# Niall Horan's Astrological Portrait

## Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

## Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

## Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

## Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

### Your Four Quadrants

Niall Horan, the diurnal South-eastern quadrant, consisting of the 10th, 11th and 12th houses, prevails in your chart: assertion and goals achievement are at the centre of your concerns. You are very keen to implement your dreams and your plans. You achieve your ambitions as soon as possible, whether through an active social life, highly charged friendly relations, or an urge to take actions in order to reap - in the eyes of the world, of course - the rewards of your dynamism. It is likely that spirituality or humanitarian actions are part of your motivations, sometimes at the price of some degree of isolation.

## Your Dominant Modes and Elements

Niall Horan, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

### Your Four Elements

Cheers for communication and mobility, Niall Horan! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

Niall Horan, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

## Your Modes

Niall Horan, the Cardinal mode is dominant here and indicates a predisposition to action, and more exactly, to impulsion and to undertake: you are very keen to implement the plans you have in mind, to get things going and to create them. This is the most important aspect that inspires enthusiasm and adrenalin in you, without which you can grow weary rapidly. You are individualistic (maybe too much?) and assertive. You let others strengthen and improve the constructions which you built with fervour.

## Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Niall Horan, here is the evaluation diagramme for your planets:

## Your Dominant Planets

The three planets that are most highlighted in your chart are Mercury, Venus and the Sun.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

One of the dominant planets in your natal chart is the Sun. He symbolizes will, magnetism, sense of honour and dignity. You are a Solar being, and you often display charismatic and leadership qualities. Your warmth and your persuasive power lead you far away from pettiness. You enjoy thinking big and, consequently, you move forward according to what you decide.

Your Solarian weakness may be related to the sin of pride or to excessive authority. The frontier between pride and vanity is tenuous: be careful not to overstep it and to keep the nobleness of heart that is part of your charm.

### Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Libra, Leo and Virgo. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With Libra as a dominant sign in your natal chart, you love to please, to charm, and to be likeable. Moreover, you are naturally inclined towards tolerance and moderation, as well as elegance and tact, as if you were meant to please! Of course, you always find malcontents who criticize your lack of authenticity or of courage and your half-heartedness, but your aim is to be liked, and in this field, you are an unrivalled champion!

With Leo as a dominant sign, you naturally shine brightly. Your dignity, your sense of honour, and your generosity can almost turn you into a solar mythological hero, a knight or a lord from the ancient times. People may blame you for your selfishness, your pride or your somewhat loud authority, but if you are self-confident, kind-hearted and strong-willed, it surely makes up for your little flaws, as long as they remain moderate...

Virgo, associated with perfectionism, numbers and reason, is among your dominant signs: you inherit its sense of responsibility and tidiness, a clear mind, an unflinching logic, as well as a need to be useful and to fulfil your task to the best of your abilities. Obviously, people may think that you are too modest or reserved, suspicious or pessimistic because of your exceedingly critical mind, but aren't logic and wisdom great qualities? Of course, they are. Moreover, you keep your feet on the ground, you never behave irrationally and you are helpful and hardworking - what more can you ask for?!

## Your Dominant Houses

Houses 1, 11 and 12 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

The 11th house is among your dominant houses. Therefore, social life and friendships are very important, even strategic to you.

You think that group activities, whether in the humanitarian field or simple gatherings of friends, are endless sources of inspiration and of enjoyment, provided that there are no tense aspects in this sector. Everything human is important to you, often more important than your own success, unless your 10th house is also powerful.

The 12th house is emphasized in your chart: like the 8th house, it has a rich and complex meaning. Although its bad reputation is likely to scare most readers in the first place - it is indeed the house of hidden or isolated places, of solitude, of ordeals or enemies - it can also mean that a part of your life is very deep and intense. If your achievements are not visible in the public eye, you may fulfil yourself in a different but equally important way: you may be involved in secret activities, humanitarian causes, and projects in favour of disadvantaged people. You are likely to work in quiet and remote places. In many cases, you will gain from these hidden activities as many treasures as people who have a more public destiny. It may be because you sublimate your work, or only because you successfully carry out your task

within your environment. There is no such things as a good or a bad house, because each area of life is necessary in its own way, and we need all of them, if we are to improve spiritually.

## Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

## You were born under the sign of Virgo and your Ascendant is in Libra

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

Do you prefer to remain reserved, or to cheerfully rush to meet people? Your polite and charming smile is not to be trusted because your Virgo Sun strategically protects its autonomy, which is of utmost importance. As a nimble and sociable Air sign, Libra facilitates your search for nice and highly civilised relationships. Beneath your unmindful and pleasant outward appearance, you make every effort in order not to offend your interlocutors because you know that you very quickly pick up incompatibilities and flaws, and that this may hurt them. You carefully select your acquaintances, and you keep only the most trustworthy persons. Once they pass the test, people discover your true personality which is harsher, more critical, and deeper than what you seem to be at first glance. As an Earth sign, Virgo never loses sight of its down-to-earth interests. However, its refined sensuality and extremely selective tastes are

quite amazing. Owing to your Libra Ascendant, you are an aesthete and a diplomat, whereas your Virgo Sun endows you with perfectionism and mistrust. As a result, you constantly waver between these two tendencies. Under all circumstances, you project an angelic and inaccessible image...

### **You were born with the Sun in Virgo**

Psychologically speaking, your nature is nervous and secondary. Before you take action, you cautiously ponder over things and you review any possible alternative and reaction. You strive systematically to find the best possible response to any given problem. You are a perfectionist above all and you have no rest until you optimize a situation, in each and every area, be it professional, pragmatic, aesthetic or in pleasure. You do not accept spontaneity and, to fully enjoy life and go further, you consider that demanding the best is the least you can do, even though it is detrimental to the rough force associated with your instinct. The intellectual element intervenes before both the physical ones and your feelings: it is one of the essential clues to understanding your personality.

As you are born under this sign, you are cerebral, clear-sighted, focused on details and on numbers, analytic, serious, competent, reasonable, modest, tidy, organized, spruce, industrious, provident, honest, loyal, reserved, shy, helpful, willing to progress, talkative, perfectionist, logical, hardworking, tactful, patient, precise, concrete, spiritual. You can also be narrow-minded, calculating, irritating, petty, picky, hung up, anxious, cold, repressed or sarcastic.

In love, Sir, your inner self is different from what you seem to be: you are sensual and affectionate and you find it hard to show it because your nature is to be cautious, reserved and analytical. You think too much, which gives you a cold and distant look. However, it is a mask that you wear and take around with you. As soon as you feel in confidence, you become able to take off the mask and to reveal your true face. You are critical and perfectionist and you must be cautious enough to keep your comments to yourself, especially in this particular area.

In the fields of sex and affection, real confidence is an imperative pre-requisite. Otherwise, it is impossible for you to show your true self and to remove the mental screen that proves so efficient in other areas, but that is very burdensome and inhibiting in the private sphere.

When you manage to do so, you become a charming, sensual and endearing partner and you communicate easily thanks to Mercury who rules your sign.

You are loyal, organized, conformist, more suited for celibacy. But once you take your decision, you are quiet and tidy and you will bring up your children according to the best traditional principles.

Because Virgo is a dual sign, there may be two marriages, or there may be a love affair in parallel.

## Your Ascendant is in Libra

Psychologically speaking, your nature is sanguine and communicative or nervous and introverted, depending on who prevails, either Venus, the principle of harmony, extraversion, desire to seduce, easy and airy communication, or Saturn, the principle of rigour, introversion, self-control, concentration and meditation. Unless Saturn is very strong in the rest of the chart, Libra is very delicate and charming. She easily adjusts in society, particularly with her perpetual search of compromise. It is the reason why you may seem to be hesitant and weak. You do not dare to insist or to assert your views: you prefer to intervene as an agent for harmony, of rally and equity, even to the detriment of your self-assertion. You loathe violence and you strive with all your heart to pacify, to smooth things over, and to adjust to the situation with flexibility and grace.

Since you are born under this sign, you are sentimental, charming, courteous, delicate, refined, loyal, pacifist, fair, distinguished, light, romantic, cultured, airy, likeable, spruce, perfectionist, caring, gentle, quiet, tidy, social, artist, with strong aesthetic tastes, tolerant, lenient, sociable, seductive, elegant, kind, respectful, balanced, but you may also be hesitant, weak, wavering, selfish, fragile, indecisive, timid, indolent, cold or even insensitive.

In love, Sir, you cannot help but try to seduce wherever you go, and you succeed fairly well. You are a real heartbreaker and your natural gift borders on impertinence and injustice, from the outsider's point of view!

You are so likeable, easy to deal with, caring, smiling, diplomatic, you establish connections with such great ease, that you attract a majority of women, including those you are not interested in. It is not a game, it is your nature. Each and everyone believe to be the object and the target of your favours whereas, in fact, it is the way you behave with everybody.

You cannot stand solitude at all: you prefer to be ill-accompanied rather than to be alone. There is a danger that you remain attached to a person who does not suit you best. You are spoiled for choice. You should be able to find a suitable match and to reach the state of harmony that is the centre of your deep motivations.

You are a perfectionist, like Leos who are so demanding regarding the quality of their partners. Real life is seldom as beautiful as your ideal and you may be deceived and badly wounded if your couple should break down. But you will pursue the quest of your soul mate with all the natural qualities that are almost entirely dedicated to this search.

