life necessities, for fear of... being forced to cope with them, later, in much more unpleasant ways!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Mutable mode is the most emphasized one in your natal chart, Christina Applegate, which indicates a mobile character that is curious and thirsty for new experiences and evolution. You are lively and flexible, and you like to react quickly to solicitations, but don't confuse mobility with agitation, since this is the danger with this configuration - and with you, stagnation is out of the question. Security doesn't matter as long as you are not bored. You optimize, you change things, you change yourself... all this in a speedy way.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Christina Applegate, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Jupiter, Mercury and the Moon.

Jupiter, the planet of expansion, organization, power and benevolence, is quite emphasized in your chart. Like any Jupiterian, you are warm, open, sociable, consensual, active and optimistic. You can use your self-confidence to erase differences of opinion, and you leave the task of analyzing and perfecting things to specialists. Your role, and you know it since you were young, is to gather, to demonstrate your synthesizing and conciliatory mind, and to naturally reap its fruits - power.

You appreciate legality, social order but also order in general. With you as a leader, every plan or human entity can be organized and structured. You excel at supervising. The Jupiterian type is indeed the politician par excellence, and a positive Jupiter in your chart is synonymous with good integration into society, whatever the chosen path.

Is this idyllic picture really perfect? Certainly not: each planet's typology has its own weaknesses. One of yours is pride, like the Solarian, but your will of expansion at all costs may generate a form of exaggeration in everything, endless pleasure, inappropriate self-confidence that could lead you to rough materialism and the thirst for absurd material comfort - in the worst cases, of course.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive,

and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total self-control.

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Sagittarius, Pisces and Gemini. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Sagittarius, an adventurous and conquering fire sign, is dominant in your chart: you are enthusiastic, enterprising, optimistic, very sociable, and mobile - you have itchy feet both physically and mentally. Nobody gets bored with you because you are always planning things and suggesting excursions, at least... when you are around and not already gone on a trip! Obviously, so many movements for one woman may scare people off, and some of them may even criticize your brutality or your tendency to loose your temper, but you are so warm and genuine, so expansive, isn't this a good thing? And all the more so, since your sense of humour is overwhelming...

Pisces is among your dominant signs and endows your personality with unlimited sources of emotions, dreams, imagination, and sensitivity, to the extent that you literally swim in a cloudy ocean of delightful impressions. These impressions are so intense and overwhelming that you don't really need to take action concretely, to show your dynamism or your willpower, since you already live so intensely with your feelings - you are as keen as a radar, always on the alert! That is why some people may not like your

carelessness, and the lack of clarity in your opinions or actions; however they quickly notice your artistic talents, your poetic or artistic side, and your total lack of wickedness. Besides, you feel compassion for people in pain - empathy is one of your great qualities. Thanks to your flexibility, your intuition, and your generosity, you may spend an important part of your life helping others. And if you are creative or if you have well-known artistic talents, everybody will forgive your little flaws: absent-mindedness, lack of energy or of will, too dreamy temperament...

With Gemini as a dominant sign, your qualities include being lively, curious, mobile, clever, and flexible: you often make others dizzy, and you may come across as a dilettante - a bit inquisitive, shallow, and insensitive because you may be too intellectualizing. However, your natural curiosity, a nice quality, and your quick humour, allow you to demonstrate to everyone how much they may gain from your company, and that your apparent flightiness hides an appetite (particularly mental) for life, which itself conceals a terrific charm!

Your Dominant Houses

Houses 6, 10 and 7 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

Your 6th house is quite emphasized and indicates interest in work and daily occupations that take up a lot of your time: in analogy with Virgo, this house inclines towards perfectionism and training; somehow, you may be fulfilled through the process of being useful and investing your energy in your work. An environment appealing to you may be involved - your colleagues, for example - or a passion for one of these daily occupations. Medical positions or pets may play a role in your life; or ancillary love affairs too... These are a few possibilities indicated by an important 6th house.

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

Your 7th house is one of your dominant houses: it symbolizes other people, marriages, associations, contracts, and partnerships. Your personal achievement and maybe your problems - depending on the rest of your chart - are strongly influenced by your rapports with others, the area in which you tend to commit yourself deeply. You appreciate communication, and you give importance to others' opinions. Success requires the support of others, which seems obvious and natural to you. Your marriage generally contributes to your fulfilment.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Sagittarius and your Ascendant is in Gemini

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

Your Sun sign and your Ascendant sign are of Dual and Mutable nature, which gives you a strong inclination for travels and an avid curiosity for the outer world, which you are eager to discover without considering its potential dangers... You are not really scheming, on the contrary, you are an opportunist in the good sense of the term, and you jump at every opportunity offered to discover people and to put forward your very eclectic opinions and tastes. Although you may come across as a superficial person owing to your Gemini Ascendant, you actually seek the true meaning of your life, and you value meaningful interpersonal relations. You are torn between the pleasure to glean pieces of information here and there and the need to organise what seems to be a Babel Tower resulting from your comings and goings. You enjoy amassing encyclopaedic knowledge, but you find it hard to be selective and to display

moderation. You are quick and communicative, and you are sometimes criticised – rightly or wrongly – for your lack of genuineness and seriousness. What is obvious is that you never let pessimism and moral inflexibility overwhelm you!

