# Christina Ricci's Astrological Portrait

## Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

## Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

## Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

## Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

### Your Four Quadrants

Christina Ricci, the nocturnal North-eastern quadrant, consisting of the 1st, 2nd and 3rd houses, prevails in your chart: this sector favours self-assertion and material security to the detriment of your perception of others. You consider self-transformation to be a hazardous adventure. You are inclined to seek stability and you tend to protect yourself with your actions. Possession, acquisition but also communication, without opening up too much, are part of your deep motivations. You are rather autonomous and constant, however it is important that you pay more attention to others, so that you can improve your outcomes.

## Your Dominant Modes and Elements

Christina Ricci, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

### Your Four Elements

Like the majority of Earth signs, Christina Ricci, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

The predominance of Water signs indicates high sensitivity and elevation through feelings, Christina Ricci. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, to the detriment of a certain vulnerability against which you should learn to fight.

Fire's qualities are not very present in your chart, with only 6.57% instead of the average 25%, which means that you may lack warmth, enthusiasm, conquering spirit, or energy. You may look indifferent to others, with almost no desire, no joy of life or no enterprising ability. Actually, it is not true, but you should let go, force yourself to be more daring, and show your amazement as well as your vitality. You certainly have as much energy as others, you just need to release it, and it is up to you to display more of it, since it will be all to your benefit: shout, sing, pull faces, dance! That's the right mean for you... In the end, you'll never be accused of being sad, phlegmatic or a killjoy!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

## Your Modes

The Mutable mode is the most emphasized one in your natal chart, Christina Ricci, which indicates a mobile character that is curious and thirsty for new experiences and evolution. You are lively and flexible, and you like to react quickly to solicitations, but don't confuse mobility with agitation, since this is the danger with this configuration - and with you, stagnation is out of the question. Security doesn't matter as long as you are not bored. You optimize, you change things, you change yourself... all this in a speedy way.

## Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Christina Ricci, here is the evaluation diagramme for your planets:

## Your Dominant Planets

The three planets that are most highlighted in your chart are Mercury, Jupiter and Mars.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

Jupiter, the planet of expansion, organization, power and benevolence, is quite emphasized in your chart. Like any Jupiterian, you are warm, open, sociable, consensual, active and optimistic. You can use your self-confidence to erase differences of opinion, and you leave the task of analyzing and perfecting things to specialists. Your role, and you know it since you were young, is to gather, to demonstrate your synthesizing and conciliatory mind, and to naturally reap its fruits - power.

You appreciate legality, social order but also order in general. With you as a leader, every plan or human entity can be organized and structured. You excel at supervising. The Jupiterian type is indeed the politician par excellence, and a positive Jupiter in your chart is synonymous with good integration into society, whatever the chosen path.

Is this idyllic picture really perfect? Certainly not: each planet's typology has its own weaknesses. One of yours is pride, like the Solarian, but your will of expansion at all costs may generate a form of exaggeration in everything, endless pleasure, inappropriate self-confidence that could lead you to rough materialism and the thirst for absurd material comfort - in the worst cases, of course.

Mars is one of your dominant planets and provides you with its efficient energy and enthusiasm: with a

powerful Mars in your chart, action - but also will and ability to undertake - is not an empty word for you. You are active, dynamic, willing to fight, courageous, and you are never afraid to move mountains, even though risks are part of the adventures that you start with determination.

However, your patience is not always up to your boldness and a kind of feverishness, or even anger, can tarnish the quality of your achievements. That would be a pity since the Marsian is a champion in matters of efficiency! Mars symbolizes display of action, conquering spirit that favours discipline and order - beware of not being fussy - and lies at the frontier between action and brutality, between conquest and potential aggressiveness.

### Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Virgo, Pisces and Aquarius. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Virgo, associated with perfectionism, numbers and reason, is among your dominant signs: you inherit its sense of responsibility and tidiness, a clear mind, an unflinching logic, as well as a need to be useful and to fulfil your task to the best of your abilities. Obviously, people may think that you are too modest or reserved, suspicious or pessimistic because of your exceedingly critical mind, but aren't logic and wisdom great qualities? Of course, they are. Moreover, you keep your feet on the ground, you never behave irrationally and you are helpful and hardworking - what more can you ask for?!

Pisces is among your dominant signs and endows your personality with unlimited sources of emotions, dreams, imagination, and sensitivity, to the extent that you literally swim in a cloudy ocean of delightful impressions. These impressions are so intense and overwhelming that you don't really need to take action concretely, to show your dynamism or your willpower, since you already live so intensely with your feelings - you are as keen as a radar, always on the alert! That is why some people may not like your carelessness, and the lack of clarity in your opinions or actions; however they quickly notice your artistic talents, your poetic or artistic side, and your total lack of wickedness. Besides, you feel compassion for people in pain - empathy is one of your great qualities. Thanks to your flexibility, your intuition, and

your generosity, you may spend an important part of your life helping others. And if you are creative or if you have well-known artistic talents, everybody will forgive your little flaws: absent-mindedness, lack of energy or of will, too dreamy temperament...

