Claude Debussy's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Your Planets, Houses, Aspects, and Natal Chart

Claude Debussy, born August 22, 1862, at 04:30 AM, Saint-Germain-en-Laye (Ile-de-France), France [2.06E ; 48.54N ; 0E08]

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Claude Debussy, the nocturnal North-eastern quadrant, consisting of the 1st, 2nd and 3rd houses, prevails in your chart: this sector favours self-assertion and material security to the detriment of your perception of others. You consider self-transformation to be a hazardous adventure. You are inclined to seek stability and you tend to protect yourself with your actions. Possession, acquisition but also communication, without opening up too much, are part of your deep motivations. You are rather autonomous and constant, however it is important that you pay more attention to others, so that you can improve your outcomes.

Your Dominant Modes and Elements

Claude Debussy, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Claude Debussy, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

Like the majority of Earth signs, Claude Debussy, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Air is under-represented in your natal chart, with only 4.39% instead of the average 25%. Air symbolizes the values of communication, exchanges with others, but also adaptability and flexibility abilities: if you don't get out of your cocoon to talk, to show interest in others, and to socialize, you may have problems understanding others. Because of your lack of flexibility or of your refusal to adapt yourself, you may be suddenly overwhelmed by events. You should get into the habit of talking, of phoning, and of thinking in terms of "mobility, flexibility, adaptability, change" in every circumstance. It will spare you so many troubles!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Claude Debussy, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Claude Debussy, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are the Sun, Mercury and Pluto.

One of the dominant planets in your natal chart is the Sun. He symbolizes will, magnetism, sense of honour and dignity. You are a Solar being, and you often display charismatic and leadership qualities. Your warmth and your persuasive power lead you far away from pettiness. You enjoy thinking big and, consequently, you move forward according to what you decide.

Your Solarian weakness may be related to the sin of pride or to excessive authority. The frontier between pride and vanity is tenuous: be careful not to overstep it and to keep the nobleness of heart that is part of your charm.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

With Pluto as a dominant planet in your chart, you are a magnetic and mighty predator, like the Scorpio sign ruled by this planet, who needs to exert pressure on others in order to "test" them. You are always ready to evolve, to risk destruction for reconstruction - including your own - to live more intensely whilst imposing your secret authority on things and on people you encounter.

You may come across as wicked, cruel or too authoritarian, but actually you only follow your instinct, you sound people out, and you like to exert your domination simply because your vital energy is too powerful to remain inside. You are inclined to be passionate, with hidden motivations. You are

sometimes misunderstood but one of your great Plutonian assets is to go successfully through each life ordeal with ever growing strength.

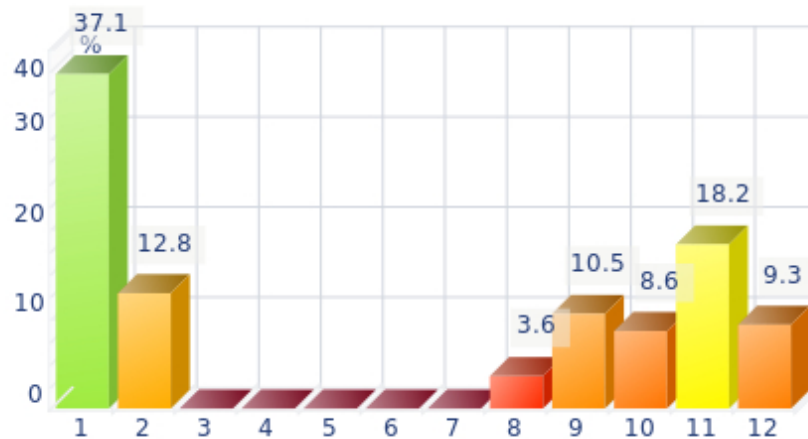

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Leo, Virgo and Taurus. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With Leo as a dominant sign, you naturally shine brightly. Your dignity, your sense of honour, and your generosity can almost turn you into a solar mythological hero, a knight or a lord from the ancient times. People may blame you for your selfishness, your pride or your somewhat loud authority, but if you are self-confident, kind-hearted and strong-willed, it surely makes up for your little flaws, as long as they remain moderate...

