David Beckham's Astrological Portrait

Introduction

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your

general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

David Beckham, the diurnal South-eastern quadrant, consisting of the 10th, 11th and 12th houses, prevails in your chart: assertion and goals achievement are at the centre of your concerns. You are very keen to implement your dreams and your plans. You achieve your ambitions as soon as possible, whether through an active social life, highly charged friendly relations, or an urge to take actions in order to reap - in the eyes of the world, of course - the rewards of your dynamism. It is likely that spirituality or humanitarian actions are part of your motivations, sometimes at the price of some degree of isolation.

Your Dominant Modes and Elements

David Beckham, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Like the majority of Earth signs, David Beckham, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Cheers for communication and mobility, David Beckham! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

David Beckham, the Cardinal mode is dominant here and indicates a predisposition to action, and more exactly, to impulsion and to undertake: you are very keen to implement the plans you have in mind, to get things going and to create them. This is the most important aspect that inspires enthusiasm and adrenalin in you, without which you can grow weary rapidly. You are individualistic (maybe too much?) and assertive. You let others strengthen and improve the constructions which you built with fervour.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

David Beckham, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Mercury, the Moon and Venus.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive, and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total self-control.

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your

interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Taurus, Capricorn and Gemini. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With the Taurus sign so important in your chart, you are constructive, stable, and sensual. Good taste, sense of beauty, manners, and unfailing good sense - all these qualities contribute to your charm and seductive power. Furthermore, if some people criticize your slow pace and your stubbornness, you rightly reply that this is the price for your security, and that you like the way it is - slow and steady....

Capricorn is one of your dominant signs and endows you with a grave and serious style that seems to stick to you constantly. But if you have that reserved and cold side - as some extrovert people may think - on the other hand, you possess sturdy qualities: you are strong-willed and tough. Your long-term vision, your sense of duty, and your ambition are not affected by the derisory and erratic motions that seem to upset most mortals less steady than you. Besides, you are like a good wine, you age well and your natural solemnity or serious side paradoxically turns into an almost cheerful appearance, as you grow older. You are actually very sensitive when it comes to love. Faithful, caring, sweet, and sensitive, your behaviour is very different in your everyday, sentimental life. A golden heart beats under your tough and austere appearance....

With Gemini as a dominant sign, your qualities include being lively, curious, mobile, clever, and flexible: you often make others dizzy, and you may come across as a dilettante - a bit inquisitive, shallow, and

insensitive because you may be too intellectualizing. However, your natural curiosity, a nice quality, and your quick humour, allow you to demonstrate to everyone how much they may gain from your company, and that your apparent flightiness hides an appetite (particularly mental) for life, which itself conceals a terrific charm!

Houses 1, 10 and 12 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

The 12th house is emphasized in your chart: like the 8th house, it has a rich and complex meaning. Although its bad reputation is likely to scare most readers in the first place - it is indeed the house of hidden or isolated places, of solitude, of ordeals or enemies - it can also mean that a part of your life is very deep and intense. If your achievements are not visible in the public eye, you may fulfil yourself in a different but equally important way: you may be involved in secret activities, humanitarian causes, and

projects in favour of disadvantaged people. You are likely to work in quiet and remote places. In many cases, you will gain from these hidden activities as many treasures as people who have a more public destiny. It may be because you sublimate your work, or only because you successfully carry out your task within your environment. There is no such things as a good or a bad house, because each area of life is necessary in its own way, and we need all of them, if we are to improve spiritually.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Taurus and your Ascendant is in Taurus

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

You are twice a Taurus! However, are you a peaceful ruminant, or a proud bull in its arena? As you have probably noticed, Taurus is often described in quite an ambivalent way. It is said to be calm, patient, with a nose for good bargains, and to deeply enjoy life. But it is also compared to a bulldozer with its hooves which can make the earth shake. Actually, this is quite easy to understand. Indeed, as Taurus becomes easily wrapped up in its passions or its obsessions, hence its well-known instinct of possession, it freely releases its enthusiasm and its determination. Taurus is perfectly well illustrated for instance with the person who is sensitive to criticisms, and who can spend the whole night working on his/her centre of interest, or who can focus on a challenging project for weeks. In a word, although it requires some time to get you started, once you get down to it, no one can stop you anymore. In the private

sphere, you can be likened to a tranquil and indifferent pasha who indulges in his sensual inclinations...