You were born with the Sun in Sagittarius

Psychologically speaking, your nature is extroverted and independent, oriented towards expansion and sociability. You have the soul of a leader, energetic and active. Your charisma and your drive are fully integrated into the collective life. Indeed, as an action-oriented fire sign, you challenge yourself and you succeed in accomplishing the task straight away. Sagittarius is hard to follow because his spirit and his independent mind constantly prompt him to go further and higher.

As you are born under this sign, you are charismatic, fiery, energetic, likeable, benevolent, tidy, jovial, optimistic, extroverted, amusing, straightforward, demonstrative, charming, independent, adventurous, straightforward, bold, exuberant, freedom-loving. But you may also be irascible, selfish, authoritarian, inconsistent, unfaithful, brutal, unreliable, reckless, tactless or unpleasant.

In love, Madam, you are a whirlwind made of life and warmth. You are mobile, cheerful, extroverted, always feeling comfortable and dynamic, a freedom-lover who appreciates variety. Had you not been so sane and so benevolent, you would have been mistaken for an Amazon of the mythological era.

You are pleasant to deal with, as long as your partner accepts your desire to constantly move. You are not fussy, you are lively, with numerous centres of interest. You often take the initiative in your amorous encounters that are likely to take place during your holidays or business trips. With you, no tragedies, no complication no questioning! You fully enjoy the present moment when you are around, unless you are already in your plane, flying towards new adventures...

Once you calm down, you will be a wonderful wife and mother. You will set up a home and start a family where your husband and your children will move with you as often as possible during school holidays. You may also move into a different city or a different country, because of professional changes.

Because Sagittarius is a dual sign, it may happen that you marry more than once, if your needs for freedom and mobility, which are so important to you, are not fully met.

Your Ascendant is in Gemini

Your mobility is such that you are in every place where you are not expected. You spend lots of time asking questions and... answering them. Your curiosity and your quick-wittedness are insatiable. Your mind is in constant turmoil, hopping from one topic to another, solving problems, accumulating anecdotes and knowledge within a short range of time. Your mobility is mostly mental, it takes you afar and turns your daily life into a mosaic of intense and pleasant moments that are not necessarily related to one another...

As you are born under this sign, you are nervous, expressive, lively and adaptable, with a quick mind and a good sense of humour. You are bubbling, playful, sociable, clever, curious, whimsical, independent, intellectual, flexible, ingenious, fanciful, imaginative, charming, cerebral, and you are into everything. You may also be whimsical, unfocused, quirky, superficial, indiscreet, opportunist, unmindful, selfish, sarcastic or mercurial.

In love, Madam, you are full of intelligence and liveliness. You are so subtle, so whimsical, that you could be seen as a “teaser” because you can seduce in any situation. The more complex they are, the more numerous the contacts, the better.

Among all the Zodiacal signs, you are the outstanding one who can “manage” several simultaneous love affairs. It is not a matter of vice, but only of voluptuous pleasure of the instant. If they do not take place at the same time, your amorous encounters may be short-lived. But their number is very considerable because you constantly want to keep boredom and monotony at bay and you frantically run away from any source of peace and calm.

You will probably marry more than once. For you, the Sun symbolizes first the father then the husband: Gemini being a double sign, and your father being unique, it is likely that you will have two or more husbands. However, this is not a fatality and the rest of your chart can easily tell you more.

The ruler of your chart is in Sagittarius

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of your Ascendant is in the same sign as your Sun. This specific feature means that the Sun's characteristics in sign previously delineated are strengthened.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Christina Applegate. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Gemini Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Mercury opposite Ascendant, orb -4° 54'

With Mercury in opposition to your Ascendant, your sense of communication is usually expressed cleverly, Christina Applegate. Indeed, any opposition to the Ascendant is at the same time a conjunction with the Descendant which symbolises "the other people", relationships, contracts, and associations. Therefore, your tendency is to use your intellect and your interpersonal skills in order to be understood by other people, more than to be your "natural" and true self. It is as if you have chosen your camp: in your daily behaviour, you seem to prefer to adjust to people rather than to express personal views.

★★★★☆ Uranus trine Ascendant, orb -3° 08'

Uranus is in soft aspect with your Ascendant, Christina Applegate. Although your behaviour is original, nonconformist, and free, it is not unpleasant. On the contrary, this facet of your personality is sometimes considered by other people as endearing and unpredictable, in the good sense of the word. One never gets bored in your company because you are often found where you are not expected, whether regarding your ideas, your lifestyle or the way you react. You possess the charm independent and free persons are endowed with!