Aquarius is one of the most important signs in your natal chart: it endows your personality - at least one of its facets - with originality, to the point of eccentricity in spite of a sometimes distant and humane side. Likeable and impassive at the same time, you are a paradoxical woman, very hard to define because the two planets Uranus and Saturn blend their qualities to create the so complicated and endearing sign that inspires your character. Saturn's seriousness and impassivity is added to Uranus' rebellion, talent, individualism, charisma, extravagance, and unpredictability! One of your main characteristics is that you never open up on a personal basis, but you tend to do so easily in public. You are actually quite strange. Sexy and charming in public, despite your nice and sociable character, you could frustrate many of your admirers in private because of your impossibility to show deep and warm affection, emotions, tears... But appearance and reality are two different things anyway - you are a kind of a genius, or you have at least a tremendous charm with this sign. You have many friends and an active social life. If you are detached in your love life - only in this aspect, since the rest of chart will confirm it or not - this is no big deal!

### Your Dominant Houses

Houses 1, 7 and 6 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

Your 7th house is one of your dominant houses: it symbolizes other people, marriages, associations, contracts, and partnerships. Your personal achievement and maybe your problems - depending on the rest of your chart - are strongly influenced by your rapports with others, the area in which you tend to commit yourself deeply. You appreciate communication, and you give importance to others' opinions. Success requires the support of others, which seems obvious and natural to you. Your marriage generally contributes to your fulfilment.

Your 6th house is quite emphasized and indicates interest in work and daily occupations that take up a lot of your time: in analogy with Virgo, this house inclines towards perfectionism and training; somehow, you may be fulfilled through the process of being useful and investing your energy in your work. An environment appealing to you may be involved - your colleagues, for example - or a passion for one of these daily occupations. Medical positions or pets may play a role in your life; or ancillary love affairs too... These are a few possibilities indicated by an important 6th house.

## Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

## You were born under the sign of Aquarius and your Ascendant is in Virgo

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

This zodiacal duet has contradictory influences and seems to lack harmony at first glance. Indeed, Aquarius is an Air sign which seeks complete freedom, escapism into the future, and bold collective projects. Virgo is an Earth sign which prefers to focus on more humble and feasible tasks because it values efficiency and distrusts too idealistic and misleading approaches. When you are in society, you instinctively behave discreetly, and you try to be appreciated for your helpfulness rather than for hypothetical feats. Your close friends and relatives know your Aquarius inner self, which is more exuberant and optimistic, and they are aware that, despite your friendly and benevolent heart, you refuse to be chained up to your relationships lest they should damage your sacrosanct independence. Although these two signs are very different, they both endow you with great intellectual sharpness, nervousness,

and the will to progress instead of resting on your laurels. Aquarius is driven by its sense of anticipation, and Virgo, by its need for perfection.

### **You were born with the Sun in Aquarius**

In the sentimental sphere, you are particularly sensitive to the values of friendship, in the sense that you see yourself as a link within a chain, certainly a different and original one, but with no will to flatter your ego or to individually assert yourself. On the contrary, your aim is to immerge yourself in your friendly relations and to participate in projects and ideals of the whole human community.

As you are born under this sign, you are idealistic, altruistic, detached, independent, original, surprising, gifted, contradictory, innovative, humanistic, likeable, friendly, self-confident, impassive, quiet, intuitive, creative, charitable, elusive, disconcerting, generous, tolerant, paradoxical, and you cannot stand any kind of constraint. But you may also be marginal, resigned, distant, utopian, maladjusted, eccentric and cold.

In love, Madam, you are the inquiring sign of the Zodiac. You are cerebral and lively, always on the look-out for novelty or for anything amazing.

You are often more in love with love than you are in love with your partner. You are surprising and unpredictable, now passionate and using your imaginative and mental powers to idealize your relationship and your partner, now cold, suddenly detached and impersonal because you are annoyed by subtle elements that you, and only you, can understand.

You do not stand disappointment and you display great cleverness when you want to suddenly break up when your partner least expects you to do so.

In order to be able to charm you, one must be exceptional, amazing, disconcerting and one must accept to grant you total freedom and independence. Under those conditions only, will you be able to have a long-lasting, stable yet eventful, surprising and harmonious relationship with your chosen partner. Once trust and confidence settle in, you will be fulfilled and you will be hardly recognizable.

The life span of your couple depends mainly on your common tastes: ideally, you should live with a man who actually is your friend and your lover, continuously shifting from one role to the other according to circumstances, and who, at the same time, provides you with a much needed mental stimulation, as well as with warm love.

### **Your Ascendant is in Virgo**

Psychologically speaking, your nature is nervous and secondary. Before you take action, you cautiously ponder over things and you review any possible alternative and reaction. You strive systematically to find the best possible response to any given problem. You are a perfectionist above all and you have no rest until you optimize a situation, in each and every area, be it professional, pragmatic, aesthetic or in pleasure. You do not accept spontaneity and, to fully enjoy life and go further, you consider that demanding the best is the least you can do, even though it is detrimental to the rough force associated with your instinct. The intellectual element intervenes before both the physical ones and your feelings: it is one of the essential clues to understanding your personality.

