# Oprah Winfrey's Astrological Portrait

## Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

# Your Planets, Houses, Aspects, and Natal Chart

## Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

## Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

## Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

### Your Four Quadrants

Oprah Winfrey, the nocturnal North-eastern quadrant, consisting of the 1st, 2nd and 3rd houses, prevails in your chart: this sector favours self-assertion and material security to the detriment of your perception of others. You consider self-transformation to be a hazardous adventure. You are inclined to seek stability and you tend to protect yourself with your actions. Possession, acquisition but also communication, without opening up too much, are part of your deep motivations. You are rather autonomous and constant, however it is important that you pay more attention to others, so that you can improve your outcomes.

## Your Dominant Modes and Elements

Oprah Winfrey, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

### Your Four Elements

Cheers for communication and mobility, Oprah Winfrey! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

Oprah Winfrey, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

Earth qualities are under-represented in your chart, with only 0.00% instead of the average 25%. Deficiency in Earth may indicate that you have no interest in material and concrete values. It is likely that you live too much in your heart or in your mind, or even in your enthusiasm! The fact remains that you may end up in tricky situations, due to your lack of good sense or forethought: material life is unavoidable even if you are rather idealistic, dreamy, or easily content. You must tackle concrete life necessities, for fear of... being forced to cope with them, later, in much more unpleasant ways!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

## Your Modes

The Fixed mode corresponds to a majority of elements in your chart, Oprah Winfrey, and represents the desire for security and durability: you are able to concretely appreciate a situation and its stability. You definitely prefer to play the role of a loyal, obstinate and hard-working person, rather than to try new and risky experiences - beware, however, not to confuse obstinacy with intransigence. You structure, cement, and strengthen everything you find on your way: it is your nature, although you are not especially interested in swiftness: slow and steady...

## Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Oprah Winfrey, here is the evaluation diagramme for your planets:

## Your Dominant Planets

The three planets that are most highlighted in your chart are Venus, Jupiter and Neptune.

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

Jupiter, the planet of expansion, organization, power and benevolence, is quite emphasized in your chart. Like any Jupiterian, you are warm, open, sociable, consensual, active and optimistic. You can use your self-confidence to erase differences of opinion, and you leave the task of analyzing and perfecting things to specialists. Your role, and you know it since you were young, is to gather, to demonstrate your synthesizing and conciliatory mind, and to naturally reap its fruits - power.

You appreciate legality, social order but also order in general. With you as a leader, every plan or human entity can be organized and structured. You excel at supervising. The Jupiterian type is indeed the politician par excellence, and a positive Jupiter in your chart is synonymous with good integration into society, whatever the chosen path.

Is this idyllic picture really perfect? Certainly not: each planet's typology has its own weaknesses. One of yours is pride, like the Solarian, but your will of expansion at all costs may generate a form of exaggeration in everything, endless pleasure, inappropriate self-confidence that could lead you to rough materialism and the thirst for absurd material comfort - in the worst cases, of course.

With Neptune as one of your three dominant planets, you are a secretive and ambiguous person, often confused or unclear about your own motivations! Indeed, you are endowed with unlimited imagination

and inspiration, as well as with an extreme sensibility that may turn you into a psychic or a clairvoyant. On the other hand, your impressionability is such that you may have difficulties in separating what is concrete and solid from illusions or dreams.

A mystic, a visionary or a poetess, you daydream, like any Neptunian, and you see what few people only can see, all of this being shrouded in aesthetic mists when you are fired with enthusiasm.

A boundless, infinity-loving woman like you is inevitably likely to be more vulnerable and easily hurt because of your acute perception of events. In such cases, you are hit full in the face, and you may sink into gloomy daydreamings and dark melancholy.

That said, this mysterious aura definitely gives you an indefinable charm in the eyes of your close friends who are often fascinated by your unique ability to feel and to see what ordinary people can never see!

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Aquarius, Sagittarius and Libra. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Aquarius is one of the most important signs in your natal chart: it endows your personality - at least one of its facets - with originality, to the point of eccentricity in spite of a sometimes distant and humane side. Likeable and impassive at the same time, you are a paradoxical woman, very hard to define because the two planets Uranus and Saturn blend their qualities to create the so complicated and endearing sign that inspires your character. Saturn's seriousness and impassivity is added to Uranus' rebellion, talent, individualism, charisma, extravagance, and unpredictability! One of your main characteristics is that you never open up on a personal basis, but you tend to do so easily in public. You are actually quite strange. Sexy and charming in public, despite your nice and sociable character, you could frustrate many of your admirers in private because of your impossibility to show deep and warm affection, emotions, tears... But appearance and reality are two different things anyway - you are a kind of a genius, or you have at least a tremendous charm with this sign. You have many friends and an active social life. If you are detached in

your love life - only in this aspect, since the rest of chart will confirm it or not - this is no big deal!