★★★★★ Jupiter opposite Ascendant, orb -5° 42'

In astrology, Jupiter is the planet of greater fortune. He is in opposition to your Ascendant, Christina Applegate. However, he is also in conjunction with the opposite angle, the Descendant, which symbolises your rapport with other people. So, we are not dealing here with a dissonance, but with assets for your communication skill, and a form of natural benevolence which arouses sympathy. Although your behaviour is somehow oriented towards other people, and therefore not the direct expression of yourself, owing to this Jovian facet, your manner is lenient, understanding, and optimistic, which is usually appreciated and offers you many satisfactions in the area of partnership, and harmony in your marriage.

★★★★★ Venus opposite Ascendant, orb -6° 15'

Venus is in opposition to your Ascendant, Christina Applegate. This configuration is not dissonant, since it is at the same time a conjunction with the Descendant which symbolises your relationship with other people. You need to charm and to be sincerely loved, even though there may be a small gap in the way you would behave, had other people not been around. You definitely like to charm, even though to do so, you must go a bit out of your way. What seems important to you, finally, is to use this special facet indicated by Venus on the Descendant in order to earn your entourage's warm and sympathetic approval, although it requires a little effort from your part.

Your Sensitivity

Your sensitivity is all on edge, Christina Applegate, and your emotions so deep, your imagination, so lively, that you are often found in the sweet realm of dreams. You create your own fantastical world with entangled fragments of current reality, romantic souvenirs and hidden hopes. Your receptiveness is so intense that it may border on mediumship or, more disturbing and rare, you may have hallucinations. Your character fluctuates according to the stimulation of the moment but in general, you are a nice person, full of gentleness and romanticism, always ready to understand and to dedicate yourself. You have real healing powers, would it be only through your ability to instinctively understand other people's sufferings. Your affective structures can be likened to a roving radar. You are vulnerable, hurt by the slightest aggression and easily influenced because you are unable to step back from people and events; therefore, you may start to be doubtful and lose the self-confidence that you so badly need to progress.

Your career or professional achievements, Christina Applegate, are fields where your emotions will be more easily channelled. You are often popular, especially with women, and you instinctively have the desire to please audiences or crowds.

Your fame is often due to your changeable side, light-hearted, emotional and moody sometimes. It also means that it is very likely that you experience professional changes several times during your life. Each time, you will contrive to be the star, in your way...

★★★★★ Moon conjunction Mars, orb 2° 57'

Your vivid imagination goes hand in hand with you desire to make your dream come true and to fight, so as to remain true to yourself. You easily mobilize your energy and your resources. This harmonic Moon-Mars aspect indicates the will to keep your intimate balance under all circumstances. You thrive in action; you court danger, particularly when your regular environment is endangered. In the private sphere, you exhibit complete straightforwardness. This planetary configuration allows you to quickly get back on your feet within a new context. You adjust well to unprecedented situations. Your capacity to integrate events rapidly can only increase your adaptation abilities.

★☆☆☆☆ Sun square Moon, orb 4° 52'

In your chart, two polarities are clearly opposing - or complementing – each other: on the one hand, solar values, the image you project and the models you follow. On the other hand, lunar values, moments of letting-go and well being through casualness. When you commit yourself in a project, it is often to the detriment of your peace of mind. Conversely, you completely feel that you are your true self only when you are no more under the scrutiny of the outside world. Therefore, you separate your social and professional activities from your private life and you seldom match the requirements of the former with those of the latter. It may be a hurdle, a fundamental anxiety. It may also be an obvious asset, when it is well integrated: in that case, you succeed in assigning to yourself, and in fulfilling, objectives that are not necessarily in line with your intimate natural demands, which are preserved and separated from your intentions, your ambitions and your expectations. Thus, a strong will can turn this Sun-Moon hard aspect into a rich instrument for creativity. A shadow zone, or uncertainty, still remains: on the affective plane, you are very sensitive. May be too much, to the extent that you become vulnerable in many circumstances. Because in different periods of your life, your landmarks (solar) and your intimate balance (lunar) will be simultaneously challenged.

★★★★★ Moon square Saturn, orb -4° 59'

When this aspect is not well integrated, there is no feeling of integration and security. You feel that you are not understood or even, that you are rejected. It is difficult for you to find inner peace and tranquillity. You lack the quietness and the primordial confidence that would allow you to lay back and to be carried away and pampered by life. This configuration indicates questionings and doubts regarding the unconditional affection that each individual longs for. You do not trust the world. You tend to dismiss social models, as well as your close friends' attachment and tenderness, probably because you need to test them and to get the feeling of being loved that you naturally lack. It would be a mistake not to see that you desperately need affection. You are particularly vulnerable to relationship flaws and you strive to find the gestures of love that would allow you to let go and to be nurtured by life. In such a context, the sincerity you display, as you give or refuse your trust, is highly commendable.