As you are born under this sign, you are cerebral, clear-sighted, focused on details and on numbers, analytic, serious, competent, reasonable, modest, tidy, organized, spruce, industrious, provident, honest, loyal, reserved, shy, helpful, willing to progress, talkative, perfectionist, logical, hardworking, tactful, patient, precise, concrete, spiritual. You can also be narrow-minded, calculating, irritating, petty, pernickety, hung up, anxious, cold, repressed or sarcastic.

In love, Madam, you are discreet, modest and intellectual. You may experience love only in the second part of your life if you do not make the effort to become aware that feelings and sexuality don't fare well with excessive reflection and prudence. In this area, one must not rely on reason...

Once you understand this principle, you will become the best wife, meticulous, tidy, but warm and withdrawn, caring for your family's well being and perfectly tackling your children's minor health problems. Your concern for tidiness and cleanliness allows you to have a healthy, safe and refined home.

You are fond of changes, variety and humour and you attach a special importance to your partner's comments and attentions.

You may marry twice or you may have a secret love affair, in spite of your seriousness, because Virgo is a dual sign, like Gemini, Pisces and Sagittarius.

### **The ruler of your chart is in Pisces**

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Christina Ricci, is Mercury. It is posited in the sign of Pisces and endows you with a vivid imagination. You are a sensitive and emphatic dreamer, always on the lookout for the inspiration which enables you to take action, although there is a risk that you keep on waiting - not without displeasure - for the said inspiration. With your amazing intuition, you sense the truth even before you understand it, and more often than not, your personality is endearing and appreciated by everybody.

### **Aspects to your Ascendant**

Several planets form an aspect with your Ascendant, Christina Ricci. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Virgo Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Jupiter conjunction Ascendant, orb 0° 53'

Jupiter, the planet of good luck, law, and benevolence, is in conjunction with your Ascendant, Christina Ricci. This endows you with an undeniable natural vitality, a composed, honest, affable, not to say pleasant side. You tend to see the good aspects of things and to honour your commitments. This is what causes other people to often notice your reassuring and nice behaviour: quite an asset in life!

★★★★★ Mercury opposite Ascendant, orb -3° 45'

With Mercury in opposition to your Ascendant, your sense of communication is usually expressed cleverly, Christina Ricci. Indeed, any opposition to the Ascendant is at the same time a conjunction with the Descendant which symbolises "the other people", relationships, contracts, and associations. Therefore, your tendency is to use your intellect and your interpersonal skills in order to be understood by other people, more than to be your "natural" and true self. It is as if you have chosen your camp: in your daily behaviour, you seem to prefer to adjust to people rather than to express personal views.

★★★★★ Mars conjunction Ascendant, orb 4° 27'

The conjunction of Mars with the Ascendant is the mark of an exceptional energy, Christina Ricci! You have a natural taste for action, and your audacity often works wonders. With such a great vitality, you are sometimes inclined to appreciate sports. Should it not be the case, then, your decision-making capacity in society, as well as your entrepreneurial skills, remain strong assets throughout your life.

★★★★★ Moon trine Ascendant, orb 3° 26'

Your instinct seldom misleads you, as far as your external appearance is concerned, thanks to the Moon's soft aspect with your Ascendant, Christina Ricci. You keep your emotions under rather good control, in instinctive and smooth ways.

★☆☆☆☆ Pluto semi-square Ascendant, orb 0° 45'

Pluto is in dissonance with your Ascendant, Christina Ricci. You may be slightly aggressive and at the same time, mysterious or impossible to understand, to people's eyes. You are sensitive, instinctive, and you feel everything more deeply than anyone else. Be careful that this feature does not mark your behaviour with too unsociable a note. Indeed, it would be a pity since the forces at work within you can be easily controlled and turned into assets if you care to stand back. Detecting other people's weaknesses is fine. But don't misuse this ability!

★☆☆☆☆ Venus inconjunction Ascendant, orb 2° 12'

In certain circumstances, Christina Ricci, you tend to adopt an attitude that is not necessarily in line with your real emotions. This discrepancy between your behaviour and your feelings, caused by Venus, may disconcert the people you mix with. Have self-confidence, don't be too pushy or... withdrawn, and forget your fears. Then, people can have a better perception of your personality, and you can harvest the fruits of your efforts.

## Your Sensitivity

Your sensitivity is withdrawn, Christina Ricci: more than anyone, you tend to lock yourself in your ivory tower, as you are aware of a kind of superiority that may be real, though overrated. Your moods are not perceptible because you control them with a tight fist. It is difficult to know if you are happy or upset because you show nothing. You avoid situations which compel you to reveal your emotions because you are not demonstrative. Please, be aware that it is not your amorous behaviour that is being analyzed, but the daily expression of your sensitivity. You dread the crowd and you need calm, and even solitude, to feel comfortable. You are well-equipped to remain balanced in all circumstances, but it may prove beneficial if you progressively take a relaxed attitude and show more dedication, as you are worth it; it is easier for you to exteriorize your feelings when your projects or your ambitions justify that you do so. You do not practice gratuitous outpourings, particularly when you are with a group, because you are afraid to open up, as if you were on the defensive, without any reason most of the times.

