Michael Jordan's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order

to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Michael Jordan, the diurnal South-western quadrant, consisting of the 7th, 8th and 9th houses, prevails in your chart: this sector brings about a thirst for communication and sometimes a need to take risks in your dealings with others. Relations are a factor of your evolution and your transformation, which you accept serenely. Indeed, what matters to you is the movement and the energy that link you to others and that make you gain more awareness. A kind of rebellion or a desire to get away from it all is rooted in you.

Your Dominant Modes and Elements

Michael Jordan, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

The predominance of Water signs indicates high sensitivity and elevation through feelings, Michael Jordan. Your heart and your emotions are your driving forces, and you can't do anything on Earth if you don't feel a strong affective charge (as a matter of fact, the word "feeling" is essential in your psychology). You need to love in order to understand, and to feel in order to take action, which causes a certain vulnerability which you should fight against.

Like the majority of Earth signs, Michael Jordan, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Mutable mode is the most emphasized one in your natal chart, Michael Jordan, which indicates a mobile character that is curious and thirsty for new experiences and evolution. You are lively and flexible, and you like to react quickly to solicitations, but don't confuse mobility with agitation, since this is the danger with this configuration - and with you, stagnation is out of the question. Security doesn't matter as long as you are not bored. You optimize, you change things, you change yourself... all this in a speedy way.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Michael Jordan, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Jupiter, Venus and the Moon.

Jupiter, the planet of expansion, organization, power and benevolence, is quite emphasized in your chart. Like any Jupiterian, you are warm, open, sociable, consensual, active and optimistic. You can use your self-confidence to erase differences of opinion, and you leave the task of analyzing and perfecting things to specialists. Your role, and you know it since you were young, is to gather, to demonstrate your synthesizing and conciliatory mind, and to naturally reap its fruits - power.

You appreciate legality, social order but also order in general. With you as a leader, every plan or human entity can be organized and structured. You excel at supervising. The Jupiterian type is indeed the politician par excellence, and a positive Jupiter in your chart is synonymous with good integration into society, whatever the chosen path.

Is this idyllic picture really perfect? Certainly not: each planet's typology has its own weaknesses. One of yours is pride, like the Solarian, but your will of expansion at all costs may generate a form of exaggeration in everything, endless pleasure, inappropriate self-confidence that could lead you to rough materialism and the thirst for absurd material comfort - in the worst cases, of course.

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive, and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions

that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total self-control.

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Pisces, Aquarius and Sagittarius. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Pisces is among your dominant signs and endows your personality with unlimited sources of emotions, dreams, imagination, and sensitivity, to the extent that you literally swim in a cloudy ocean of delightful impressions. These impressions are so intense and overwhelming that you don't really need to take action concretely, to show your dynamism or your willpower, since you already live so intensely with your feelings - you are as keen as a radar, always on the alert! That is why some people may not like your carelessness, and the lack of clarity in your opinions or actions; however they quickly notice your artistic talents, your poetic or artistic side, and your total lack of wickedness. Besides, you feel compassion for people in pain - empathy is one of your great qualities. Thanks to your flexibility, your intuition, and your generosity, you may spend an important part of your life helping others. And if you are creative or if you have well-known artistic talents, everybody will forgive your little flaws: absent-mindedness, lack of energy or of will, too dreamy temperament...

Aquarius is one of the most important signs in your natal chart: it endows your personality - at least one of its facets - with originality, to the point of eccentricity, in spite of a sometimes distant and humane

side. Likeable and impassive at the same time, you are a paradoxical man, very hard to define because the two planets Uranus and Saturn blend their qualities to create the so complicated and endearing sign that inspires your character. Saturn's seriousness and impassivity is added to Uranus' rebellion, talent, individualism, charisma, extravagance, and unpredictability! One of your main characteristics is that you never open up on a personal basis, but you tend to do so easily in public. You are actually quite strange. Sexy and charming in public, despite your nice and sociable character, you could frustrate many of your admirers in private because of your impossibility to show deep and warm affection, emotions, tears... But appearance and reality are two different things anyway - you are a kind of a genius, or you have at least a tremendous charm with this sign. You have many friends and an active social life. If you are detached in your love life - only in this aspect, since the rest of chart will confirm it or not - this is no big deal!

Sagittarius, an adventurous and conquering fire sign, is dominant in your chart: you are enthusiastic, enterprising, optimistic, very sociable, and mobile - you have itchy feet, both physically and mentally. Nobody gets bored with you because you are always planning things and suggesting excursions, at least... when you are around and not already gone on a trip! Obviously, so many movements for one man may scare people off, and some of them may even criticize your brutality or your tendency to loose your temper, but you are so warm and genuine, so expansive, isn't this a good thing? And all the more so, since your sense of humour is overwhelming...

Your Dominant Houses

Houses 9, 6 and 7 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

Your 9th house being one of your most tenanted house, or at least emphasized, travels and faraway places play a major role for you: travels may take place in a symbolic sense, namely mind speculations or conceptions about political matters, philosophy, religion or spirituality, or in the literal sense, such as real long distance travels by plane. It may also be that you spend a part of your life far from home, etc. You are driven by some kind of rebelliousness, which urges you to explore the Unknown; it may also be the call of the adventure. Besides, if the rest of your chart concurs, you may be considered as a real draught, often up hill and down dale, constantly on the lookout for exciting discoveries and new, enchanting horizons.