★★★★★ Moon square Neptune, orb 5° 12'

This Moon-Neptune dissonance wonderfully turns on the poetic soul, the exhilaration of feelings and dreams... and disturbs your practical life, as well as the management of contingencies. You do not lack inspiration but your reasons of living may be beyond your entourage's understanding! Bohemian life is pleasant but it is probable that you experience muddled situations. Your aims are noble and your intentions are very good. But you may not have the will to turn them into reality. It is important that you are wary of artificial paradises: escaping in the imaginary is not necessarily the best solution for problem solving. You are in search of an inaccessible tranquillity and you tend to procrastinate chores. Nevertheless, facts remain present and you may see that non-interventionism can only increase your difficulties. You must put an end to this vicious let-go circle. This does not imply that you have to forsake your dreams or to repress your very rich sensitivity.

★★★★★ Moon quintile Venus, orb -0° 12'

The harmonious Moon-Venus aspect is an element of intimate balance that favours sensual and affective fulfilment. The search of well being includes all kinds of emotions and feelings. You love, you enjoy life in simple ways and you arouse your entourage's affection. The persons belonging to your inner circle are also objects of desire and pleasure. Tenderness and love are probably one and only thing: you are moved by the gestures of affection provided to you and by the daily acts, which strengthen two persons' mutual attachment. Whereas other people dread routine, in your case on the contrary, it increases your amorous feelings. You loathe all kinds of violence, particularly in your intimate life. The danger of this planetary configuration may be your constant changes of mood: whims are often on the agenda... and your will is quite weak. One last point: this aspect is frequently found in the charts of people with an aesthetic or artistic sensitivity.

★★★★★ Moon square Jupiter, orb -6° 14'

When this aspect is not well integrated, there is a tendency to conceal your true nature and to cheat on your true self. Appearance, emphasis and games hide the essence of your aspirations and may trouble your intimate life. Despite your apparent joviality, it is often difficult for you to live in conformity with your inner demands. Actually, it is difficult for you to reconcile your social life with your private life. The former excludes the latter. To properly integrate this aspect, you must learn to harmonize your external attitudes (social and professional ones) with your daily rhythms. It implies that, when you are in a trustworthy situation such as your family or your home, you accept to behave differently from when you are in a larger context, exposed to social stress. You must neither ignore them, nor should you favour them.

Your Affectivity

In your chart, the Sun and Venus are both in Sagittarius. You are a Sagittarius to your fingertips and you think first in terms of independence, sentimental excitement and discovery. You are fond of love without border and you feel in harmony with people who elude your senses and your reason. Your partner does not seem to have anything in common with you? It does not matter! A couple is the most wonderful crucible for enrichment within a mutual respect for everyone's differences. However, it would not be right to believe that you have no taboo or social reference. It is certain that your open-mindedness and your spontaneity prompt you to accept, to love and to cultivate differences. But more than anyone, you can go beyond conventions without upsetting them, and you can surprise without harming... Your paradox: you play with moral sense without being amoral. In love, you are a refined gangster, a "gentlewoman-heartbreaker" or an adorable vamp. The forte of this configuration is the ability to evolve and to give your couple a new momentum when it is needed. It is most unlikely that you ever let the flames of passion fade. Better spread the news. Whoever is a homebody will be in trouble!

On the affective plane, Christina Applegate, you are open, straightforward, spontaneous and you make friends easily because your enthusiasm is expressed jovially, directly and is respectful of well-established moral values. In some cases, you may be opposed to your natal environment or to your family because of your taste for freedom, exoticism or all forms of independence and emancipation. Your feelings are burning and you often get carried away quickly. However, your ability to make friends easily is likely to favour some instability; in other words, faithfulness is not your top priority as long as you have not yet found your soul mate. Ideally, for you, life together must have some degree of mobility and include travels and fresh air. Within your relationship, you need to feel freedom and independence, which you need since your childhood. Under such conditions, harmony and faithfulness can be achieved.

Christina Applegate, your warmth and your attractiveness are at the service of your future or current marriage! In the 7th house, Venus colours the expression of your feelings with commitment, a request for reciprocation and for something concrete. Venus gives way, to a great extent, to your desire to be loved as much as to love: in the romantic field, your entire being aims at harmony, diplomacy, mind-openness so as to find, at any cost, a common ground where you can achieve your aim, that is to say a sweet idyll and, why not if it is possible, a nice marriage as an ending. Are problems arising? A disagreement? A lack of understanding? Immediately, you undertake to soothe your partner and to highlight what brings you together, while skilfully omitting anything that might harm the so much sought after harmony. Of course, this merely complacent attitude seems to allow you to progress with conviction towards your goals but there is a price to be paid. The dependency upon your couple becomes tangible. Paradoxically, anyway, you care little about that because it is just the way you are and that, worst comes to worst, you prefer to continue this constant game consisting in a kind of self-sacrifice with its fruitful benefits, rather than to push yourself to the forefront and to take the risk of being less attractive... Actually, you are never happier than when you formalize your union and there is no doubt that, once you are married, you will be a charming spouse and you will strive to make your conjugal life a pleasant one in a spirit of sharing and warmth.

