Isabelle Huppert's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into

assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Isabelle Huppert, the nocturnal North-western quadrant, consisting of the 4th, 5th and 6th houses, prevails in your chart: this sector favours creativity, conception and some sort of specialization or training, with helpfulness and relations as strong components. You need others' cooperation in order to work properly, although you are not very expansive: creating, innovating and thinking are what matter most to you because this self-expression enriches you and totally satisfies you.

Your Dominant Modes and Elements

Isabelle Huppert, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Isabelle Huppert, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

Cheers for communication and mobility, Isabelle Huppert! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

Isabelle Huppert, the Cardinal mode is dominant here and indicates a predisposition to action, and more exactly, to impulsion and to undertake: you are very keen to implement the plans you have in mind, to get things going and to create them. This is the most important aspect that inspires enthusiasm and adrenalin in you, without which you can grow weary rapidly. You are individualistic (maybe too much?) and assertive. You let others strengthen and improve the constructions which you built with fervour.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Isabelle Huppert, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Neptune, Saturn and Mars.

With Neptune as one of your three dominant planets, you are a secretive and ambiguous person, often confused or unclear about your own motivations! Indeed, you are endowed with unlimited imagination and inspiration, as well as with an extreme sensibility that may turn you into a psychic or a clairvoyant. On the other hand, your impressionability is such that you may have difficulties in separating what is concrete and solid from illusions or dreams.

A mystic, a visionary or a poetess, you daydream, like any Neptunian, and you see what few people only can see, all of this being shrouded in aesthetic mists when you are fired with enthusiasm.

A boundless, infinity-loving woman like you is inevitably likely to be more vulnerable and easily hurt because of your acute perception of events. In such cases, you are hit full in the face, and you may sink into gloomy daydreamings and dark melancholy.

That said, this mysterious aura definitely gives you an indefinable charm in the eyes of your close friends who are often fascinated by your unique ability to feel and to see what ordinary people can never see!

Saturn is part of your dominant planets: among the facets of your character, you have a grave and serious side, wise and somewhat severe, since your concentration can be powerful to the detriment of carelessness and friendliness.

You often look austere, but it is only an appearance, a kind of modesty or reserve; however, it is true that the Saturnian, who is fond of time, effort, asceticism, rigour and sobriety, may have popularity issues. Nevertheless, honesty and straightforwardness, reliability, as well as slow, wise and deep mental process, although not very popular and visible qualities, eventually become noticed and appreciated. Saturnians' second part of life is usually easier and more fulfilling.

Like the Jupiterian, your Saturnian facet prompts you to seek the essential, security, and longevity. However, the difference with the former is that you will never give priority to wealth or "the bigger, the better" philosophy for the sake of power. Saturn, like Jupiter, symbolizes social integration, and it is usually considered positive to have a harmonic Jupiter and Saturn in one's chart because of their social

adaptation capacities.

Your vulnerability lies in your too serious and austere side, which may lead to unwanted loneliness and affective frustration. This generally does not last because Saturnians often hide deep down a golden heart that ends up revealing itself...

Mars is one of your dominant planets and provides you with its efficient energy and enthusiasm: with a powerful Mars in your chart, action - but also will and ability to undertake - is not an empty word for you. You are active, dynamic, willing to fight, courageous, and you are never afraid to move mountains, even though risks are part of the adventures that you start with determination.

However, your patience is not always up to your boldness and a kind of feverishness, or even anger, can tarnish the quality of your achievements. That would be a pity since the Marsian is a champion in matters of efficiency! Mars symbolizes display of action, conquering spirit that favours discipline and order - beware of not being fussy - and lies at the frontier between action and brutality, between conquest and potential aggressiveness.

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Libra, Aries and Taurus. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With Libra as a dominant sign in your birth chart, you love to please, to charm, and to be likeable. Moreover, you are naturally inclined towards tolerance and moderation, as well as elegance and tact, as if you were meant to please! Of course, you always find malcontents who criticize your lack of authenticity or of courage and your half-heartedness, but your aim is to be liked, and in this field, you are an unrivalled champion!

Arian blood runs through your veins! You have that enthusiasm, frankness, courage, and fastness which usually make you so likeable in spite of your somewhat rough, naive, or violent side. As a bonus, Aries'

gushing fire always gives you the impetus to make a fresh start, should you stumble or undergo life hardship!

With the Taurus sign so important in your chart, you are constructive, stable, and sensual. Good taste, sense of beauty, manners, and unfailing good sense - all these qualities contribute to your charm and seductive power. Furthermore, if some people criticize your slow pace and your stubbornness, you rightly reply that this is the price for your security, and that you like the way it is - slow and steady....