Virgo, associated with perfectionism, numbers and reason, is among your dominant signs: you inherit its sense of responsibility and tidiness, a clear mind, an unflinching logic, as well as a need to be useful and to fulfil your task to the best of your abilities. Obviously, people may think that you are too modest or reserved, suspicious or pessimistic because of your exceedingly critical mind, but aren't logic and wisdom great qualities? Of course, they are. Moreover, you keep your feet on the ground, you never behave irrationally and you are helpful and hardworking - what more can you ask for?!

With the Taurus sign so important in your chart, you are constructive, stable, and sensual. Good taste, sense of beauty, manners, and unflinching good sense - all these qualities contribute to your charm and seductive power. Furthermore, if some people criticize your slow pace and your stubbornness, you rightly reply that this is the price for your security, and that you like the way it is - slow and steady....

Your Dominant Houses

Houses 1, 11 and 2 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

The 11th house is among your dominant houses. Therefore, social life and friendships are very important, even strategic to you.

You think that group activities, whether in the humanitarian field or simple gatherings of friends, are endless sources of inspiration and of enjoyment, provided that there are no tensed aspects in this sector. Everything human is important to you, often more important than your own success, unless your 10th house is also powerful.

The 2nd house is among your three most tenanted houses: life's material aspects - with everything that is implied in terms of security, appetite for life, desire for possession - are deep-seated and you can never be content with living on love and fresh air. On a more abstract level, you may have similar feelings regarding relationships: possessiveness and jealousy in the worst cases, but also faithfulness and durability.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Leo and your Ascendant is in Leo

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

You are twice a Leo! You wear no mask, and your behaviour is the same when you are with people you don't know well and when you deal with your friends and relatives. Because you are ruled by the Sun, you are endowed with fortitude and charisma, which may intimidate your interlocutors or, on the contrary, fill them with enthusiasm. Leo is warm, fun, and generous. It makes sure that it does not go unnoticed and that it commands respect. Indeed, it strives to carefully conceal its weakness, which is its vital need to always be up to people's expectations. Because the thing that Leo dreads the most is to be thought of as an imposter, it builds an inner protection which defeats any opponent. Once it is thus reassured, Leo fears nothing. Your detractors blame you for being a conceited person, but you just dismiss them, even though you know deep down that there is some truth in their criticisms, and you

prefer to concentrate on your friends, to whom you offer your loyalty as well as your festive and entertaining spirit. You enjoy embodying different roles since, to you, life is but a theatre stage. You definitely do not understand all the spoilsports who take themselves so seriously.

The sign and the Ascendant in Leo

Psychologically speaking, your nature is powerful and self-assured. You are a leader whose strength and nobleness naturally arouse your entourage's respect and adherence and your legitimacy is unquestioned. Your sense of commandment, the honour your person constantly exudes, your prestige and your charisma is a whole which puts you into the spotlight wherever you go.

As you are born under this sign, you are proud, determined, wilful, loyal, solemn, generous, ambitious, courageous, heroic, full of vitality, creative, confident, seductive, happy, daring, proud, majestic, honest, magnanimous, charismatic, responsible, noble, brilliant, radiant, dramatic, affectionate, full of humour, demonstrative, swaggering and self-confident. You can also be domineering, conceited, touchy, authoritarian, stubborn, intolerant, self-centered, irascible, violent, and nonchalant.

In love, Sir, you are very demanding. You are a powerful and loyal lover. Your partner must be the most beautiful and the most brilliant person and she must make you feel that she admires you. In such a case, your generosity has no limit and you give your love without reservation, with nobleness, liberalities and luxury. You set up a stable and brilliant home where children have the essential part.

The main danger is that you value trust to the extent that you grant it generously but too hastily: if you happen to find out that your trust is misplaced, the whole world around you crumbles and the relationship is forever damaged. In this regard, you are cut-and-dried and you feel so hurt and humiliated that you seldom can forgive.

Another similar danger comes from the fact that your expectations are very high and it is very unlikely that real life offers such unconditional and lasting love: for this reason, it is not unusual that you never marry, all the more so because your self-centered character is not prone to self-questioning...

The ruler of your chart is in Leo

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

In your chart, the ruler of the Ascendant is the Sun. This specific feature means that the Sun's characteristics previously delineated are strengthened.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Claude Debussy. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Leo Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Mars trine Ascendant, orb 3° 52'

Your vitality and your taste for action are obvious, Claude Debussy. Thanks to Mars, your behaviour is often perceived as energetic, or at least, as action-oriented and enterprising. Your dynamism is one of your constant assets.