Entertainments, hobbies and parties, love affairs, holidays, here are the areas where you express best your emotions, Christina Ricci. You like children's company, your popularity is often good and you use it in order to increase the number of your encounters in order to see your seductive power.

You are often endowed with artistic creativity. Art is a good outlet for all these gushing and fluctuating emotions that must be released at the slightest external stimulation.

### ★★★★★ Moon trine Mars, orb -1'

Your vivid imagination goes hand in hand with your desire to make your dream come true and to fight, so as to remain true to yourself. You easily mobilize your energy and your resources. This harmonic Moon-Mars aspect indicates the will to keep your intimate balance under all circumstances. You thrive in action; you court danger, particularly when your regular environment is endangered. In the private sphere, you exhibit complete straightforwardness. This planetary configuration allows you to quickly get back on your feet within a new context. You adjust well to unprecedented situations. Your capacity to integrate events rapidly can only increase your adaptation abilities.

### ★★★★★ Moon trine Jupiter, orb 2° 33'

Why should one complicate one's life if it is possible to enjoy the simple joys of the present? This harmonic Moon-Jupiter aspect indicates a cheerful nature, which earns your entourage's liking and protects the balance of your intimate life. Your sociability is supported by your desire to smoothly adhere to a group, a social or family cell. You are fond of moments where you unwind and relax. You value your daily comfort and, to preserve it, you accept to play by the rules of privacy. When this aspect dictates your attitudes, you behave like a person easy to get along with... even though your personal demands, relegated to the backseat, come up again at top speed and force you to behave more in line with your inner needs.

### ★★★☆☆ Moon square Venus, orb -5° 38'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life's simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible, although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life

devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★☆☆☆☆ Sun semi-square Moon, orb  $-0^{\circ} 48'$

In your chart, two polarities are clearly opposing - or complementing – each other: on the one hand, solar values, the image you project and the models you follow. On the other hand, lunar values, moments of letting-go and well being through casualness. When you commit yourself in a project, it is often to the detriment of your peace of mind. Conversely, you completely feel that you are your true self only when you are no more under the scrutiny of the outside world. Therefore, you separate your social and professional activities from your private life and you seldom match the requirements of the former with those of the latter. It may be a hurdle, a fundamental anxiety. It may also be an obvious asset, when it is well integrated: in that case, you succeed in assigning to yourself, and in fulfilling, objectives that are not necessarily in line with your intimate natural demands, which are preserved and separated from your intentions, your ambitions and your expectations. Thus, a strong will can turn this Sun-Moon hard aspect into a rich instrument for creativity. A shadow zone, or uncertainty, still remains: on the affective plane, you are very sensitive. May be too much, to the extent that you become vulnerable in many circumstances. Because in different periods of your life, your landmarks (solar) and your intimate balance (lunar) will be simultaneously challenged.

★☆☆☆☆ Moon semi-square Uranus, orb  $-1^{\circ} 05'$

The Moon and Uranus intrinsically share little in common: they get along as well as fire and water! It is difficult for you to reconcile your desire for well being and intimacy with your destiny's dazzling passions and thunderbolts. You may feel that your intimate and family realm hampers your freedom. There is a potential for crises, explosions or splits. The desire for independence does not get on well with security concerns. There may be strong temptations endangering your very life foundations and you may embark upon a liberating and personal adventure. However, you fear rash decisions. Your need for security may temper your impulses and put a brake on your individualistic aspirations. To harmonize these tendencies within your intimate life, you must leave yourself enough room for personal expression or for an activity of your own. Otherwise, as days go by, built-up tensions may jeopardize the quiet course of your life.

## Your Affectivity

In your chart, the Sun is in Aquarius and Venus, in Aries. The Tradition credits Aries with fieriness and Aquarius with freedom of thought and of action. The natural complementarity of these signs is underlined; unfailing ingenuity and spontaneity... This configuration excludes monotony. All new stimulations are moving and, at the same time, they dispel your doubts. This propensity for enchantment works wonders when your partner fuels your need for unknown and even odd situations. Your relationship must be renewed, reinvented, over and over again. There is no room for past loves! Any desire is experienced in the present and the imperative modes (Venus in Aries) and the future must be promising (Sun in Aquarius). The picture seems idyllic. But it might also be that... you become unable to experience on a daily basis this thirst for emotions and that “the perfect wife turns into a shrew”. As you dream and you long for a love in constant evolution, you become exposed to cruel delusions. Boredom is the other side of the coin of your affectivity on the lookout. But if you can avoid it, your exalted temperament can only favour a very promising affective fulfilment.

Love at first sight, flash in the pan, amorous impulsiveness? All these are part of your way of loving or to fall in love, Christina Ricci. Throughout your relationship, you maintain this kind of jerky and lively style, that may seem childish or naïve, but that is so generous and cheerful! You are undeniably possessive and you are not concerned with your partner's opinion but, fortunately, you readily forgive because of your spontaneity and your authenticity. When your relationship is intense, everything is fine. There is no romanticism, no complications with you. You love with ardour and, except for a few crazes and opportunities for new pastures here and there, the only danger may be that boredom settles in. In that case, you leave without regret and you quickly forget what consumed you, not so long ago.

