Introduction

Solar Revolution 2022/2023 for Katy Perry

Introduction

This 2022/2023 Solar Revolution is valid from one birthday date to the next, from October 25, 2022 to October 25, 2023 for you. It has been computed for your future presence in Los Angeles (Los Angeles), California, on October 25, 2022, at 12:49 PM, (the exact moment of the Solar Revolution does not necessarily match your legal birthday date).

It is indispensable to take into account the natal aspects which are repeated in the Solar Return chart. Should it be otherwise, the Solar Return (SR) affects the inner plane and is not very likely to bring about tangible events. The effect of a SR is to "wake up" or activate the potential inscribed in the natal chart. Nothing, or very little, can occur which is not rooted in the symbolism of the natal chart.

As a secondary comment, we believe that it is necessary to be careful not to give too much credit to the principle and the meaning of the planetary dominants found in the SR chart. Indeed, since each author has his/her own method, there may be differences among rating systems used and thus, ranking of planetary dominants may vary. As a result, the interpretation may be slightly distorted.

The SR chart describes the astrological climate of the year starting on your birthday, with its assets and weaknesses. More than a predictive method, it is a comprehension tool which sheds light on the evolution of your personality. It enables you to seize opportunities to blossom, and it helps to avoid traps. It is necessary that you adjust your life context to the situations explained in this Report. Indeed, everyone can take charge of one's life in order to change the nature of an event, grab dormant opportunities, or overcome hurdles. After completing the analysis of your planetary dominants and the assessment of your SR Ascendant (these components give information on psychological trends prevailing throughout the year), we compare your natal and SR charts in order to identify the type of climate in which your life is most likely to unfold during this specific timeframe. Lastly, we review your planetary aspects in order to pinpoint possible opportunities and dangers.

Introduction

Please, also bear in mind that forecasting is first and foremost done using the transit technique, and that this Solar Return Report must be considered as its complement. Indeed, SR forecasts may be less reliable than transit forecasts, and therefore, the former should be taken with a few reservations, although it has numerous proponents, and it is definitely a valuable technique. For all its passionate partisans, the SR Report constitutes a fully fledged forecast. Nonetheless, we recommend that you read it in addition to your yearly forecast, established on the basis of your transits, and that you consider it as the main Report.

Your Solar Revolution

Your Solar Revolution 2022/2023

The Sun is one of the planetary dominants of your Solar Revolution chart

You strive to give a meaning to your activities, and to set yourself clear objectives. In a word, you attempt to "get back on the right track". It is not that simple... How to achieve a project, a personal aspiration, or a professional dream? You are conscious of your image and your social status. Therefore, this year, you are very likely to take numerous steps in order to translate your ideals into concrete reality. Your behaviour is straightforward and direct, which is a good time to clarify the components of your life setting. In addition, your determination and your constructive approach is the key to your success. This period lends itself to large-scale undertakings. It may be linked to a quest of personal growth, a desire for conquest, or a promotion. The only fly in the ointment is a sometimes exaggerated ambition. More than ever, you need the esteem and the recognition of the members of your entourage.

The Moon is one of the planetary dominants of your Solar Revolution chart

Your domestic and private spheres are in a state of constant fluctuation. This year, you feel the need to modify your daily routine, and you reckon with the demands of a new personal or family situation. You seek moments of intimacy, day-dreaming, and well-being. You care for your family cell and think of your child, or the child you have been. How can you regain a security that is not fragmented or illusory? Your life pace changes. Should this configuration translate into concrete events, it is most likely that they are related to your daily behaviour and to the very bases of your balance. You question all the usual components you used to rely on so far. You must achieve genuine serenity and reach a state of well-being which does not exclude indulging in the laid-back attitude that are indispensable to make you feel your true self. In such conditions, your private life constitutes one of the major stakes of this year.

Your Natal And Solar Revolution Chart

Houses indicate in which areas each planet expresses its function. The natal houses where the SR Ascendant and SR Midheaven are posited are of utmost importance and indicate the sectors on which you focus your activities. The values symbolised by the tenanted houses are the best assets you should rely on in order to harmoniously experience the energies of your SR chart.