★★★★★ Uranus sextile Ascendant, orb 2° 02'

Uranus is in soft aspect with your Ascendant, Claude Debussy. Although your behaviour is original, nonconformist, and free, it is not unpleasant. On the contrary, this facet of your personality is sometimes considered by other people as endearing and unpredictable, in the good sense of the word. One never gets bored in your company because you are often found where you are not expected, whether regarding your ideas, your lifestyle or the way you react. You possess the charm independent and free persons are endowed with!

★★★★★ Sun conjunction Ascendant, orb 6° 34'

The conjunction of the Sun with the Ascendant represents the perfect fusion of will and vitality, and will and external appearance, Claude Debussy. This conjunction indicates an above average charisma or magnetism. Moreover, there is a concentration of energy which enables you to naturally shine and attract, as well as to move mountains provided... you decide to do so!

★★★★★ Saturn semi-sextile Ascendant, orb 0° 16'

Saturn is in soft aspect with your Ascendant, Claude Debussy. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

★★★★★ Mercury conjunction Ascendant, orb 9° 21'

Your sense of communication and your intellectual process perfectly match your external appearance, Claude Debussy. Thanks to Mercury, you are able to carry out your self-analysis very well and quickly, which gives a lot of spontaneity to your intellectual exchanges with other people.

★★★★★ Moon semi-sextile Ascendant, orb 1° 09'

Your instinct seldom misleads you, as far as your external appearance is concerned, thanks to the Moon's soft aspect with your Ascendant, Claude Debussy. You keep your emotions under rather good control, in instinctive and smooth ways.

Your Sensitivity

Affectivity and intuition are very developed, Claude Debussy, and you are very sensitive to your environment. You “feel” atmospheres, moods and other people's emotions and when you capture negative influences, a feeling of ill-being immediately overwhelms you, all the more so because your lively imagination may destabilize you as it amplifies your receptiveness. Your nature is anxious and you tend to worry for your entourage. You strive to offer them a reassuring family atmosphere, the much needed comforting and warm sort of cocoon where you can laze around, at will. Because you care so much for your family, they may think that you are intrusive and that you try to rule their life through subtle affective blackmail. Trust them... and also learn to have more confidence in yourself!

You are popular with your friends, Claude Debussy. You easily shine, thanks to your sensitivity, your whimsical side, your mobility and your charm tinged with imagination. Even at work, you often win your clientele's favours, and if by chance, you are in a commercial team, you are chosen and sent ahead to deal with customers because you are so likeable!

You can happily express your emotions through shared projects - with your friends, preferably - in which you shine with selflessness and your childlike but endearing charm.

★★★☆☆ Moon square Mars, orb 2° 42'

The Moon-Mars dissonance suggests touchiness and sometimes, aggressiveness. You are irascible and very sensitive to all sorts of threats and dangers. You react very quickly, too hastily. To protect your well being, you must learn to control your mood, to coordinate your actions and to balance your opinions. You are often disturbed by plain facts: Either you seek refuge in your intimate realm and refuse to face the truth or, on the contrary, you are engaged in altercations, which forbid all tranquillity. It is important that you balance these two tendencies and that you alternate moments of action with phases of carelessness and relaxation. These two attitudes are relatively irreconcilable.

★★★★☆ Moon sextile Saturn, orb 1° 26'

This harmonious Moon-Saturn aspect is an element of stability for your private life. Your daily life lives up to your demands, you are totally true to yourself and logical through your very intimate behaviour. You do not choose the easy way out: on the contrary, it is in difficult situations that you are at your best. It is very unlikely that you become destabilized by trifles. This aspect indicates stability and also perfectionism. You are longing for a private life respectful of your heart of hearts and your genuine desires. Your well being is at this price, and its quest remains perpetual. Despite your reserved private behaviour, your emotions run very deep. You have a strong need for protection and for security. Your aspirations lead you towards contemplation or studies, more than towards social futilities.

★★★★★ Moon conjunction Venus, orb 9° 54'

The harmonious Moon-Venus aspect is an element of intimate balance that favours sensual and affective fulfilment. The search of well being includes all kinds of emotions and feelings. You love, you enjoy life in simple ways and you arouse your entourage's affection. The persons belonging to your inner circle are also objects of desire and pleasure. Tenderness and love are probably one and only thing: you are moved by the gestures of affection provided to you and by the daily acts which strengthen two persons' mutual attachment. Whereas other people dread routine, in your case on the contrary, it increases your amorous feelings. You loathe all kinds of violence, particularly in your intimate life. The danger of this planetary configuration may be your constant changes of mood: whims are often on the agenda... and your will is quite weak. One last point: this aspect is frequently found in the charts of people with an aesthetic or

artistic sensitivity.