Your 6th house is quite emphasized and indicates interest in work and daily occupations that take up a lot of your time: in analogy with Virgo, this house inclines towards perfectionism and training; somehow, you may be fulfilled through the process of being useful and investing your energy in your work. An environment appealing to you may be involved - your colleagues, for example - or a passion for one of these daily occupations. Medical positions or pets may play a role in your life; or ancillary love affairs too... These are a few possibilities indicated by an important 6th house.

Your 7th house is one of your dominant houses: it symbolizes other people, marriages, associations, contracts, and partnerships. Your personal achievement and maybe your problems - depending on the rest of your chart - are mainly influenced by your rapports with others, the area in which you tend to commit yourself a lot. You appreciate communication, and you give importance to others' opinions. Success requires the support of others, which seems obvious and natural to you. Your marriage generally contributes to your fulfilment.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Aquarius and your Ascendant is in Cancer

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

With this duet of very different signs merging in you, you have everything required to puzzle the members of your entourage and... yourself! Your problem is to blend your thirst for newness and active participation in collective actions with your need to protect your privacy and to cultivate an imaginary world or your secret fiefdom. Indeed, you are often torn between these two contradictory tendencies which come from your Aquarius Sun and your Cancer Ascendant. When you are in unknown settings, your first reaction is to behave cautiously, as if you instinctively fear that unveiling your true self may endanger your inner balance. You dread showing your vulnerability and your emotionalism, and for this reason, you harden your shell. Your Aquarius Sun is willing to remain free in every regard, including towards its personal attachments, so as to be available for as many people as possible and to imprint its

mark on the big collective whole. Although you are impersonal and disinterested, you feel that you must protect your interests as well as those of your friends and relatives. In order to reconcile your quite contradictory tendencies, bear in mind that both signs share the same vivid imagination and sharp intuition, with the nuance that for Aquarius, they are more focused on the future and the society, and for Cancer, they are more laden with nostalgia and lyricism.

You were born with the Sun in Aquarius

In the sentimental sphere, you are particularly sensitive to the values of friendship, in the sense that you see yourself as a link within a chain, certainly a different and original one, but with no will to flatter your ego or to individually assert yourself. On the contrary, your aim is to immerge yourself in your friendly relations and to participate in projects and ideals of the whole human community.

As you are born under this sign, you are idealistic, altruistic, detached, independent, original, surprising, gifted, contradictory, innovative, humanistic, likeable, friendly, self-confident, impassive, quiet, intuitive, creative, charitable, elusive, disconcerting, generous, tolerant, paradoxical, and you cannot stand any kind of constraint. But you may also be marginal, resigned, distant, utopian, maladjusted, eccentric and cold.

In love, Sir, you are totally elusive. The human warmth you show in your group meetings quickly turns into a distant and sober attitude as soon as you are alone together. It is obvious that it may cause some problems if you were thought to be different. Your reluctance to talk about yourself, although not disturbing under other circumstances, is quite inappropriate in the private sphere.

The distance you maintain, as well as your lack of emotionalism, may suddenly disappear to give room for a real relationship, since you are prone to mood swings. The necessary condition is that you have centres of interest to share with your partner. Converging passions will ensure that the magic of your relationship can develop. Ideally, a deep friendship should be the basis of your initial relationship, because friendship is a feeling that particularly suits you; in such a case, imperceptibly, conducive closeness may transform friendship into the true love you give yourself up to eventually.

You are loyal, faithful and surprising. Once you find your soul mate, you feel more comfortable and, if the harmony with your partner is rich enough, you may stay with her your whole life through. You certainly have moments that seem strange to your partner, for instance when you are impersonal or even cold. But your natural magnetism, your communication skills and your shrewdness as you play with words, work wonders for patching things up.

You avoid problems that may cause emotional or sentimental complications. Because you are often disconcerting, your partner may need some time to adjust: you disappear suddenly when you do not want to deal too closely with your individuality. And you reappear as quickly with excuses and a charming casualness, and again, you are disconcerting!

You are interested in things that are out of the ordinary. Your erotic imagination may be immense and inexhaustible. You belong to the cerebral type and you cannot separate physical and sentimental aspects from your imagination's intense activity. As a result, you explore with lucidity all the possibilities that may suit you best.

Your Ascendant is in Cancer

Psychologically speaking, your nature is dreamy, oriented towards nostalgia for things past. You are very instinctive and you protect yourself against the outside world. Your inner life is rich, with fertile and even unlimited imagination, a propensity to avoid unnecessary risks and to pursue security. You show your true face only to persons you can trust, when there is a kind of well being triggered by the nostalgia for the past.

As you are born under this sign, you are emotional, sentimental, restful, imaginative, sensitive, loyal, enduring, protective, vulnerable, generous, romantic, tender, poetic, maternal, dreamy, indolent, greedy and dedicated. You may also be fearful, unrealistic, evasive, passive, touchy, anxious, dependent, stubborn, lunatic, backward-looking, lazy, burdensome, impenetrable and a homebody.

Love in the masculine mode: for you, Sir, in love, you are tender, sensitive and quite loyal. You are influenced by a mother-figure and you unconsciously look for a partner who will offer as much attention and affection as you used to receive as a child. You are a homebody and a dreamer and you blossom in the family cocoon you create, dreaming of adventures and extraordinary trips... that you most often take in your head.