Your Dominant Houses

Houses 4, 10 and 3 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With an important 4th house in your chart, your private life, your intimacy, as well as your family and home, play a fundamental role. Your security and your family unit, the one you come from, but also the one you set up when you get married and start a family - or even as a girl bachelor living alone in your sweet home - are necessary for you to blossom. According to the Tradition, your father may play an important role in your life.

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

As the 3rd house is one of the most important houses in your chart, communication plays a major role in your life or in your deep motivations: frequent short trips, open-mindedness - which may offset a lack of mutable signs for instance - listening, discussion, interest in learning, knowledge accumulation or long-term studies, etc., are all areas that greatly appeal to you and are part of your daily life.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Pisces and your Ascendant is in Sagittarius

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

Ah! The call of the Unknown... You often escape into your fanciful world, or you literally travel to discover new horizons which can make you evolve constantly. You usually behave in extroverted and enthusiastic ways, the qualities you inherit from Sagittarius. You are an optimistic person and a bon viveur, and you enjoy sharing your eclectic knowledge because you appreciate dialectic or just because you want to shine. Your Pisces Sun appears when you are in familiar settings, and then, you become more sibylline and enigmatic. You seem to keep in your heart of hearts an irrepressible need to cut off from reality and its ordinary humdrum so as to concentrate on what is haunting you, or in the worst case, to what is obsessing you, which some people consider as chimeras. Nevertheless, you remain impassive and gentle most of the time, and you have some difficulties in remaining focused. Indeed, Pisces and

Sagittarius are both Mutable signs, flexible, and always on the move. You are philosophical and benevolent, and while you see only the nice side of people, you may not be wary enough of petty and cynical persons!

You were born with the Sun in Pisces

Psychologically speaking, your nature is adaptable and receptive, exactly the opposite of the sign of Virgo whose very essence is to analyze every detail, thus creating a definite duality between the self and the outside world: conversely, Pisces absorbs and erases all forms of differentiation they face. With Pisces, there is no opposition, no conflict and no individual reaction. There is only fusion, non-separation, a perpetual and mobile spreading of the self over some blurred and huge sensation of sympathy with the environment. It is the absolute reign of feelings and emotions over the intellect and its separative logics.

As you are born under this sign, you are emotional, sensitive, dedicated, adaptable, nice, wild, compassionate, romantic, imaginative, flexible, opportunist, intuitive, impossible to categorized, irrational, seductive, placid, secretive, introverted, pleasant, artistic, and charming. But you may also be indecisive, moody, passive, confused, wavering, lazy, scatterbrained, vulnerable, unpredictable and gullible.

Madam, you are the great lover of the Zodiac. You are mysterious and romantic, with an incredible charm, incomparable sentimentality and unbelievable attractiveness. Your vulnerability and your passive child-like side are part of your natural seducing assets. The child-like woman or the femme fatale appears and disappears, in turn, according to your moods and to circumstances.

You are mobile, changeable but always noble. You move from excited encounters to delusions or to moments of despondency. You are driven by one sole constant motive: to listen to your feelings and your intuition, to use any given concrete situation as a basis for an imaginary realm full of fabulous and chimerical possibilities, where you are the adulated and worshipped star.

In your couple, you display the most total devotion. You offer your energy and your destiny to the man you love. You sacrifice yourself, as you sacrifice a whole lot of potentialities or opportunities, without remorse and with enthusiasm, so as to feel the chords of your perfect union vibrate more deeply and to raise your ideal of fusion and unlimited love to higher stages.

You are deeply in love, very intuitive and sensitive. Because of the dual nature of the sign of Pisces, it is likely that in the second part of your life, you will marry once more, unless you choose to have a simultaneous relationship, more or less hidden.

Your Ascendant is in Sagittarius

Psychologically speaking, your nature is extroverted and independent, oriented towards expansion and sociability. You have the soul of a leader, energetic and active. Your charisma and your drive are fully integrated into the collective life. Indeed, as an action-oriented fire sign, you challenge yourself and you succeed in accomplishing the task straight away. Sagittarius is hard to follow because his spirit and his independent mind constantly prompt him to go further and higher.

As you are born under this sign, you are charismatic, fiery, energetic, likeable, benevolent, tidy, jovial,

optimistic, extroverted, amusing, straightforward, demonstrative, charming, independent, adventurous, straightforward, bold, exuberant, freedom-loving. But you may also be irascible, selfish, authoritarian, inconsistent, unfaithful, brutal, unreliable, reckless, tactless or unpleasant.

In love, Madam, you are a whirlwind made of life and warmth. You are mobile, cheerful, extroverted, always feeling comfortable and dynamic, a freedom-lover who appreciates variety. Had you not been so sane and so benevolent, you would have been mistaken for an Amazon of the mythological era.