Your Solar Revolution

The Solar Revolution Ascendant in House III

The main focus of this year is on communication and short trips. You establish new, varied, and enriching contacts. This year is auspicious for encounters and exchanges of ideas in general. The time to go it alone is definitely over. Now, it is important to use the trump cards constituted by your relationships. Dialogues turn out to be particularly fruitful because they take an increased importance owing to the situation. Mobility remains at the core of your concerns: yesterday inertia gives way to real overtures. You may take the initiative to make frequent short trips, or to renew the range of your activities. More than ever, you need to rely on your close friends, your siblings and your immediate neighbourhood. This is a year for communication that proves tremendously enriching on the human plane... of course, if you know how to take advantage of the opportunities offered to you, such as encounters, interviews, etc. There is one last point worth underlining. Your curiosity and your open-mindedness turn out to be helpful in all initiatives related to learning, studying, or training. The only danger is that you may get scattered. Indeed, as you keep on embracing many new projects and discoveries, you may lose sight of your current line of conduct.

The Solar Revolution Midheaven in House XII

You become aware that you must change your life setting and overcome limitations or obstacles. This year, you are very likely to find yourself entangled in a complex and confused situation. In many accounts, this configuration suggests the end of a cycle and of obsolete values. You do not enjoy the same comfort or the same security as you did, yesterday. Everything you were attached to cannot yield enduring solutions any more. According to the astrological Tradition, this configuration may bring about guiles and treacheries. Although this interpretation must not be taken literally, there are potential difficulties in exercising discernment and remaining clear-sighted. In such conditions, traps abound. You must probably learn to overcome your problems, which seem to constitute... some sort of initiation ordeal. Psychology or spirituality may attract your interest. Because you feel that gaining new awareness is an unavoidable emergency, you opt for values which differ from your usual ones. It is only at this price that the changes affecting your life can become constructive.

The Solar Revolution Ascendant

The SR Ascendant often differs from your natal Ascendant. The SR Ascendant is the sign rising on the horizon at the very moment of your astrological birthday (when the Sun is posited at the exact point of the Zodiac he occupied at the moment of your birth). Your personality takes on the characteristics of the rising sign for the whole year. The SR Ascendant describes the nuances of

Your Solar Revolution

the human character in perpetual evolution.

Your Solar Revolution Ascendant: Capricorn

The Ascendant of your SR chart, not to be mistaken for your natal Ascendant, is posited in Capricorn. You are more sensitive to matters involving your career, your social status, or your father or mother. Balance and maturity prevail over fieriness. Your behaviour is thoughtful, stable, and cautious towards all forms of innovation. It is important that you forge yourself a solid structure, establish sound foundations for your life, and opt for a long-term strategy. Therefore, uncertain experiences and fancy concepts must be excluded. Of course, rigour has got its virtues. Nonetheless, you may display too great an intransigence, and thus slacken off your growth process. You slow down and you procrastinate. Indeed, you can afford to take your time, and for the moment, you prefer to carefully prepare your projects and let your plans mature. You may feel quite fragile on the affective plane, and you protect yourself under an impenetrable carapace, which gives an image of solidity of yourself. However, cold manner may conceal an over-sensitive thin skin... This year may turn out to be the year of long-term strategies.

The Aspects of the Solar Revolution

The aspects of your SR chart describe the relationships among planets. They may be harmonious (trines, sextiles), tense (squares, oppositions) or ambivalent (conjunctions). They give information on opportunities to seize, or possible hurdles to overcome. They imply no inexorable sense of fatality whatsoever, since free will can significantly change the course of events. The strength of each aspect is indicated by stars, from * (mild) to ***** (potent, very meaningful configuration).

★★★★★ Conjunction ♀ Venus ☉ Sun, orb 0°45'

When the star of light is in harmonious aspect or in conjunction with Venus, the planet symbolising affective life, aestheticism, or the arts, they can but herald happy times. During this period, you may experience a few successes in the romantic area, as well as in leisure or artistic activities.