The sign and the Ascendant in Taurus

Peace, joy of life and sensuality are essential to you: You have a simple and quiet nature. You easily find happiness because you are not competitive. In addition, your relaxed attitude and your common sense always take you to places where you are happy, even though you are not the number one, even though you do not move in haste. The important thing for you is to construct, with patience and persistence. These two qualities yield strong, steadfast, and sustainable efforts that can withstand any pitfalls.

You are gentle, with a slow thinking process, but once you have opted for an orientation, nothing, no one, can make you change your mind. You loathe changes in general, and once you have taken the few major unavoidable decisions in the course of your life, you are on track!

As you are born under this sign, you are loyal, steadfast, strong, patient, enduring, persistent, attached, sensual, realistic, constructive, tenacious, with a strong need for security. But you may also be stubborn, rigid, possessive, materialistic, static and slow.

In love, Sir, more often than not, your passions are strong. It may take you some time to be moved, but once your choice is made, it is a lasting one and you are particularly endearing and loyal. You are not interested in infidelity or in having numerous partners.

Your love emerges slowly but it grows in depth, like a root which solidifies with time. You are not too romantic because you are so practical and conventional... but your style and your sexiness compensate for your lack of idealism. You tend to associate the concept of marriage with that of lifestyle or of the benefits that come with it.

Your physical urges are pressing; you are sensual and pleasure takes an important place in your life. You appreciate partners who cook like a cordon-bleu and who may cause a few gastronomic excesses, but you readily accept them.

The ruler of your chart is in Gemini

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, David Beckham, is Venus. In the sign of Gemini, it endows you with flexibility and the capacity to undertake several things simultaneously, sometimes at the risk of spreading yourself too thin and getting discouraged. Your innate communication skills match your insatiable curiosity for people and for things.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, David Beckham. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Taurus Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Mercury conjunction Ascendant, orb 1° 36'

Your sense of communication and your intellectual process perfectly match your external appearance, David Beckham. Thanks to Mercury, you are able to carry out your self-analysis very well and quickly, which gives a lot of spontaneity to your intellectual exchanges with other people.

★★★★★ Moon trine Ascendant, orb -2° 24'

Your instinct seldom misleads you, as far as your external appearance is concerned, thanks to the Moon's soft aspect with your Ascendant, David Beckham. You keep your emotions under rather good control, in instinctive and smooth ways.

★★★★★ Mars quintile Ascendant, orb -0° 05'

Your vitality and your taste for action are obvious, David Beckham. Thanks to Mars, your behaviour is often perceived as energetic, or at least, as action-oriented and enterprising. Your dynamism is one of your constant assets.

★☆☆☆☆ Uranus inconjunction Ascendant, orb 2° 32'

This dissonance of Uranus with your Ascendant endows you with a rebellious, original, and unpredictable side, which gives your behaviour a note of dynamism and nonconformism. Of course, other people are sometimes deeply disconcerted by your attitude which does not fit classical or social standards, and you may suffer its consequences, meaning that you feel misunderstood, incorrectly perceived, and considered as a disturbing free electron, or an untrustworthy person. You must remain true to yourself, but at the same time, you must exercise some caution in order not to fall prey to unpleasant misunderstandings.

Your Sensitivity

Your sensitivity is withdrawn, David Beckham: more than anyone, you tend to lock yourself in your ivory tower, as you are aware of a kind of superiority that may be real, though overrated. Your moods are not perceptible because you control them with a tight fist. It is difficult to know if you are happy or upset because you show nothing. You avoid situations which compel you to reveal your emotions because you are not demonstrative. Please, be aware that it is not your amorous behaviour that is being analyzed, but the daily expression of your sensitivity. You dread the crowd and you need calm, and even solitude, to feel comfortable. You are well-equipped to remain balanced in all circumstances, but it may prove beneficial if you progressively take a relaxed attitude and show more dedication, as you are worth it; it is easier for you to exteriorize your feelings when your projects or your ambitions justify that you do so. You do not practice gratuitous outpourings, particularly when you are with a group, because you are afraid to open up, as if you were on the defensive, without any reason most of the times.