## The ruler of your chart is in Leo

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Niall Horan, is Venus. In the sign of Leo, it may endow you with authority and a certain inclination for prestige. Generous and noble, you loathe pettiness. You are not aware that you sometimes irritate the members of your entourage because of your excessive pride or your self-centredness.

## Aspects to your Ascendant

A planet forms an aspect with your Ascendant, Niall Horan. Therefore, in its specific way, it modifies your behaviour and your personality, which do not take on the pure characteristics of your Libra Ascendant only, but which are a blend of its characteristics with those of the said aspect.

★★★★★ Mercury conjunction Ascendant, orb 0° 32'

Your sense of communication and your intellectual process perfectly match your external appearance, Niall Horan. Thanks to Mercury, you are able to carry out your self-analysis very well and quickly, which gives a lot of spontaneity to your intellectual exchanges with other people.

## Your Sensitivity

You seek other people's attention and approval, Niall Horan, you need to exteriorize your emotions, to interpret them, and even to dramatically enact them because it is essential for you to shine at the front of the stage. You always try to achieve more and better than anyone else and, whatever the situation may be, you strive to remain warm, generous, loyal, honest, straightforward and courageous. You are always available when your assistance or your advice is needed and you are glad and proud to help. However, you must be wary not to overdo, as you may be domineering! You are not indispensable and people might think that you are self-centered and authoritarian when you handle things with no regard for your entourage's views. It would be regrettable that you project such an image because it may only reveal a lack of self-confidence and you are only trying to reassure yourself..

You are popular with your friends, Niall Horan. You easily shine, thanks to your sensitivity, your whimsical side, your mobility and your charm tinged with imagination. Even at work, you often win your clientele's favours, and if by chance, you are in a commercial team, you are chosen and sent ahead to deal with customers because you are so likeable!

You can happily express your emotions through shared projects - with your friends, preferably - in which you shine with selflessness and your childlike but endearing charm.

### ★★★★★ Moon conjunction Venus, orb 9'

The harmonious Moon-Venus aspect is an element of intimate balance that favours sensual and affective fulfilment. The search of well being includes all kinds of emotions and feelings. You love, you enjoy life in simple ways and you arouse your entourage's affection. The persons belonging to your inner circle are also objects of desire and pleasure. Tenderness and love are probably one and only thing: you are moved by the gestures of affection provided to you and by the daily acts which strengthen two persons' mutual attachment. Whereas other people dread routine, in your case on the contrary, it increases your amorous feelings. You loathe all kinds of violence, particularly in your intimate life. The danger of this planetary configuration may be your constant changes of mood: whims are often on the agenda... and your will is quite weak. One last point: this aspect is frequently found in the charts of people with an aesthetic or artistic sensitivity.

## Your Affectivity

In your chart, the Sun is in Virgo and Venus, in Leo. Your solar and Venusian signs agree as much as fire and water! The natural reserve of the Sun in Virgo reacts to the excited and burning character of Venus in Leo. The modesty of the former opposes the passion of the latter. This contradiction may be part of your richness but it does not facilitate the consistency of your attachments: when you love, when you give free rein to your desires and your affections, you are Leo... unyielding, passionate, demanding and extremist. You are conquering, too, even domineering. However, your Sun in Virgo does not feel too comfortable in this style. During your periods of defence and of withdrawal, love fever turns into a reasoned and organized retreat. Your behaviours may be paradoxical: you are sensitive to flatteries but you pretend to be indifferent. You are enthusiastic when your desire is aroused, but you project a more balanced, distant and discreet image. It is necessary that your partner feel the dormant volcano that is often hidden by your will to control. Without that will, you would lose all your landmarks. The adventure is wildly alluring, but you hesitate to play the game and to indulge in frenzy, absolute and destabilizing

infatuations. When the configuration is well integrated, it allows you to master various styles and to experience devouring passions... without being devoured!

You are so proud and generous, Niall Horan, that the power of your love contains in itself your vulnerability. However, this is precisely what makes you charming and original. You are loyal and straightforward and you need to love as much as you need to be loved. Both feelings are tightly linked and there is a real danger that love is broken up by trivial misunderstandings, just because your touchiness is affected. You are demonstrative, brilliant, and even dramatic, with a legendary generosity. For you, everything is, or must be, excessive: gestures of love towards your partner, your presents, your comfort and the luxury, which marks your outings and your travels. You are physically a lion, at least, you have its sexual appetite; you are voluptuous and passionate. Flexibility is the only thing that is out of your reach, in the ways you show your love, as well as in your responses to annoying events.