Tenderness is more important than sexuality, even though it is also an agent for security and for stability. You tremendously appreciate to be again the spoiled child that you used to be, as you savour tasty little dishes or as you receive the frequent praises you need in order to feel reassured.

You are sheltered from tragedies and life complications because at the very moment when a difficult situation emerges, you nip it in the bud either by ignoring it or by withdrawing into your shell quietly, until the storm subsides.

Your home is happy and rich, quiet and harmonious, throughout your life.

The ruler of your chart is in Sagittarius

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Michael Jordan, is the Moon. It is posited in the sign of Sagittarius and gives you a strong inclination for the open sea and for freedom. Loyal and benevolent, you put things into perspective, and you understand the true value of things, perhaps precisely because you travel - whether actually or mentally - and that stepping back from your intimate environment enables you to better perceive what is important and worthy.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Michael Jordan. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Cancer Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Venus opposite Ascendant, orb -0° 05'

Venus is in opposition to your Ascendant, Michael Jordan. This configuration is not dissonant, since it is at the same time a conjunction with the Descendant which symbolises your relationship with other people. You need to charm and to be sincerely loved, even though there may be a small gap in the way you would behave, had other people not been around. You definitely like to charm, even though to do so, you must go a bit out of your way. What seems important to you, finally, is to use this special facet indicated by Venus on the Descendant in order to earn your entourage's warm and sympathetic approval, although it requires a little effort from your part.

★★★★☆ Neptune trine Ascendant, orb 2° 33'

Neptune in soft aspect with your Ascendant endows you with a sharp intuition which enables you to instinctively adopt the behaviour which your entourage appreciates, Michael Jordan. You have the natural flair which prevents you from making errors of judgment on people. You understand the crowd, and you have the good reflexes for being well-accepted by all.

★★★★☆ Pluto sextile Ascendant, orb -1° 54'

Pluto, the planet of instinct and secret, is in soft aspect with your Ascendant, Michael Jordan. It endows you with exceptional lucidity, which enables you to behave in society in an appropriate, though slightly scathing and domineering way. You exploit your nose and your magnetism, and you do so very successfully!

★★★☆☆ Sun sesqui-quadrate Ascendant, orb -0° 17'

There may be a contradiction between your will and your external appearance, Michael Jordan, which slows down your natural spontaneity and in some circumstances, gives rise to doubts regarding your behaviour towards other people and the need to be true to your own beliefs. There is certainly nothing serious with this minor dissonance between the Sun and your Ascendant, only choices that are to be made, so as to remain in harmony with yourself.

★★★★☆ Jupiter trine Ascendant, orb -5° 59'

Jupiter in soft aspect with your Ascendant naturally endows you with a reassuring, calm, and benevolent side, Michael Jordan. You honour your commitments without qualms, and thanks to your heart of gold and your generosity, your behaviour is protective and nice. You like to please other people, and whenever it is possible, you enjoy finding compromise solutions to all problems.

★★★☆☆ Saturn inconjunction Ascendant, orb -2° 25'

This hard aspect between Saturn and your Ascendant may bring about a lack of self-confidence and some inhibitions in your behaviour, in people's eyes, Michael Jordan. Therefore, you must have trust in yourself and you must not be taken away into the spiral of doubts with its usual consequences, which are to hide away, or on the contrary and as a compensation, to overdo. Please, keep in mind that all this is highly subjective, and that in most cases, if you fully understand it, you can gradually overcome this slight restraint, and even turn it into strength. This is how you can keep your self-esteem and transform your prudence into... an asset.

★★★★★ Moon inconjunction Ascendant, orb -3° 05'

Sometimes, Michael Jordan, your sensitivity clashes with the image you want to project. As a result, you may feel vulnerable and suffer if you let yourself be disheartened. Try to put things into perspective and to confront your emotions without fearing your external image. This is how you can compensate for this minor dissonance between the Moon and your Ascendant.

Your Sensitivity

Your nature is optimistic and emotional, Michael Jordan, and you are caught up in two incompatible longings: you are fond of exoticism and independence of movement, but at the same time, you feel comfortable in a form of middle-class attitude and conformism; in general, it translates into a succession of moods, now quiet and well adapted to the situations you experience, now marked by an irresistible desire for change and revival. You have a good and naïve nature, with a lot of self-confidence. Your emotionalism prompts you to live intensely a variety of numerous emotional experiences, a bit scattered, but with all the stimulations you need to be a balanced person. Your pleasant and welcoming attitude wins you some degree of popularity, all the more so because, despite your thirst for adventures that may scare away some people, you adjust to your environment's customs so easily.

Michael Jordan, it is likely that you are popular in your work environment, and you may even be considered to be some kind of star by your colleagues. Or, if it is not the case, you have a clear tendency to react emotionally, very quickly and strongly in this sphere. At work, you need to feel liked and appreciated and to be shown accordingly!

You are mobile and changeable in your profession, and to tell the truth, your everyday life is full of surprises. Sensitive and imaginative, you are vulnerable to others' opinions. Health issues concern you more than they should; beware of not becoming a hypochondriac, some day...