Your career or professional achievements, David Beckham, are fields where your emotions will be more easily channelled. You are often popular, especially with women, and you instinctively have the desire to please audiences or crowds.

Your fame is often due to your changeable side, light-hearted, emotional and moody sometimes. It also means that it is very likely that you experience professional changes several times during your life. Each time, you will contrive to be the star, in your way...

★★★★★ Moon square Uranus, orb -0° 07'

The Moon and Uranus intrinsically share little in common: they get along as well as fire and water! It is difficult for you to reconcile your desire for well being and intimacy with your destiny's dazzling passions and thunderbolts. You may feel that your intimate and family realm hampers your freedom. There is a potential for crises, explosions or splits. The desire for independence does not get on well with security concerns. There may be strong temptations endangering your very life foundations and you may embark upon a liberating and personal adventure. However, you fear rash decisions. Your need for security may temper your impulses and put a brake on your individualistic aspirations. To harmonize these tendencies within your intimate life, you must leave yourself enough room for personal expression or for an activity of your own. Otherwise, as days go by, built-up tensions may jeopardize the quiet course of your life.

★★★★★ Moon semi-square Mars, orb 0° 4'

The Moon-Mars dissonance suggests touchiness and sometimes, aggressiveness. You are irascible and very sensitive to all sorts of threats and dangers. You react very quickly, too hastily. To protect your well being, you must learn to control your mood, to coordinate your actions and to balance your opinions. You are often disturbed by plain facts: Either you seek refuge in your intimate realm and refuse to face the truth or, on the contrary, you are engaged in altercations, which forbid all tranquillity. It is important that you balance these two tendencies and that you alternate moments of action with phases of carelessness and relaxation. These two attitudes are relatively irreconcilable.

★★★★★ Moon trine Pluto, orb -7° 09'

You are a riddle for people... and for yourself. This harmonious Moon-Pluto aspect arouses your desire to understand and to express elements hidden in your unconsciousness. You are interested in the occult, in laws that rule beings and things in the dark. You like to pull strings and to manipulate situations without people's knowledge in order to remain mysterious. You feel fine when you are not in the limelight, but you intervene in the dark, with subtlety. Your intimate behaviour reveals the distance that

you strive to keep in order to protect your inner life. You gladly cultivate the angel of the bizarre, even in your life habits and in your daily rhythms.

★★★★★ Moon quintile Jupiter, orb -1° 19'

Why should one complicate one's life if it is possible to enjoy the simple joys of the present? This harmonic Moon-Jupiter aspect indicates a cheerful nature, which earns your entourage's liking and protects the balance of your intimate life. Your sociability is supported by your desire to smoothly adhere to a group, a social or family cell. You are fond of moments where you unwind and relax. You value your daily comfort and, to preserve it, you accept to play by the rules of privacy. When this aspect dictates your attitudes, you behave like a person easy to get along with... even though your personal demands, relegated to the backseat, come up again at top speed and force you to behave more in line with your inner needs.

Your Affectivity

In your chart, the Sun is in Taurus and Venus, in Gemini. Two signs may follow each other and be quite different: Taurus' essential and fragile desire for balance opposes Gemini's will to discover, to experiment, to increase the variety of emotions and encounters (Venus). These two signs are definitely complementary. The Sun in Taurus facilitates the establishment of long-lasting affective adventures and therefore, it achieves fulfilment. Venus in Gemini hates to lock up the couple in a routine inevitably detrimental to the spontaneity and the plenitude of feelings. However, perfect balance can be achieved only when both tendencies are expressed – although they are antinomical in many regards. Selecting your partner, understanding and evolving abilities are decisive here. You must satisfy your solar sign's thirst for tranquillity and Venus' needs for novelty, alternately. You must meet the urges for intimacy, stability and the pressing necessity to fuel your passion, over and over again. As paradoxical as it may seem, you love only that very person who sometimes upsets Taurus' quietness and who challenges the serenity you dream of. Because passion is priceless. This is the price you have to pay for it.

