Jean-Louis Trintignant's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Your Planets, Houses, Aspects, and Natal Chart

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Jean-Louis Trintignant, the diurnal South-eastern quadrant, consisting of the 10th, 11th and 12th houses, prevails in your chart: assertion and goals achievement are at the centre of your concerns. You are very keen to implement your dreams and your plans. You achieve your ambitions as soon as possible, whether through an active social life, highly charged friendly relations, or an urge to take actions in order to reap - in the eyes of the world, of course - the rewards of your dynamism. It is likely that spirituality or humanitarian actions are part of your motivations, sometimes at the price of some degree of isolation.

Your Dominant Modes and Elements

Jean-Louis Trintignant, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

The predominance of Water signs indicates high sensitivity and elevation through feelings, Jean-Louis Trintignant. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, which causes a certain vulnerability which you should fight against.

Jean-Louis Trintignant, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

Air is under-represented in your natal chart, with only 0.00% instead of the average 25%. Air symbolizes the values of communication, exchanges with others, but also adaptability and flexibility abilities: if you don't get out of your cocoon to talk, to show interest in others, and to socialize, you may have problems understanding others. Because of your lack of flexibility or of your refusal to adapt yourself, you may be suddenly overwhelmed by events. You should get into the habit of talking, of phoning, and of thinking in terms of "mobility, flexibility, adaptability, change" in every circumstance. It will spare you so many troubles!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

Jean-Louis Trintignant, the Cardinal mode is dominant here and indicates a predisposition to action, and more exactly, to impulsion and to undertake: you are very keen to implement the plans you have in mind, to get things going and to create them. This is the most important aspect that inspires enthusiasm and adrenalin in you, without which you can grow weary rapidly. You are individualistic (maybe too much?) and assertive. You let others strengthen and improve the constructions which you built with fervour.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Jean-Louis Trintignant, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Uranus, Jupiter and the Moon.

Uranus is among your dominant planets: just like Neptune and Pluto, Uranian typology is less clearly defined than the so-called classical seven planets that are visible to the naked eye, from the Sun to Saturn. However, it is possible to associate your Uranian nature with a few clear characteristics: Uranus rhymes with independence, freedom, originality, or even rebelliousness and marginality, when things go wrong...

Uranus is Mercury's higher octave and as such, he borrows some of its traits of character; namely, a tendency to intellectualize situations and emotions with affective detachment, or at least jagged affectivity.

Therefore, you are certainly a passionate man who is on the lookout for any kind of action or revolutionary idea, and you are keen on new things. Uranians are never predictable, and it is especially when they are believed to be stable and well settled that... they change everything - their life, partner, and job! In fact, you are allergic to any kind of routine, although avoiding it must give way to many risks.

Jupiter, the planet of expansion, organization, power and benevolence, is quite emphasized in your chart. Like any Jupiterian, you are warm, open, sociable, consensual, active and optimistic. You can use your self-confidence to erase differences of opinion, and you leave the task of analyzing and perfecting things to specialists. Your role, and you know it since you were young, is to gather, to demonstrate your synthesizing and conciliatory mind, and to naturally reap its fruits - power.

You appreciate legality, social order but also order in general. With you as a leader, every plan or human entity can be organized and structured. You excel at supervising. The Jupiterian type is indeed the politician par excellence, and a positive Jupiter in your chart is synonymous with good integration into society, whatever the chosen path.

Is this idyllic picture really perfect? Certainly not: each planet's typology has its own weaknesses. One of yours is pride, like the Solarian, but your will of expansion at all costs may generate a form of exaggeration in everything, endless pleasure, inappropriate self-confidence that could lead you to rough materialism and the thirst for absurd material comfort - in the worst cases, of course.

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive, and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total self-control.

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Cancer, Aries and Capricorn. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Cancer is one of your dominant signs and endows you with imagination and exceptionally shrewd sensitivity. Although suspicious at first sight - and even at second...- as soon as you get familiar with people and let them win your confidence, your golden heart eventually shows up, despite your discretion and your desire for security that make you return into your shell at the slightest alert! Actually, you are a poet and if you are sometimes blamed for your nostalgia and your laziness, it is because your intense inner life is at full throttle...

Arian blood runs through your veins! You have that enthusiasm, frankness, courage, and fastness which usually make you so likeable in spite of your somewhat rough, naive, or violent side. As a bonus, Aries' gushing fire always gives you the impetus to make a fresh start, should you stumble or undergo life hardship!

Capricorn is one of your dominant signs and endows you with a grave and serious style that seems to stick to you constantly. But if you have that reserved and cold side - as some extrovert people may think - on the other hand, you possess sturdy qualities: you are strong-willed and tough. Your long-term vision, your sense of duty, and your ambition are not affected by the derisory and erratic motions that seem to upset most mortals less steady than you. Besides, you are like a good wine, you age well and your natural solemnity or serious side paradoxically turns into an almost cheerful appearance, as you grow older. You are actually very sensitive when it comes to love. Faithful, caring, sweet, and sensitive, your behaviour is very different in your everyday, sentimental life. A golden heart beats under your tough and austere appearance...

Your Dominant Houses

Houses 12, 6 and 2 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

The 12th house is emphasized in your chart: like the 8th house, it has a rich and complex meaning. Although its bad reputation is likely to scare most readers in the first place - it is indeed the house of hidden or isolated places, of solitude, of ordeals or enemies - it can also mean that a part of your life is very deep and intense. If your achievements are not visible in the public eye, you may fulfil yourself in a different but equally important way: you may be involved in secret activities, humanitarian causes, and projects in favour of disadvantaged people. You are likely to work in quiet and remote places. In many cases, you will gain from these hidden activities as many treasures as people who have a more public destiny. It may be because you sublimates your work, or only because you successfully carry out your task within your environment. There is no such things as a good or a bad house, because each area of life is necessary in its own way, and we need all of them, if we are to improve spiritually.