Sagittarius, an adventurous and conquering fire sign, is dominant in your chart: you are enthusiastic, enterprising, optimistic, very sociable, and mobile - you have itchy feet both physically and mentally. Nobody gets bored with you because you are always planning things and suggesting excursions, at least... when you are around and not already gone on a trip! Obviously, so many movements for one woman may scare people off, and some of them may even criticize your brutality or your tendency to loose your temper, but you are so warm and genuine, so expansive, isn't this a good thing? And all the more so, since your sense of humour is overwhelming...

With Libra as a dominant sign in your birth chart, you love to please, to charm, and to be likeable. Moreover, you are naturally inclined towards tolerance and moderation, as well as elegance and tact, as if you were meant to please! Of course, you always find malcontents who criticize your lack of authenticity or of courage and your half-heartedness, but your aim is to be liked, and in this field, you are an unrivalled champion!

Houses 2, 11 and 10 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

The 2nd house is among your three most tenanted houses: life's material aspects - with everything that is implied in terms of security, appetite for life, desire for possession - are deep-seated and you can never be content with living on love and fresh air. On a more abstract level, you may have similar feelings regarding relationships: possessiveness and jealousy in the worst cases, but also faithfulness and durability.

The 11th house is among your dominant houses. Therefore, social life and/or friendships are very important, even strategic to you.

You think that group activities, whether in the humanitarian field or simple gatherings of friends, are endless sources of inspiration and of enjoyment, provided that there are no tensed aspects in this sector.

Everything human is important to you, often more important than your own success, unless your 10th house is also powerful.

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

## Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

## You were born under the sign of Aquarius and your Ascendant is in Sagittarius

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

You are original and open to anything different from you and your world. You seem to shirk your real life and to pursue your unquenchable thirst for newness and exoticism. Your Sun sign and your Ascendant sign are very similar in their Promethean optimism and their audacity, as well as their fickleness and their proselytism. Owing to your Aquarius Sun, you are prone to violent mood swings, but paradoxically enough, you steadfastly keep your hopes up, you obstinately believe in your projects, and you see only the best part in people. However, this nice picture may conceal some sort of mental rigidity and a real lack of realism. On the contrary, owing to your Sagittarius Ascendant, your behaviour seems more flexible, tolerant, and curious when you are in unfamiliar settings. In the best cases, your catching warmth and your sociability arouse sympathy, and in the worst cases, your casualness and your

rose-coloured vision are quite irritating.

### **You were born with the Sun in Aquarius**

In the sentimental sphere, you are particularly sensitive to the values of friendship, in the sense that you see yourself as a link within a chain, certainly a different and original one, but with no will to flatter your ego or to individually assert yourself. On the contrary, your aim is to immerge yourself in your friendly relations and to participate in projects and ideals of the whole human community.

As you are born under this sign, you are idealistic, altruistic, detached, independent, original, surprising, gifted, contradictory, innovative, humanistic, likeable, friendly, self-confident, impassive, quiet, intuitive, creative, charitable, elusive, disconcerting, generous, tolerant, paradoxical, and you cannot stand any kind of constraint. But you may also be marginal, resigned, distant, utopian, maladjusted, eccentric and cold.

In love, Madam, you are the inquiring sign of the Zodiac. You are cerebral and lively, always on the look-out for novelty or for anything amazing.

You are often more in love with love than you are in love with your partner. You are surprising and unpredictable, now passionate and using your imaginative and mental powers to idealize your relationship and your partner, now cold, suddenly detached and impersonal because you are annoyed by subtle elements that you, and only you, can understand.

You do not stand disappointment and you display great cleverness when you want to suddenly break up when your partner least expects you to do so.

In order to be able to charm you, one must be exceptional, amazing, disconcerting and one must accept to grant you total freedom and independence. Under those conditions only, will you be able to have a long-lasting, stable yet eventful, surprising and harmonious relationship with your chosen partner. Once trust and confidence settle in, you will be fulfilled and you will be hardly recognizable.

The life span of your couple depends mainly on your common tastes: ideally, you should live with a man who actually is your friend and your lover, continuously shifting from one role to the other according to circumstances, and who, at the same time, provides you with a much needed mental stimulation, as well as with warm love.