You are pleasant to deal with, as long as your partner accepts your desire to constantly move. You are not fussy, you are lively, with numerous centres of interest. You often take the initiative in your amorous encounters that are likely to take place during your holidays or business trips. With you, no tragedies, no complication no questioning! You fully enjoy the present moment when you are around, unless you are already in your plane, flying towards new adventures...

Once you calm down, you will be a wonderful wife and mother. You will set up a home and start a family where your husband and your children will move with you as often as possible during school holidays. You may also move into a different city or a different country, because of professional changes.

Because Sagittarius is a dual sign, it may happen that you marry more than once, if your needs for freedom and mobility, which are so important to you, are not fully met.

The ruler of your chart is in Taurus

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Isabelle Huppert, is Jupiter. In Taurus, it endows you with prudence and patience. You work with perseverance, and you are committed to finishing off what you have undertaken, because you are not the kind of person who would throw up the towel easily. You are happy to reap the fruits of your labour, and why not, to make your business thrive.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Isabelle Huppert. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Sagittarius Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Pluto trine Ascendant, orb 0° 39'

Pluto, the planet of instinct and secret, is in soft aspect with your Ascendant, Isabelle Huppert. It endows you with exceptional lucidity, which enables you to behave in society in an appropriate, though slightly scathing and domineering way. You exploit your nose and your magnetism, and you do so very successfully!

★★★★☆ Neptune sextile Ascendant, orb -1° 17'

Neptune in soft aspect with your Ascendant endows you with a sharp intuition which enables you to instinctively adopt the behaviour which your entourage appreciates, Isabelle Huppert. You have the

natural flair which prevents you from making errors of judgment on people. You understand the crowd, and you have the good reflexes for being well-accepted by all.

★★★★★ Sun square Ascendant, orb 3° 13'

There may be a contradiction between your will and your external appearance, Isabelle Huppert, which slows down your natural spontaneity and in some circumstances, gives rise to doubts regarding your behaviour towards other people and the need to be true to your own beliefs. There is certainly nothing serious with this minor dissonance between the Sun and your Ascendant, only choices that are to be made, so as to remain in harmony with yourself.

★★★★★ Mars trine Ascendant, orb 4° 57'

Your vitality and your taste for action are obvious, Isabelle Huppert. Thanks to Mars, your behaviour is often perceived as energetic, or at least, as action-oriented and enterprising. Your dynamism is one of your constant assets.

★★★★★ Saturn sextile Ascendant, orb -4° 05'

Saturn is in soft aspect with your Ascendant, Isabelle Huppert. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

Your Sensitivity

Your temperament is impulsive, Isabelle Huppert, you are fond of instant thrills and you do not like to wait because you grow weary quickly. With you, things must keep moving fast! Your vivid imagination triggers enthusiasm, audacity and independence because you need to undertake and to achieve. You do not fear to be defeated and, far from slowing you down, rivalry and struggle have a stimulating effect. Because of your sensitivity all on edge, you are irascible and unpredictable: it is easy to unwillingly get you started and this makes your life a bit difficult with the family and with friends. You are perceived as an impatient person, short-tempered, whimsical, unstable and even, aggressive, and people think that you don't take your entourage's needs into account. However, you may also be warm, ready to help and to comfort whenever you are able to control your impulsiveness. You must not be worried about losing your identity when you listen more to your close friends...

Lively, even restless sometimes, Isabelle Huppert, your thoughts are roaming, prolific, fluctuating: you are interested in many things and your "Jack of all trades" side is part of your charm, even if you have difficulties in concentrating and completing what you start.

Your emotions are particularly active during your contacts and your frequent travels. You almost chat too much sometimes, mixing practical and affective matters, often changing your mind. However, you are very intuitive when it comes to instantly grasp the personality of the person you are dealing with. If you are a journalist or a writer, you probably have chosen the best direction for you! Relations with females are usually favoured, or at least, they are numerous and intense.

★★★★★ Sun conjunction Moon, orb 8° 37'

This aspect is a strong homogeneity factor: the image you project is in conformity with your real nature and does not upset your basic balance. This is probably the cause of your feeling at ease, your consistent behaviour and your determination to remain your true self, regardless of external pressures and whatever is expected from you. At best, your will and your sensitivity are in harmony, your unconscious abilities are mobilized and controlled by your conscious will, with no imbalance. However, it is important to avoid the traps of self-satisfaction that would be harmful to your real exchanges and would lock you up in comfortable and rigid schemes. It is possible to remain natural and yet, not be content with the sole well being of those who never cheat themselves.