★★★★★ Mercury conjunction Venus, orb 1° 21'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitize to human topics. Your receptivity towards

others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

★★★★★ Venus square Pluto, orb -5° 23'

Nothing is simple in love. You consider your love life with a distant and remote glance. You do not believe in obvious, transparent relationships. Love is a complex issue and its machinery is beyond you. To avoid delusions and indifference, the rules must be changed. Your feelings are alternately cruel and passionate, distant and burning, often paradoxical. Are you the executioner or the victim? Power struggles are omnipresent in your affective life. You seem unable to take life as it comes and to love without asking yourself questions, without doubting. You often love those who are indifferent towards you, while you despise those who love you. It is important that you change your attitude if you want a smooth and happy life. Rely on your forte: an indisputable lucidity that makes it impossible to delude your heart.

The Way You Take Action and Your Sexuality

You express your energy in a vague and random manner, Christina Applegate. This is not a handicap, but it prevents you from reasonably planning your long-term actions. You are a bit whimsical and scattered, sometimes hyperactive and willing to devour obstacles with your big shark teeth, but often, you take the easy way out because of your desire for tranquillity. You loathe conflicts and your cleverness and your flexibility allow you to achieve your goals while shrewdly worming your way through difficulties. Your intuition and your imagination are the assets that compensate your lack of efficiency and discipline. You are much more successful when you work for a noble cause, usually a collective one, sometimes political or spiritual ones. On the sexual plane, you are whimsical and impossible to categorize. You are so changing and malleable that you can shift from one extreme to another, according to your partner's personality, because your adaptability and your flexibility are really strong.

Your energy and your capacity for action are at the service of your career and your destiny, Christina Applegate : No doubt, this is one of the simplest and most transparent planetary configurations. You do not hesitate. For you, action means climbing up the social ladder, sooner or later, winning the marshal's baton, defeating setbacks through efforts and work, and overcoming the obstacles on your path.

You get your reward by the sweat of your brow, and you are aware that it is no easy business. Your personal approach is that nothing can be achieved without an effort because you are wise enough to be aware of it.

It is so deeply rooted in you that you may feel that you will get nothing if you do not fight for it. You are right, actually, at least as far as you are concerned, because it is your manner. Your destiny implies many struggles, and you have the necessary courage to join battle. However, as time unfolds, try to be gentle with yourself and indulge in a few moments of well-deserved rest and respite!

★★★★★ Mars square Jupiter, orb -3° 17'

You mobilize your energy as soon as there is an opportunity to turn your chances into concrete reality. You assert yourself in a spectacular and demonstrative manner as soon as an assembly gathers and there is a chance for success. However, too much haste and zeal may harm your projects and spoil your expected outcome. The danger with this aspect is your overzealousness as you strive to achieve your objectives and your ambitions, forcing your way through events, whereas the situation requires diplomacy and patience. Too much fieriness may make you miss your target. With this planetary configuration, it is important that you keep in mind that some circumstances need to be handled with precision and clear-sightedness. Not all opportunities are necessarily good. It would be a pity to lose your efficiency through excesses of opportunism or of enthusiasm.

★★★★★ Mars bi-quintile Uranus, orb 0° 09'

This harmonious Mars-Uranus aspect indicates an unshakable determination and the will to further your ideas through drastic, sudden, sometimes dramatic actions. You bend the string of your bow before taking action and you hit at the right time. The secret of your feats? An excellent command of your blitz actions. You concoct your plans in the dark, and then you move to an efficient and quick execution step that is often dazzling. You do not have the temperament of a loser. When you face an ordeal, you focus your entire energy and will on your unique aim: victory over any obstacle. This planetary configuration may lead to dangerous, even heroic actions. The danger is that you may over-estimate your strength or your chances for success.

★★★★★ Sun square Mars, orb 7° 49'

This aspect shows impulsiveness, a fiery character and sensitivity all on edge. Excess of strength and of energy may jeopardize your life balance and cause impulsive and unconsidered actions. Your ideals are not always in line with your deeds. You are certainly reactive and you stand for yourself heroically. But your untimely fits of anger may worsen existing tensions and bring about uncontrollable situations. Facts contradict your aspirations. When this configuration is properly reined in, it becomes an inexhaustible source of passion and energy.