What is it, that really appeals to you, David Beckham, to love or to please? You have so much charm and so much volubility that you easily manage to be what is known as a lady-killer. Feelings and intellect are so tightly mingled that you may not know any more whether you are really in love or whether you are acting. You have a taste for flirt and variety, and you appreciate very much complicated situations where no one knows where the truth lies any more. You shift from one game to another. To you, everything can be an agent for seduction, be it your attitudes, your words or the way you dress. You do not separate your actions from your desire to please. People who do not understand this are in trouble because, if they take your sweet and well-phrased speeches too literally, they are likely to undergo cruel disappointments: for you, it is only a matter of living in the moment and you never commit yourself because, above all, you loathe confinement, even just its thought.

David Beckham, you usually make connections between the possessive aspect of things and your feelings, which are expressed slowly but will grow deeper and steadier as soon as you become attached. Therefore, you need to trust the person you set your heart on and to feel that, somehow, she belongs to you. As a matter of rule, feelings and material well being go hand in hand, and the material conditions in which you experience your love affair are important to you: you cannot live on love and fresh air, a cosy and opulent-looking nest or a quite fancy environment are almost indispensable conditions for you to freely express your feelings. This doesn't mean you are self-interested, you actually have great qualities,

such as generosity and compassion. However, you have difficulties in separating the pleasant and material aspect of things from the well being of your couple. Your needs for emotional security are important and you will see to it that you get it at any cost, should you need it.

★★★★★ Venus square Mars, orb 5° 46'

This Venus-Mars aspect indicates a sensitivity all on edge and an impulsive character. Emotions and heart impulses cause a marked tension. Life is an affective battlefield. Love is omnipresent but often fragile: impulsiveness reigns over the realm of feelings. The object of desire may become irresistible and implacable, or the sense of confrontations prevents affective tranquillity. However, the richness of your emotional responses is to be noted: you are more inclined than others to be guided by amorous fevers and you live intense passionate experiences. Your overwhelming impressionability must be contained. Romantic people seldom enjoy tranquillity!

The Way You Take Action and Your Sexuality

You express your energy in a vague and random manner, David Beckham. This is not a handicap, but it prevents you from reasonably planning your long-term actions. You are a bit whimsical and scattered, sometimes hyperactive and willing to devour obstacles with your big shark teeth, but often, you take the easy way out because of your desire for tranquillity. You loathe conflicts and your cleverness and your flexibility allow you to achieve your goals while shrewdly worming your way through difficulties. Your intuition and your imagination are the assets that compensate your lack of efficiency and discipline. You are much more successful when you work for a noble cause, usually a collective one, sometimes political or spiritual ones. On the sexual plane, you are whimsical and impossible to categorize. You are so changing and malleable that you can shift from one extreme to another, according to your partner's personality, because your adaptability and your flexibility are really strong.

It is in the area of friendship and collective life (common projects, associations, etc.) that you express your impulsivity, your warmth, and your capacity for action, David Beckham.

You are cut-and-dried and your motto is "either succeed or die". In case of success, it is your responsibility to make the relationship last because you are not the submissive type and you hardly compromise. You put a lot of passion in your friendly relationships. You are not interested in lukewarm or insipid acquaintances. Things must be moving, even though it may mean that the relationship is cut short.

In any case, you enjoy participating actively within a community and, whenever possible, you take the leadership role, in your own way. As soon as you are more or less under the public eye, you become enterprising. When you are on your own, you do not feel the need to use your energy.

★★★★★ Mars trine Saturn, orb -1° 29'

Persistent action always bears fruit eventually. All that is needed is patience... A quality you have, undoubtedly. As confrontations become unavoidable, you show strong persistence and indisputable perseverance. Potential obstacles are more stimulating to you than they are discouraging. You are naturally fit for effort and for confronting realities and facts. You quickly overcome difficulties and you respond to crises in an efficient and considerate manner. You are enduring. You handle events with rigour and precision. These are valuable qualities nowadays, for they often come with the capacity to

undertake adventurous experiences and to take limited risks!

★★★★★ Mars square Neptune, orb 4° 2'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Mars sesqui-quadrate Uranus, orb 0° 33'

This Uranus-Mars dissonance indicates frequent commotions. Your actions may be foolhardy and thoughtless. You may not control your temper and you let impulsiveness take over logics. This brings about drastic, whimsical or untimely decisions. There is no monotony in your life: thunders and tyrannical behaviour are on the agenda! Your fighting spirit certainly allows you to cope with life hardships. Nevertheless, beware of damages. As one wants to act as a hero, one can make mistakes. Because forces are overestimated or because inflexibility forbids compromise solutions. Therefore, it is important to balance your decisions and to avoid solutions that are as final as inappropriate.