### **Your Ascendant is in Sagittarius**

Psychologically speaking, your nature is extroverted and independent, oriented towards expansion and sociability. You have the soul of a leader, energetic and active. Your charisma and your drive are fully integrated into the collective life. Indeed, as an action-oriented fire sign, you challenge yourself and you succeed in accomplishing the task straight away. Sagittarius is hard to follow because his spirit and his independent mind constantly prompt him to go further and higher.

As you are born under this sign, you are charismatic, fiery, energetic, likeable, benevolent, tidy, jovial, optimistic, extroverted, amusing, straightforward, demonstrative, charming, independent, adventurous, straightforward, bold, exuberant, freedom-loving. But you may also be irascible, selfish, authoritarian, inconsistent, unfaithful, brutal, unreliable, reckless, tactless or unpleasant.

In love, Madam, you are a whirlwind made of life and warmth. You are mobile, cheerful, extroverted, always feeling comfortable and dynamic, a freedom-lover who appreciates variety. Had you not been so sane and so benevolent, you would have been mistaken for an Amazon of the mythological era.

You are pleasant to deal with, as long as your partner accepts your desire to constantly move. You are not fussy, you are lively, with numerous centres of interest. You often take the initiative in your amorous encounters that are likely to take place during your holidays or business trips. With you, no tragedies, no complication no questioning! You fully enjoy the present moment when you are around, unless you are already in your plane, flying towards new adventures...

Once you calm down, you will be a wonderful wife and mother. You will set up a home and start a family where your husband and your children will move with you as often as possible during school holidays. You may also move into a different city or a different country, because of professional changes.

Because Sagittarius is a dual sign, it may happen that you marry more than once, if your needs for freedom and mobility, which are so important to you, are not fully met.

### **The ruler of your chart is in Gemini**

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Oprah Winfrey, is Jupiter. In the sign of Gemini, it endows you with flexibility and the capacity to undertake several things simultaneously, sometimes at the risk of spreading yourself too thin and getting discouraged. Your innate communication skills match your insatiable curiosity for people and for things.

### **Aspects to your Ascendant**

Several planets form an aspect with your Ascendant, Oprah Winfrey. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Sagittarius Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Pluto trine Ascendant, orb 5° 32'

Pluto, the planet of instinct and secret, is in soft aspect with your Ascendant, Oprah Winfrey. It endows you with exceptional lucidity, which enables you to behave in society in an appropriate, though slightly scathing and domineering way. You exploit your nose and your magnetism, and you do so very successfully!

★★★★★ Neptune sextile Ascendant, orb 3° 37'

Neptune in soft aspect with your Ascendant endows you with a sharp intuition which enables you to instinctively adopt the behaviour which your entourage appreciates, Oprah Winfrey. You have the natural flair which prevents you from making errors of judgment on people. You understand the crowd, and you have the good reflexes for being well-accepted by all.

## Your Sensitivity

Your nature is optimistic and emotional, Oprah Winfrey, and you are caught up in two incompatible longings: you are fond of exoticism and independence of movement, but at the same time, you feel comfortable in a form of middle-class attitude and conformism; in general, it translates into a succession of moods, now quiet and well adapted to the situations you experience, now marked by an irresistible desire for change and revival. You have a good and naïve nature, with a lot of self-confidence. Your emotionalism prompts you to live intensely a variety of numerous emotional experiences, a bit scattered, but with all the stimulations you need to be a balanced person. Your pleasant and welcoming attitude wins you some degree of popularity, all the more so because, despite your thirst for adventures that may scare away some people, you adjust to your environment's customs so easily.

You are popular with your friends, Oprah Winfrey. You easily shine, thanks to your sensitivity, your whimsical side, your mobility and your charm tinged with imagination. Even at work, you often win your clientele's favours, and if by chance, you are in a commercial team, you are chosen and sent ahead to deal with customers because you are so likeable!

You can happily express your emotions through shared projects - with your friends, preferably - in which you shine with selflessness and your childlike but endearing charm.

### ★★★★★ Moon sextile Venus, orb 4° 19'

The harmonious Moon-Venus aspect is an element of intimate balance that favours sensual and affective fulfilment. The search of well being includes all kinds of emotions and feelings. You love, you enjoy life in simple ways and you arouse your entourage's affection. The persons belonging to your inner circle are also objects of desire and pleasure. Tenderness and love are probably one and only thing: you are moved by the gestures of affection provided to you and by the daily acts, which strengthen two persons' mutual attachment. Whereas other people dread routine, in your case on the contrary, it increases your amorous feelings. You loathe all kinds of violence, particularly in your intimate life. The danger of this planetary configuration may be your constant changes of mood: whims are often on the agenda... and your will is quite weak. One last point: this aspect is frequently found in the charts of people with an aesthetic or artistic sensitivity.