Your Intellect and Your Communication Style

Your thirst for learning is considerable, Christina Applegate, and you can spend a lifetime studying languages, geography, philosophy and law, particularly. You are open-minded and you want to abolish all kinds of frontiers. The humanist, who is dormant in you, may turn into a “frequent traveller” reaching out to others in order to understand them and communicate with them. You express your opinions and your beliefs with honesty and clarity and likewise, you receive others' views with enthusiasm. You have numerous centres of interest and you may be perceived to be superficial, heedless and over-optimistic. However, if you manage to control your tendency to scattering, all your encounters, all your discoveries can positively influence your philosophical life approach.

Communication is your forte, Christina Applegate: you will use your entire intelligence efficiently in order to achieve agreements, compromises, or contracts. You are a born negotiator, or at least, that's what you try to be because you are not mentally self-centred and your thoughts are more aimed at others rather than at yourself.

With this thinking process, you may be dependent on others and somehow too adaptable... Flexible,

chatty, and outgoing when you communicate, you lose in charisma and in convincing power what you gain in quick, efficient, but sometimes light, compromise. Matters related to marriage are sometimes dealt with thoughtlessly but cleverly.

★★★★★ Mercury square Pluto, orb -6° 44'

Forget simplicity! You definitely enjoy acting behind the scenes and dealing with what is going on underneath. You play games and you operate in the dark. You leave the front of the stage to others and to the gullible ones. You don't display much sociability. When you are nice, it is because you are looking for flaws. This Mercury-Pluto dissonance mingles unconscious fantasies with reality. When it is kept under control, this aspect becomes an unparalleled source of discernment. To that aim, you must overcome your strong tendency for provocations. It is certainly amusing to play destabilizing games but it may also be dangerous. Keep this treatment for your opponents only.

★★★★★ Moon quintile Mercury, orb 1° 08'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 6th House

You are a perfectionist, Christina Applegate. Your constant concern is to improve yourself in every regard, to amass knowledge, to become helpful and to be at the top of your performances and your competencies. Work is an important area and, contrarily to many others, you are comfortable in this field where you can expend a lot of efforts and progress.

You are obsessive about organization and tidiness. Your varied interests - service to others is their common aspect - are less important than the harmonious and quiet ways you display when you carry out your responsibilities.

Being helpful is one of the important motivations that make you feel alive. You can't help it, you are very keen, not only to use your work capacity in a lasting and well-organized way, but also to feel the gratitude of your superiors or of the persons you commit yourself to with loyalty and with the constant concern to demonstrate that you improve yourself.

According to the Tradition, you are naturally interested in health, dietetics and all medicines dealing with well being and fitness. You may work happily in medical fields because they suit your tendency to do favours, to be helpful and to continuously improve your efficiency.

Your strong predisposition to be helpful is in contradiction with the taste for commandment. To become a leader or to accept too many responsibilities is not your cup of tea. You prefer to be the accomplished

number 2 and to make yourself indispensable, rather than to take on the burden of authority struggles and to embark upon unsafe territories. For this reason, with this configuration, you may be somehow over-competent for the position you hold, contrarily to the well known Peter's principle stipulating that one reaches one's highest level... of incompetence at the end of one's career. You are a good specialist, a trustworthy person, an irreplaceable aid and that's more than enough for you.

Going further into the description of your deep motivations, in the least favourable cases, you may repress your legitimate ambitions. You are among the persons who need to be encouraged to free themselves from their inhibitions and to not fear the Unknown. You may worry over the fact that you are not up to it or over your health condition: the cure? Charge ahead, go for it, handle your career without fear and beware of ever becoming a hypochondriac...

The ruler of your chart is in the 7th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 7th House, Christina Applegate, the House of exchanges with people, of contracts, and of marriage. You may have the talent to smooth ruffled feathers, to behave with diplomacy so as to nurture good relations, to enter into partnerships, and to join any association.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Sun opposite Saturn, orb -0° 07'

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

★★★★★ Sun conjunction Neptune, orb 0° 19'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★★ Neptune square Midheaven, orb -2° 32'

Owing to this dissonance between Neptune and your Midheaven, Christina Applegate, you may have difficulties in knowing what you want regarding your professional orientation. Your imagination and your flexibility cause contradictory feelings and sometimes result in indecisiveness. You are doubtful about the path your social or professional destiny should follow. There is definitely nothing serious to worry about. It is just that Neptune represents a heavy emotional burden which you must firmly deal with, so as not to delay your trek towards success!

★★★★★ Saturn square Midheaven, orb 2° 44'

Saturn is in dissonance with your Midheaven, Christina Applegate. Of course, nothing really serious is to be feared. It is just that sometimes, you feel that an unfair slowness keeps on delaying the achievements you deem that you deserve right now. You must work twice as hard to climb up the rungs of success, and above all, you must not get disheartened. Effort is one of the values you must work on, and it is a punishment by no means. It is obvious that your goals are achievable, but you must remain on the right track and show perseverance. That's all!