When you fall in love, Christina Ricci, your feelings immediately reach a considerable level of intensity and quickly take you into the realm of passion. You are not a mild person when it comes to love, either you love deeply, or not at all. According to the Tradition, this configuration strongly associates feelings and sexuality. In your approach to love, feelings are intimately linked to desire and love physical aspects. It does not take you long before you deliberately infuse a fair amount of torrid eroticism into your behaviour, so as to make your idyll as burning and deep as your inner feelings are! If no adverse aspect affects Venus in the 8th house, you become possessive in the positive sense of the term: you happily care for your significant other, including for his financial interests. Venus in the 8th house protects everything that deals with investment, management of other people's possessions and particularly, those of the husband. Your benevolent attitude, which you also express outside your couple's relationship, usually causes pleasant surprises in the guise of unexpected inheritances. When there are tense aspects of square or opposition to your Venus, you may fall into the trap of obsessive and dangerous jealousy. And it would be a disgrace since, as the saying goes, jealousy is uncalled-for and very harmful when it is unjustified, and it is useless and too late when harm has been done...

★★★★★ Venus opposite Saturn, orb -7° 52'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

★★★★★ Venus trine Uranus, orb 8° 15'

Your charm lies in the originality of your approach to love and in your uncompromising attitudes. Your motto? Freedom of love, whatever the price! Should your sentimental life become dull, you find a solution: you are romantic and you reinvent your couple's life, you give a new and unexpected momentum to your emotions. You create the kind sharpness that contributes to your exceptional affective life. You do not fear love at first sight or blazing passions. On the affective plane, you know where you are heading for, whom you love ... or love not. There is an indisputable intransigence. The heart impulses are irrevocable and implacable. You dream of a sentimental life that fulfils your aspirations and you use all possible means to achieve your ideal. Even though you may have to make the necessary sacrifices.

## The Way You Take Action and Your Sexuality

Christina Ricci, you skilfully make use of your energy and you are like the arrow that reaches its target with great precision: with piercing eye and sharp mind, you take action meticulously and efficiently. Like the surgeon with his scalpel, you know exactly what you want and you belong to the category of specialists, not the generalists. Critical, picky, extremely organized, you want to foresee and to analyze. You prefer to master your business too well rather than not enough, even if you must put a huge, sustained, long lasting effort into it. Sexually, you remain fanatical about cleanliness. You may be prone to fantasies such as fetishism. Your love life is fine if you avoid the unforeseen events that you loathe.

You are, by nature, an active person, Christina Ricci. This is the only position that does not give a particular orientation towards a specific area of life. It is the most powerful placement and it indicates that your personality is precisely combative, conquering and action-oriented.

You are on the move, with the impetus which urges you, more than anyone else, to transcribe your thoughts and your projects into the real world.

The danger may be that you overdo and you turn into a warrior! This generous flow of energy is an invaluable asset that you use properly as you mature. The danger is also that you may come across as quarrelsome and too domineering to persons who may be scared by your punch and your pugnacity.

★★★★★ Mars conjunction Jupiter, orb 3° 34'

Coordinated action wins over almost all obstacles! You mobilize your energy and your fighting spirit advisedly and you take timely action. This is the reason why you are efficient in situations requiring courage, determination, swift responses and diplomacy, altogether. You do not fear confrontations but you never provoke them unnecessarily. You take advantage of your chances and you adjust your behaviour to concrete situations. You empirically handle events with relevance. The only danger is that you may be overzealous to seize any opportunity... even those that are not necessarily good in the long run. You should take the time to carefully consider the facts and their consequences. The swiftness of your reactions must remain an asset.

## Your Intellect and Your Communication Style

Your thinking process works on a rather instinctive and intuitive mode, Christina Ricci. You “feel” more than you understand, as if your reasoning were not active. Your strong receptivity and your natural empathy make you an understanding, pleasant, warm and benevolent person although you may be neglectful, even heedless. You are shy and anxious and you prefer to withdraw and to isolate yourself in a quiet place in order to give free rein to your inspiration, rather than to assert yourself. Despite your lively imagination, it may be hard for you to get out of the flow of your mystical and irrational thoughts, with the result that you become even more worried and impressionable. You must develop your logic, rational mind and your willpower, so as to gain self-confidence and creativity. Try and see...

Communication is your forte, Christina Ricci: you will use your entire intelligence efficiently in order to achieve agreements, compromises, or contracts. You are a born negotiator, or at least, that's what you try to be because you are not mentally self-centred and your thoughts are more aimed at others rather than at yourself.

With this thinking process, you may be dependent on others and somehow too adaptable... Flexible, chatty, and outgoing when you communicate, you lose in charisma and in convincing power what you gain in quick, efficient, but sometimes light, compromise. Matters related to marriage are sometimes dealt with thoughtlessly but cleverly.

★★★★★ Mercury opposite Mars, orb -0° 42'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

★★★★★ Mercury opposite Jupiter, orb -2° 51'

You play with social norms and you scoff at them. Your morality is seldom questioned: you adopt the most rewarding behaviour, precisely the one that wins you your entourage's consideration. But you sometimes cheat. You are an opportunist and you act according to circumstances, particularly because your moral stand is only a superficial mask. You enjoy concealing your beliefs: life is a social game and you change its rules to suit your convenience. Your flexibility and your adaptation abilities are appreciated. However, it is important that you do not behave inconsistently. A stable and transparent course of conduct may help you avoid many pitfalls or delusions. Beware of words spoken thoughtlessly, of empty promises, and do stick to your indisputable cleverness.