### ★☆☆☆☆ Moon sesqui-quadrate Uranus, orb -0° 46'

The Moon and Uranus intrinsically share little in common: they get along as well as fire and water! It is difficult for you to reconcile your desire for well being and intimacy with your destiny's dazzling passions and thunderbolts. You may feel that your intimate and family realm hampers your freedom. There is a potential for crises, explosions or splits. The desire for independence does not get on well with security concerns. There may be strong temptations endangering your very life foundations and you may embark upon a liberating and personal adventure. However, you fear rash decisions. Your need for security may temper your impulses and put a brake on your individualistic aspirations. To harmonize these tendencies within your intimate life, you must leave yourself enough room for personal expression or for an activity of your own. Otherwise, as days go by, built-up tensions may jeopardize the quiet course of your life.

### ★★★★★ Sun sextile Moon, orb 4° 27'

This aspect is a strong homogeneity factor: the image you project is in conformity with your real nature and does not upset your basic balance. This is probably the cause of your feeling at ease, your consistent behaviour and your determination to remain your true self, regardless of external pressures and whatever is expected from you. At best, your will and your sensitivity are in harmony, your unconscious abilities

are mobilized and controlled by your conscious will, with no imbalance. However, it is important to avoid the traps of self-satisfaction that would be harmful to your real exchanges and would lock you up in comfortable and rigid schemes. It is possible to remain natural and yet, not be content with the sole well being of those who never cheat themselves.

## Your Affectivity

In your chart, the Sun and Venus are both in Aquarius. The nature of your affectivity is most unusual and off the beaten path. You are an idealist to your fingertips and you dream of a sentimental life that is renewed each day with excitement and amazement... It may be necessary that you restrain your heart impulses and that you get back to a cold and inflexible reality. Under any circumstance, you find reasons to hope for a blissful future, to magnify and to idealize your relationship. Being in love with you is not exactly restful, since you need to esteem and to admire your partner. You display an unlimited generosity but you may also be intransigent when you start losing your illusions. Your affectivity is demanding and cannot be satisfied with approximations. Your strength lies in your ability to be moved and amazed by your partner. You do not see his flaws, you do not listen to the criticisms he may be the target of and you allow yourself to be intoxicated by your passion. Later on, the idyll transforms into friendship and the amorous relationship, into fraternity. But the magic of the first moments never fades away, because love is yet to come.

In love, you are more cerebral and friendly than really passionate, Oprah Winfrey. You are made for amorous friendships, for refined and light feelings where each partner retains one's freedom, and almost detachment, without getting really committed. Sometimes, you may be distant from, and indifferent to, love matters for a while, because you can be completely engrossed in original intellectual pursuits and the collective atmosphere which you are so fond of. You substitute a great number of friendly and light contacts to amorous relationships and it is fair to say that they satisfy you. To fall in love, you need spice and a partner who is original, who amazes you and whom you admire; under such conditions, you can freely express your feelings in an ambiance devoid of constraint, where freedom is perfectly respected and shared within the couple.

Oprah Winfrey, you usually make connections between the possessive aspect of things and your feelings, which are expressed slowly but will grow deeper and steadier as soon as you become attached. Therefore, you need to trust the person you set your heart on and to feel that, somehow, he belongs to you. As a matter of rule, feelings and material well being go hand in hand, and the material conditions in which you experience your love affair are important to you: you cannot live on love and fresh air, a cosy and opulent-looking nest or a quite fancy environment are almost indispensable conditions for you to freely express your feelings. This doesn't mean you are self-interested, you actually have great qualities, such as generosity and compassion. However, you have difficulties in separating the pleasant and material aspect of things from the well being of your couple. Your needs for emotional security are important and you will see to it that you get it at any cost, should you need it.

★★★★★ Sun conjunction Venus, orb 0° 08'

This aspect gives a strong concern about the image you project. You pay a lot of attention to the impression you make and to the charm you exude. You need to know that you can rely on your seductive capacity and earn the liking of your entourage. What people think is important to you and you try to meet your close friends' expectations. You certainly want to please them, but above all, you need their

attention. You are seeking pleasure, esteem and affection. But ideals and desires make up a whole: you can be at your best only with those who naturally attract you and for whom you have an esteem that is independent from facts. Your feelings are a response to your quest of the absolute: the persons you find likeable are adopted. Other people are rejected irrevocably! Your character is very affective and it constitutes an asset in many circumstances. Your capacity to seduce, to gain support and to earn esteem is above average. The only danger may be that you abide by the current fashion and trend more than by your own motivations and by what is essential, for the sake of appearances.