★★★★★ Moon trine Mars, orb 0° 03'

Your vivid imagination goes hand in hand with your desire to make your dream come true and to struggle, so as to remain true to yourself. You easily mobilize your energy and your resources. This harmonic Moon-Mars aspect indicates the will to keep your intimate balance under all circumstances. You thrive in action; you court danger, particularly when your regular environment is endangered. In the private sphere, you exhibit complete straightforwardness. This planetary configuration allows you to quickly get back on your feet within a new context. You adapt well to unprecedented situations. Your capacity to integrate events rapidly can only increase your adaptation abilities.

★★★★★ Moon square Pluto, orb -1° 11'

This planetary configuration causes distrust (Plutonian distance) towards individuals, groups, or your own family environment (lunar values). It may bring about a feeling of affective or relational wound. The feeling of security is absent, or fragmented or illusive. How is it possible to feel integrated whereas you know that you are different and on your own? It is the myth of the « ugly duckling », with its different specific characteristics, an alien to its origins and its roots. It is important that you accept your differences and that you have them accepted by others, without forsaking your essential values. This is how you can exercise your group ownership without allowing them to exclude you or to repress your secret determinations. When this aspect is well integrated, it is a factor of lucidity for your emotions. You perceive without gullibility what is really at stake in your intimate relationships and the flaws of your environment. The fact that you do not readily trust people spares you many traps and delusions.

★★★★★ Moon square Uranus, orb 6° 32'

The Moon and Uranus intrinsically share little in common: they get along as well as fire and water! It is difficult for you to reconcile your desire for well being and intimacy with your destiny's dazzling passions and thunderbolts. You may feel that your intimate and family realm hampers your freedom. There is a potential for crises, explosions or splits. The desire for independence does not get on well with security concerns. There may be strong temptations endangering your very life foundations and you may embark

upon a liberating and personal adventure. However, you fear rash decisions. Your need for security may temper your impulses and put a brake on your individualistic aspirations. To harmonize these tendencies within your intimate life, you must leave yourself enough room for personal expression or for an activity of your own. Otherwise, as days go by, built-up tensions may jeopardize the quiet course of your life.

★★★★★ Moon sextile Saturn, orb 5° 31'

This harmonious Moon-Saturn aspect is an element of stability for your private life. Your daily life lives up to your demands, you are totally true to yourself and logical through your very intimate behaviour. You do not choose the easy way out: on the contrary, it is in difficult situations that you are at your best. It is very unlikely that you become destabilized by trifles. This aspect indicates stability and also perfectionism. You are longing for a private life respectful of your heart of hearts and your genuine desires. Your well being is at this price, and its quest remains perpetual. Despite your reserved private behaviour, your emotions run very deep. You have a strong need for protection and for security. Your aspirations lead you towards contemplation or studies, more than towards social futilities.

Your Affectivity

In your chart, the Sun is in Aquarius and Venus, in Capricorn. The association of these two signs is constructive but contradictory. Your affectivity is complex and highly polarized. The desire of the Sun in Aquarius is constantly evolving, whereas Venus in Capricorn needs stability, structure and integration. One of the poles is wide open to all possibilities and swiftly responds to any new stimulation. The other pole needs years to fully develop. There is a distance between your affective ideal, which values an ever-evolving relationship, and your desires, which need a lot of time. When this configuration is not well integrated, it may bring about a series of experiences, which start in an exciting atmosphere but are unable to satisfy your Venusian sensitivity. However, a happy complementarity can be found with this zodiacal duet if Aquarius is allowed enough room and if Capricorn is allowed enough time. Although it is quite a challenge, it is worth the idealism that both signs embody. In any case, your affectivity needs a relationship with deep-seated understanding and closeness.

Michael Jordan, it is obvious that you do not easily fall in love. But when you do, your feelings are deep, quiet, serious, and above all, lasting. Your need for security is indispensable for your well being and to enable you to give. You offer security and stability with your sense of duty even though you mix up responsibility and love. The charm of your partner does not only include physical features or aroused sentimental attraction, but also intellectual and moral qualities: you fiercely need authenticity and seriousness because this is the way you are. In general, your loves are not numerous and you become able to express yourself quite late in life. Your quiet and stable feelings are really worth it. If you do not get what you want, the danger is that you may seek refuge in cynicism and that you isolate yourself.

Michael Jordan, your warmth and your attractiveness are at the service of your future or current marriage! In the 7th house, Venus colours the expression of your feelings with commitment, a request for reciprocation and for something concrete. Venus gives way, to a great extent, to your desire to be loved as much as to love: in the romantic field, your entire being aims at harmony, diplomacy, mind-openness so as to find, at any cost, a common ground where you can achieve your aim, that is to say a sweet idyll and, why not if it is possible, a nice marriage as an ending. Are problems arising? A disagreement? A lack of understanding? Immediately, you undertake to soothe your partner and to highlight what brings you together, while skilfully omitting anything that might harm the so much sought after harmony. Of

course, this merely complacent attitude seems to allow you to progress with conviction towards your goals but there is a price to be paid. The dependency upon your couple becomes tangible. Paradoxically, anyway, you care little about that because it is just the way you are and that, worst comes to worst, you prefer to continue this constant game consisting in a kind of self-sacrifice with its fruitful benefits, rather than to push yourself to the forefront and to take the risk of being less attractive... Actually, you are never happier than when you formalize your union and there is no doubt that, once you are married, you will be a charming spouse and you will strive to make your conjugal life a pleasant one in a spirit of sharing and warmth.