★★★★★ Sun sextile Mars, orb -4° 2'

This planetary Sun-Mars aspect reinforces courage, determination and energy. The need for action is obvious. Whatever your will designs is implemented with fieriness, despite all oppositions. You are decisive and wilful, even foolhardy. Your behaviour may be heroic: you know how to face adversity, to stand for your rights and your decisions, regardless of the confrontations you may have to cope with. The only danger may be that you overestimate your chances and your strength. But your audacity turns out to be rewarding, more often than not.

Your Intellect and Your Communication Style

Your mind is calm and balanced; even though you assimilate slowly, your memory is remarkable. Your judgment is based on reflection and reason and draws on past experiences. David Beckham, you are a good adviser, a reliable person whom people can confide in discreetly. You are full of good sense, cautious, methodical and disciplined and you are able to carry many good projects to a successful conclusion. You are very opinionated and determined in your actions. However, your tendency for intolerance and prejudices may offend your entourage. They wish that you exercised more flexibility instead of systematically refusing what cannot be immediately checked. You usually express yourself with a lot of charm and this is what allows you to get people to better accept your well-established habits.

Your intellect and your communication abilities are not directed towards any particular field, David Beckham: indeed, you are by nature curious, lively, mobile and you generally adjust remarkably well to your surroundings.

Your versatile personality prompts you to get interested in many things, and it is not exaggerated to say that your intellect and your flexibility constitute strong assets for your life. People around you may rightly

or wrongly perceive a kind of shallowness because of your adaptability and skilfulness - sometimes too opportunistic - that are your strong points.

★★★★★ Moon trine Mercury, orb -4° 01'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

★★★★★ Mercury semi-square Jupiter, orb 0° 17'

You play with social norms and you scoff at them. Your morality is seldom questioned: you adopt the most rewarding behaviour, precisely the one that wins you your entourage's consideration. But you sometimes cheat. You are an opportunist and you act according to circumstances, particularly because your moral stand is only a superficial mask. You enjoy concealing your beliefs: life is a social game and you change its rules to suit your convenience. Your flexibility and your adaptation abilities are appreciated. However, it is important that you do not behave inconsistently. A stable and transparent course of conduct may help you avoid many pitfalls or delusions. Beware of words spoken thoughtlessly, of empty promises, and do stick to your indisputable cleverness.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 12th House

David Beckham, your desire for accomplishment goes through a quite peculiar and original form, in the sense that you cannot resist the appeal of mystery and of withdrawing from events and situations. Your natural inclinations often prompt you to isolate yourself and to keep your private secrets intact. Indeed, it is during such privileged moments, when you are alone, that you can recharge your batteries and eventually blossom up.

Somewhere in you, there is a propensity for introversion, quietness and even a kind of isolation, whether they stem from a natural taste or from force of habit. However, beware... you are more secretive and more enigmatic than you are solitary. The reason is because a more or less important part of you (depending on the rest of your chart) is hidden and inaccessible to others.

You are sociable but you appreciate discretion. You often show a real dedication towards people and your compassion is one of the original facets of your personality, which is difficult to figure out. Your individuality is finally forgotten, almost negated in some cases: you are not interested in personal glory, which is all to your credit. You thrive through dedication, volunteer work, humanitarian action and alleviating the distress around you, since you perceive the weight of injustice more acutely than others.

Here is the paradox you are entangled in: the more you keep your distance from society, the more you are successful, at least regarding the things that strengthen you and make you evolve. Working in secret or in a withdrawn environment suits you very well: you are favoured if you are a writer, a painter, a

medical practitioner, a psychiatrist or even a monk. You may also work in a penitentiary institution etc., as well as in any occupation conducive to quietness and contemplation. It does not imply that you cannot achieve fame, but when you do, a hidden part of you must express itself in one of the above areas, for your own good.