★★★★★ Venus square Saturn, orb -0° 11'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

★★★★★ Venus trine Jupiter, orb 7° 48'

Charm and seduction are your assets. This harmonious Venus-Jupiter aspect favours your affective fulfilment and your sentimental well being. You earn your entourage's sympathy thanks to your conciliating sensitivity, your desire to please and your behaviour in society. In many circumstances, you arouse esteem and consideration – essential values to you. You like social whirls, life in society, the aesthetics and the arts. You often tend to look for the easy way out in your business and your affective relationships. You are known as a complacent person. However, your amorous commitments may be quite superficial. It is important that, without breaking the spell, you opt for a more genuine attitude, respectful of your essential desires. As we all know it, love cannot be bought. An indication of balance: because you are aware that compromises are necessary for a love affair to endure, better than anyone else, you know how to maintain harmony in love.

★★★★★ Mercury conjunction Venus, orb 10° 18'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitize to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

## The Way You Take Action and Your Sexuality

Your iron will is part of your assets, Oprah Winfrey. It is supported by an ingenuity and a skilfulness that may turn you into a mighty and feared personality. You have the knack of spotting weaknesses in persons you deal with and you can easily hurt them with your innate propensity to drill or to test their force. You are extremely stubborn and you never let go when you are convinced that you are right. Sexually, you are potent and passionate. You are domineering and secretive, with a magnetic personality. It is safer to avoid being taken in a conflict with you because you may be very aggressive and you bear grudges. In some cases, you may also be sadistic. Your personality is as secretive as it is domineering in the areas of action and sexuality.

It is in the area of friendship and collective life (common projects, associations, etc.) that you express your impulsivity, your warmth, and your capacity for action, Oprah Winfrey.

You are cut-and-dried and your motto is "either succeed or die". In case of success, it is your responsibility to make the relationship last because you are not the submissive type and you hardly compromise. You put a lot of passion in your friendly relationships. You are not interested in lukewarm or insipid acquaintances. Things must be moving, even though it may mean that the relationship is cut short.

In any case, you enjoy participating actively within a community and, whenever possible, you take the leadership role, in your own way. As soon as you are more or less under the public eye, you become enterprising. When you are on your own, you do not feel the need to use your energy.

### ★★★★★ Mars square Pluto, orb -0° 34'

There is a limit to your respect for laws and norms! Morals, conventions, social marks are of little value to you. With a touch of anarchy in the soul, you disregard conventions and you experience a sort of personal revolution. You prefer unconventional actions to dull conformism. To express your differences, you use a wide scope of possibilities that ranges from brewing revolt to ideological renunciation. Sometimes, you dismiss concrete facts that are nevertheless unavoidable. Hence, you undergo delusions and backlashes. You may also act rashly, to the detriment of your ideals. It is important that you control your actions and that you balance the respect for constraints with your personal demands and inner motivations.

### ★★★★★ Mars trine Uranus, orb 3° 15'

This harmonious Mars-Uranus aspect indicates an unshakable determination and the will to further your ideas through drastic, sudden, sometimes dramatic actions. You bend the string of your bow before taking action and you hit at the right time. The secret of your feats? An excellent command of your blitz actions. You concoct your plans in the dark, and then you move to an efficient and quick execution step that is often dazzling. You do not have the temperament of a loser. When you face an ordeal, you focus your entire energy and will on your unique aim: victory over any obstacle. This planetary configuration may lead to dangerous, even heroic actions. The danger is that you may over-estimate your strength or your chances for success.

## Your Intellect and Your Communication Style

You are a “free-thinker”, Oprah Winfrey, and you tackle problems with a swift and efficient mind. Freedom, progress and originality are your driving forces. You are resolutely future-oriented and with ingenuity and inventiveness, you reform what is outgrown and you constantly innovate: psychology, computer sciences, new technologies... have almost no secret for you. Your human and idealist qualities are obvious, you are a very pleasant and interesting interlocutor, even though your rebellious and revolutionary side may be criticized. Indeed, you seem to be driven by a strong argumentativeness: you seldom share your friends' views and, although you may come across as obstinate, intransigent and unpleasant, you do not hesitate to speak the truth! Instead of causing sudden break-ups with your friends, it is advisable that you express your creative potential more persistently whenever your nervous tension is too high.

You have your feet on the ground and a particularly well-developed practical good sense, Oprah Winfrey. With you, no excessive emotions or fuzzy, abstract thoughts: you know where you are heading to, and your sharp and clear intellect usually enables you to efficiently manage your personal affairs.

You may be stubborn and concerned about your earnings and your success, particularly in the financial area, where your intellectual abilities are remarkably exploited. You manage to get out of a tight spot thanks to your logical mind and clear vision.