In general, your sociability is impressive, Niall Horan, and this powerful feature of your personality leads you to tread with ease between love and friendship, with your close entourage having some difficulties in discriminating, because you are so welcoming and charming. You are prone to obtain great satisfaction out of your friends and in most cases, you will be very naturally led to realize that your friendly relationship imperceptibly and gradually turns into a real love story! Besides, if by any chance your tie does not last forever, there is no doubt that you will be able to maintain a delightful rapport with your ex and, eventually, to get back to the ancient warm friendship which had served as the foundation of the idyll you had just experienced, with souvenirs as a bonus... Your affectivity is paradoxically both warm and unselfish because, like the astrological house that colours this part of your nature and the sign of Aquarius in analogy with the house, you are a refined and tolerant person, more focused on a large and collective vision rather than on a strictly personal approach in the romantic area. You are often granted protections for the projects you implement, particularly by your numerous feminine friendships. They deeply appreciate the cultured and refined side you exhibit at will and your inclination for your outings to the theatre, a concert, a conference etc. As far as feelings are concerned, your potential weaknesses may precisely stem from your detachment or from your lack of involvement, which, although they are natural for you, may offend or may shock some of your love relationships. They may criticize you for some sort of distance or a half-hearted attitude and they may want you to change the way you express yourself: in such moments, be more demonstrative so as to prevent any possible budding reproaches...

#### ★★★★★ Venus sextile Mars, orb 0° 51'

With this aspect, innate affective behaviours prevail over opportunisms and calculations. You do not cheat with feelings and you prefer to be guided by your likes ... or your dislikes. Love is neither to be reasoned upon nor to be explained. It is important to experience one's passions spontaneously and to give free rein to the heart's tumultuous manifestations as well as to the body's demands. In other words, to be one's true self in the "now". You need to live intensely, to try all kinds of situations, sometimes to get hurt. Your sensitivity is the driving force behind your decisions and your actions. Real experiences are worth the best intellectual concepts. Spurred by your thirst for emotions, you try to build your life on bases that match your desires. Here, the trap may be that you pay too much attention to your moods and affects. But without them, life would be so dull. Even though emotionalism betrays you occasionally, it remains your best ally.

#### ★★★☆☆ Venus opposite Saturn, orb -5° 16'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character

right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

★★★★★ Venus square Pluto, orb 3° 15'

Nothing is simple in love. You consider your love life with a distant and remote glance. You do not believe in obvious, transparent relationships. Love is a complex issue and its machinery is beyond you. To avoid delusions and indifference, the rules must be changed. Your feelings are alternately cruel and passionate, distant and burning, often paradoxical. Are you the executioner or the victim? Power struggles are omnipresent in your affective life. You seem unable to take life as it comes and to love without asking yourself questions, without doubting. You often love those who are indifferent towards you, while you despise those who love you. It is important that you change your attitude if you want a smooth and happy life. Rely on your forte: an indisputable lucidity that makes it impossible to delude your heart.

★★★★★ Venus sextile Jupiter, orb -2° 21'

Charm and seduction are your assets. This harmonious Venus-Jupiter aspect favours your affective fulfilment and your sentimental well being. You earn your entourage's sympathy thanks to your conciliating sensitivity, your desire to please and your behaviour in society. In many circumstances, you arouse esteem and consideration – essential values to you. You like social whirls, life in society, the aesthetics and the arts. You often tend to look for the easy way out in your business and your affective relationships. You are known as a complacent person. However, your amorous commitments may be quite superficial. It is important that, without breaking the spell, you opt for a more genuine attitude, respectful of your essential desires. As we all know it, love cannot be bought. An indication of balance: because you are aware that compromises are necessary for a love affair to endure, better than anyone else, you know how to maintain harmony in love.

★★★★★ Venus inconjunction Neptune, orb -1° 28'

You are very idealistic in love and you may be blind. In many circumstances, you deem your sentimental life heavenly and you lay yourself open to delusions. Love is a dream and waking up is often painful. Your imagination distorts the game of intimate situations. It is important that you keep your sense of reality and that you avoid to embark upon dark or muddled paths. Forget about artificial paradises! The Tradition very rightly insists on the tendency for impossible love affairs. Your demand and your thirst for the absolute may make you dread to experience a common life that is inevitably flawed with compromises and vagaries. The object of your affection is idealized « because it was her, because it was me » and you do not reckon objective elements that will resurface later in full force. With this planetary configuration, the danger is in the idealistic, even fanciful, nature of your affectivity. It is certain that love cannot be bought or reasoned. But how is it possible to live an absolute passion on a daily basis? You must control your heart impulses and, without losing the sentimental riches that are part of your charm, you must put what you love in harmony with what you dream of.