★★★★★ Moon semi-sextile Uranus, orb 0° 53'

This harmonious Moon-Uranus aspect indicates that your well being depends on the original quality of your charm and on new-ness. You are not influenced by prevailing trends and fashion. You have a personal view of what a balancing private life should be. You enjoy unexpected situations, even extravagant ones. But if you feel that your living environment hampers your freedom, you suddenly change your attitudes and your habits. Independence is your true realm. You may show an exceptional inflexibility when your intimate life moves away from the patterns you need, deep down. Your entourage must get used to your demands and to the values you are determined to keep with all your might and on which you are uncompromising. This determination does not allow for a laid-back attitude, or an indolence that so often causes degradations. You keep your own daily rhythms under control.

Your Affectivity

In your chart, the Sun and Venus are both in Leo. You are a Leo to the tips of your claws, you resolutely take a conquering attitude, and you do not allow anybody to tarnish your public image. You are sensitive to people's opinions. You strive to give a dramatic character to your sentimental life, otherwise, love would seem very dull to you. Your weaknesses? An obvious touchiness, the vulnerability to people's judgments: when your charm works, you are at your best but you feel all the more powerless or distraught when your subtle enchanting mechanism gets jammed by a glitch. Your abilities to seduce are unquestionable. Does it mean that you are inconstant? Nothing is less certain. You are able to show that you are almost absolutely faithful. Faithfulness to your friends, your loves... and your rivals. Your nature is possessive and you seldom forgive blows to your pride. This is a consequence of your unlimited generosity towards persons who consider you and keep you in high esteem. No doubt, one never gets bored in your company. Unless your partner gets tired of always looking for reasons to admire you, to sustain a passionate, unyielding and uncompromising relationship. Some tyrannies are pleasant, whereas some others are more difficult to bear!

You are so proud and generous, Claude Debussy, that the power of your love contains in itself your vulnerability. However, this is precisely what makes you charming and original. You are loyal and straightforward and you need to love as much as you need to be loved. Both feelings are tightly linked and there is a real danger that love is broken up by trivial misunderstandings, just because your touchiness is affected. You are demonstrative, brilliant, and even dramatic, with a legendary generosity. For you, everything is, or must be, excessive: gestures of love towards your partner, your presents, your comfort and the luxury, which marks your outings and your travels. You are physically a lion, at least, you have its sexual appetite; you are voluptuous and passionate. Flexibility is the only thing that is out of your reach, in the ways you show your love, as well as in your responses to annoying events.

Claude Debussy, whether you want it or not, you are the illustration of the famous French saying that: "To live happily, let's live in hiding!" Nothing suits you better than tranquillity, peace and, finally, to some extent, privacy in your love life. It may be caused by many different reasons, sometimes shyness, romanticism, modesty etc. but in any case, you are prone to experience love better in the clandestine mode. The legalization of your union, so often sought after by others, is something you dread more than anything else. You are romantic, secretive, even melancholy, sometimes, and you tend to sublimate or to spiritualize your feelings, with the effects of bringing about moments of affective loneliness that do not

really take a toll on you. Indeed, you operate a sort of fatalistic association of love with ordeals in general: often, you meet with your soul mate during difficult circumstances or in a climate of sorrow. Is it due to your highly dedicated and loving nature, or to your innate goodness? Whatever the answer may be, you often establish serious links during such occasions. It may occur in a closed setting, a hospital or a convent, or a prison. Mysteriously enough, love is born and develops easily. You are a philanthropist with genuine compassion at the bottom of your soul and you give of your best when the period is filled with sorrows and doubts. You are among those who can commit themselves in all sincerity and fervour to charities. There, your feelings will certainly find a natural outlet, in so far as you are unable to express them strongly enough in your concrete love life. In spite of your misleading appearances, you are rather the shy and reserved kind in the very intimate area of feelings but you are so nice, dedicated and generous that you are not any worse off than others: you successfully turn your ordeals into periods of personal enrichment and beneficial growth, on the spiritual plane as well as for your destiny. Besides, you are blessed with a kind of protection against life hardships. The ravages of loneliness have absolutely no effect on you, to your close relations' deep astonishment.