### ★★★★★ Mercury trine Jupiter, orb -2° 3'

You display strong abilities for adaptation, social insertion and various learning capacities. You are credited with an acute sense of relations, probably because you can speak other people's language. You easily assimilate the most varied settings and your qualities are acknowledged. Your attitude and the words you use have the power to seduce and to convince your entourage. Diplomacy is an asset in your game. You are fit for negotiation and you seek compromise solutions. The only danger may be that sometimes, you too readily accept agreements that turn out to be less positive than foreseen, after a while. This is the other side of the coin for your exceptional flexibility and your unquestionable tact.

### ★★★★★ Mercury opposite Pluto, orb -4° 59'

Forget simplicity! You definitely enjoy acting behind the scenes and dealing with what is going on underneath. You play games and you operate in the dark. You leave the front of the stage to others and to the gullible ones. You don't display much sociability. When you are nice, it is because you are looking for flaws. This Mercury-Pluto dissonance mingles unconscious fantasies with reality. When it is kept under control, this aspect becomes an unparalleled source of discernment. To that aim, you must overcome your strong tendency for provocations. It is certainly amusing to play destabilizing games but it may also be dangerous. Keep this treatment for your opponents only.

### ★★★★★ Mercury square Mars, orb -4° 25'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

★★★★★ Mercury inconjunction Uranus, orb 1° 09'

You are the champion for useless intellectual speculations, for crazy and revolutionary ideas. This Mercury-Uranus dissonance is the signature for an eccentric character, more ready to ridicule generally accepted ideas than to build up stable patterns. Your sense of humour reveals a critical and forceful mind. You can stand for an idea in the face of all opposition but you do not hesitate to support the opposite thesis the day after... with the same conviction. The coherence of your points of view is harmed by these spectacular reversals that constitute your speciality. In the relationship area, you may also provoke dramatic turns of events if your ideas are conflicted. The good news is that it seems difficult to convince you to accept points of view running counter to your principles. Intransigence also has its virtues.

★★★★★ Mercury trine Neptune, orb -6° 54'

Your sense of psychology and of human intimate mechanisms is acutely developed. Your relations are nuanced, clever and guided by a good intuition of individuals. Without effort, you pick up what is at stake in relationships and in contacts. Your « sixth sense » inspires you and may take you into strange roads. On the relations' plane, there is an indisputable subtlety. You know what you should not say or, on the contrary, you naturally find the suitable words. Your natural and non-rational attitudes often prove right. The unknown fascinates you... Your curiosity for occultism and mystery is keen. Besides, life is a huge human enigma for you.

★★★★★ Sun conjunction Mercury, orb 10° 09'

You know how to play with your image, how to give multiple representations of yourself. A precious asset: you are sensitive to other people's opinion and you adapt yourself to the audience. Of course, there is a "show" side in your manner that may prevent perfect cohesion. But that's the other side of the coin, for an extraordinary capacity to discover. This aspect translates into an acute sense of observation, an intense desire to learn and to bring everything to light. You strive to be informed in many circumstances, to understand the machinery of the world surrounding you, particularly regarding all human topics. And you will change according to that information and the knowledge gained. You have the chameleon's adaptation powers. And its vulnerability, as well.

## Your Goals, Motivations, Career, and Destiny

### Your Sun is posited in the 2nd House

Oprah Winfrey, even though you do not acknowledge it, or you are not(not yet) aware of it, your entire will is tremendously helpful for your achievements, in terms of acquisition of goods and material security. Increasing your resources is the driving force behind your actions and your decisions.

Your organizational skills and your efficiency are considerable. They serve the purpose of your destiny in a remarkable way. In the fields of finance, industry, technology, real estate etc., your practical sense allows you to develop your resources, your unlimited earning abilities and your material power.

On a more abstract plane, you are quite possessive, particularly in the emotional sphere or in your relationships. You very much appreciate loyalty and commitment because they are sacred values to you. There is nothing you loathe more than unreliability. Indeed, since you set very high standards for yourself, you naturally expect the same level of quality from people.

However, you must remain cautious because your tenacity and your efficiency may turn you into a stubborn and too materially-oriented person. When facing the few major ordeals life has in store for you, you may take more than you can chew and your greed for quick gains may expose you to delusions, which are proportional to the level of your hopes.

### **The ruler of your chart is in the 6th House**

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 6th House, Oprah Winfrey. This position gives you the desire to be helpful, and turns you into a perfectionist concerned with details and with work well done. Domestic routine and exchanges with colleagues - if you are working - is an important element of your fulfilment. You may be interested in health matters.