★★★★★ Venus trine Pluto, orb 1° 59'

You exercise exceptional clear-sightedness in love. Your passions are subtle, deep, although disconcerting and imperceptible to the outsider. You display no gullibility and you keep your distance. This is part of your charm. You detect what is really at stake in your couple's relationship and in your sentimental attitude. You drive the boat of your sensitivity without falling victim to mirages and affective traps. The only danger is that you may be too calculating. As you try to totally control love and to constantly pull the strings, you may lose the ingenuity and innocence which are necessary to nurture a relationship. You give proofs of your love in a very personal way and you never hesitate to use paradoxes to preserve the authenticity of your relations. You can anticipate problems and prevent difficulties.

★★★★★ Venus sextile Neptune, orb -2° 28'

Your sentimental life unfolds like a strange dream. Love is too delicate to be tamed or controlled. You follow your heart impulses in an idyllic ambiance, far from reality's ordinary constraints, far from conventions and conformism. You exude a particular charm, discreet and subtle. But your affectivity may be disconcerting. You are very sensitive to marks of affection and tenderness, although you are aware that love cannot be bought or won. What is meant to be will be and it is impossible to know the hows and the whys behind a prevailing harmony. The obvious danger is that you may refuse to make any effort in such conditions. Living as a couple must feel natural and you do not need to objectively build the foundations of a relationship. You are an idealist and you dream of an affective paradise, which may be too good to be true...

★★★☆☆ Sun semi-square Venus, orb 0° 11'

The Sun and Venus form a mild dissonance in your natal chart. There is nothing very serious to worry about. There is only a small gap between what you really want on the one hand, and your natural need to charm and the warmth you display on the other hand. Thus, will and affectivity are slightly out of phase, but it is most likely that you are the only one who feels it. This is a quite trivial characteristic, and you probably do not have to correct it, since it is so mild.

★★★★★ Venus sextile Jupiter, orb 5° 54'

Charm and seduction are your assets. This harmonious Venus-Jupiter aspect favours your affective fulfilment and your sentimental well being. You earn your entourage's sympathy thanks to your conciliating sensitivity, your desire to please and your behaviour in society. In many circumstances, you arouse esteem and consideration – essential values to you. You like social whirls, life in society, the aesthetics and the arts. You often tend to look for the easy way out in your business and your affective relationships. You are known as a complacent person. However, your amorous commitments may be quite superficial. It is important that, without breaking the spell, you opt for a more genuine attitude, respectful of your essential desires. As we all know it, love cannot be bought. An indication of balance: because you are aware that compromises are necessary for a love affair to endure, better than anyone

else, you know how to maintain harmony in love.

The Way You Take Action and Your Sexuality

What an energy, Michael Jordan! You take so many initiatives, you have so much strength for action, construction and struggle! You are part of the conquerors, loyal and concerned about panache. Your vitality is such that you can achieve your objectives and release all your creativity. However, you are so proud and so unyielding that you cannot tolerate the faintest annoyance on your way: if you are vexed, you may turn into the opposite direction as a matter of reaction. Sexually, your magnetism and your energy work wonders. You are not complicated and, as long as your slightly domineering nature is respected and you are granted due admiration, all goes perfectly well. You usually have a lot of self-confidence and you believe in you. This characteristic feature may turn you into a hero with Hercules's strength and solar charisma.

Michael Jordan, your capacity for action perfectly matches your personal enrichment and enhances your earning abilities! It is easy for you to engage into fights aiming at ensuring your material security, as it is the best outlet for your energy: it must serve a purpose, otherwise why bother? Consciously or not, your ardour is going full steam ahead for the success of your business and the protection of your interests.

This energy may also be understood in a figurative sense, and in that case, it involves your affective, family or professional security and has no direct link to money. You may be possessive, and you defeat those who intend to come too near to what belongs to you.

In any case, you are well-equipped and you usually get what you want. This is a valuable asset throughout your life because, indirectly, it turns you into a more independent person who does not need any protection.

★★★★★ Mars opposite Saturn, orb -5° 34'

Why should you take action? And how? The surrounding world is not to be trusted. Past events have taught you to question simple situations and to intervene after thorough consideration. You are vulnerable to the traps of life, to confrontations and struggles. You may complicate your behaviour at will, often missing your target due to your self-censoring. Your interventions may lack spontaneity. You must overcome your doubts and acquire the certainty that you are able to handle realities and facts. If you make that effort, you can understand that there are many ways to make life simpler for yourself.

★★★★★ Mars square Neptune, orb 5° 42'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Mars semi-sextile Pluto, orb 1° 14'

You have a very personal way of taking action and of experiencing confrontations and struggles. The laws of the world are subtle, often with complex and hidden mechanisms. For these reasons, you prefer to act behind the scenes rather than openly. You manage your daily life in a distant and subtle fashion while you try to understand the logic underlying observed facts. You may also provoke events although you act as if you were not concerned. Your interventions will be as efficient as they are discreet. You may secretly transform your life and you live through the inexpressible motivations that connect you with the invisible realm. Things, which cannot be formulated, must be experimented and felt. You test experiences that your entourage find uninteresting and meaningless.