★★★★☆ Venus trine Neptune, orb -2° 22'

Your sentimental life unfolds like a strange dream. Love is too delicate to be tamed or controlled. You follow your heart impulses in an idyllic ambiance, far from reality's ordinary constraints, far from conventions and conformism. You exude a particular charm, discreet and subtle. But your affectivity may be disconcerting. You are very sensitive to marks of affection and tenderness, although you are aware that love cannot be bought or won. What is meant to be will be and it is impossible to know the hows and the whys behind a prevailing harmony. The obvious danger is that you may refuse to make any effort in such conditions. Living as a couple must feel natural and you do not need to objectively build the foundations of a relationship. You are an idealist and you dream of an affective paradise, which may be too good to be true...

★★★★☆ Venus sextile Jupiter, orb -1° 35'

Charm and seduction are your assets. This harmonious Venus-Jupiter aspect favours your affective fulfilment and your sentimental well being. You earn your entourage's sympathy thanks to your conciliating sensitivity, your desire to please and your behaviour in society. In many circumstances, you arouse esteem and consideration – essential values to you. You like social whirls, life in society, the aesthetics and the arts. You often tend to look for the easy way out in your business and your affective relationships. You are known as a complacent person. However, your amorous commitments may be quite superficial. It is important that, without breaking the spell, you opt for a more genuine attitude, respectful of your essential desires. As we all know it, love cannot be bought. An indication of balance: because you are aware that compromises are necessary for a love affair to endure, better than anyone else, you know how to maintain harmony in love.

★★★★☆ Mercury semi-sextile Venus, orb 0° 35'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitise to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as

esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

The Way You Take Action and Your Sexuality

Impulsive, impatient, quick and energetic? You? Yes of course, Claude Debussy. You are courageous and able to make intense and huge efforts for a short while; and what a terrific rhythm! In sport, of course, or in your sexuality, you are not the type who ponders, you take action instinctively, “in a rough and ready way”. You are outspoken, you do not worry about other people's opinion and you do not allow them to slow you down or to judge you. You must succeed or fall apart. You cannot be bothered with diplomacy or with compromises. You are too straightforward and unyielding to waste time with finesse or shrewdness. This is what makes you charming because, with you, one always knows where one stands.

You may focus all your energy into your ideal, Claude Debussy, be it political, religious, ethical, moral or, under its highest form, spiritual. Several areas may be involved simultaneously.

Taking action with all your heart may reveal a dialectics, and you will not rest until you are understood and you have earned other people's adherence. You exchange with keen pleasure. You embrace the causes enumerated above, at the exception of spirituality, as it could never be a subject for proselytism.

You are able to instinctively identify the most important element in life from a remote distance and, inevitably, it does not belong to the material plane. You are not too interested in working for the concrete realm. You aim at longer-term objectives... and even further. Your energy is deliberately, fierily and boldly poured into the realms of the thought and the soul. You chose them all, some of them may be more futile than others, but they are all oriented towards abstraction, concepts, some of them being often more essential.

Your nature may also be more fact-oriented. In that case, you feel that the enrichment of your soul is particularly favoured when you deal with persons and environments that are alien to you: you express your capacity of action through frequent and long-distance travels so as to progress in your personal quest for knowledge.

★★★★★ Mars sextile Uranus, orb 1° 49'

This harmonious Mars-Uranus aspect indicates an unshakable determination and the will to further your ideas through drastic, sudden, sometimes dramatic actions. You bend the string of your bow before taking action and you hit at the right time. The secret of your feats? An excellent command of your blitz actions. You concoct your plans in the dark, and then you move to an efficient and quick execution step that is often dazzling. You do not have the temperament of a loser. When you face an ordeal, you focus your entire energy and will on your unique aim: victory over any obstacle. This planetary configuration may lead to dangerous, even heroic actions. The danger is that you may over-estimate your strength or your chances for success.