### **Aspects influencing your ambitions**

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Sun square Saturn, orb -0° 03'

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

★★★★★ Jupiter trine Midheaven, orb 0° 45'

Jupiter is in soft aspect with your Midheaven, Oprah Winfrey. It means that you are often lucky, or that you receive support in your career or your social destiny. You trust your abilities to overcome obstacles coming up in your way, and you respect authority and laws. So, thanks to this configuration, you make your way in the world with the feeling that you move forward rather quickly, as compared to average people.

★★★★★ Mercury trine Midheaven, orb 1° 44'

Mercury in soft aspect to your Midheaven enables you to easily communicate with your entourage and to climb up the social ladder, Oprah Winfrey. Your strategy is often good, and you correctly think about your interests. Do not change anything!

★★★★★ Uranus square Midheaven, orb -2° 54'

Uranus is in hard aspect with your Midheaven, Oprah Winfrey. There is definitely nothing serious to worry about. There may be a lack of perseverance in the efforts you put in order to move forward in your

career or your social destiny. When unexpected hurdles crop up, more than anyone else, you must accept the unavoidable changes without losing sight of your aims, and above all, without getting disheartened. More than anyone, you must learn to accept the values of time and duration, if you are to reap their fruits.

★★★★★ Neptune conjunction Midheaven, orb 8° 39'

Neptune is in conjunction with your Midheaven, Oprah Winfrey. This aspect indicates that your vision of your career and your destiny is idealistic. You seem to adhere to some sort of poetic - and happy - fatality regarding huge changes or your progression towards success. As a consequence, achievements may be beyond your... will. If your professional or social circle fits your ideals, it is very likely that you experience brilliant successes in a sort of euphoria and a feeling of fusion with the world. Sometimes, this aspect indicates that your career is of a Neptunian nature, meaning that it is related to the sea, water, the world of ambiances (night-clubs, show-business, revels, etc.)

★★★★★ Sun trine Jupiter, orb 7° 39'

This harmonious Sun-Jupiter aspect indicates an optimistic background that usually wins the entourage's adherence. It also suggests ambition and generosity and favours social integration and success. The desire to earn general consideration prompts you to display energy, joviality and benevolence. However, opportunism may be the other side of the coin. As you strive to win everyone's esteem, you may fall into disrepute. It is important that you remain clear-sighted so as to persistently pursue your long-term aims without believing that you should always « grab each and every opportunity ». However, this aspect remains an element of success because it allows you to adjust your objectives to the context, to whatever the situation offers or, on the contrary, to force your way through events and to achieve your ideals.

★★★★★ Sun trine Midheaven, orb -8° 25'

In the professional and social status areas, Oprah Winfrey, you know what you want, and you know how to cleverly obtain it. Because the Sun and your Midheaven are in agreement in your natal chart, you have no qualms and no hesitations when it comes to defining the strategy for reaching your goal.

## Your Assets and Your Part of Joviality

With the planet of Greater Fortune in this sign, Oprah Winfrey, your abilities to communicate and your curiosity are considerably strengthened. You are articulate, you have an eloquent pen, and you multiply your centres of interest. Better than anyone, you can handle numerous different intellectual pursuits simultaneously and you increase the number of your friendly and professional contacts. Short and frequent trips are favoured. Just be cautious not to spread yourself too thin.

For you, Oprah Winfrey, nature's present is the luck of the devil that protects you against illnesses and brings about joie de vivre in your daily work. Therefore, your health and your work environment are your constant sources of satisfaction. Your value is duly appreciated, and you are popular and helpful.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign

occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Gemini increases your mental creativity, your imagination and your capacity for adaptation. The outcomes may not be seen externally but this configuration usually develops your sense of contact: when Gemini's well-known frivolousness and scattering meet with Jupiter's synthesizing mind and tidiness, it can only endow you with the best assets for your communication and intellectual pursuits.

## Your Serious Side

Perspicacity and profundity, and ability to dissect your passions. You manage to add a dose of reason into the analysis of your most intense moods, and you learn to step back from them. Your instincts are well-controlled, sometimes, a bit too much.

Your responsibilities, Oprah Winfrey, constantly increase, slowly, but steadily, as years go by. Your acute sense of duty, your good management of time, your long-term vision, and your moral rigour are the qualities which contribute to your inexorable rise to power with, deep down, odd feelings of anxiety.