★★★★★ Sun semi-sextile Venus, orb 0° 34'

This aspect gives a strong concern about the image you project. You pay a lot of attention to the impression you make and to the charm you exude. You need to know that you can rely on your seduction capacity and earn the liking of your entourage. What people think is important to you and you try to meet your close friends' expectations. You certainly want to please them, but above all, you need their attention. You are seeking pleasure, esteem and affection. But ideals and desires make up a whole: you can be at your best only with those who naturally attract you and for whom you have an esteem that is independent from facts. Your feelings are a response to your quest of the absolute: the persons you find likeable are adopted. Other people are rejected irrevocably! Your character is very affective and it constitutes an asset in many circumstances. Your capacity to seduce, to gain support and to earn esteem is above average. The only danger may be that you abide by the current fashion and trend more than by your own motivations and by what is essential, for the sake of appearances.

★★★★★ Venus inconjunction Uranus, orb -1° 37'

Your sentimental life is adventurous: you prefer Bohemia to the comfort of a quiet but shaky love affair. You are a hard-liner and you think that love should be genuine or it should not be at all! You have difficulties in resisting your heart impulses and untimely passions that may challenge your affectivity. You need air, freedom and a relative independence. You also need to fully experience your love impulses, regardless of the price to be paid. The heart has its own reasons that no rules can hamper... The obvious danger may be to cause dramatic hurly-burly. Your inflexibility on the affective plane does not favour a quiet life where « one makes do with very little ». You are the all or nothing type. But does the absolute really belong to our world?

## The Way You Take Action and Your Sexuality

No one can say that you are particularly aggressive, Niall Horan! Actually, it takes a great deal for you to become able to express your anger because you belong to the wavering type and you are not prone to risk-taking; you loathe violence and you would rather not intervene than start a conflict. Moderation and the happy medium in all things are your favourites. One of the only areas that makes you wage war is injustice, whether you are the one who is stricken or whether it is someone who is helpless. In this particular field, as in that of sexuality, you are not impulsive and you appreciate it very much when your partner shows the way, preferably with much serenity and gentleness. Actually, the form and characteristics of your sexuality depend on the rest of your personality.

You are by nature an active person, Niall Horan. This is the only position that does not give a particular orientation towards any specific area of life. It is the most powerful placement and it indicates that your personality is precisely combative, conquering and action-oriented.

You are on the move, with the impetus which urges you, more than anyone else, to transcribe your thoughts and your projects into the real world.

The danger may be that you overdo and you turn into a warrior! This generous flow of energy is an invaluable asset that you use properly as you mature. The danger is also that you may come across as quarrelsome and too domineering to persons who may be scared by your punch and your pugnacity.

★★★★★ Mars conjunction Jupiter, orb 3° 12'

Coordinated action wins over almost all obstacles! You mobilize your energy and your fighting spirit advisedly and you take timely action. This is the reason why you are efficient in situations requiring courage, determination, swift responses and diplomacy, altogether. You do not fear confrontations but you never provoke them unnecessarily. You take advantage of your chances and you adjust your behaviour to concrete situations. You empirically handle events with relevance. The only danger is that you may be overzealous to seize any opportunity... even those that are not necessarily good in the long run. You should take the time to carefully consider the facts and their consequences. The swiftness of your reactions must remain an asset.

★★★★★ Mars square Neptune, orb -2° 2'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Mars square Uranus, orb -2° 28'

This Uranus-Mars dissonance indicates frequent commotions. Your actions may be foolhardy and thoughtless. You may not control your temper and you let impulsiveness take over logics. This brings about drastic, whimsical or untimely decisions. There is no monotony in your life: thunders and tyrannical behaviour are on the agenda! Your fighting spirit certainly allows you to cope with life hardships. Nevertheless, beware of damages. As one wants to act as a hero, one can make mistakes. Because forces are overestimated or because inflexibility forbids compromise solutions. Therefore, it is important to balance your decisions and to avoid solutions that are as final as inappropriate.

★★★★★ Mars trine Saturn, orb 4° 24'

Persistent action always bears fruit eventually. All that is needed is patience... A quality you have, undoubtedly. As confrontations become unavoidable, you show strong persistence and indisputable perseverance. Potential obstacles are more stimulating to you than they are discouraging. You are naturally fit for effort and for confronting realities and facts. You quickly overcome difficulties and you respond to crises in an efficient and considerate manner. You are enduring. You handle events with rigour and precision. These are valuable qualities nowadays, for they often come with the capacity to undertake adventurous experiences and to take limited risks!

★★★★★ Sun semi-sextile Mars, orb 0° 16'

This planetary Sun-Mars aspect reinforces courage, determination and energy. The need for action is obvious. Whatever your will designs is implemented with fieriness, despite all oppositions. You are decisive and wilful, even foolhardy. Your behaviour may be heroic: you know how to face adversity, to stand for your rights and your decisions, regardless of the confrontations you may have to cope with. The only danger may be that you overestimate your chances and your strength. But your audacity turns out to be rewarding, more often than not.