Your Intellect and Your Communication Style

You are a “free-thinker”, Michael Jordan, and you tackle problems with a swift and efficient mind. Freedom, progress and originality are your driving forces. You are resolutely future-oriented and with ingenuity and inventiveness, you reform what is outgrown and you constantly innovate: psychology, computer sciences, new technologies... have almost no secret for you. Your human and idealist qualities are obvious, you are a very pleasant and interesting interlocutor, even though your rebellious and revolutionary side may be criticized. Indeed, you seem to be driven by a strong argumentativeness: you seldom share your friends' views and, although you may come across as obstinate, intransigent and unpleasant, you do not hesitate to speak the truth! Instead of causing sudden break-ups with your friends, it is advisable that you express your creative potential more persistently whenever your nervous tension is too high.

You need to understand, to explore the unknown, to shed light on mysteries and to immerse yourself into the hidden fields of the unconscious or the afterlife, actually, into whatever escapes you, Michael Jordan. You are not content with what seems obvious because you are on Earth to evolve and not to stagnate or remain in a mindless state and a lack of understanding.

Interestingly enough, astrology connects the spheres of death, after-life and mysteries with the spheres of other people's possessions, investments, inheritances etc. This analogy probably comes from the fact that in those two fields, everything remains inaccessible right away. It might be the reason why such mysterious topics are so attractive to you.

Your investigative mind enables you to easily express your feelings and to explain the inner mechanisms of your whole being, almost as if your own self was a specimen to study, without modesty and with the only motivation to go as far and as deeply as possible.

★★★★★ Mercury opposite Mars, orb -7° 18'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

★★★★★ Mercury inconjunction Uranus, orb -0° 48'

You are the champion for useless intellectual speculations, for crazy and revolutionary ideas. This Mercury-Uranus dissonance is the signature for an eccentric character, more ready to ridicule generally accepted ideas than to build up stable patterns. Your sense of humour reveals a critical and forceful mind. You can stand for an idea in the face of all opposition but you do not hesitate to support the opposite thesis the day after... with the same conviction. The coherence of your points of view is harmed by these spectacular reversals that constitute your speciality. In the relationship area, you may also provoke dramatic turns of events if your ideas are conflicted. The good news is that it seems difficult to convince you to accept points of view running counter to your principles. Intransigence also has its virtues.

★★★★★ Mercury semi-square Jupiter, orb 1° 26'

You play with social norms and you scoff at them. Your morality is seldom questioned: you adopt the most rewarding behaviour, precisely the one that wins you your entourage's consideration. But you sometimes cheat. You are an opportunist and you act according to circumstances, particularly because your moral stand is only a superficial mask. You enjoy concealing your beliefs: life is a social game and you change its rules to suit your convenience. Your flexibility and your adaptation abilities are appreciated. However, it is important that you do not behave inconsistently. A stable and transparent course of conduct may help you avoid many pitfalls or delusions. Beware of words spoken thoughtlessly, of empty promises, and do stick to your indisputable cleverness.

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 9th House

Michael Jordan, early in life, you apply to yourself the saying "No man is a prophet in his own country". Since you were a little boy, you had the impression that something in you was different and could not be understood by your close friends. Your natal environment prompts you to venture into unknown territories and remote lands, where you hope your real talents and qualities will be acknowledged.

You are more comfortable when you are away from home because of your rebellious mind, because you feel different or because of an awareness which stems from your good sense: what attracts you is far too original, compared to what your family or your roots may offer or may apprehend.

This peculiarity may take various forms, depending on your destiny and your personality: an inclination or a strong aspiration for distant trips, higher and abstract studies, higher knowledge, spirituality, philosophy, religion, moral or culture. You are also interested in occupations allowing you to meet your need to be elsewhere, physically or intellectually, such as for instance, the positions of ambassador, judge, exporter, philosopher, researcher, university teacher, reporter or in any job with the clergy.

It is clear that your social status can be improved in places located far from your home. Your ambitions are not hampered because you are favoured and predisposed for international contacts, or for contacts that are different from your natal environment. You have no problem learning foreign languages and you study this area with the certainty that you are forging valuable assets for the rest of your life.

Your self-assertion and your success go through experiences abroad or connected with foreigners.

As you mature, there is a spiritual, moral or intellectual brilliance linked to higher knowledge that radiates from you. It may also be due to the fact that you are dedicated to a noble cause for which you sincerely spare no effort.

When great planetary configurations of tension are formed in very few moments of your life, you may be affected by illnesses or fevers contracted abroad; or in your profession, where foreign matters are involved, you may have to bear the consequences of conflicts that tarnish your prestige or your honour. What constitutes your strength does not exclude cautiousness. Too much ease may lead to unforeseen situations: even though this applies obviously to all life areas, it is certain that, when exotic trips are involved, or figuratively, when you take intellectual, moral or spiritual stands, you must cautiously step back and show restraint.

The ruler of your chart is in the 6th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 6th House, Michael Jordan. This position gives you the desire to be helpful, and turns you into a perfectionist concerned with details and with work well done. Domestic routine and exchanges with colleagues - if you are working - is an important element of your fulfilment. You may be interested in health matters.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Jupiter conjunction Midheaven, orb 3° 22'

Jupiter, the most beneficial planet of the Zodiac, is in conjunction with your Midheaven, your destiny, Michael Jordan. It is undeniably an auspicious configuration which favours your social ascent or your professional destiny, which are often influenced by your respect for the law, and your natural self-confidence. These qualities remove pitfalls out of your way. With this very nice configuration, your profession or your destiny may also be linked to values symbolised by Jupiter: prominent political figure, medical doctor, businessman, judge, solicitor, or any respectable occupation.