Your 6th house is quite emphasized and indicates interest in work and daily occupations that take up a lot of your time: in analogy with Virgo, this house inclines towards perfectionism and training; somehow, you may be fulfilled through the process of being useful and investing your energy in your work. An environment appealing to you may be involved - your colleagues, for example - or a passion for one of these daily occupations. Medical positions or pets may play a role in your life; or ancillary love affairs too... These are a few possibilities indicated by an important 6th house.

The 2nd house is among your three most tenanted houses: life's material aspects - with everything that is implied in terms of security, appetite for life, desire for possession - are deep-seated and you can never be content with living on love and fresh air. On a more abstract level, you may have similar feelings regarding relationships: possessiveness and jealousy in the worst cases, but also faithfulness and durability.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Sagittarius and your Ascendant is in Cancer

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

These two very different signs are inspired by the same wandering spirit, and they blend together to endow you with a strong inclination for escaping through actual trips but also through your imagination! Owing to your Cancer Ascendant, you come across as a calm and careful person at first glance. The truth is that you protect your private sphere so as not to get lost in the frenzy and short-lived relationships which you deem a threat to your tranquillity. However, since you excel in contradictions, you deplore your propensity to beware of all things which are unknown to you. Indeed, your thirst for discoveries and your craving for the exploration of the immense world are the signature of your Sagittarius Sun. You are deeply attracted to that which is different from you, and once you become used to it, you display an amazingly broad mind which is sometimes accompanied by uncalled for enthusiasm and ardour. Both

Sagittarius and Cancer are often wrapped up in their thoughts. Cancer is deeply attached to its fortress and is easily moved by its imagination, which opens the road to roaming all over a world, far from the reality of daily life. Since Sagittarius is more fiery and mobile, it gives you itchy feet and urges you to go out to meet the outer world.

You were born with the Sun in Sagittarius

Psychologically speaking, your nature is extroverted and independent, oriented towards expansion and sociability. You have the soul of a leader, energetic and active. Your charisma and your drive are fully integrated into the collective life. Indeed, as an action-oriented fire sign, you challenge yourself and you succeed in accomplishing the task straight away. Sagittarius is hard to follow because his spirit and his independent mind constantly prompt him to go further and higher.

As you are born under this sign, you are charismatic, fiery, energetic, likeable, benevolent, tidy, jovial, optimistic, extroverted, amusing, straightforward, demonstrative, charming, independent, adventurous, straightforward, bold, exuberant, freedom-loving. But you may also be irascible, selfish, authoritarian, inconsistent, unfaithful, brutal, unreliable, reckless, tactless or unpleasant.

In love, Sir, you are the mobile fire that consumes everything in your way. You are constantly in love, you are passionate and your energy and your extroversion create a love life that could fit a serialized novel: mobile and changing, you are not the man of a single woman, at least until you find the person who resists you and who arouses a love powerful enough to tame you.

Your need for freedom and independence is so strong that it is difficult for you to settle down. Many break-ups are caused by a feeling of smothering, when your love of the moment becomes too demanding. However, since you are also unstable, you often patch up as if nothing had happened and you will be forgiven: this paradox comes from your explosive mixture comprising ardour, energy, benevolence and fickleness.

Similarly to the way in which you run your business, you will settle down when you reach your forties or your fifties. You become a good husband and a good father, well acquainted with the rules of your society, full of contentment and joy. Your home will provide the room you need so that you do not feel imprisoned.

Your Ascendant is in Cancer

Psychologically speaking, your nature is dreamy, oriented towards nostalgia for things past. You are very instinctive and you protect yourself against the outside world. Your inner life is rich, with fertile and even unlimited imagination, a propensity to avoid unnecessary risks and to pursue security. You show your true face only to persons you can trust, when there is a kind of well being triggered by the nostalgia for the past.

As you are born under this sign, you are emotional, sentimental, restful, imaginative, sensitive, loyal, enduring, protective, vulnerable, generous, romantic, tender, poetic, maternal, dreamy, indolent, greedy and dedicated. You may also be fearful, unrealistic, evasive, passive, touchy, anxious, dependent, stubborn, lunatic, backward-looking, lazy, burdensome, impenetrable and a homebody.

Love in the masculine mode: for you, Sir, in love, you are tender, sensitive and quite loyal. You are

influenced by a mother-figure and you unconsciously look for a partner who will offer as much attention and affection as you used to receive as a child. You are a homebody and a dreamer and you blossom in the family cocoon you create, dreaming of adventures and extraordinary trips... that you most often take in your head.

Tenderness is more important than sexuality, even though it is also an agent for security and for stability. You tremendously appreciate to be again the spoiled child that you used to be, as you savour tasty little dishes or as you receive the frequent praises you need in order to feel reassured.

You are sheltered from tragedies and life complications because at the very moment when a difficult situation emerges, you nip it in the bud either by ignoring it or by withdrawing into your shell quietly, until the storm subsides.

Your home is happy and rich, quiet and harmonious, throughout your life.

The ruler of your chart is in Virgo

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Jean-Louis Trintignant, is the Moon. In the sign of Virgo, it turns you into a cautious and rational person, sometimes to the detriment of your feelings. You like to improve yourself, and you pay a great deal of attention to details. You respect the rules, and you appreciate well-done work. However, you may lack self-confidence or you may hesitate, perhaps because you hate to make mistakes, since you believe that truth is a major quality.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Jean-Louis Trintignant. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Cancer Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Pluto conjunction Ascendant, orb 8° 14'

Pluto is in conjunction with your Ascendant, Jean-Louis Trintignant. The planet of taboos, power, secrets, and instinct endows your behaviour with an uncontrollable domineering note which is not negative as such. At the same time, it also provides you with exceptional lucidity. In spite of yourself, Pluto prompts you to discover people's secrets, to provoke them in order to better understand their "truth". Your mysterious and slightly frightening magnetism is definitely part of your seduction!