Your Intellect and Your Communication Style

Your capacities for logic and analysis are very good, Claude Debussy, and you evaluate each and every aspect of a given situation in objective and critical ways. You are industrious, methodical, with a lot of nervous energy, you pay attention to details and you may spend lots of time in intellectual and painstaking works. Although you are articulate, you do not like to be in the forefront and you prefer to work in team rather than to take initiatives: you feel less anxious when you know what is exactly expected from you and what you need to do. You tackle problems with rationalism and you distrust imagination and intuition. You love letters as much as you love figures. Your caustic humour may destabilize your entourage who may prefer that you were less demanding and more demonstrative. Please bear in mind that not everything can be kept under control...

Your intellect and your communication abilities are not directed towards any particular field, Claude Debussy: indeed, you are by nature curious, lively, mobile and you generally adjust remarkably well to your surroundings.

Your versatile personality prompts you to get interested in many things, and it is not exaggerated to say that your intellect and your flexibility constitute strong assets for your life. People around you may rightly or wrongly perceive a kind of shallowness because of your adaptability and skilfulness - sometimes too opportunistic - that are your strong points.

★★★★★ Sun conjunction Mercury, orb 2° 47'

You know how to play with your image, how to give multiple representations of yourself. A precious asset: you are sensitive to other people's opinion and you adapt yourself to the audience. Of course, there is a "show" side in your manner that may prevent perfect cohesion. But that's the other side of the coin, for an extraordinary capacity to discover. This aspect translates into an acute sense of observation, an intense desire to learn and to bring everything to light. You strive to be informed in many circumstances, to understand the machinery of the world surrounding you, particularly regarding all human topics. And you will change according to that information and the knowledge gained. You have the chameleon's adaptation powers. And its vulnerability, as well.

★☆☆☆☆ Mercury inconjunction Neptune, orb -1° 46'

With this Mercury-Neptune dissonance, relations may be distorted by the mirages of sensitivity. You have to make an effort to keep your objectivity. If this aspect is not well integrated, it may harm your good evaluation of human stakes. Your intimate beliefs may limit the dialogue, as if a very specific sensitivity prevented true communication. It may be difficult to find the right wording to express fragile and ineffable experiences. Imagination in power is not easy to share and the poetry of your speeches may be beyond your audience's understanding!

★☆☆☆☆ Mercury sesqui-quadrate Mars, orb -1° 46'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

★★★★★ Mercury quintile Uranus, orb -0° 35'

Your state of mind is innovative and turns the surrounding world into a constantly moving field of experiences. You ask relevant questions ... and you answer them. Although you are flexible when you ought to, your principles and your beliefs are unwavering. It seems difficult to catch you off your guard. You multiply observations, relationships, contacts and you never lose face: actually, your mobility hides an unshakable determination and a deep lucidity. In a split second, you are able to catch the useful information or the enriching relationship. The original and fanciful steps you take exclude monotony. Your approach to life is amazing!

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 1st House

Willpower and appearance united! You are so lucky, Claude Debussy, that your inner self and your behaviour merge to increase your energy and your vitality. Since the Sun represents your self-assertiveness and your profound personality, he expresses itself best when this configuration is strongly featured. Indeed, you form a whole block and there is no discrepancy between your real identity, as perceived by you and your close friends, and the image you project.

With this nice association, your behaviour matches your true nature. You act externally according to your willpower, without filter, nor reservation. It endows you with a wilful, personal and magnetic temperament. You attract, you charm and when you are in the middle of a crowd or a meeting, your personality stands out with depth and brilliance because you have the kind of radiance and warmth that can never go unnoticed.

With this configuration, the only goal in your life is to assert yourself, proudly and decidedly, through what you are and through your actions, everywhere you go. Your ambition is to experience your temperament to the fullest, in all areas. You are sheer energy in motion. There is no gap between the image you project and your real self and for this reason, your inner qualities are never wasted.

The other side of the coin is that people may find that you are self-centered and that you do not take people's opinions into account... Practice some humility if you can, because too much magnetism may arouse fears in people who do not know you yet.

The ruler of your chart is in the 1st House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your Ascendant is in the same House as your Sun. This specific feature of your chart strengthens the Sun's characteristics previously delineated.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Pluto conjunction Midheaven, orb 1° 08'

Pluto is in conjunction with your Midheaven, Claude Debussy. This very powerful aspect indicates that your career may have a fatality nature in the sense that, as with all trans-Saturnian planets (Uranus, Neptune, and Pluto), events of the collective category may deeply influence your personal destiny. Pluto is the planet of secret power, domination, unspoken words, taboos, police forces, and investigations. Therefore, depending on the other configurations found in your natal chart, it is possible that your career or your social destiny inherits a Plutonian note, and is connected with mysteries, sexuality, inherited money, or some sort of occult power, such as the grey eminences or leaders working in the dark.