★★★☆☆ Sun opposite Uranus, orb -5° 05'

This Sun-Uranus dissonance indicates a dazzling will to be the centre of attention and to proclaim your specificity, by all means. This aspect belongs to the rebel and the revolutionary restive to all forms of authority and of model. To balance this interpretation, the strong need for autonomy bordering on frenzied individualism must be highlighted. You allow nothing or no one to hinder your chosen line of conduct. Obviously, your attitudes are inflexible. You prefer to continue to the bitter end, even when you are wrong, rather than to be more open to people's ideas. Tyrannical attitudes often turn against the perpetrator... However, this configuration is a powerful agent for creativity, provided your hothead and extremist nature is kept under control.

★★★★★ Neptune trine Midheaven, orb 6° 48'

Thanks to this soft aspect of Neptune to your Midheaven, Michael Jordan, your intuition is very sharp, as far as your possibilities for success are concerned. Thus, you have no difficulties in finding your professional or social path, and your nose tells you whether something is good or not for you, even before you start to analyse it. Your imagination and your visionary qualities accompany you along your journey towards success.

★★★★★ Mars sesqui-square Midheaven, orb 2° 29'

Because Mars is in dissonance with your Midheaven, in some circumstances, you may feel misunderstood, Michael Jordan. In society, you may even feel hostility towards you as you try to climb up the steps of your professional life, or when you strive to reach a higher social status. Your efforts may be resented. You must be twice as careful as you usually are and tone down your behaviour in order not to be rude to other people, even though from your viewpoint, and it is actually most often the case, it only has to do with misunderstandings or some eagerness on your part.

Your Assets and Your Part of Joviality

Michael Jordan, your sensitivity, your emotions, and your artistic capacities, particularly regarding music and rhythm, are strongly increased with this position of the planet of Greater Fortune in this borderless sign. It endows you with an artistic and endearing side as well as with flexible and mobile ways to consider your relationships and your environment. Your dreamy state of mind and your sensitivity to other people's sufferings may get involved with compassion in great humanitarian causes.

Jupiter brings you a heaven-sent present, Michael Jordan, which is particularly nice because there is here an analogy between the planet and the house. Jupiter's broad, benevolent and warm vision of life is in line with the fields of higher education, philosophy, politics, and human sciences symbolized by the 9th House. As you mature, you radiate with wisdom. On the concrete plane, long-distance travels are very favoured, throughout your life.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Pisces increases your natural generosity and your dedication capacity. Your empathy is strong and you are inclined to offer your strength and your enthusiasm to the most deprived people and to give unlimited assistance to others. Your imagination is powerful and your feelings may flare up easily: with your sensitivity on the alert and your unbridled affectivity, you belong to the category of people who intuitively detect other people's sufferings and most valuable qualities of the heart, as if you were a human radar.

Your Serious Side

Solemnity and concentration are at the service of your projects and your altruistic ideals. To the detriment of your own individuality, you become demanding with time, and you learn to better define the human values that are really important to you. Struggling in order to better assert your individual qualities can be highly profitable.

Sooner or later, death and its environment – inheritances, successions, investments, sorrows, or detachment – are areas you will have to deal with, not necessarily in a negative way, Michael Jordan. Besides, the Tradition believes that this configuration gives longevity, if other aspects do not strongly state otherwise.

In the affective and sexual spheres, you do not easily grant your confidence, and you need to work on your inhibitions so as to overcome your own fears. Provided you display a strong will, Saturn, as the planet of time, allows you to consider these areas with grace. They become sources of pleasure and joy, under the condition that... you put aside your serious side, precisely. This is likely to occur after your first experiences have taken place.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Aquarius endows you with the capacity to deliver in collective areas, humanitarian causes or avant-gardist projects. Your sensitivity is withdrawn but it is offset by your ability to handle human relationships in a daring and efficient way, which allows you to achieve your goals for the sake of a cause.

A Few Special Points

Your Uniqueness and Your Utopias

Your mind is agile, curious and mobile, and always on the lookout for things that are out of the ordinary. This stems from your interest in strange or original concepts, or in non-conformist people.

Your trips are unforeseen and you are often present where no one expects you. The only problem is that you may shock your entourage, at least, the most conventional persons, because this aspect of your personality is undoubtedly quite endearing, provided that you do not exceed a certain level of eccentricity, whether in intensity or in volume!

Your Inspiration and Your Illusions

This pleasant combination may magnify your love affairs and your creativity and give them a romantic and whimsical side. If you are an artist, you often feel inspired and carried away by love and emotional impulses.

This area of your life is intense and, as a consequence, you are more vulnerable than other people. It is up to you to sort out among your positive, creative impressions on the one hand, and your out-of-proportion reactions caused by frustrating events, on the other hand.

You must know that you are exposed to love delusions. However, you are also entitled to the best part of love, when all is well.

In the fields of entertainment and relations with children, you are quite easily influenced and you follow your intuition more than your rational mind; rather emotion all on edge than reason...

Your Passion and Your Authority

Your mind is particularly clear-sighted and, if you are so inclined, you can show creativity in literature because your vision is extremely deep and intuitive.