★★★★★ Venus trine Ascendant, orb -6° 33'

Thanks to Venus, Jean-Louis Trintignant, your behaviour is in harmony with your affective life, and you need not make any special effort in order to express your feelings in a natural way and without arousing people's criticisms. This asset enhances your natural easiness and charm, which is definitely not unpleasant!

★★★★★ Jupiter conjunction Ascendant, orb 9° 57'

Jupiter, the planet of good luck, law, and benevolence, is in conjunction with your Ascendant, Jean-Louis Trintignant. This endows you with an undeniable natural vitality, a composed, honest, affable, not to say pleasant side. You tend to see the good aspects of things and to honour your commitments. This is what causes other people to often notice your reassuring and nice behaviour: quite an asset in life!

Your Sensitivity

Your sensitivity is dominated by your reason, Jean-Louis Trintignant, and you tend to analyze your emotional reactions in the slightest details, as if you wanted you hold them at bay so that they cannot overwhelm you or weaken you. Your nature is anxious, shy, you do not like to be in the forefront and you lack self-confidence. You are extremely perfectionist, you need to examine, to organize and to plan everything according to your logic. You like to help and to feel that you are useful, in your own work or through your wise and clever advice. You may also be very demanding and critical, even unbearable, because you are insistent and you find fault in everything. Learn to gain some self-confidence and do not constantly be ready to criticize...

Material affairs can have an importance disconnected from reality, Jean-Louis Trintignant: you tend to be very emotional about practical matters related to your personal interests.

Maybe you unconsciously fear some kind of shortage. You seek financial security, however, it may prove counterproductive if you display too much sensitivity in a field that doesn't need any.

The way you earn money often looks like roller coasters: sometimes lucky, even very lucky, but you may loose a lot too, because you are unable to stay Zen in all circumstances. Business requires cold blood, although emotions add charm...

★★★★★ Moon conjunction Neptune, orb 0° 29'

This harmonious Moon-Neptune aspect indicates an exceptional receptivity. You are sensitive to ambiances and you can grasp what is at stake in any given situation. You can pick up things in the general atmosphere that the majority of people miss out. Your deep intuition allows you to feel the subtlest details, that « little nothing » which is the key to behavioural patterns. Inspiration is your guide and imagination accompanies your daily rhythms. Mysteries, psychology, esoterism, fantasy, the supernatural... one of these fields, at least, is of concern to you. You pay utmost attention to your inner life, to moments of tranquillity when you relax, when you allow your mind to wander at will. The danger is that you may seek refuge in the imaginary and that you shirk reality.

★☆☆☆☆ Moon semi-square Pluto, orb -0° 06'

This planetary configuration causes distrust (Plutonian distance) towards individuals, groups, or your own family environment (lunar values). It may bring about a feeling of affective or relational wound. The feeling of security is absent, or fragmented or illusive. How is it possible to feel integrated whereas you know that you are different and on your own? It is the myth of the « ugly duckling », with its different specific characteristics, an alien to its origins and its roots. It is important that you accept your differences and that you have them accepted by others, without forsaking your essential values. This is how you can exercise your group ownership without allowing them to exclude you or to repress your secret determinations. When this aspect is well integrated, it is a factor of lucidity for your emotions. You perceive without gullibility what is really at stake in your intimate relationships and the flaws of your environment. The fact that you do not readily trust people spares you many traps and delusions.

★★★★★ Moon trine Saturn, orb 6° 03'

This harmonious Moon-Saturn aspect is an element of stability for your private life. Your daily life lives up to your demands, you are totally true to yourself and logical through your very intimate behaviour. You do not choose the easy way out: on the contrary, it is in difficult situations that you are at your best. It is very unlikely that you become destabilized by trifles. This aspect indicates stability and also

perfectionism. You are longing for a private life respectful of your heart of hearts and your genuine desires. Your well being is at this price, and its quest remains perpetual. Despite your reserved private behaviour, your emotions run very deep. You have a strong need for protection and for security. Your aspirations lead you towards contemplation or studies, more than towards social utilities.

★★★★★ Moon bi-quintile Uranus, orb $-0^{\circ} 1'$

This harmonious Moon-Uranus aspect indicates that your well being depends on the original quality of your charm and on new-ness. You are not influenced by prevailing trends and fashion. You have a personal view of what a balancing private life should be. You enjoy unexpected situations, even extravagant ones. But if you feel that your living environment hampers your freedom, you suddenly change your attitudes and your habits. Independence is your true realm. You may show an exceptional inflexibility when your intimate life moves away from the patterns you need, deep down. Your entourage must get used to your demands and to the values you are determined to keep with all your might and on which you are uncompromising. This determination does not allow for a laid-back attitude, or an indolence that so often causes degradations. You keep your own daily rhythms under control.

★★★★★ Moon semi-square Jupiter, orb $1^{\circ} 36'$

When this aspect is not well integrated, there is a tendency to conceal your true nature and to cheat on your true self. Appearance, emphasis and games hide the essence of your aspirations and may trouble your intimate life. Despite your apparent joviality, it is often difficult for you to live in conformity with your inner demands. Actually, it is difficult for you to reconcile your social life with your private life. The former excludes the latter. To properly integrate this aspect, you must learn to harmonize your external attitudes (social and professional ones) with your daily rhythms. It implies that, when you are in a trustworthy situation such as your family or your home, you accept to behave differently from when you are in a larger context, exposed to social stress. You must neither ignore them, nor should you favour them.