★★★★★ Moon semi-square Jupiter, orb -0° 32'

When this aspect is not well integrated, there is a tendency to conceal your true nature and to cheat on your true self. Appearance, emphasis and games hide the essence of your aspirations and may trouble your intimate life. Despite your apparent joviality, it is often difficult for you to live in conformity with your inner demands. Actually, it is difficult for you to reconcile your social life with your private life. The former excludes the latter. To properly integrate this aspect, you must learn to harmonize your external attitudes (social and professional ones) with your daily rhythms. It implies that, when you are in a trustworthy situation such as your family or your home, you accept to behave differently from when you are in a larger context, exposed to social stress. You must neither ignore them, nor should you favour them.

★★★★★ Moon sesqui-quadrate Pluto, orb 2° 29'

This planetary configuration causes distrust (Plutonian distance) towards individuals, groups, or your own family environment (lunar values). It may bring about a feeling of affective or relational wound. The feeling of security is absent, or fragmented or illusive. How is it possible to feel integrated whereas you

know that you are different and on your own? It is the myth of the « ugly duckling », with its different specific characteristics, an alien to its origins and its roots. It is important that you accept your differences and that you have them accepted by others, without forsaking your essential values. This is how you can exercise your group ownership without allowing them to exclude you or to repress your secret determinations. When this aspect is well integrated, it is a factor of lucidity for your emotions. You perceive without gullibility what is really at stake in your intimate relationships and the flaws of your environment. The fact that you do not readily trust people spares you many traps and delusions.

Your Affectivity

In your chart, the Sun is in Pisces and Venus, in Taurus. This strange but fruitful zodiacal duet blends Taurus' attachment with Pisces' detachment, animality and sensuality with romantic and fragile realm... However, obvious affinities link these two signs. Firstly, selectivity. In many regards, you are particularly uncompromising about your values. Adaptability is not your forte! All relationships immediately become passionate, sometimes to an excessive degree. You do not commit yourself thoughtlessly. More than anything else, the atmosphere of a tête-à-tête, or the quality of a silent and intimate relationship is decisive for the success or the breakdown of a relationship. Words are not as important as feelings, because love imposes itself and cannot be analyzed. Venus in Taurus is not fond of brutal challenges and affective changes. Sometimes, you want to experience more subtle emotions but your instinct slows you down, protects you or imprisons you. Whether it plays out as a guide or as a hindrance, this subtle balance constitutes the richness of your affectivity.

There is so much voluptuousness and so much charm in your personality, Isabelle Huppert! You are what is called a “nature” and when confidence is established, slowly but steadily, you become deeply attached to your partner and you can be filled with passion. It may take months, even years, but you are so generous and affectionate that, in most cases, your relationship has many chances to blossom, with time. You are very physical and sensual and you are very keen to delight in your intimate moments. This aspect of your amorous relationship usually contributes to its sustainability. Everything seems idyllic, Isabelle Huppert. It would be so if your jealousy and your possessiveness did not get started simultaneously with your powerful feelings. But you have so many assets, so be content!

Isabelle Huppert, for a fulfilling sentimental life, you need a stable and securing family basis from where you can eventually look at the outside world and give free rein to your love agitations: even though you have had a loving and caring family environment during your childhood, and you now want the same secure and warm feeling to endure, at any cost, or if, on the contrary, fate had turned your childhood into a painful period with lots of emotional loneliness and you now want to obtain, at any cost, what you had been deprived of in the past, for the rest of your entire life, the harmony of your family structures will remain an absolute necessity for you, lest you feel unable to do your utmost. As a matter of rule, you also need security in the literal sense before you can be at your best and, as you start a serious relationship, one of your first preoccupations is to purchase or to beautify the necessarily cosy and opulent-looking nest for your new couple. You value interior decoration as much as security and you will spend lots of time hunting refined artistic works that will match your inner feelings: secrete, warm, reassuring but not extravagant.

★★★★★ Venus conjunction Mars, orb 3° 27'

With this aspect, innate affective behaviours prevail over opportunism and calculations. You do not cheat with feelings and you prefer to be guided by your likes ... or your dislikes. Love is neither to be reasoned upon nor to be explained. It is important to experience one's passions spontaneously and to give free rein to the heart's tumultuous manifestations as well as to the body's demands. In other words, to be one's true self in the "now". You need to live intensely, to try all kinds of situations, sometimes to get hurt. Your sensitivity is the driving force behind your decisions and your actions. Real experiences are worth the best intellectual concepts. Spurred by your thirst for emotions, you try to build your life on bases that match your desires. Here, the trap may be that you pay too much attention to your moods and affects. But without them, life would be so dull. Even though emotionalism betrays you occasionally, it remains your best ally.