★★★★★ Conjunction ♀ Venus ☾ Moon, orb 4°02'

Within your couple, the current astrological climate proves propitious for a new phase of evolution based on exchanges. It would be wise to listen to your partner and to take his arguments into account. Even though, for the moment, you do not have the same approach, the best solution probably resides in a compromise that can be reached only through a sincere dialogue.

Your Solar Revolution

The time to go it alone belongs to the past! Life is to be built together... The desire to please may bring about miracles, and you will see it for yourself before long.

★★★★★ Trine ♂ Mars ♀ Mercury, orb 2°09'

You demonstrate an alert mind and a strong will. You take your decisions promptly and you implement them straight away. Your great mobility endows you with a formidable efficiency. Dialogues are lively and words, brilliant. It is hard to counter your arguments. During this period, you adjust amazingly well to complex surroundings and you know how to quickly impose your ideas. Straightforward explanations may break a deadlock. In the relationship department, the pace speeds up with an encounter leading to new prospects or a contact that proves helpful, here and now. It may also be the beginning of a dialogue or some initiative that requires a follow-up. In all cases, it seems interesting to pay special attention to any new relationship, although and particularly if you don't fully realize its importance yet. In the short or longer-term, contacts established during this period will yield nice fruits. Of course, it is up to you to make the first steps...

★★★★★ Conjunction ☾ Moon ☼ Sun, orb 4°48'

In a solar revolution, a conjunction or a harmonious aspect between the Sun and the Moon is deemed quite auspicious. Therefore, you may achieve some degree of fame or play a greater social role within your private or professional circles. During this period, this configuration may also highlight the importance of your couple or of a female member of your entourage.

★★★★★ Square ♃ Neptune ♂ Mars, orb 2°23'

You are able to stand up for a lost cause with the greatest sincerity in the world. The exaltation of your feelings is undoubtedly commendable, however, your objectives are not too realistic. There is a danger that you let yourself be carried away in a whirl of upstream actions and that you waste your time with useless confrontations and struggles. Reason has little influence over your attitudes. Therefore, you have difficulties in keeping the situation under control. Beware of crazy feats. Exacerbated passions - a certain romanticism - endow you with a "Don Quixote" side. Events may surprise you though. As if some glitch were striving to jeopardize your plans! There is nothing magical nor unavoidable here: it is only that you let yourself be blinded by your certainties and in the process, you forget the realism that would prevent passionate, subjective and often unsuitable management. Beware of skids! There is a real danger when one is carried by one's dreams: the danger to get all mixed up whereas the situation requires lucidity and perspicacity, precisely. More than ever, you must not be lured into the snares of meaningless or illusive passions. A bit of pragmatism is needed in order to

Your Solar Revolution

avoid mirage-hunting...

★★★★★ Square ♃ Pluto ♀ Mercury, orb 2°53'

The situation is not simple and you take malicious pleasure in making it even more complex. You avoid straightforward explanations, as well as all sorts of clarifications, as you prefer to take action in the dark. The period lends itself to sordid negotiations and complex games with hidden dialogues. As you look for the other side of the picture, you may be carried away by a machinery that is beyond you. You play with fire. Beware of burning relationships. This planetary configuration suggests some underhand trick, a trap that can be avoided only through extreme vigilance. All words may be used! However, many among them conceal the essentials instead of revealing them. Underground controversies abound. What is left unsaid is the prime feature. Nevertheless, this period can be constructive in the sense that it allows you to avoid the vicious circle your naivety might have got you into. Drop the pretence, whatever the cost may be! You must show clear-sightedness, learn to detect traps and pay attention to what words conceal as much as to what they mean.