★★★★★ Sun square Midheaven, orb -2° 51'

What you really want to do, or the way you consider everything, may be in contradiction with your professional goals, Christina Applegate. You may experience conflicts of authority, or a few hesitations over how to manage your career. In any case, you must display flexibility and water down your wine if you want to remain on the right track and achieve professional success. It is the only solution to this discrepancy between the Sun and your Midheaven.

★★★★★ Sun sextile Pluto, orb 1° 31'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

★★★★★ Moon conjunction Midheaven, orb 7° 44'

The Moon in conjunction with the Midheaven receives good press, Christina Applegate. She indicates potential fame, or in any case, some degree of popularity. Your sensitivity is well perceived and, above all, it perfectly fits your professional destiny and your social ascent. Females may greatly influence your success. Your social status or your profession may be tightly linked to lunar values, such as frequent contacts with the crowd, children, women, daily matters, imagination, school, administration, leisure and sports for children, hotel and restaurant industry, bakery, poetry, the arts...

★★★★★ Venus sextile Midheaven, orb 4° 03'

In your natal chart, Christina Applegate, sweet Venus is in soft aspect with your Midheaven. It means that your natural charm and the way you express your feelings are appreciated in society. Usually, this configuration speeds up the achievement of your professional goals, or in any case, of a certain social status. A female - or females - may prove helpful for your career or your destiny.

★★★★★ Pluto inconjunction Midheaven, orb -1° 2'

Owing to this dissonance of Pluto with your Midheaven, Christina Applegate, you may experience brutal changes in your professional or your living conditions. These upheavals are imposed on you by fate, and they sometimes take on a mysterious nature. Although you do not always understand the cause behind them, you must accept these changes as they occur, in order to bounce back in a different path, or just elsewhere.

★★★★★ Uranus sesqui-quadrate Midheaven, orb -1° 32'

Uranus is in hard aspect with your Midheaven, Christina Applegate. There is definitely nothing serious to worry about. There may be a lack of perseverance in the efforts you put in order to move forward in your career or your social destiny. When unexpected hurdles crop up, more than anyone else, you must accept the unavoidable changes without losing sight of your aims, and above all, without getting disheartened. More than anyone, you must learn to accept the values of time and duration, if you are to reap their fruits.

★★★★★ Mercury sextile Midheaven, orb 5° 24'

Mercury in soft aspect to your Midheaven enables you to easily communicate with your entourage and to climb up the social ladder, Christina Applegate. Your strategy is often good, and you correctly think about your interests. Do not change anything!

★★★★★ Sun semi-square Uranus, orb 1° 19'

This Sun-Uranus dissonance indicates a dazzling will to be the centre of attention and to proclaim your specificity, by all means. This aspect belongs to the rebel and the revolutionary restive to all forms of authority and of model. To balance this interpretation, the strong need for autonomy bordering on frenzied individualism must be highlighted. You allow nothing or no one to hinder your chosen line of conduct. Obviously, your attitudes are inflexible. You prefer to continue to the bitter end, even when you are wrong, rather than to be more open to people's ideas. Tyrannical attitudes often turn against the perpetrator... However, this configuration is a powerful agent for creativity, provided your hothead and extremist nature is kept under control.

Your Assets and Your Part of Joviality

This is the best possible position for the planet of Greater Fortune in your chart, Christina Applegate! It offers a lot of human warmth (or it counterbalances introversion, if such propensity is indicated elsewhere in your chart), the taste for travels, optimism, vitality and an enterprising mind. You are mobile and you have a large vision. Wisdom starts with the ability to consider life from a different angle and to put all things into perspective!

For you, Christina Applegate, nature's present is the luck of the devil that protects you against illnesses and brings about joie de vivre in your daily work. Therefore, your health and your work environment are your constant sources of satisfaction. Your value is duly appreciated, and you are popular and helpful.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign

occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Sagittarius is very popular because he rules this sign, and, according to the Tradition, he is most potent and at his best. He endows you with all his natural qualities: enthusiasm, sense of humour, boldness, warmth, optimism, leadership, synthesizing mind, but also, propensity for travels or, symbolically, disposition for higher knowledge and matters such as spirituality, philosophy, politics or religion.

Your Serious Side

Your liveliness and your superficiality are slowly transformed into secondarity, profundity of reflection, and interest for knowledge, contacts and logic.

The combination of the house of ordeals and sacrifices with the planet of renunciation may seem awkward at first. However, Christina Applegate, it may help you assert yourself when you are facing painful circumstances, or when destiny's strikes bring about periods of isolation.

If your generosity of spirit and your will are up to the stake – your quick and intense evolution - you may take advantage of this promising but difficult configuration. Then, you become stronger, more lucid, and more dedicated than ever.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Gemini decreases your lightness, your frivolousness and your heedless. You become more thoughtful, more concentrate and you learn to deeply funnel your ideals; your practical sense is increased, your concern for punctuality and your thirst for precision are reinforced.