★★★★★ Venus opposite Saturn, orb -4° 19'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

★★★★★ Venus opposite Neptune, orb -7° 07'

You are very idealistic in love and you may be blind. In many circumstances, you deem your sentimental life heavenly and you lay yourself open to delusions. Love is a dream and waking up is often painful. Your imagination distorts the game of intimate situations. It is important that you keep your sense of reality and that you avoid to embark upon dark or muddled paths. Forget about artificial paradises! The Tradition very rightly insists on the tendency for impossible love affairs. Your demand and your thirst for the absolute may make you dread experiencing a common life that is inevitably flawed with compromises and vagaries. The object of your affection is idealized « because it was him, because it was me » and you do not reckon objective elements that will resurface later in full force. With this planetary configuration, the danger is in the idealistic, even fanciful, nature of your affectivity. It is certain that love cannot be bought or reasoned. But how is it possible to live an absolute passion on a daily basis? You must control your heart impulses and, without losing the sentimental riches that are part of your charm, you must put what you love in harmony with what you dream of.

★★★★★ Mercury semi-sextile Venus, orb 0° 31'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitise to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many

instances, relationship games may turn out to be more serious than expected.

The Way You Take Action and Your Sexuality

Impulsive, impatient, quick and energetic? You? Yes of course, Isabelle Huppert. You are courageous and able to make intense and huge efforts for a short while; and what a terrific rhythm! In sport, of course, or in your sexuality, you are not the type who ponders, you take action instinctively, “in a rough and ready way”. You are outspoken, you do not worry about other people's opinion and you do not allow them to slow you down or to judge you. You must succeed or fall apart. You cannot be bothered with diplomacy or with compromises. You are too straightforward and unyielding to waste time with finesse or shrewdness. This is what makes you charming because, with you, one always knows where one stands.

It is in the private sphere that your capacities for action are felt, Isabelle Huppert. When you are outside, at work or elsewhere, you do not like to show your true self.

But as soon as you are at home, no doubt, you almost shift identity. You become active and full of energy. You enhance your family environment, you upgrade your personal projects, and you want to take the driver's seat! If not, you move about, and you show your authority, sometimes a bit forcefully.

You are as conciliating and gentle outside as you are inflexible and authoritarian at home. Things had better be moving, or else!

★★★★★ Mars opposite Saturn, orb -0° 51'

Why should you take action? And how? The surrounding world is not to be trusted. Past events have taught you to question simple situations and to intervene after thorough consideration. You are vulnerable to the traps of life, to confrontations and struggles. You may complicate your behaviour at will, often missing your target due to your self-censoring. Your interventions may lack spontaneity. You must overcome your doubts and acquire the certainty that you are able to handle realities and facts. If you make that effort, you can understand that there are many ways to make life simpler for yourself.

★★★★☆ Mars opposite Neptune, orb -3° 39'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★☆☆ Mars trine Pluto, orb -5° 36'

You have a very personal way of taking action and of experiencing confrontations and struggles. The laws of the world are subtle, often with complex and hidden mechanisms. For these reasons, you prefer to act behind the scenes rather than openly. You manage your daily life in a distant and subtle fashion while you try to understand the logic underlying observed facts. You may also provoke events although

you act as if you were not concerned. Your interventions will be as efficient as they are discreet. You may secretly transform your life and you live through the inexpressible motivations that connect you with the invisible realm. Things, which cannot be formulated, must be experimented and felt. You test experiences that your entourage find uninteresting and meaningless.

★★★★★ Sun semi-sextile Mars, orb 1° 43'

This planetary Sun-Mars aspect reinforces courage, determination and energy. The need for action is obvious. Whatever your will designs is implemented with fieriness, despite all oppositions. You are decisive and wilful, even foolhardy. Your behaviour may be heroic: you know how to face adversity, to stand for your rights and your decisions, regardless of any confrontation you may have to cope with. The only danger may be that you overestimate your chances and your strength. But your audacity turns out to be rewarding, more often than not.

Your Intellect and Your Communication Style

Your thinking process works on a rather instinctive and intuitive mode, Isabelle Huppert. You “feel” more than you understand, as if your reasoning were not active. Your strong receptivity and your natural empathy make you an understanding, pleasant, warm and benevolent person although you may be neglectful, even heedless. You are shy and anxious and you prefer to withdraw and to isolate yourself in a quiet place in order to give free rein to your inspiration, rather than to assert yourself. Despite your lively imagination, it may be hard for you to get out of the flow of your mystical and irrational thoughts, with the result that you become even more worried and impressionable. You must develop your logic, rational mind and your willpower, so as to gain self-confidence and creativity. Try and see...

Communicating, thinking, and moving: all these activities match your natural tastes, sometimes to the detriment of concrete results in which you're not too much interested. That said, Isabelle Huppert, you excel in activities where communication, reflection and mobility - in the literal and mental meaning of the term - are required: teaching, law, journalism, human resources, transportation, etc.