★★★★★ Jupiter conjunction Saturn, orb 6° 53'

Jupiter and Saturn are favourably linked to each other in your natal chart. The Tradition indicates that this planetary aspect is a good omen for your social success and good integration in the society. Indeed, Jupiter stands for public life, respect for laws and hierarchy, and acceptance of established rules, whereas Saturn symbolises wisdom, time, seriousness, and perseverance. Therefore, it is only logical that with this Jupiter - Saturn configuration, your career, or your social destiny if you do not work, is well thought of by society, and that you are most likely to experience its happy outcomes sooner or later.

★★★★★ Sun semi-sextile Jupiter, orb 0° 36'

This harmonious Sun-Jupiter aspect indicates an optimistic background that usually wins the entourage's adherence. It also suggests ambition and generosity and favours social integration and success. The desire to earn general consideration prompts you to display energy, joviality and benevolence. However, opportunism may be the other side of the coin. As you strive to win everyone's esteem, you may fall into disrepute. It is important that you remain clear-sighted so as to persistently pursue your long-term aims without believing that you should always « grab each and every opportunity ». However, this aspect remains an element of success because it allows you to adjust your objectives to the context, to whatever the situation offers or, on the contrary, to force your way through events and to achieve your ideals.

★★★★★ Moon quintile Midheaven, orb -1° 1'

Your sensitivity and your emotions are in line with your goal and your ambitions, Claude Debussy. You do not need to curb your temper lest other people have a wrong perception of you. Indeed, by being your true self, very simply, your social ascent will unfold naturally.

★★★★★ Sun bi-quintile Neptune, orb 1° 26'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

Your Assets and Your Part of Joviality

The major asset of the planet of Greater Fortune in your chart, Claude Debussy, is the increase of your practical sense and of your capacity to create order in your surroundings. You progress easily in your activities and, in most cases, you are efficient, useful and cautious. The danger may be that you do not put yourself in the forefront to reap the rewards of your efforts, especially if the rest of your chart indicates a tendency for introversion or a lack of self-confidence.

Claude Debussy, this Jupiter's position is a heaven-sent present. It increases your earning power and may turn you into a persistent, obstinate and greedy person. You may also be at the same time sentimental and loyal. So, sometimes, material luck and love do work in unison!

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Virgo gives you a talent for work, for practical activities and a higher than average dexterity. You have a strong sense of duty. You are very appreciated in your work environment because you are a perfectionist. The Tradition underlines that all the fields related to health and physical wellbeing are favoured.

Your Serious Side

Your concentration power and your control over your instincts increase as you mature. You become more methodical, analytical, and tidy, although you lose some degree of lightness and joviality.

Financial affairs, and more particularly, your earning capacity, constitute the challenges of your life, Claude Debussy. In this area, your practical sense is not too good and remains to be improved. This is the first thing you should work in order to progress and to gain self-confidence.

You are distrustful and you spend too much time analyzing before taking action by yourself; you must understand that, to be able to win, you must accept to lose, to take risks, and to give for the sake of giving. There is no other way out. As time goes by, you use your persistence to gain material security and to steady the flow of your income in order to overcome feelings of frustration.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Virgo gives you a persevering and precise nature. This good combination increases your taste for sciences and for effort and you are constantly striving to improve yourself. Your tenacity works wonders.

A Few Special Points

Your Uniqueness and Your Utopias

Powerful protections, friendships, and supports are granted to you at a jerky rhythm throughout your life. There may also be break-ups that are as brutal as they are easy to forget because you manage to ensure that your contacts are brilliantly revived.

The friends you meet have strong personalities, or they may be quite special persons; indeed, you think of friendship as a rich and varied soil in which everyone must bring one's own contribution with one's touch of originality and difference. Otherwise, what's the use?

The danger is that you may embark upon projects that you cannot see through in the long run because they are too utopian. You may also count on partners who are too eccentric to be reliable. Or, on some occasions, you may show too much independence of mind or a boldness that is too strong to really last.

With this typical configuration, your popularity may fluctuate and disappear as quickly as it comes. It is up to you to set the limits of originality that you must not overstep, lest you should undergo unfortunate consequences.