## Your Intellect and Your Communication Style

Your thought process is rather slow because you need time and tranquillity to review everyone's ideas and opinions, to weigh the pros and the cons and to eventually take the most equitable decision. You reject all fanatical and extremist behaviours and you are always in search of the happy medium. Your tolerance, your sense of logic and your negotiating skills are acknowledged but your indecisiveness and your propensity to procrastinate are often criticized. Therefore, you may need to be encouraged and to be nudged into action, in order to offset your fatalistic attitude that may be likened to laziness. Do not seek other people's approval so constantly, express yourself more and take action...

Your intellect and your communication abilities are not directed towards any particular field, Niall Horan: indeed, you are by nature curious, lively, mobile and you generally adjust remarkably well to your surroundings.

Your versatile personality prompts you to get interested in many things, and it is not exaggerated to say that your intellect and your flexibility constitute strong assets for your life. People around you may rightly or wrongly perceive a kind of shallowness because of your adaptability and skilfulness - sometimes too opportunistic - that are your strong points.

## Your Goals, Motivations, Career, and Destiny

### Your Sun is posited in the 12th House

Niall Horan, your desire for accomplishment goes through a quite peculiar and original form, in the sense that you cannot resist the appeal of mystery and of withdrawing from events and situations. Your natural inclinations often prompt you to isolate yourself and to keep your private secrets intact. Indeed, it is during such privileged moments, when you are alone, that you can recharge your batteries and eventually blossom up.

Somewhere in you, there is a propensity for introversion, quietness and even a kind of isolation, whether they stem from a natural taste or from force of habit. However, beware... you are more secretive and more enigmatic than you are solitary. The reason is because a more or less important part of you (depending on the rest of your chart) is hidden and inaccessible to others.

You are sociable but you appreciate discretion. You often show a real dedication towards people and your compassion is one of the original facets of your personality, which is difficult to figure out. Your individuality is finally forgotten, almost negated in some cases: you are not interested in personal glory, which is all to your credit. You thrive through dedication, volunteer work, humanitarian action and alleviating the distress around you, since you perceive the weight of injustice more acutely than others.

Here is the paradox you are entangled in: the more you keep your distance from society, the more you are successful, at least regarding the things that strengthen you and make you evolve. Working in secret or in a withdrawn environment suits you very well: you are favoured if you are a writer, a painter, a medical practitioner, a psychiatrist or even a monk. You may also work in a penitentiary institution etc., as well as in any occupation conducive to quietness and contemplation. It does not imply that you cannot achieve fame, but when you do, a hidden part of you must express itself in one of the above areas, for your own good.

The Tradition indicates that with this configuration, your evolution goes through ordeals or obstacles that lead to a crisis and to a period of solitude so that you are on your own and, may be, that you have the time to ponder over what is really important in your life journey that seems at first sight so absurd and crazy. Do not worry, there is no such thing as a better predisposition. Everyone has one's own path and yours goes through an unpretentious authenticity, secrecy and the regeneration of your whole being during a few periods of your life, faraway from social whirls and false relations that are time wasting.

Your accomplishment may turn you into the power behind the throne. It may also take you into hidden topics people do not talk about, the supernatural, occultism, great mysteries etc.

Your destiny contains a mysterious part that no one suspects: you are far from being as simple as people might think.

Although nothing appears externally, you know to which extent you are remote from the idea that the majority of people have of you. You are interested in situations that allow you to hide or to withdraw at some periods of your life; it is often due to a series of ordeals. But beyond your reaction of defence while facing events, you have a true inclination for mystery and secret.

You must overcome the periods of isolation or of ordeals because the reward is proportional to what you are entitled to expect: a more rapid moral and spiritual evolution, wisdom, and a blooming personality. Some people may choose small roads in the countryside to unfold their life. You choose highways to earn your salvation and you avoid the socialite and false delusions inherent to an ordinary life in society. More than anyone, you are favoured, you are prompted to overcome pitfalls and to never let pessimism discourage you.

### **The ruler of your chart is in the 11th House**

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 11th House, Niall Horan. This position often reinforces your sociability and your need for friendship, or sometimes when this is not the case, for all sorts of cooperation, whether social or political. You need to make friends, to share, and it often happens that your life with your friends or in society is much more fulfilling than your family life. You are granted - or you seek - reliable protection and support.

### **Aspects influencing your ambitions**

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Mercury square Midheaven, orb  $-0^{\circ} 19'$

You are not pleased with the way you intellectually approach your professional goals, or simply your destiny. Because of this mild dissonance between Mercury and your Midheaven, in some circumstances, your communication style is tainted with a few hesitations or clumsinesses. There is nothing serious to worry about, and it is up to you to gradually build self-confidence through the study and mastering of

your projects.