Knowledge acquisition and sometimes, mastering the art of writing are among your favourite pastimes. You are happy as long as your mind is in turmoil, and even then, you need to have a lot of people around you listening to you, unless you are the one to glean for yourself, here and there, the intellectual food you are so fond of.

★★★★★ Moon conjunction Mercury, orb 3° 57'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

★★★★★ Sun conjunction Mercury, orb 4° 4'

You know how to play with your image, how to give multiple representations of yourself. A precious asset: you are sensitive to other people's opinion and you adapt yourself to the audience. Of course, there

is a "show" side in your manner that may prevent perfect cohesion. But that's the other side of the coin, for an extraordinary capacity to discover. This aspect translates into an acute sense of observation, an intense desire to learn and to bring everything to light. You strive to be informed in many circumstances, to understand the machinery of the world surrounding you, particularly regarding all human topics. And you will change according to that information and the knowledge gained. You have the chameleon's adaptation powers. And its vulnerability, as well.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 3rd House

Your intellectual mobility and your curiosity are remarkable, Isabelle Huppert. Your entire will is at the service of your inextinguishable thirst for knowledge and contacts. You are interested in communication and in occupations where you can move and express your ideas, such as journalism, literature or writings in general, trade, recruitment, laws etc.

Early in your life, you notice that your skills as a speaker and a mediator are impressive. As you mature, you can use these assets to carry your professional or personal projects through a successful conclusion. You like to move about in the proper sense and to visit your numerous contacts, in order to embrace and fulfil your need for communication.

You may play a rewarding role towards your siblings, if you have any. Or a sibling plays an important part in your destiny.

When things do not follow the course you want them to, because of your propensity to communicate too much and to move frenetically, you may be subject to conflicts within your neighbourhood and your family (again, as always...). You may have accidents when you are paying your visits and you may also be the target of your colleagues' harsh criticisms.

The ruler of your chart is in the 5th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 5th House, Isabelle Huppert. Your favourite fields include all the pleasures of life: romance, entertainment, gambling, and pastimes. You may also be attracted by creation, whether it is of an artistic, scientific, or cultural nature, depending on your personality. You communicate with great ease with children, and you are naturally fond of them.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Neptune conjunction Midheaven, orb 0° 55'

Neptune is in conjunction with your Midheaven, Isabelle Huppert. This aspect indicates that your vision of your career and your destiny is idealistic. You seem to adhere to some sort of poetic - and happy - fatality regarding huge changes or your progression towards success. As a consequence, achievements may be beyond your... will. If your professional or social circle fits your ideals, it is very likely that you experience brilliant successes in a sort of euphoria and a feeling of fusion with the world. Sometimes, this aspect indicates that your career is of a Neptunian nature, meaning that it is related to the sea, water, the world of ambiances (night-clubs, show-business, revels, etc.)

★★★★☆ Saturn conjunction Midheaven, orb 3° 43'

Saturn, the planet of perseverance, seriousness, time, and responsibilities, is in conjunction with your Midheaven, Isabelle Huppert. It often indicates a strong potential for professional success - or bright destiny in general - even though with Saturn, nothing is easy or simple. If you are not careful, and if the situation does not fit what you wish for, reversals may occur quickly. Astrologers have observed that with this configuration, you can successfully launch an activity which matches your character, and if possible, which also corresponds to Saturn's principles, such as for instance politics, administration, sciences, agriculture. By extension, it includes all occupations requiring intense and sustained efforts (Saturn being the master of time), even though the said occupation is not too "Saturnian". Commit yourself for a long stretch of time, and with obstinacy, you can harvest the fruits of your hard work.

★★★★☆ Mars opposite Midheaven, orb -4° 35'

This opposition of Mars to your Midheaven can be summed up as follows, Isabelle Huppert: you express your dynamism more in your private spheres than in your professional circles, or "outside". In society, your audacity may sometimes be felt as aggressive, even though you do not mean it. Perhaps you should show more gentleness, so that your courage and efforts become synonymous with efficiency and success.

★★★★☆ Pluto sextile Midheaven, orb 1'

Pluto is in soft aspect with your Midheaven, Isabelle Huppert. Your natural perspicacity and your propensity to move deeper into the understanding of all the things surrounding you may favour your career. Besides, in some circumstances, secret protections or relationships at work in the dark may very well help you climb up the stairs to success. At the same time, your intuition and your capacity to overcome pitfalls are your constant assets.

★★★★☆ Venus opposite Midheaven, orb -8° 03'

Venus is in opposition to your Midheaven, Isabelle Huppert. It is not strictly speaking a dissonance since at the same time, this aspect is also a conjunction with your Imum Coeli which symbolises your home, your roots, and your family. Thus, it is obvious that your charm and the way you express your feelings work better in private circles than in society. When you do not feel in security, you are quite reluctant to display warmth, which may give the impression that your career or your destiny is a bit in the background, compared to what it might be if you did not feel this vulnerability, which is incidentally quite nice...