★★★★★ Moon sextile Mercury, orb 0° 18'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

## Your Goals, Motivations, Career, and Destiny

### Your Sun is posited in the 6th House

You are a perfectionist, Christina Ricci. Your constant concern is to improve yourself in every regard, to amass knowledge, to become helpful and to be at the top of your performances and your competencies. Work is an important area and, contrarily to many others, you are comfortable in this field where you can expend a lot of efforts and progress.

You are obsessive about organization and tidiness. Your varied interests - service to others is their common aspect - are less important than the harmonious and quiet ways you display when you carry out your responsibilities.

Being helpful is one of the important motivations that make you feel alive. You can't help it, you are very keen, not only to use your work capacity in a lasting and well-organized way, but also to feel the gratitude of your superiors or of the persons you commit yourself to with loyalty and with the constant concern to demonstrate that you improve yourself.

According to the Tradition, you are naturally interested in health, dietetics and all medicines dealing with well being and fitness. You may work happily in medical fields because they suit your tendency to do favours, to be helpful and to continuously improve your efficiency.

Your strong predisposition to be helpful is in contradiction with the taste for commandment. To become a leader or to accept too many responsibilities is not your cup of tea. You prefer to be the accomplished number 2 and to make yourself indispensable, rather than to take on the burden of authority struggles and to embark upon unsafe territories. For this reason, with this configuration, you may be somehow over-competent for the position you hold, contrarily to the well known Peter's principle stipulating that one reaches one's highest level... of incompetence at the end of one's career. You are a good specialist, a trustworthy person, an irreplaceable aid and that's more than enough for you.

Going further into the description of your deep motivations, in the least favourable cases, you may repress your legitimate ambitions. You are among the persons who need to be encouraged to free themselves from their inhibitions and to not fear the Unknown. You may worry over the fact that you are not up to it or over your health condition: the cure? Charge ahead, go for it, handle your career without fear and beware of ever becoming a hypochondriac...

### **The ruler of your chart is in the 7th House**

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 7th House, Christina Ricci, the House of exchanges with people, of contracts, and of marriage. You may have the talent to smooth ruffled feathers, to behave with diplomacy so as to nurture good relations, to enter into partnerships, and to join any association.

### **Aspects influencing your ambitions**

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★☆ Sun trine Pluto, orb 1° 52'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

★★★★☆ Sun square Uranus, orb -1° 54'

This Sun-Uranus dissonance indicates a dazzling will to be the centre of attention and to proclaim your specificity, by all means. This aspect belongs to the rebel and the revolutionary restive to all forms of authority and of model. To balance this interpretation, the strong need for autonomy bordering on frenzied individualism must be highlighted. You allow nothing or no one to hinder your chosen line of conduct. Obviously, your attitudes are inflexible. You prefer to continue to the bitter end, even when you are wrong, rather than to be more open to people's ideas. Tyrannical attitudes often turn against the perpetrator... However, this configuration is a powerful agent for creativity, provided your hothead and extremist nature is kept under control.

★★★★☆ Venus sextile Midheaven, orb -0° 21'

In your natal chart, Christina Ricci, sweet Venus is in soft aspect with your Midheaven. It means that your natural charm and the way you express your feelings are appreciated in society. Usually, this configuration speeds up the achievement of your professional goals, or in any case, of a certain social status. A female - or females - may prove helpful for your career or your destiny.

★★★★☆ Sun sextile Neptune, orb 1° 18'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★☆ Jupiter square Midheaven, orb 3° 27'

Jupiter, the planet of law and social achievement, is in mild dissonance with your Midheaven, Christina Ricci. You may experience difficulties in climbing up the steps of your social status, or in having your true worth fully recognised. There is definitely nothing serious to worry about. It is up to you to remain self-confident and not to be too impatient. With effort and perseverance, you can reach serenely the goals you have set for yourself. The only mistake you must avoid with this configuration is to jump the gun and to forget hierarchy and laws, or just to underestimate the work you must put in to that end.

★★★★☆ Moon bi-quintile Midheaven, orb 0'

Your sensitivity and your emotions are in line with your goal and your ambitions, Christina Ricci. You do not need to curb your temper lest other people have a wrong perception of you. Indeed, by being your true self, very simply, your social ascent will unfold naturally.

★★★★☆ Uranus opposite Midheaven, orb -7° 53'

Uranus is in opposition to your Midheaven, Christina Ricci. Strictly speaking, this is not a dissonance since it is at the same time a conjunction with your Imum Coeli which symbolises your roots, your family, the home where you were born, as well as the home you set up. Since he symbolises deep changes, Uranus brings about repeated and continuous changes in your private life. It does not mean changing partner, but home moving, new human environment, removals, dwelling in very different places, and experiencing unexpected lifestyles. These areas are the ones most affected by changes, which is not the case for the professional plane, although in some circumstances, both are linked of

course.