Your Affectivity

In your chart, the Sun is in Sagittarius and Venus, in Scorpio. These two signs follow each other and are as opposite as they are complementary. The association of restive Scorpio with Sagittarius, open to all winds, is a paradoxical one. Your solar sign gives you an enthusiasm capable of arousing the most unexpected passions. You claim a commendable lack of prejudice and you manage to understand the other person's differences. However, to understand does not mean to accept... Often, Scorpio's violent and implacable passions clash with Sagittarius' wide resolutions. For worse and also sometimes, for better. Your paradoxical sensitivity is also part of your strength, your richness and your charm. Sagittarius wants to thoroughly understand and he adjusts his thought process to his beloved partner's. However, this configuration does not describe a quiet conformism. Scorpio is possessive, unyielding and exclusive in his loves and his hatred. Therefore, it is difficult to anticipate your affective reactions. Sometimes, a real understanding of your partner, coupled with an unfailing affective impulse, allows you to experience the intense moments of a shared love. It may be followed by a period of paradoxical, sometimes cruel passions, tears and laughter. A time for "if you don't love me, I love you". It is likely that it is your way to avoid what you dread most in the world: boredom born from stiff love.

You cannot dissociate love from passion, Jean-Louis Trintignant. Your feelings are immediate, imperious, intense, and it is absolutely impossible for you to think of an amorous relationship without

fusion, without the irresistible desire to know everything about your partner: emotions, feelings, sexuality, everything must be experienced in a possessive, absolute and unrestricted way. Actually, your feelings are as complex as they are deep. You seldom love, but when you do, a burning ardour and its torrid, violent frolics consume your couple. It is obvious that such powerful feelings may lead to jealousy and absolute exclusivity, almost bordering on the will to control your partner. If your relationship is genuine, all is fine. But if it is not the case, there are real dangers of shared wounds within your couple; it is hard to reconcile passion with tranquillity and it is clear that for you, sentimental serenity involves a partner who is either as complex as you and who instinctively understands you, or who is complementary, and as calm and steady as your impulses are intense and deep.

Jean-Louis Trintignant, your Venus has a natural affinity with this house. She feels very comfortable and she gives her best in terms of intensity of feelings, artistic creativity, inclination for leisure, entertainment, fine arts and music gifts and even, the capacity to easily communicate with children. With Venus in this house, more than in any other position, the affectivity is increased and endows you with an active and enterprising attitude, in this area of life. Creativity is associated with the 5th house and Venus here allows you to blend pleasure and motivation, not only in the field of artistic creation and entertainment, but also in love, where you are prompted to fearlessly create or to actively develop romantic relationships with the elected person. Besides, you are particularly at your best here, more ready to extend extreme kindness, warmth or seduction than in any other of your daily activities. However, the danger with this position is to fall prey of your own great ability to please, to seduce or to enjoy yourself, be it through romantic dissipation or through sheer pleasure to shine.

★★★★★ Venus trine Pluto, orb 1° 4'

You exercise exceptional clear-sightedness in love. Your passions are subtle, deep, although disconcerting and imperceptible to the outsider. You display no gullibility and you keep your distance. This is part of your charm. You detect what is really at stake in your couple's relationship and in your sentimental attitude. You drive the boat of your sensitivity without falling victim to mirages and affective traps. The only danger is that you may be too calculating. As you try to totally control love and to constantly pull the strings, you may lose the ingenuity and innocence which are necessary to nurture a relationship. You give proofs of your love in a very personal way and you never hesitate to use paradoxes to preserve the authenticity of your relations. You can anticipate problems and prevent difficulties.

★★★★★ Venus trine Jupiter, orb 3° 23'

Charm and seduction are your assets. This harmonious Venus-Jupiter aspect favours your affective fulfilment and your sentimental well being. You earn your entourage's sympathy thanks to your conciliating sensitivity, your desire to please and your behaviour in society. In many circumstances, you arouse esteem and consideration – essential values to you. You like social whirls, life in society, the aesthetics and the arts. You often tend to look for the easy way out in your business and your affective relationships. You are known as a complacent person. However, your amorous commitments may be quite superficial. It is important that, without breaking the spell, you opt for a more genuine attitude, respectful of your essential desires. As we all know it, love cannot be bought. An indication of balance: because you are aware that compromises are necessary for a love affair to endure, better than anyone else, you know how to maintain harmony in love.

★★★☆☆ Mercury semi-square Venus, orb 0° 02'

If this Mercury-Venus aspect is experienced on the dissonant mode, stability may not be the forte of your affective life: when desire loses its fine edge, the need to discover new forms of emotions and feelings

leads you to multiply the number of relations, sometimes to be detriment of the former ones. Again and again, you keep on looking for the object of your desire without ever being satisfied with the persons you know too well. Your natural likes and dislikes can also bias the relationship games in which you indulge. A subtle tug-of-war between your feelings and your need for novelty, between the reasons of the heart and those of the mind... You must learn to master these ambivalences, to reconcile desire and thirst for the unknown. If you accept to pay some attention, the person who naturally attracts you can captivate you in a sustainable way. Then, love becomes an inexhaustible source of interest.

★★★★★ Venus square Mars, orb 5° 33'

This Venus-Mars aspect indicates a sensitivity all on edge and an impulsive character. Emotions and heart impulses cause a marked tension. Life is an affective battlefield. Love is omnipresent but often fragile: impulsiveness reigns over the realm of feelings. The object of desire may become irresistible and implacable, or the sense of confrontations prevents affective tranquillity. However, the richness of your emotional responses is to be noted: you are more inclined than others to be guided by amorous fevers and you live intense passionate experiences. Your overwhelming impressionability must be contained. Romantic people seldom enjoy tranquillity!