The Tradition indicates that with this configuration, your evolution goes through ordeals or obstacles that lead to a crisis and to a period of solitude so that you are on your own and, may be, that you have the time to ponder over what is really important in your life journey that seems at first sight so absurd and crazy. Do not worry, there is no such thing as a better predisposition. Everyone has one's own path and yours goes through an unpretentious authenticity, secrecy and the regeneration of your whole being during a few periods of your life, faraway from social whirls and false relations that are time wasting.

Your accomplishment may turn you into the power behind the throne. It may also take you into hidden topics people do not talk about, the supernatural, occultism, great mysteries etc.

Your destiny contains a mysterious part that no one suspects: you are far from being as simple as people might think.

Although nothing appears externally, you know to which extent you are remote from the idea that the majority of people have of you. You are interested in situations that allow you to hide or to withdraw at some periods of your life; it is often due to a series of ordeals. But beyond your reaction of defence while facing events, you have a true inclination for mystery and secret.

You must overcome the periods of isolation or of ordeals because the reward is proportional to what you are entitled to expect: a more rapid moral and spiritual evolution, wisdom, and a blooming personality. Some people may choose small roads in the countryside to unfold their life. You choose highways to earn your salvation and you avoid the socialite and false delusions inherent to an ordinary life in society. More than anyone, you are favoured, you are prompted to overcome pitfalls and to never let pessimism discourage you.

The ruler of your chart is in the 2nd House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 2nd House, David Beckham. This position in the House of money earned through work may facilitate the way you deal with financial matters, and may give you the desire to work even harder. Your material situation often improves at the age of thirty.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Moon conjunction Midheaven, orb 3° 17'

The Moon in conjunction with the Midheaven receives good press, David Beckham. She indicates potential fame, or in any case, some degree of popularity. Your sensitivity is well perceived and, above all, it perfectly fits your professional destiny and your social ascent. Females may greatly influence your success. Your social status or your profession may be tightly linked to lunar values, such as frequent contacts with the crowd, children, women, daily matters, imagination, school, administration, leisure and sports for children, hotel and restaurant industry, bakery, poetry, the arts...

★★★★★ Mercury trine Midheaven, orb -0° 43'

Mercury in soft aspect to your Midheaven enables you to easily communicate with your entourage and to climb up the social ladder, David Beckham. Your strategy is often good, and you correctly think about your interests. Do not change anything!

★★★★★ Uranus square Midheaven, orb -3° 25'

Uranus is in hard aspect with your Midheaven, David Beckham. There is definitely nothing serious to worry about. There may be a lack of perseverance in the efforts you put in order to move forward in your career or your social destiny. When unexpected hurdles crop up, more than anyone else, you must accept the unavoidable changes without losing sight of your aims, and above all, without getting disheartened. More than anyone, you must learn to accept the values of time and duration, if you are to reap their fruits.

★★★★★ Jupiter square Saturn, orb 3° 3'

Jupiter and Saturn form a dissonance in your natal chart. It is far from being horrendous. This planetary configuration, which is deemed somewhere between the individual and collective characteristics, only indicates that your social integration may be delayed, or may encounter a few difficulties. Such slight delays or setbacks often have their origins in your own behaviour. Indeed, since Jupiter represents laws and public life, and Saturn, seriousness and perseverance, in many instances, you may become impatient, or even rebellious to any form of authority or legal constraints, to the extent that you cross the white line... When you face such circumstances, you must resign yourself to listening to reason and accept to wait for your turn, lest... your achievements are even more slowed down by your own haste.

★★★★★ Sun sextile Saturn, orb 2° 5'

This aspect indicates a firm and discreet will, a rigorous and objective character. You are clear-sighted, particularly in difficult situations. You enjoy the moments of calm and solitude during which you can review your life at will. Your judgments are enduring and often extremist. You are outraged by injustice and inconsistency. When a problem arises, you do not take the easy way out with short-term solutions, on the contrary, you strive to solve the issue thoroughly. Better than anyone else, you challenge yourself, you review your choices and your attitudes. This is the reason why you are capable of handling crises and of overcoming any obstacle that requires an in-depth and relevant response. You may lack spontaneity but your behaviour reveals your wisdom. When you are facing an issue, you put forward the good question, to others, but also to yourself.