Your Inspiration and Your Illusions

There is a form of confusion or of vague perception in matters of sexuality, investments, inheritances and, as a general rule, other people's finance and the money you do not earn by yourself.

You have the gift for sounding the depths of your psyche, for feeling what others' motivations are, and you thoroughly understand behavioural patterns, in a sensitive, emotional and non-intellectual way.

This configuration may bring fortune as well as breaches of trust... Be very cautious before trusting anybody, as far as investment and finance are concerned.

Your Passion and Your Authority

Your career, and more generally, your entire destiny, is challenged in many instances. You are individualistic, and you do not hesitate to forcefully provoke events, but often, external facts, totally beyond your will, are the causes of major disruptions in your life.

Your strong ambition prompts you to use your instinct of domination over people and over things... Towards that aim, you cannot help it, you have to trigger crises that invariably bring about transformations around you and within you. And this is exactly what you unconsciously wish for.

In your professional world, you are respected and even feared. It is up to you to be careful not to overstep boundaries, if you do not want to bear the consequences of this transforming agent that is inherent to your destiny.

Symbolically, the Tradition indicates that your mother is very probably domineering and authoritarian – at least, in your opinion - particularly during your childhood.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

In your natal chart, Pluto is unaspected

Most astrologers agree that when one of the trans-saturnian planets, namely, Uranus, Neptune or Pluto, is unaspected in a chart, its collective nature limits the scope of this special configuration.

When Pluto is unaspected in a chart, the person sometimes feels very strong impulses which he cannot escape. Pluto, the planet of instinct, domination, but also emptiness, may prompt to solitude or powerful actions requiring an intense energy, which is more or less well channelled, depending on the rest of the chart and the configuration of the moment.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Claude Debussy, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Claude Debussy, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Claude Debussy, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, Claude Debussy, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Claude Debussy: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart,

Claude Debussy: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive man. Indeed, angular houses are said to generate impulses and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The third decanate, which means the part between 20° and 30° of any zodiacal sign, prevails in your natal chart, Claude Debussy. It contains the degrees of spirituality, traditionally more delicate to deal with, since they incline towards evolution and therefore, destabilizations. Individuals with an emphasised third decanate may have deeper sensitivity than most people, which often brings ordeals but also spiritual rewards.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

You make friends easily and you earn your entourage's confidence and esteem. Very early, you develop an acute sense of fraternal relations, generously receiving and giving. This spirit of mutual aid may lead to a happy-go-lucky attitude that may border on carelessness... As you rely too heavily on friendship, there may be a danger to undergo a few setbacks: idealism and spontaneous dedication may meet with ungrateful reactions or the indifference of the very persons whom you try to help. Your destiny is probably marked with a quest of individual achievement. It is of utmost importance that you create, that you beget a fruit, a work or a child. Little by little, you become independent, without selfishness, but with the strength of those who know that they can only rely on themselves. Do not hesitate to live your dreams to the end and to engender, over and over again. Creation, whatever its form, is the path to your fulfilment. You slowly discover the pleasure to design as you please, without outside interference. It is important that you find an area for your personal expression and, as the poet says, "before the eyes, constantly, night and day, either a great labour or a great love".

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

Twin relations (those that include your fellow creature, your double) are an object of fascination. You are in quest of your soul mate, your identical being rather than your complement... This attitude brings about exaltations and setbacks: you think that you recognize that special one who really resembles you? Differences, however, grow more painfully as time unfolds. But your search of an absolute relation may also become the cement of a close and privileged couple, impervious to life vagaries.

You have the feeling that you are different from your entourage because you are in charge of both a special mission, and an extraordinary destiny. This configuration may indicate an immoderate pride (when the Black Moon is not well integrated enough). However, when she is well integrated (and she will be, as time goes by), the Black Moon forges an exceptional destiny that implies sacrifices, asceticism and solitude to some extent. The danger is to show too strong an intransigence and to be unable to forgive your entourage's weaknesses as well as your own. But it is also where your strength is found: an innate sense of duty, regardless of the price to be paid for a slow ascension.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 2nd house: acquisition and possession are the keywords for the axis of your activities. You work with a view to grow rich (on the material or on the spiritual plane), to accumulate goods and experiences. As you want to have a fulfilling life, you focus your energy on social projects and you take a fair share of the worldly cake. With your persistence, you will dedicate an unusual energy to your goals.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression.

Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