The Way You Take Action and Your Sexuality

What an energy, Jean-Louis Trintignant! You take so many initiatives, you have so much strength for action, construction and struggle! You are part of the conquerors, loyal and concerned about panache. Your vitality is such that you can achieve your objectives and release all your creativity. However, you are so proud and so unyielding that you cannot tolerate the faintest annoyance on your way: if you are vexed, you may turn into the opposite direction as a matter of reaction. Sexually, your magnetism and your energy work wonders. You are not complicated and, as long as your slightly domineering nature is respected and you are granted due admiration, all goes perfectly well. You usually have a lot of self-confidence and you believe in you. This characteristic feature may turn you into a hero with Hercules's strength and solar charisma.

You are by nature an active person, Jean-Louis Trintignant. This is the only position that does not give a particular orientation towards any specific area of life. It is the most powerful placement and it indicates that your personality is precisely combative, conquering and action-oriented.

You are on the move, with the impetus which urges you, more than anyone else, to transcribe your thoughts and your projects into the real world.

The danger may be that you overdo and you turn into a warrior! This generous flow of energy is an invaluable asset that you use properly as you mature. The danger is also that you may come across as quarrelsome and too domineering to persons who may be scared by your punch and your pugnacity.

★★★★★ Sun trine Mars, orb 2° 3'

This planetary Sun-Mars aspect reinforces courage, determination and energy. The need for action is obvious. Whatever your will designs is implemented with fieriness, despite all oppositions. You are decisive and wilful, even foolhardy. Your behaviour may be heroic: you know how to face adversity, to stand for your rights and your decisions, regardless of the confrontations you may have to cope with. The only danger may be that you overestimate your chances and your strength. But your audacity turns out to

be rewarding, more often than not.

★★★★★ Mars trine Uranus, orb 5° 02'

This harmonious Mars-Uranus aspect indicates an unshakable determination and the will to further your ideas through drastic, sudden, sometimes dramatic actions. You bend the string of your bow before taking action and you hit at the right time. The secret of your feats? An excellent command of your blitz actions. You concoct your plans in the dark, and then you move to an efficient and quick execution step that is often dazzling. You do not have the temperament of a loser. When you face an ordeal, you focus your entire energy and will on your unique aim: victory over any obstacle. This planetary configuration may lead to dangerous, even heroic actions. The danger is that you may over-estimate your strength or your chances for success.

★★★★★ Mars bi-quintile Saturn, orb 0° 5'

Persistent action always bears fruit eventually. All that is needed is patience... A quality you have, undoubtedly. As confrontations become unavoidable, you show strong persistence and indisputable perseverance. Potential obstacles are more stimulating to you than they are discouraging. You are naturally fit for effort and for confronting realities and facts. You quickly overcome difficulties and you respond to crises in an efficient and considerate manner. You are enduring. You handle events with rigour and precision. These are valuable qualities nowadays, for they often come with the capacity to undertake adventurous experiences and to take limited risks!

Your Intellect and Your Communication Style

You need to concentrate on a subject, Jean-Louis Trintignant, to deepen your research and to follow your reasoning through with persistence and determination. You are the very type of the thinker who needs time and isolation to meditate at length and allow his serious, methodical and rigorous mind to show its worth. Your feet are firmly planted on the ground and to get your attention, ideas must be followed by implementation, for instance as in the case of mathematics applied to physics. You focus on the essential and you look at the world around you with clear-sightedness. You are not very talkative and you act with caution. You may come across as cold and ambitious even though your comments are always sincere and practical. However, be careful not to isolate yourself and to appear as a lofty and intolerant person.

It is at work that you can release your mental power full steam ahead, Jean-Louis Trintignant. What's the point of racking one's brains if it's not to show one's professional value, to climb the social ladder, to earn one's colleagues' esteem, and to improve oneself every day. You adjust very well to your work environment or at least, this is one of your main concerns.

Your intelligence is rather practical or concrete and you are often interested in health and sometimes in pets, and you are very keen to turn each day into a source of intellectual stimulation.

★★★★★ Mercury trine Neptune, orb 1° 2'

Your sense of psychology and of human intimate mechanisms is acutely developed. Your relations are nuanced, clever and guided by a good intuition of individuals. Without effort, you pick up what is at stake in relationships and in contacts. Your « sixth sense » inspires you and may take you into strange roads. On the relations' plane, there is an indisputable subtlety. You know what you should not say or, on the contrary, you naturally find the suitable words. Your natural and non-rational attitudes often prove

right. The unknown fascinates you... Your curiosity for occultism and mystery is keen. Besides, life is a huge human enigma for you.

★★★★★ Mercury conjunction Saturn, orb 4° 14'

Your vision of the world is rigorous and objective. An exemplary logic characterizes your mental attitude and your human relations. Your discerning faculties overlook no detail. You need to know the whys of your life and to explore the backstage of your surrounding world. The deepness of your relations dismisses superficial connections. It may be the reason why your interest is aroused when you are in touch with elements that are alien to your mode of functioning. You have the soul of a researcher, regardless of the form that your investigations may take. It may be an exacerbated curiosity for human topics or a will to understand relationship stakes. It may also be a hobby or a course of study that introduces you to a riddle. It does not matter! Life is a perpetual quest for the unknown. Your critical mind is highly developed and you take commonplaces for granted only after thorough consideration.

★★★★★ Moon trine Mercury, orb 1° 49'

Curiosity is part of your nature. You perceive everything with sharp acuity. You increase your attempts to establish connections and to exchange opinions and information, particularly when you are in a familiar and intimate context. When this configuration is well integrated, it underlines the multi-faceted nature of the mobility that defines your behaviour and your living conditions and endows you with strong adaptation abilities. You also show a remarkable gift for improvisation and you pick up the quality of the atmosphere so swiftly that you get off any tricky situations. However, you must keep your adaptation capacity under control because when it is overdeveloped, it may become an agent for instability.