A Few Special Points

Your Uniqueness and Your Utopias

Your sentimental life is usually hectic and jerky. You are constantly looking for pleasures and love affairs loaded with feelings and novelties. This also applies to your leisure and to your creativity. You are somewhat insatiable, sometimes unconsciously, and you are prone to reverse your choices. Later on, when you assess the situation, you realize that you seem to avoid stability in these areas.

In your concrete life, you are attracted by eccentric partners who may constitute a danger in terms of durability. In parallel, you are creative, innovative, sometimes at the highest level of your art, but sometimes you may be totally uninspired.

Your children may be an important source of satisfaction or of concern. For instance, birth may occur within non-conventional settings (out of wedlock, or in unforeseen circumstances, or not with the right person etc.).

Your Inspiration and Your Illusions

Your approach to daily life and your behaviour in your work environment are whimsical and abide by one single law: your mood or your feelings of the moment!

Although it may be detrimental to your own organization, it also endows you with qualities such as being easy-going, helpful, and ready to give assistance to those whom you perceive as nice persons.

Your health is quite fragile and, if the emotional sphere is unsatisfactory, you may transfer your moods to the physical plane and, for instance, you may be affected by allergies or problems difficult to identify.

Your Passion and Your Authority

In general, your childhood was under stress, for many different reasons. Your early life was not very easy, and you probably felt a deep anxiety for reasons... that were not always real.

In your intimate and private sphere, when you feel in confidence, you may be domineering and authoritarian, whereas in public, you never show this facet of your personality.

Your sensitivity is acute, and you may be affected by trivial things without ever displaying your hurt feelings. But as you mature, your finesse becomes an asset instead of an element of vulnerability.

Symbolically, according to the Tradition, your father was authoritarian or domineering. This is not always true, but this is how you perceived him when you were a child.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is

posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Christina Applegate, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Christina Applegate, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Christina Applegate, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Western hemisphere of your chart means that you are quite flexible, capable of empathy, convivial and communicative. An excellent factor for many professional activities or for your social or sentimental life for example.

A definite asset... provided that you are not at the centre of the decisions you must take in your life: you may be tempted to listen to the last person who spoke, and your flexibility won't always get you out of the tight spot. You are therefore advised to learn to decide alone and to cope with the consequences of your actions with courage and without regrets. This attitude will allow you to combine flexibility and action, adaptability and absence of hesitation.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Christina Applegate: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart,

Christina Applegate: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive woman. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The first decanate, which means the part between 0° and 10° of any zodiacal sign, prevails in your natal chart, Christina Applegate: this decanate is traditionally linked to vitality and physical constitution, and may indicate that you efficiently express your concrete energy on the material and sensual planes.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Very early in life you showed a strong desire to intensely live through your passions. You are sensitive to your personal prestige and you adopted dramatic attitudes as you needed your merits to be acknowledged and you wanted to arouse esteem and admiration. Your individualistic ways may have caused setbacks: you are criticized for your egocentrism or at least, for your lack of openness and compassion. As time goes by, your life's challenge is probably to gain a taste for collaborations, fraternity, and unselfish love. If you can put aside your touchiness, you become able to relinquish your pride and to focus your energy on larger actions such as collective tasks, or even, universal works. Life teaches you a philosophy of harmony and union, far from your primary desires and needs. You then discover an entirely different realm, a spiritual dimension, the major features of which are abnegation, selflessness and the access to a world of altruism that provides more satisfactions than anything else. Self-sacrifice, friendship and fraternity are the path to your fulfilment.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your

life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

This configuration predisposes to the quest of the absolute on two accounts: firstly, the very nature of the Black Moon, implacable and extremist, and secondly, she is in a sector of the Zodiac that is traditionally evolutional but extremist. Here, you flirt with death, danger and challenge. Everything suggests transformation, abandonment and revival, passion and cruelty. There is no half-measure in your behaviour, only a terrifying and marvellous thirst for the absolute... That'll take some doing for the person who will experience it with required intensity!

You are a person thirsting for precision and perfection. Your rebellions are frequent: any mechanism that is not running perfectly smoothly is dismissed. Any person whose attitudes seem inconsistent becomes the object of your refusal. Better than anyone else, you can ridicule social stereotyped models, too conventional and ineffective. It is likely that you often succeed in giving a logical dimension to the craziest situations.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 10th house: you give top priority to your social status and to the level of your "rank". You are very ambitious and you have every chance to achieve social and professional successes. You identify yourself with the part you are to play and with the expectations of your environment. Therefore, you can fully blossom through the adherence to the collective pattern that you are the first one to understand and that you personify. In other words, deep down, you are what your entourage admires and respects: you have a job that is "under the spotlight" and you fulfil your responsibilities as if you were in charge of a "mission".

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep, it is nonetheless safe.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