★★★★★ Sun trine Neptune, orb -2° 03'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★★ Sun trine Uranus, orb -2° 12'

This aspect reinforces the determination as well as the will to further your original, sometimes revolutionary, ideas and designs. Your capacity of innovation is important for your image. You have the soul of a leader. You display a forceful and synthesizing mind. You may tend to oversimplify or to schematize situations. In most cases, you know where you are heading to and how to reach your goals. Your determination is two-edged... not everybody will appreciate your contrasted standpoints. It is yes or no, black or white! This planetary configuration indicates certainties. When it comes to acting according to your inner motivations and to respecting your models, you can show an unusual willpower and sweep aside all obstacles lying on your path.

★★★★★ Sun sextile Pluto, orb 2° 41'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

★★★★★ Jupiter trine Saturn, orb 7° 37'

Jupiter and Saturn are favourably linked to each other in your natal chart. The Tradition indicates that this planetary aspect is a good omen for your social success and good integration in the society. Indeed, Jupiter stands for public life, respect for laws and hierarchy, and acceptance of established rules, whereas Saturn symbolises wisdom, time, seriousness, and perseverance. Therefore, it is only logical that with this Jupiter - Saturn configuration, your career, or your social destiny if you do not work, is well thought of by society, and that you are most likely to experience its happy outcomes sooner or later.

★★★★★ Saturn trine Midheaven, orb 8° 11'

Thanks to this soft aspect between Saturn and your Midheaven, your long-term efforts and your perseverance are rewarded, and you gradually climb up the stairs of success. Time is your ally as far as your career and social destiny are concerned. Carry on the good work, and rest assured that your seriousness and your obstinacy are appreciated. They are instrumental in your success, especially during the second part of your life.

## Your Assets and Your Part of Joviality

Niall Horan, seeking consensus and compromise, as well as moderation at any cost: these components are part of the natural qualities endowed by the position of the planet of Greater Fortune in your chart. It may also give you a very good taste and a charm that enhances the quality of your contacts, particularly regarding all your associations, professional ones as well as the most intimate ones, such as marriage.

Niall Horan, Nature gives you a nudge in the right direction and endows you with enthusiasm and generosity, contributing to your charm and dynamism. You are attractive, and you hold sway over groups. Your physical appearance is that of a jovial and charismatic person.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Libra endows you with sociability, popularity and charm! You are very appreciated because your open-mindedness and your generosity naturally prompt you to compromise in all things: what is important to you is not to have the last word, but to reach an agreement with your entourage and to establish nice relationships with them. You are diplomatic and your sense of justice is expressed in a humanistic and benevolent way.

## Your Serious Side

Solemnity and concentration are at the service of your projects and your altruistic ideals. To the detriment of your own individuality, you become demanding with time, and you learn to better define the human values that are really important to you. Struggling in order to better assert your individual qualities can be highly profitable.

Because you are very serious and solemn, the realm of feelings, parties, leisure and childhood, as well as topics related to trivial and charming things, are unknown to you, Niall Horan. Profundity and wisdom are invaluable qualities in many life areas. However, in the fields of entertainments and pleasures, it is undoubtedly necessary to let animality and spontaneity be freely expressed.

Your challenge is to sometimes forget your cautiousness, your intellect, and your wisdom. It seems unimportant, but it is your whole approach to life that is to be reviewed and... altered. Keep what is already yours – deep feelings, loyalty, sense of responsibilities – but relax totally. The only possible danger is to garner moments of pleasure. And they are indispensable!

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why

the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Aquarius endows you with the capacity to deliver in collective areas, humanitarian causes or avant-gardist projects. Your sensitivity is withdrawn but it is offset by your ability to handle human relationships in a daring and efficient way, which allows you to achieve your goals for the sake of a cause.

## **A Few Special Points**

### **Your Uniqueness and Your Utopias**

As a general rule, at the end of your childhood, you quickly leave your parents' home because your thirst for independence is incompatible with a quiet life with your parents; in other cases, the atmosphere in your family is quite extravagant, even chaotic, and it is difficult for you to become stabilized, to feel secure, even though you need it for your balance. You are craving for it and this is what prompts you to leave your roots, sooner or later.

You are prone to unexpected home moves. Paradoxically enough, it seems that, as soon as you achieve stability, something makes you itch. You may be too sensitive, and when tense situations emerge, you feel an irresistible need for change. The best way to handle these problems may be that you, yourself, organize your instability at home, for instance through extensive outings or trips. In any case, you should manage to create the impression that you are not in the same place for too long.

The stages of your life unfold without continuity as if there was a rupture between each successive environment created as time goes by. The past disappears quite abruptly and allows you to grow faster. It is up to you to find some stability or some security elsewhere!