★★★☆☆ Mercury square Uranus, orb 4° 21'

You are the champion for useless intellectual speculations, for crazy and revolutionary ideas. This Mercury-Uranus dissonance is the signature for an eccentric character, more ready to ridicule generally accepted ideas than to build up stable patterns. Your sense of humour reveals a critical and forceful mind. You can stand for an idea in the face of all opposition but you do not hesitate to support the opposite thesis the day after... with the same conviction. The coherence of your points of view is harmed by these spectacular reversals that constitute your speciality. In the relationship area, you may also provoke dramatic turns of events if your ideas are conflicted. The good news is that it seems difficult to convince you to accept points of view running counter to your principles. Intransigence also has its virtues.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 5th House

Jean-Louis Trintignant, your main motivations and your will lead you towards activities related to creation or to the outwards expression of yourself. It may take the form of the mobilization of your energy aiming at artistic, literary or technical creations and works, innovative projects design, or symbolically, projecting yourself into your descendants: creation via procreation.....

You are usually very sociable, warm, honest and straightforward, but sometimes inflexible and you are interested in leisure under all its forms. Love pleasures, firstly, but also outings, parties, games (gambling and other amusements), and all kinds of activities containing a part of risk that can increase

your adrenalin level! You loathe anything that is too solemn and too serious in general and you prefer the authenticity of the present to intellectual meditations that seem too static to you.

Your will to please is very strong and you can shine in the love area. Since the recreational world is linked to that of children, you easily deal with them. When you become a father, one of your major goals is to dedicate yourself to their success. You are able to dedicate an amazing amount of time to their education and you succeed in that field better than anyone. Besides, you have the knack with children and everyone envy you!

One never gets bored in your company and you have loads of hobbies and occupations that are out of the ordinary. You are creative and playful, to a point that may border on fanaticism. Try to avoid role-plays or casinos that take up so much of your time... Be also wary not to surround yourself with sad or austere people who may not find you serious enough!

You spend too much energy in entertainment activities and you may lose sight of your real interests. If you listen to your instinct rather than to your reason, you take the risk of missing a few dates with your own success: you must sometimes put fun aside and force yourself into solemnity, in order to become more efficient and to achieve your goals more quickly. It is also likely that you face problems within the circle of your friends.

The ruler of your chart is in the 2nd House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 2nd House, Jean-Louis Trintignant. This position in the House of money earned through work may facilitate the way you deal with financial matters, and may give you the desire to work even harder. Your material situation often improves at the age of thirty.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Uranus conjunction Midheaven, orb 1° 06'

Uranus is in conjunction with your Midheaven, Jean-Louis Trintignant. This very important aspect usually indicates a destiny which, in some rare life occurrences, takes most surprising twists. Like trans-Saturnian planets, out of the blue and beyond free will events occur by accident, as if they were caused by some sort of fatality. Thus, it is possible that your life changes its course completely and repeatedly, in a more than above average way, when transits and progressions activate your Uranus-Midheaven conjunction. Uranus stands for life upheavals, surprise, rebellion, freedom, and nonconformism. Whether it indicates inner needs or external events, which is the most frequent case, your destiny is very likely to be deeply disrupted, especially when transiting Uranus forms major aspects with your natal Midheaven (towards the ages of 21, 28, 42; 56, 63, and 84). Uranus' half-return (around the age of 42), is the most important one. It is also possible that your career or social destiny takes a stronger Uranian tone, with tight connections to modernity, space, astrology and out-of-the ordinary subjects, as well as physics, electricity, speed, etc.

★★★★★ Saturn square Midheaven, orb -0° 59'

Saturn is in dissonance with your Midheaven, Jean-Louis Trintignant. Of course, nothing really serious is to be feared. It is just that sometimes, you feel that an unfair slowness keeps on delaying the achievements you deem that you deserve right now. You must work twice as hard to climb up the rungs of success, and above all, you must not get disheartened. Effort is one of the values you must work on, and it is a punishment by no means. It is obvious that your goals are achievable, but you must remain on the right track and show perseverance. That's all!

★★★★★ Mercury square Midheaven, orb 3° 14'

You are not pleased with the way you intellectually approach your professional goals, or simply your destiny. Because of this mild dissonance between Mercury and your Midheaven, in some circumstances, your communication style is tainted with a few hesitations or clumsinesses. There is nothing serious to worry about, and it is up to you to gradually build self-confidence through the study and mastering of your projects.

★★★★★ Jupiter opposite Saturn, orb -7° 19'

Jupiter and Saturn form a dissonance in your natal chart. It is far from being horrendous. This planetary configuration, which is deemed somewhere between the individual and collective characteristics, only indicates that your social integration may be delayed, or may encounter a few difficulties. Such slight delays or setbacks often have their origins in your own behaviour. Indeed, since Jupiter represents laws and public life, and Saturn, seriousness and perseverance, in many instances, you may become impatient, or even rebellious to any form of authority or legal constraints, to the extent that you cross the white line... When you face such circumstances, you must resign yourself to listening to reason and accept to wait for your turn, lest... your achievements are even more slowed down by your own haste.

★★★★★ Sun inconjunction Jupiter, orb 0° 2'

This Sun-Jupiter aspect indicates a strong desire for social and professional integration but it may cause a few difficulties of expression in that regard, owing to excesses or immoderation. There may be discrepancies between your objectives and the means implemented to achieve them. The danger of this configuration may be that you forsake an essential part of yourself for some ambitious but out of proportion plan. Too many efforts of adaptation and an excess of opportunism may make you miss the target. It is important that you remain true to your values and that you do not seek, at any cost, to adjust your attitudes to the situation. However, do not fall into the opposite trap: a need for the absolute that forbids compromises, although they are so necessary. You must reconcile idealism with the demands of the moment, the respect for principles with the sense of timeliness. When this configuration is not well integrated, things get out of hand. Extravagances are glaring. They may translate into an exuberant, overly demonstrative disposition. Personal ambition turns into pride, and joviality becomes immoderation. Outbursts of anger are frequent. However, in a reserved and cautious context, this configuration reveals its positive nature.