★★★★★ Mercury square Midheaven, orb  $-6^{\circ} 18'$

You are not pleased with the way you intellectually approach your professional goals, or simply your destiny. Because of this mild dissonance between Mercury and your Midheaven, in some circumstances, your communication style is tainted with a few hesitations or clumsinesses. There is nothing serious to worry about, and it is up to you to gradually build self-confidence through the study and mastering of your projects.

★★★★★ Mars square Midheaven, orb  $7^{\circ} 01'$

Because Mars is in dissonance with your Midheaven, in some circumstances, you may feel misunderstood, Christina Ricci. In society, you may even feel hostility towards you as you try to climb up the steps of your professional life, or when you strive to reach a higher social status. Your efforts may be resented. You must be twice as careful as you usually are and tone down your behaviour in order not to be rude to other people, even though from your viewpoint, and it is actually most often the case, it only has to do with misunderstandings or some eagerness on your part.

★★★★★ Saturn trine Midheaven, orb  $-7^{\circ} 3'$

Thanks to this soft aspect between Saturn and your Midheaven, your long-term efforts and your perseverance are rewarded, and you gradually climb up the stairs of success. Time is your ally as far as your career and social destiny are concerned. Carry on the good work, and rest assured that your seriousness and your obstinacy are appreciated. They are instrumental in your success, especially during the second part of your life.

★★★★★ Sun inconjunction Saturn, orb  $-2^{\circ} 17'$

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

## Your Assets and Your Part of Joviality

The major asset of the planet of Greater Fortune in your chart, Christina Ricci, is the increase of your practical sense and of your capacity to create order in your surroundings. You progress easily in your activities, and in most cases, you are efficient, useful and cautious. The danger may be that you do not put yourself at the forefront to reap the rewards of your efforts, especially if the rest of your chart indicates a tendency for introversion or a lack of self-confidence.

Christina Ricci, Nature gives you a nudge in the right direction and endows you with enthusiasm and generosity, contributing to your charm and dynamism. You are attractive, and you hold sway over groups. Your physical appearance is that of a jovial and charismatic person.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Virgo gives you a talent for work, for practical activities and a higher than average dexterity. You have a strong sense of duty. You are very appreciated in your work environment because you are a perfectionist. The Tradition underlines that all the fields related to health and physical wellbeing are favoured.

## Your Serious Side

Your concentration power and your control over your instincts increase as you mature. You become more methodical, analytical, and tidy, although you lose some degree of lightness and joviality.

Solemnity, seriousness and discipline are your keywords, Christina Ricci. It is difficult for you to relax, and it is most likely that at the beginning of your life, you are shy, quite introspective, and distant. You may be worried even though you have no reasons to do so. Your doubts may be overwhelming to the extent that they affect your vitality.

As time goes by, thanks to your strong will, your serious side becomes an asset for your success. You learn spontaneity, risk-taking, and lightness, and you are less concerned with the image you project because, in your heart of hearts, there already are hindsight, solemnity, and some sort of wisdom!

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Virgo gives you a persevering and precise nature. This good combination increases your taste for sciences and for effort and you are constantly striving to improve yourself. Your tenacity works wonders.

## A Few Special Points

## **Your Uniqueness and Your Utopias**

Your mind is agile, curious and mobile, and always on the lookout for things that are out of the ordinary. This stems from your interest in strange or original concepts, or in non-conformist people.

Your trips are unforeseen and you are often present where no one expects you. The only problem is that you may shock your entourage, at least, the most conventional persons, because this aspect of your personality is undoubtedly quite endearing, provided that you do not exceed a certain level of eccentricity, whether in intensity or in volume!

## **Your Inspiration and Your Illusions**

Your vision of your childhood home, or of your father, is quite vague, but your emotions in these areas are intense. There is a vital need for you to feel comfortable at home because, otherwise, you tend to imagine horrors that exist only in your mind!

You may encounter complications, lack of understanding, or mystery regarding your origins or your real estate. In any case, it is hard for you to discern when you are "at home" and, even when all is well, you tend to idealize your household.

## **Your Passion and Your Authority**

This configuration may equally indicate an extreme greed for material gains or, on the contrary, a complete lack of interest in them. Your relationship to money may be secretive and obsessive.

You may earn huge amounts of money, with stubbornness and harshness, in a concealed but actual way, or in the darkness of risky speculations; in all cases, your attitude towards your earnings is... passionate, although you do not acknowledge it. The danger is that you may lose a lot. However, it is only when one is prepared to lose that one has a chance to gain a lot, and you certainly know it.

On a more symbolical plane, your sensuality and your possessiveness may be particularly strong. It is advisable that you step back, in order to become able to retain only the best of this configuration.

## **Your Isolated Planets**

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

## Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

### Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Christina Ricci, the ten main planets are distributed as follows:

### Your Northern and Southern Hemispheres

Christina Ricci, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Christina Ricci, here is the planetary repartition in your Eastern and your Western hemispheres:

### Your Eastern and Western Hemisphere:

Christina Ricci, the East and West sides are well balanced in your chart. This means that you are not too determined or authoritarian, and that you are neither impressionable nor fragile. You are capable of taking decisions, in full awareness, without anyone's help when circumstances so require. However, you have no problem taking your entourage's viewpoints into consideration, with tact and intelligence.

### Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

## Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Christina Ricci: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

### Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

## Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Christina Ricci: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive woman. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

### Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

### Your Esoteric Decanates

The first decanate, which means the part between 0° and 10° of any zodiacal sign, prevails in your natal chart, Christina Ricci: this decanate is traditionally linked to vitality and physical constitution, and may indicate that you efficiently express your concrete energy on the material and sensual planes.

## Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

### The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

You make friends easily and you earn your entourage's confidence and esteem. Very early, you develop an acute sense of fraternal relations, generously receiving and giving. This spirit of mutual aid may lead to a happy-go-lucky attitude that may border on carelessness... As you rely too heavily on friendship, there may be a danger to undergo a few setbacks: idealism and spontaneous dedication may meet with ungrateful reactions or the indifference of the very persons whom you try to help. Your destiny is probably marked with a quest of individual achievement. It is of utmost importance that you create, that you beget a fruit, a work or a child. Little by little, you become independent, without selfishness, but with the strength of those who know that they can only rely on themselves. Do not hesitate to live your dreams to the end and to engender, over and over again. Creation, whatever its form, is the path to your fulfilment. You slowly discover the pleasure to design as you please, without outside interference. It is important that you find an area for your personal expression and, as the poet says, "before the eyes, constantly, night and day, either a great labour or a great love".

Your doings indicate the challenge to dedicate an important part of yourself to devotion and abnegation. Life imposes a few sacrifices on you, whether agreed upon (and voluntarily taken up) or imposed by daily vagaries. Very early you showed a sharp critical sense and your attitudes were rational, logical and reasonable, although individualistic. As time goes by, you learn to make concessions and to offer an essential part of yourself so as to outgrow the "every man for himself" principle. Ordeals are meaningful: people may not respond to your games and your entourage may thwart your plans and your ambitions... You may need to achieve the "old souls" detachment, those beings who have learnt that only essentials are to be kept – inner life or survival- and who know that this world "petty things" are vain. Better than anyone else, you cope with situations of crisis because, whatever the circumstances, there is a hidden spiritual dimension and a springboard for evolution. You will slowly get to know the art of accepting things without going back on what you have said or done. Compassion and altruism become the central theme of your life.

## Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You are a person thirsting for precision and perfection. Your rebellions are frequent: any mechanism that is not running perfectly smoothly is dismissed. Any person whose attitudes seem inconsistent becomes the object of your refusal. Better than anyone else, you can ridicule social stereotyped models, too conventional and ineffective. It is likely that you often succeed in giving a logical dimension to the craziest situations.

Your refusals are irrevocable: you may show violence when the situation is stuck... When facts hamper your aspirations, when everything does not seem to start moving soon, you tend to force your ways through events, regardless of the price to be paid. Your strengths and your weaknesses stem from all that: you may exercise a misplaced extremism, claiming great causes, whereas order can be restored in the simplest of ways. However, better than anyone else, you know how to maintain the pressure whenever it is needed, when the desire for deep changes takes precedence over submission or abdication.

## The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 2nd house: acquisition and possession are the keywords for the axis of your activities. You work with a view to grow rich (on the material or on the spiritual plane), to accumulate goods and experiences. As you want to have a fulfilling life, you focus your energy on social projects and you take a fair share of the worldly cake. With your persistence, you will dedicate an unusual energy to your goals.

## Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Mars is retrograding in your chart: according to the Tradition, this suggests karma of aggressiveness. What does it exactly mean? You may not control your energy, at least during the first part of life. In your interactions with the world, you may not dare to give your reactions free rein. During your childhood, as for all bullied persons, your spontaneousness was smothered. You tend to internalize, even to repress your desires. You chew things over and you fuel your resentments without taking any action... until they explode! Then, your aggressiveness suddenly blows up in an excessive and out—of-proportion way. In

itself, martial energy is positive: it allows coping with any given situation. However, the fighting spirit is a virtue only when impulses remain under control. You must endeavour to balance your quarrelsome tendencies and to respond to provocations without losing your self-control. Do you lack audacity? In that case, force your natural self, be more dynamic, otherwise you may undergo the same harmful outbursts again. It is the only way for you to feel better in your body and in the world!

With Jupiter retrograding on the day of your birth, the lesson is about grasping the opportunities that are offered to all of us but that some people take advantage of, while others don't. Persons who quickly adjust to circumstances are more likely to achieve their ambitions than those who need to be encouraged to take action. During your childhood, you may not have efficiently responded to life's concrete enticements, leaving other "luckier" people to achieve what you were dreaming of. You preferred to enjoy yourself, here and now, rather than to look for new paths of development or exploration. It is possible that you were not optimistic enough. Enterprising minds were alien to you... Later, you find out that, indeed, you give little importance to the credit of the frenzied expansion praised by the modern world. Your path is not oriented towards personal prestige. With subtlety, you integrate non-material values and you accept well the fact that you missed past opportunities.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep, it is nonetheless safe.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

**N.B:** modern astrology attaches less and less importance to the principles of retrograding planets.

## Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