★★★★★ Sun inconjunction Neptune, orb 0'

If this Sun-Neptune dissonance is not well integrated, it may bring about confusions and errors of judgment. It is the signature for Don Quixote in search of chimera, pursuing impossible dreams. Your intuitions may lead to an incorrect estimation of facts. Bohemian life is certainly pleasant. But it is often necessary to remain realistic, lest to be exposed to delusions. Carelessness and letting-go is not suitable. In order to properly integrate this aspect, you must control the possible drift of a wandering and fabulous sensitivity. This aspect favours poetic and romantic inspiration. But you must not let it rule your concrete actions. It is important to allow your intuitive capacities to be fully expressed while keeping a lucid mind, simultaneously.

★★★★★ Neptune semi-square Midheaven, orb 0° 21'

Owing to this dissonance between Neptune and your Midheaven, David Beckham, you may have difficulties in knowing what you want regarding your professional orientation. Your imagination and your flexibility cause contradictory feelings and sometimes result in indecisiveness. You are doubtful about the path your social or professional destiny should follow. There is definitely nothing serious to worry about. It is just that Neptune represents a heavy emotional burden which you must firmly deal with, so as not to delay your trek towards success!

★★★★★ Sun semi-sextile Jupiter, orb 0° 39'

This harmonious Sun-Jupiter aspect indicates an optimistic background that usually wins the entourage's adherence. It also suggests ambition and generosity and favours social integration and success. The desire to earn general consideration prompts you to display energy, joviality and benevolence. However, opportunism may be the other side of the coin. As you strive to win everyone's esteem, you may fall into disrepute. It is important that you remain clear-sighted so as to persistently pursue your long-term aims without believing that you should always « grab each and every opportunity ». However, this aspect remains an element of success because it allows you to adjust your objectives to the context, to whatever the situation offers or, on the contrary, to force your way through events and to achieve your ideals.

★★★★★ Venus bi-quintile Midheaven, orb 0° 45'

In your natal chart, David Beckham, sweet Venus is in soft aspect with your Midheaven. It means that your natural charm and the way you express your feelings are appreciated in society. Usually, this configuration speeds up the achievement of your professional goals, or in any case, of a certain social status. A female - or females - may prove helpful for your career or your destiny.

Your Assets and Your Part of Joviality

The planet of Greater Fortune in this sign favours self-confidence, David Beckham, as well as the capacity to be enthused and to show your warmth. Your most valuable asset is your ability to easily express your fieriness and your ardour for the implementation of your projects. However, the danger is that your self-assurance may become an agent for rebellion or for indiscipline, in which case, it would play out against your interests.

Although Nature's nudge in the right direction is not spectacular here, David Beckham, it is very real, nonetheless. Your sense of dedication, your generosity, and your compassion are developed to such an extent that they often enables you to happily find fulfilment in non-mediatized areas such as

humanitarian work and charities. Your human qualities are strongly favoured when you strive in obscurity, discretion and silence. Your reward is a life that is rich and not limited to material contingencies.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Aries amplifies your tendency to charge ahead and your self-assertiveness. You have leadership qualities, you are optimistic and you can mix the boldness with the will to succeed that are specific to Aries. Management ability, leadership and independence: your enthusiasm is a real asset for your life and for your charm!

Your Serious Side

Your emotions are controlled and your imagination is analyzed through a magnifying glass. You gain in lucidity what you lose in emotionalism. You may be interested in your origins, in your roots and in real estate matters. You become thrifty as time goes by.

Impersonal detachment or cold-looking demeanours may hamper your communications, David Beckham, although they increase your concentration, your patience, and your ability to study and to accumulate knowledge. As far as your entourage is concerned, quality prevails over quantity, and you can easily alternate agitated and eventful periods with periods of solitude.

Your challenge is certainly to make an effort in order to be less demanding from people and to keep a minimal number of relations. Nobody is perfect, and neither are you! Pay attention to people's qualities and forget their flaws, for they should not prevent you from enjoying their company.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Cancer decreases your emotionalism. You are less vulnerable as you build a protective carapace, with all the good and the bad consequences that may be implied. You are provident and wise in the family and real estate areas, may be a bit too much.

A Few Special Points

Your Uniqueness and Your Utopias

Your daily life is subject to numerous sudden developments. Your work environment is neither stable nor quiet, as dramatic turns of events often follow one another. The absence of habits and stability could be considered to be ... habitual!