★★★★★ Sun inconjunction Saturn, orb -0° 52'

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

★★★★★ Sun inconjunction Neptune, orb 1° 56'

If this Sun-Neptune dissonance is not well integrated, it may bring about confusions and errors of judgment. It is the signature for Don Quixote in search of chimera, pursuing impossible dreams. Your intuitions may lead to an incorrect estimation of facts. Bohemian life is certainly pleasant. But it is often necessary to remain realistic, lest to be exposed to delusions. Carelessness and letting-go is not suitable. In order to properly integrate this aspect, you must control the possible drift of a wandering and fabulous sensitivity. This aspect favours poetic and romantic inspiration. But you must not let it rule your concrete actions. It is important to allow your intuitive capacities to be fully expressed while keeping a lucid mind, simultaneously.

★★★★★ Sun inconjunction Midheaven, orb 2° 51'

What you really want to do, or the way you consider everything, may be in contradiction with your professional goals, Isabelle Huppert. You may experience conflicts of authority, or a few hesitations over how to manage your career. In any case, you must display flexibility and water down your wine if you want to remain on the right track and achieve professional success. It is the only solution to this discrepancy between the Sun and your Midheaven.

Your Assets and Your Part of Joviality

Isabelle Huppert, your practical abilities to organize and to increase your material security are enhanced with the planet of Greater Fortune in this peaceful and warm sign. Your affectivity is strengthened, and so are your taste for comfort and your needs... Undeniably, the possibilities for affective and material fulfilment are favoured. The other side of the coin may be an exaggerated form of materialism.

For you, Isabelle Huppert, nature's present includes pleasant satisfactions in the area of leisure, entertainments, creations and love. Anything with a hint of pleasure is favoured. A marvellous world exempt from constraint and obligation illuminates your life. According to the Tradition, your luck also applies to your communication with children and your descent is harmonious and successful.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Taurus amplifies your practical sense and your capacity to improve your material life. You can experience a long-lasting fulfilment. You are often a bon viveur who likes life's good things. You manage and develop your patrimony with a lot of luck and generosity. Your taste is very good and your loyalty is genuine.

Your Serious Side

Your sense of justice and your moral rigour slowly grow in importance. You are a very serious and responsible partner.

Your responsibilities, Isabelle Huppert, constantly increase, slowly, but steadily, as years go by. Your acute sense of duty, your good management of time, your long-term vision, and your moral rigour are the qualities which contribute to your inexorable rise to power with, deep down, odd feelings of anxiety.

With your definite taste for power or for success, you work your way up the top place. But the danger to fall is strong. You need as much persistence to reach the heights of your career, as to... remain there! Many Heads of State have this configuration, at the same time beneficial and a source of potential disappointments if too much importance and energy are dedicated to it. Indeed, climbing to the top should be only one facet of life.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Libra gives you a serious and solemn nature. You may be tough in your contacts: you naturally focus on the essential and you have no concern for the charm you could display. You are irritated by flatteries or by thoughtless compromises. You are genuine and you value justice and authenticity.

A Few Special Points

Your Uniqueness and Your Utopias

Your anticonformism regarding relationships prompts you to meet with very original people, and sometimes quite special ones. You may take the initiative to brutally and unexpectedly break up with persons whom you find too ordinary or too conventional.

Your thirst for freedom creates a very strong individual approach in your way of communicating and of handling relationships; you may distrust associations or marriage because, as soon as you start to feel

imprisoned or not free enough, you run away without warning!

Actually, you are very demanding, and you are not aware that, most of the times, this is the very cause of your behavioural reversals. The solution is to move around with unusual people, it's as simple as that! Cohabitation is often advisable, except if your freedom and your curiosity are already satisfied on a daily basis.

Your Inspiration and Your Illusions

This configuration indicates a significant probability that your professional destiny – even your general destiny – is linked to collective movements that are beyond you. They may constitute good opportunities to earn your marshal's baton.

Your certainties may be influenced by trends or by your osmosis with collective ideas, often because you are very sensitive to the "spirit of the times". The other side of the coin is that you may become only a representation of a collective ideal, or its victim, and be exposed to scandal or deception.

You have good predispositions for music, comedy and for anything that allows you to quench your thirst for emotions and fusion with the external world and with an audience.

Your Passion and Your Authority

In the sexuality area, you are very creative and you fear nothing. You are willing to experience your fantasies to the very end because you need to understand life's most secretive and mysterious aspects.

You are usually interested in occultism and in all topics that go beyond the everyday life framework: death and after-death, parapsychical researches, etc. You have a strong sixth sense and you intuitively understand at once things that are usually hidden and private.