★★★★★ Mars trine Midheaven, orb 6° 08'

Your energy serves your professional goals and your social ascent in general, Jean-Louis Trintignant. This beneficial aspect of Mars to your Midheaven endows you with strong dynamism, and it rewards your sustained and efficient efforts. You enjoy taking action, and your results are gratifying most of the time.

★★★★★ Sun inconjunction Pluto, orb -1° 22'

You are dealing with both sides of the coin. People are mistaken when they think that they know you well, because the image you project does not necessarily depict what you really are. You may look like any given model, whereas you actually consider social values to be empty and childish. Deep down, you are an anti-establishment person and you do not belong to the world and its laws. Or, on the contrary, you may project a more marginalized image and make it a point of honour to literally stick to your aspirations' ethics. You do not know who you are really, and where you stand. You may choose some sort of marginality, the adherence to another realm and a different scale of values. Unless you choose a life that apparently lives up to the expectations of others. In that case, you preserve a corner for your private secrets, with no norms, no fashion concerns, relationships off the beaten tracks, passions very removed from conventions. Your attitudes may seem paradoxical as you shift from commitment to refusal and from involvement to withdrawal.

★★★★★ Sun trine Uranus, orb -7° 32'

This aspect reinforces the determination as well as the will to further your original, sometimes revolutionary, ideas and designs. Your capacity of innovation is important for your image. You have the soul of a leader. You display a forceful and synthesizing mind. You may tend to oversimplify or to schematize situations. In most cases, you know where you are heading to and how to reach your goals. Your determination is two-edged... not everybody will appreciate your contrasted standpoints. It is yes or no, black or white! This planetary configuration indicates certainties. When it comes to acting according to your inner motivations and to respecting your models, you can show an unusual willpower and sweep aside all obstacles lying on your path.

★★★★★ Moon bi-quintile Midheaven, orb 0° 55'

Your sensitivity and your emotions are in line with your goal and your ambitions, Jean-Louis Trintignant. You do not need to curb your temper lest other people have a wrong perception of you. Indeed, by being your true self, very simply, your social ascent will unfold naturally.

Your Assets and Your Part of Joviality

This planetary configuration in your chart is very positive, Jean-Louis Trintignant, because Jupiter, the planet of Greater Fortune, is in his exaltation, which means, in a privileged position. Jupiter protects your family area and later, your own home. Your sense of responsibilities is increased, your inclinations for comfort and customs are strengthened; usually, you are well integrated in society. You mature affectively early, and this fact enables you to avoid many setbacks. The only danger with this pleasant configuration may be your attraction to good things, in all areas, and their consequences.

Although Nature's nudge in the right direction is not spectacular here, Jean-Louis Trintignant, it is very real, nonetheless. Your sense of dedication, your generosity, and your compassion are developed to such an extent that they often enable you to happily find fulfilment in non-mediatised areas such as humanitarian work and charities. Your human qualities are strongly favoured when you strive in obscurity, discretion and silence. Your reward is a life that is rich and not limited to material contingencies.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more

important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Cancer is in the sign of his exaltation, which means that he is at great ease and he can express his essence more powerfully. He amplifies your emotions, your imagination and your optimism. You can be a good head of family or you develop a natural interest for matters linked to your home, your roots, your patrimony or that of your family. All your domestic affairs are protected.

Your Serious Side

Precision, slow progress, huge concentration capacity, and exceptional but... hidden ambition are your features. With time, you acquire the ineffable certainty that your values will be acknowledged and that your organizational abilities as well as your long-term aims are the keys to your success.

The association of the astrological house of effort with the planet symbolising concentration and the necessity to overcome one's fears is not negative in itself. In your daily life and in your work, Jean-Louis Trintignant, more than anyone else, you are dependent on your courage and your persistence.

The danger is that you underestimate yourself psychologically, or that you give up a task just because you think that you cannot live up to people's expectations. Your challenge is to gain self-confidence and wisdom and to pursue your effort because in the long run, they will be rewarded.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Capricorn is in his own sign, and according to the Tradition, he is most potent and at his best: he increases your toughness, your seriousness, and above all, your long-term management capacities. You are persevering, resistant, hard-working, ambitious and you are aware of the fact that time is on your side. Your reputation is that of a sober and stern person but you are respected and acknowledged for your wisdom and your authenticity.

A Few Special Points

Your Uniqueness and Your Utopias

This is one of the most potent configurations. Unexpected disruptions of considerable intensity often occur on the factual plane. Embracing changes is the basis of the success of your destiny, which is very likely to include extreme variations, sometimes towards the most glorious heights, sometimes towards ordeals that you face with courage and determination, despite your unpreparedness.

Originality is certainly the context of your professional life or your destiny, in one way or another. Whether it is expressed through your very special area of expertise (high technology, space, aviation, astrology, television, etc.) or through the totally hectic nature of your progression (sudden changes of orientation), you are not able to plan what is coming next. Unforeseen events undertake to make a clean sweep of your certainties. This may offer many advantages if your state of mind is ready to approach life as a journey where your only freedom is to adjust in the best possible way to new emerging situations.

Most of the time, you are very independent, very keen to show your professional talents in a unique and modern way. You are a kind of pioneer or rebel in your area, which allows you to better assert your genius.

Your Inspiration and Your Illusions

Your relationship to money is particularly vague. You tend to avoid analyzing your financial resources, as though this topic were neither important nor real. You belong to the category of people who never know how much they have in their bank account and in their purse.

This approach is positive in that, if you have a strong sixth sense, you can get good bargains more easily than other people... It may be some sort of blindfolded fortune, although there are real dangers of losing a lot and of being deceived.

Beware not to overstep legal boundaries, lest someday your carelessness in the financial area gets you into big troubles. It would be a pity if what you earned, thanks to your sixth sense, were taken away from you.