### **Your Inspiration and Your Illusions**

Your vision of your childhood home, or of your father, is quite vague, but your emotions in these areas are intense. There is a vital need for you to feel comfortable at home because, otherwise, you tend to imagine horrors that exist only in your mind!

You may encounter complications, lack of understanding, or mystery regarding your origins or your real estate. In any case, it is hard for you to discern when you are "at home" and, even when all is well, you tend to idealize your household.

### **Your Passion and Your Authority**

This configuration may equally indicate an extreme greed for material gains or, on the contrary, a complete lack of interest in them. Your relationship to money may be secretive and obsessive.

You may earn huge amounts of money, with stubbornness and harshness, in a concealed but actual way, or in the darkness of risky speculations; in all cases, your attitude towards your earnings is... passionate,

although you do not acknowledge it. The danger is that you may lose a lot. However, it is only when one is prepared to lose that one has a chance to gain a lot, and you certainly know it.

On a more symbolical plane, your sensuality and your possessiveness may be particularly strong. It is advisable that you step back, in order to become able to retain only the best of this configuration.

## Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

### In your natal chart, Mercury is unaspected

Mercury is seldom unaspected in a chart since he is never very far from the Sun and Venus.

Mercury's first characteristic is his mobility. Whether he gets his features from airy Gemini or earthy Virgo, in both cases, he is by nature quick, unstable, vivacious, and changeful. It is easy to understand that when he is unaspected, the intellectualism, the nervousness, and the dispersion that he brings about may blow up out of proportion. Even though the person is sometimes able to achieve short-lived amazing intellectual feats or verbal and written exploits, he has trouble finding stability and constructing on a long-term basis. He can display a wide range of features, from the undeniable charm of a versatile journalist and the talent of a TV presenter to the carelessness of the chronically absent-minded man.

Having said this, mobility is often an asset which enables to land on one's feet in all circumstances, and

it does not restrain intellectual excellence. Mahatma Gandhi, whose destiny was exceptional as we all know, had unaspected Mercury in Scorpio in the 1st House.

## Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

### Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Niall Horan, the ten main planets are distributed as follows:

### Your Northern and Southern Hemispheres

Niall Horan, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Niall Horan, here is the planetary repartition in your Eastern and your Western hemispheres:

### Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, Niall Horan, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

### Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

## Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Niall Horan: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

### Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

## Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Niall

Horan: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive man. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

### Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

### Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, Niall Horan: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

## Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

### The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

The Lunar Nodes highlight all types of discoveries and explorations. There is a strong desire for travels, whether actual trips or spiritual, inner ones. Since your childhood, you are particularly interested in unlimited spaces and total freedom. You never trusted smothering attachments and you always allow your thoughts and actions a free hand. The danger is that your life may be unstable because you so badly need to evolve and to discover... Life is an eternal quest of something else, some vital but hidden dimension that is beyond you. Therefore, it is difficult for you to blossom when your family or work environment is routine. However, it is important that you control your wild tendency (the other side of the coin of the wonderful freedom of thought): life requires more sociability. It does not mean that you must accept a conformism that is too far from your inner aspirations. More than other people, you need to develop your relations, your exchanges and your dialogues. In this regard, your destiny is marked by communication.

### Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your

life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

Your refusals are irrevocable: you may show violence when the situation is stuck... When facts hamper your aspirations, when everything does not seem to start moving soon, you tend to force your ways through events, regardless of the price to be paid. Your strengths and your weaknesses stem from all that: you may exercise a misplaced extremism, claiming great causes, whereas order can be restored in the simplest of ways. However, better than anyone else, you know how to maintain the pressure whenever it is needed, when the desire for deep changes takes precedence over submission or abdication.

You decidedly assert yourself as a person made of desires, love and the absolute. If this configuration is not well controlled enough, your thirst for timeless relationships may hamper simple, natural and obvious affairs. You may reject persons whose attitudes do not perfectly live up to your expectations. However, as you keep on looking for your muse, it is very likely that you will find the person to whom fate has relentlessly tied you.

### **The Part of Fortune in House**

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 11th house: anything that has a human nature catches your attention. Friends, ideals, great humanitarian causes... You have original ideas for the betterment of the world. You do not consider the Tradition – or Traditions – to be immutable and ossified. It is important that you work on a reform or an overhaul of existing institutions: although you do not turn into a revolutionary, you are sensitized to society or educational projects. With the help of your entourage, and because, better than anyone else, you can earn the consideration of your close friends, you will slowly transform your familiar surroundings... since you cannot change the world!

### **Retrograde Planets**

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep, it is nonetheless safe.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

**N.B:** modern astrology attaches less and less importance to the principles of retrograding planets.

## Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