★★★★★ Trine ♄ Saturn ♀ Mercury, orb 4°41'

You display great clear-sightedness and you retain your objectivity in many circumstances. Your attitudes are marked by rigour. You strive to understand the whys and the hows of all events and you explore the backstage of your life setting. Superficial rapports don't interest you any more. You must now deepen your judgments, examine the hidden machinery of your life and understand your close friends' real motivations. This period is very good for all types of tests and clarifications. More than ever, you need to tell the truth and do your utmost in order to clear up your relationships. You are realistic and you don't hesitate to dispel ambiguities, which open the way to healthy and enduring human relationships. This period also favours new experiences such as discovering the unknown and increasing the number of enriching encounters. Even if sometimes it means questioning yourself with an open mind and welcoming concepts that yesterday were still unfamiliar to you.

★★★★★ Square ♃ Jupiter ♂ Mars, orb 4°45'

You never miss an opportunity to be noticed through spectacular actions or raucous demonstrations of your qualities. You need to express your will with force, brilliance and panache. However, the danger may be to overdo, to offend your close friends and to wear off their patience! Do not overestimate your chances of success and do avoid excess and tactlessness. With this planetary configuration, you are inclined to take unsuitable actions. The reason is probably that you don't evaluate the concrete situation properly. As heroic as your ambitions may be, it is likely that you have to endure a few

Your Solar Revolution

delusions. The verdict of the facts is often final. Under such circumstances, it is essential that you learn to exercise some patience and wait for the right time before you undertake the steps you are dreaming of. Wait until the fruit is ripe before you pick it, until the situation becomes more favourable to the success of your plans.

★★★★★ Square ♃ Pluto ☉ Sun, orb 6°11'

You are going through a period of personal crisis, at least regarding your motivations. All the things you used to value seem meaningless now. Although this is a sensitive stage, it is not devoid of possibilities. Any evolution, any skin shedding has a cost. Of course, your situation is complex and not easy to keep under control. However, your detachment may free you from prejudices and outdated constraints. Oftentimes, outer events occurring behind the scenes disrupt your activities and your aspirations. In brief, you don't know where you stand any more. Your usual landmarks prove useless. You feel a kind of inner malaise, a very heavy one, although it never manifests dramatically. Make use of your subtle mind to get back on your feet. Your attitude may disconcert your entourage because you choose the "What for?" philosophy, and you relegate people's expectations to a position of secondary importance. You question even your dearest projects because of your strong doubts about conventional truths, models and obligations. When this phase of distance, renunciation or derision is over, you may feel that you are stronger and more clear-sighted than ever.

★★★★★ Conjunction ♀ Mercury ☉ Sun, orb 9°04'

The good connection between the Sun and Mercury indicates that throughout the year, communication and intellectual or cultural pursuits are given the seat of honour. You put to good use your witty mind and your oratory skills in order to convince the members of your entourage and enrich your knowledge. Your commercial endeavours are favoured.

★★★★★ Trine ♄ Saturn ♂ Mars, orb 6°51'

You demonstrate tenacity in your activities. This period favours long-term enterprises and projects requiring patience and persistence. Your strength lies in your capacity to adjust to difficult circumstances. You reach your aims without shrinking from effort, without allowing hurdles to dishearten you. You leave to others the easy task to accomplish hit-and-run actions, as you prefer to entirely dedicate yourself to achieving objectives you have pondered over at length. This period is excellent for brand new experiences, just "to see". It is also the good moment to test people whose motivations you don't know yet. You behave empirically but efficiently and you don't need sophisticated concepts or complicated reflection, since your attitudes are dictated by facts. You cope with all possible pitfalls and you calmly resist

Your Solar Revolution

external pressures. More than ever, you feel that you are able to tackle all upcoming crises, to get out of the rut and to handle your life without being overwhelmed by events.

★★★★★ Trine ♂ Mars ☉ Sun, orb 6°55'

There is a touch of heroism in your attitude... You display dynamism and an enterprising spirit. You try to implement your projects and to take action in areas where, so far, you have been nurturing your plans only. Far from yesterday's renunciation, you can mobilize your energy as much as you like. Should events impose trials of strength on you, it is very likely that you will be able to cope with them. Instead of harming you, confrontations reinforce your position and allow you to assert your choices. If your situation is stuck or slowed down by external forces, you must take action and face adversity. It is important that you achieve what you have not dared to undertake, so far. This is a constructive period, even though you must confront the facts and prove yourself. With this configuration, the only danger may be that you overestimate your strength and you set out to conquer an objective that is still inaccessible. But the will to do and dare may brush aside many doubts and suppress reservations and limitations that used to paralyse your life.