Relations in the work setting are quite chaotic. You are often deemed extravagant, but also inspired and creative, at least in your environment. Besides, your occupation is out of the ordinary. It belongs to an original or avant-garde sector, to innovative technologies or to unusual areas.

Health wise, you may undergo nervousness or some brutal reversals that are followed by similarly swift recoveries.

Your Inspiration and Your Illusions

It is in the relationship area that your approach may be nebulous: you tend to idealize your partner, and you may be easily influenced, and terribly irrational, when you assess the worth of your contacts. However, when the time comes, you display a formidable intuition and it is your sixth sense that "recognizes" your future spouse.

You may be weak, gullible and vulnerable in the area of human contacts. Since there is a danger to be deluded, you must use your intellect to avoid the possible traps related to your encounters, in spite of the sweet and confuse impressions they arouse.

Try not to be too lax with your associates and your relationships in general. If you make too many sacrifices, if you refuse to face the truth, you may undergo severe losses; try to step back before committing yourself and even, before... getting married! In this way, you can benefit from the positive side of this configuration.

Your Passion and Your Authority

Your relationships with your subordinates and your colleagues are marked with passion and may create domineering/dominated connections conducive to conflicts, unless you use your authority to stabilize the situation.

You do not accept your superiors' authority, and you continuously strive to reverse your relationships with them in order to eventually take the domineering role that better fits your nature.

In a few rare instances, severe health conditions may strike you down, but in principle, you overcome them like the phoenix that is reborn from its ashes.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, David Beckham, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

David Beckham, the predominance of planets in the Southern hemisphere prompts you to take action, to draw attention on yourself, and to make your actions and what you have in mind visible to everyone. Sometimes, without giving a single thought to, and to the detriment of, a richer inner life and a deeper and wiser reflection. Action and communication are inevitable in your opinion, and you tend to think that the only thing that matters is what is seen! This is not always true, and it is up to you to progress through the development of inner qualities such as meditation, solitude and imagination so as to become stronger.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

David Beckham, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, David Beckham, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, David Beckham: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, David Beckham: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive man. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The third decanate, which means the part between 20° and 30° of any zodiacal sign, prevails in your natal chart, David Beckham. It contains the degrees of spirituality, traditionally more delicate to deal with, since they incline towards evolution and therefore, destabilizations. Individuals with an emphasised third decanate may have deeper sensitivity than most people, which often brings ordeals but also spiritual rewards.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

During the first part of your life, you manifested an acute sense of challenge, a taste for personal initiatives and an unfailing fighting spirit: these qualities prove helpful in handling any possible setback today. However, you must make an effort to accept your entourage and adopt more open and accommodating attitudes! Life teaches that you must become more sociable and develop the flexible behaviour that you lack. Do not play around with mavericks; It is important that you earn your close friends' affection and that you rely on their collaboration. You slowly become more aware of other people's reasons, of their desires and their concerns. Your destiny may be influenced by relationships. If you had a tendency to provoke people or events, now you have gained complementary qualities: diplomacy and human tact, cleverness in the art of reconciling opposite views. It is true that it required a huge personal effort!

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she

touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

The Black Moon here readily sacrifices the ties of this world to the essential: spiritual life and renunciation, fusion into an ideal. Your dreams are strange: life vagaries do not matter since your quest is internal. In the course of your progression, you may often show an unusual faculty of detachment. Although the reasons why you give up a given road for another one may not be always understood... though deep down, you know the reason why.

It is in the humanitarian field that rebellion is best expressed. Your dream is to become the spearhead for a different project of society, the Quixote of altruism. Each individual must be independent, really free to think and to act. Any hindrance to free will makes you indignant! The danger is that you may not tolerate any external constraint. This is probably the price to be paid for a freedom of thought that constitutes the core of your progression.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 10th house: you give top priority to your social status and to the level of your "rank". You are very ambitious and you have every chance to achieve social and professional successes. You identify yourself with the part you are to play and with the expectations of your environment. Therefore, you can fully blossom through the adherence to the collective pattern that you are the first one to understand and that you personify. In other words, deep down, you are what your entourage admires and respects: you have a job that is "under the spotlight" and you fulfil your responsibilities as if you were in charge of a "mission".

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