Your clear-sightedness may be a source of troubles within your entourage or your siblings. Indeed, your penetrating mind may prompt you to say things that you should never utter. You may also show a form of authority that lacks diplomacy when you deal with others.

Your short trips may be surrounded with mystery. In a few rare instances, they may bring about turmoil or on the contrary, happy disruptions.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60

and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspid (the Ascendant) to the 7th house's cuspid - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Michael Jordan, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Michael Jordan, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Michael Jordan, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Western hemisphere of your chart means that you are quite flexible, capable of empathy, convivial and communicative. An excellent factor for many professional activities or for your social or sentimental life for example.

A definite asset... provided that you are not at the centre of the decisions you must take in your life: you may be tempted to listen to the last person who spoke, and your flexibility won't always get you out of the tight spot. You are therefore advised to learn to decide alone and to cope with the consequences of your actions with courage and without regrets. This attitude will allow you to combine flexibility and action, adaptability and absence of hesitation.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Michael Jordan: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Cadent houses, namely the 3rd, 6th, 9th and 12th houses, are very emphasized in your chart, Michael Jordan. They indicate important potential for communication, adaptability and flexibility. These houses are symbolically linked to the mind and intellect. The relative weakness implied by these characteristics indicates your tendency to hesitate or to be indecisive, but also your remarkable ability to start off again, which is a nice quality, finally: you can easily get yourself out of a tight spot thanks to your mobility and casualness, in the best sense of the term. This group of houses corresponds to evolutionary characteristics of your personality. However, they are only indications and you must include them in the rest of your chart in order to see whether they are validated or not!

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, Michael Jordan: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your entourage respects your manner: you belong to the category of persons who arouse their close friends' consideration because of their straightforward, sometimes rigid attitude. The concern that you must "maintain your rank" may increase the severity of your judgments and lead to intransigence. You are sensitive to the prestige of your social standing and you show an acute sense of responsibilities since your youth. You become an adult early in life and you always avoid dependency. Your life's challenge is to learn to handle your intimate and family life as well as you manage your career. In the private sphere, you may undergo difficulties: you are a real loner and you turn down any help and affection offered by your entourage. You deny yourself the sweetness of a comfortable and reassuring home. However, as time goes by, you will overcome your reluctance and you will allow what you most value, deep down: love and tenderness to blossom within a privileged relationship, within a family...

You have obvious sociability qualities. You know better than others how to adjust to a new context and to copy your entourage's behaviour exactly. You do not dissociate yourself from groups or cells (social, family), on the contrary, you frequently adopt flexible attitudes that meet other people's expectations. This may translate into a lack of fighting spirit. You may not dare to go against prevailing fashions and currents. Because you dread unknown situations, you may miss the opportunity to innovate. It is important that you learn to go it alone and to get rid of scruples that hamper your doings: life encourages you to leave aside other people's opinions and, as time goes by, to find your autonomy of thought and action. While keeping your sociable nature, it is important that you develop a sense of individual initiative. In many situations, one can only rely on oneself. In such cases, you have the possibility to achieve the freedom many people dream of, without really giving themselves the means to implement it. Do not allow your entourage to dictate your way of life, over and over again. However, do not fall into the opposite excess: the frenzied individualism of those who value nothing except their own interest! Your life's purpose may be to master your destiny.

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You decidedly assert yourself as a person made of desires, love and the absolute. If this configuration is not well controlled enough, your thirst for timeless relationships may hamper simple, natural and obvious affairs. You may reject persons whose attitudes do not perfectly live up to your expectations. However, as you keep on looking for your muse, it is very likely that you will find the person to whom fate has relentlessly tied you.

You pay special attention to your familiar and intimate realm: an importance and a demand, too. You are in search of a setting into which you can totally merge. You do not appreciate half-measures in the family: you want the perfect osmosis or nothing at all! In the long run, this will melt your attitudes into your entourage's may become the cornerstone for a near-to ideal union. However, the danger is that you may shut out solicitations, inevitably disturbing, which are not from your clan.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 10th house: you give top priority to your social status and to the level of your "rank". You are very ambitious and you have every chance to achieve social and professional successes. You identify yourself with the part you are to play and with the expectations of your environment. Therefore, you can fully blossom through the adherence to the collective pattern that you are the first one to understand and that you personify. In other words, deep down, you are what your entourage admires and respects: you have a job that is "under the spotlight" and you fulfil your responsibilities as if you were in charge of a "mission".

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

Mars is retrograding in your chart: according to the Tradition, this suggests karma of aggressiveness. What does it exactly mean? You may not control your energy, at least during the first part of life. In your interactions with the world, you may not dare to give your reactions free rein. During your childhood, as for all bullied persons, your spontaneity was smothered. You tend to internalize, even to repress your desires. You chew things over and you fuel your resentments without taking any action... until they

explode! Then, your aggressiveness suddenly blows up in an excessive and out—of-proportion way. In itself, martial energy is positive: it allows coping with any given situation. However, the fighting spirit is a virtue only when impulses remain under control. You must endeavour to balance your quarrelsome tendencies and to respond to provocations without losing your self-control. Do you lack audacity? In that case, force your natural self, be more dynamic, otherwise you may undergo the same harmful outbursts again. It is the only way for you to feel better in your body and in the world!

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