Your material life may be disrupted by inheritances and gains stemming from happy speculations. In the most negative cases, you undergo huge losses that are difficult to understand. In all cases, these upheavals are meant to transform your personality and your approach to life.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is

posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Isabelle Huppert, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Isabelle Huppert, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Isabelle Huppert, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

Isabelle Huppert, the East and West sides are well balanced in your chart. This means that you are not too determined or authoritarian, and that you are neither impressionable nor fragile. You are capable of taking decisions, in full awareness, without anyone's help when circumstances so require. However, you have no problem taking your entourage's viewpoints into consideration, with tact and intelligence.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Isabelle Huppert: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart,

Isabelle Huppert: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive woman. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The third decanate, which means the part between 20° and 30° of any zodiacal sign, prevails in your natal chart, Isabelle Huppert. It contains the degrees of spirituality, traditionally more delicate to deal with, since they incline towards evolution and therefore, destabilizations. Individuals with an emphasised third decanate may have a deeper sensitivity than most people, which often brings about ordeals, but also spiritual rewards.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Very early in life you showed a strong desire to intensely live through your passions. You are sensitive to your personal prestige and you adopted dramatic attitudes as you needed your merits to be acknowledged and you wanted to arouse esteem and admiration. Your individualistic ways may have caused setbacks: you are criticized for your egocentrism or at least, for your lack of openness and compassion. As time goes by, your life's challenge is probably to gain a taste for collaborations, fraternity, and unselfish love. If you can put aside your touchiness, you become able to relinquish your pride and to focus your energy on larger actions such as collective tasks, or even, universal works. Life teaches you a philosophy of harmony and union, far from your primary desires and needs. You then discover an entirely different realm, a spiritual dimension, the major features of which are abnegation, selflessness and the access to a world of altruism that provides more satisfactions than anything else. Self-sacrifice, friendship and fraternity are the path to your fulfilment.

You are a rebel. Your extremist attitude earns you successes and setbacks, alternately, and prompts you to transform your lifestyle. However, you long for stability. Your life challenge is to accept to enjoy life's simple joys without gratuitously challenging your assets. As years and experiences go by, you learn the value of what you possess. Things that used to make you indignant, because they were too comfortable, become gradually highly worthy. Your progression encourages your level-headedness: in a first stage, you are prone to struggles, dissidence and contestations... that cause more delusions than satisfactions. Therefore, you set aside your outbursts of anger and strive towards wisdom: acceptance of facts – which does not mean resignation –, renunciation without submission. Although it may not please the frenzied adventurers, you need a minimal dose of quietness and comfort if you are to give of your best and to fully blossom!

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your

life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You are a person thirsting for precision and perfection. Your rebellions are frequent: any mechanism that is not running perfectly smoothly is dismissed. Any person whose attitudes seem inconsistent becomes the object of your refusal. Better than anyone else, you can ridicule social stereotyped models, too conventional and ineffective. It is likely that you often succeed in giving a logical dimension to the craziest situations.

This configuration predisposes to the quest of the absolute on two accounts: firstly, the very nature of the Black Moon, implacable and extremist, and secondly, she is in a sector of the Zodiac that is traditionally evolutional but extremist. Here, you flirt with death, danger and challenge. Everything suggests transformation, abandonment and revival, passion and cruelty. There is no half-measure in your behaviour, only a terrifying and marvellous thirst for the absolute... That'll take some doing for the person who will experience it with required intensity!

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 12th house: it is when you face difficult situations that you give of your best. Ordeals have a stimulating effect on you, once the first moment of bitterness or of despondency is gone. Life hardships make you stronger and make you grow. You can better than anyone else shift cycles or lines of conduct: you are detached from events and you give them their inner and spiritual dimension. You challenge yourself and you evolve according to the obstacles laid on your path. Your destiny is particularly influenced by altruism, dedication and renunciation. Your spiritual progression may take precedence over your everyday constraints: source of ordeals, but above all, of inner growth. Life is a perpetual initiation and a quest beyond the invisible.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The planet Mercury was retrograde on the day of your birth. You probably have to make an effort to harmonize your relations: you are prone to screen others with a critical eye and you do not overlook the slightest flaw. You are exceedingly clear-sighted and you approach your contemporaries with distance rather than with natural. This type of behaviour may be an asset: your enquiring and pernickety mind prevents you from being too gullible. However, your reservations may impede your communication. As time goes by, you learn to establish contacts more spontaneously. During your childhood, you faced problems of expression in your heart of hearts: your doubts prompted you to project an image that was

out of touch with the reality... turbulent or withdrawn, you could hardly establish conventional ties. As an adult, you are in a better control of these elements. You still have to find the right way to tell who you really are: this is how you can improve your relationships.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep, it is nonetheless safe.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