Your Passion and Your Authority

You have an unconscious desire to experience your ordeals to the bitter end, regardless of their consequences for your future.

Your clear-sightedness and your investigative capacity enable you to solve mysteries in a deep and intuitive way. But they may also lead you into conflicts, crises and confrontations with enemies who are ruthless, at least in your opinion; having said this, you precisely have the ability to cope with them and to deeply evolve in the process.

You are predisposed to go through ordeals, on the human plane or in the area of health. The pains thus triggered contribute to transform you more rapidly than the majority of people. Your destiny is certainly to progress forward and, above all, to consider such ordeals as stepping-stones instead of signs of some unhealthy fatality.

The Tradition indicates that you may be prompted to take action in humanitarian causes, all the more so, because your personal ordeals incite you to readily help others, even though this tendency is not at once visible.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Jean-Louis Trintignant, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Jean-Louis Trintignant, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Jean-Louis Trintignant, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, Jean-Louis Trintignant, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Jean-Louis Trintignant: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Cadent houses, namely the 3rd, 6th, 9th and 12th houses, are very emphasized in your chart, Jean-Louis Trintignant. They indicate important potential for communication, adaptability and flexibility. These houses are symbolically linked to the mind and intellect. The relative weakness implied by these characteristics indicates your tendency to hesitate or to be indecisive, but also your remarkable ability to start off again, which is a nice quality, finally: you can easily get yourself out of a tight spot thanks to your mobility and casualness, in the best sense of the term. This group of houses corresponds to evolutionary characteristics of your personality. However, they are only indications and you must include them in the rest of your chart in order to see whether they are validated or not!

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, Jean-Louis Trintignant: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

You have obvious sociability qualities. You know better than others how to adjust to a new context and to copy your entourage's behaviour exactly. You do not dissociate yourself from groups or cells (social, family), on the contrary, you frequently adopt flexible attitudes that meet other people's expectations. This may translate into a lack of fighting spirit. You may not dare to go against prevailing fashions and currents. Because you dread unknown situations, you may miss the opportunity to innovate. It is important that you learn to go it alone and to get rid of scruples that hamper your doings: life encourages you to leave aside other people's opinions and, as time goes by, to find your autonomy of thought and action. While keeping your sociable nature, it is important that you develop a sense of individual initiative. In many situations, one can only rely on oneself. In such cases, you have the possibility to achieve the freedom many people dream of, without really giving themselves the means to implement it. Do not allow your entourage to dictate your way of life, over and over again. However, do not fall into the opposite excess: the frenzied individualism of those who value nothing except their own interest! Your life's purpose may be to master your destiny.

Your life is marked with the major challenge of developing your social image, of asserting your personality... and of leaving your shell. Your childhood and your family roots are very present. You have an inclination for quietness, protections and intimacy. You enjoy at will the moments when you feel "at home", in known territory and familiar situations. But you must learn to thrive in society, to give of your best, to socially shine, particularly when you feel that external pressure and opinions are upsetting. Do not fall in the trap of your dreams and souvenirs! Life implies responsibilities and the will to control, otherwise you cannot feel your true self. You may be too dependent and you must learn to slowly become autonomous, free to take decisions and to take action. Your sense of duty allows you to climb all the steps of a perilous, yet thrilling, social ladder. As years go by, you claim more autonomy, more power and more freedom of action.

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

It is in the humanitarian field that rebellion is best expressed. Your dream is to become the spearhead for a different project of society, the Quixote of altruism. Each individual must be independent, really free to think and to act. Any hindrance to free will makes you indignant! The danger is that you may not tolerate any external constraint. This is probably the price to be paid for a freedom of thought that constitutes the core of your progression.

You decidedly assert yourself as a person made of desires, love and the absolute. If this configuration is not well controlled enough, your thirst for timeless relationships may hamper simple, natural and obvious affairs. You may reject persons whose attitudes do not perfectly live up to your expectations. However, as you keep on looking for your muse, it is very likely that you will find the person to whom fate has relentlessly tied you.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 4th house: you are constantly looking for basis and for roots. You seek security and integration into a group, a clan or a family. To fully blossom, you need to feel that you are in harmony with your environment. Sound concepts and stable ambiances are reassuring to you. It is within the familiarity of a homogeneous entourage that you are at your best.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Venus retrograding in your natal chart emphasizes love: how did you see yourself when you were a child? You need to accept your identity if you are to fully experience love. As years go by, you learn to better accept your specificities, to open up and to love... What caused your affective problems during adolescence is slowly fading away. There still is a particularly acute sensitivity regarding the affection you receive: a couple relationship needs time to blossom and it is never perfect right from the start. Your problem is that you hardly take a laid-back attitude. Until you are reassured by the attachment of your loved one, you cannot easily express your desires. Wrongly or rightly, you feel that you lacked affection during your childhood. Your sentimental balance will be all the more satisfactory as you endeavour to

pour out love and tenderness, passion and dedication. You will then respect your own affective patterns and you will arouse the attention that you so badly lacked.

With Jupiter retrograding on the day of your birth, the lesson is about grasping the opportunities that are offered to all of us but that some people take advantage of, while others don't. Persons who quickly adjust to circumstances are more likely to achieve their ambitions than those who need to be encouraged to take action. During your childhood, you may not have efficiently responded to life's concrete enticements, leaving other "luckier" people to achieve what you were dreaming of. You preferred to enjoy yourself, here and now, rather than to look for new paths of development or exploration. It is possible that you were not optimistic enough. Enterprising minds were alien to you... Later, you find out that, indeed, you give little importance to the credit of the frenzied expansion praised by the modern world. Your path is not oriented towards personal prestige. With subtlety, you integrate non-material values and you accept well the fact that you missed past opportunities.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