★★★★★ Square ♃ Pluto ♀ Venus, orb 6°56'

The astrological Tradition, more moralistic than any other, insistently underlines the dangers of a Pluto-Venus hard aspect: deprivation, dark conspiracy, plot or corruption! As always, the truth is more complex. Actually, nothing is simple in love, especially during this period. Your usual landmarks don't work any more. You consider affective matters with different eyes. You don't believe any more in a simple, obvious, clear relationship, devoid of problems. The machinery of your love life is beyond you, temporarily. In order to avoid indifference or delusion, you try to reinvent the rules of the game. It is likely that your feelings will be alternately cruel and passionate, distant and burning. Your attitude is paradoxical and, in order to win your partner's love, you behave in disconcerting and secretive ways. It is because nothing must be based on basic conventions. You seek an inaccessible truth, a different Sun, a new scale of values and you loftily ignore models and facts. An attitude utterly perilous, but so intense and exciting...

★★★★★ Conjunction ♀ Venus ♀ Mercury, orb 9°50'

In the romantic area, this period proves ideal for any sentimental dialogue or reunion. Both of you seek a new impetus and a more promising horizon... You expect a great deal from your partner, and you are right to do so because you will find together the key to a lasting relationship by adopting the most suitable strategy for a tense context. Do not hesitate to engage in thorough dialogues, as a lengthy discussion may lead to new solutions that are more

Your Solar Revolution

conducive to growth than your previous attempts. Your main asset remains your appealing eloquence and your pleasure as you express your emotions and give free rein to your heart's impulses...

★★★★★ Trine ♂ Mars ♀ Venus, orb 7°40'

You successfully mobilize all your affective and instinctive resources and you let your sensitivity guide your decisions and your actions. Moods prevail over reason. During this period, you should take advantage of the exaltation of your vital forces. You feel the desire to intensely experience each instant and to give your awakened feelings free rein. You may be tempted by passionate love or any other adventure that includes a fair share of thrills. You give your affectivity a new impetus, you express your passions with force and fieriness and you can tell whom you really love. You may experience an encounter that changes the nature of your love life and contrasts sharply with your habits. It may also be an opportunity to reveal your essential desires and to overcome some limitations. More than ever, you display an amazing sincerity and you do not seek anything but a life in harmony with your affective aspirations.

Conclusion

It is important and even crucial that you get a good grasp of your natal chart if you want to fully appreciate the forecast of the current year. This principle applies particularly when computer programmes are used, as it is the case of this Report. Indeed, the aspects assessed are more powerful and meaningful if they are also found in the natal chart.

Besides, as stated in the introduction, we prefer to give priority to the yearly forecast, which is based on the transit technique, and we consider the forecast based on the Solar Revolution chart as a complement and not as a whole Report by itself. With the combination of both methods, it is possible to further fine-tune the diagnosis. In case there are contradictory elements between the two Reports, the priority should be given to the yearly forecast based on the transit technique.

It is always fruitful to re-read your forecast with the above pieces of advice in mind. Astrology discloses a wealth of secrets to those who are capable of observation, and it is very worthwhile. Never forget that we describe only climates, tendencies and probabilities, not fatality, and that there is much room available for initiatives and free will. Experience has demonstrated that the best of all planetary climates does not necessarily bring about positive concrete events if you demonstrate no willpower, and if you take no actions in order to achieve a satisfactory outcome. Conversely, the potential dangers forecasted can be alleviated or eliminated, on condition that you remain serene, stand back, understand how some ordeals may be beneficial, would it be spiritually only. Asking yourself relevant questions about the real meanings of life is the invaluable key to understanding them...