With your definite taste for power or for success, you work your way up the top place. But the danger to fall is strong. You need as much persistence to reach the heights of your career, as to... remain there! Many Heads of State have this configuration, at the same time beneficial and a source of potential disappointments if too much importance and energy are dedicated to it. Indeed, climbing to the top should be only one facet of life.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Scorpio reinforces your resistance. Your demand for precision and your will to comprehend all things may make you seem a bit tough or harsh to your entourage. Because you are fond of precision, you are interested in exact sciences; your capacity to understand mysteries is strengthened. You learn to control your instincts, even though it may be detrimental to your spontaneity.

## A Few Special Points

### Your Uniqueness and Your Utopias

Your anticonformism regarding relationships prompts you to meet with very original people, and sometimes quite special ones. You may take the initiative to brutally and unexpectedly break up with

persons whom you find too ordinary or too conventional.

Your thirst for freedom creates a very strong individual approach in your way of communicating and of handling relationships; you may distrust associations or marriage because, as soon as you start to feel imprisoned or not free enough, you run away without warning!

Actually, you are very demanding, and you are not aware that, most of the times, this is the very cause of your behavioural reversals. The solution is to move around with unusual people, it's as simple as that! Cohabitation is often advisable, except if your freedom and your curiosity are already satisfied on a daily basis.

## **Your Inspiration and Your Illusions**

This configuration indicates a significant probability that your professional destiny – even your general destiny – is linked to collective movements that are beyond you. They may constitute good opportunities to earn your marshal's baton.

Your certainties may be influenced by trends or by your osmosis with collective ideas, often because you are very sensitive to the "spirit of the times". The other side of the coin is that you may become only a representation of a collective ideal, or its victim, and be exposed to scandal or deception.

You have good predispositions for music, comedy and for anything that allows you to quench your thirst for emotions and fusion with the external world and with an audience.

## **Your Passion and Your Authority**

In the sexuality area, you are very creative and you fear nothing. You are willing to experience your fantasies to the very end because you need to understand life's most secretive and mysterious aspects.

You are usually interested in occultism and in all topics that go beyond the everyday life framework: death and after-death, parapsychical researches, etc. You have a strong sixth sense and you intuitively understand at once things that are usually hidden and private.

Your material life may be disrupted by inheritances and gains stemming from happy speculations. In the most negative cases, you undergo huge losses that are difficult to understand. In all cases, these upheavals are meant to transform your personality and your approach to life.

## **Your Isolated Planets**

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

## Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

### Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Oprah Winfrey, the ten main planets are distributed as follows:

### Your Northern and Southern Hemispheres

Oprah Winfrey, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Oprah Winfrey, here is the planetary repartition in your Eastern and your Western hemispheres:

### Your Eastern and Western Hemisphere:

The predominance of planets in the Eastern hemisphere of your chart enables you, Oprah Winfrey, to assert yourself and to rely on your determination: you know what you want and you have a tendency to take action and to decide with your personal goals as priorities, even if they can be in contradiction with what others think.

A definite asset... provided that you never make mistakes in your choices. You should pay more attention to your entourage in order to counterbalance your nature and to take advantage of your assets wisely. The danger is that you may be too authoritarian and not conciliating enough. Strong determination coupled with flexibility and acute sense of communication are qualities you should develop.

### Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

## Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Oprah Winfrey: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

### Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cusps correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

## Your Houses' Accentuations

The emphasis is on succedent houses in your chart, namely, the 2nd, 5th, 8th and 11th houses, Oprah

Winfrey: this configuration usually endows a personality with affective and sensitive qualities. Obviously, to the detriment of self-confidence or self-assertion, but your heart qualities may be very important. These houses also favour realization. Time and patience are part of their characteristics. However, they are only indications and you must include them in the rest of your chart in order to see whether they are validated or not!

### Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

### Your Esoteric Decanates

The first decanate, which means the part between 0° and 10° of any zodiacal sign, prevails in your natal chart, Oprah Winfrey: this decanate is traditionally linked to vitality and physical constitution, and may indicate that you efficiently express your concrete energy on the material and sensual planes.

## Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

### The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

Your life is marked with the major challenge of developing your social image, of asserting your personality... and of leaving your shell. Your childhood and your family roots are very present. You have an inclination for quietness, protections and intimacy. You enjoy at will the moments when you feel "at home", in known territory and familiar situations. But you must learn to thrive in society, to give of your best, to socially shine, particularly when you feel that external pressure and opinions are upsetting. Do not fall in the trap of your dreams and souvenirs! Life implies responsibilities and the will to control, otherwise you cannot feel your true self. You may be too dependent and you must learn to slowly become autonomous, free to take decisions and to take action. Your sense of duty allows you to climb all the steps of a perilous, yet thrilling, social ladder. As years go by, you claim more autonomy, more power and more freedom of action.

You have obvious sociability qualities. You know better than others how to adjust to a new context and to copy your entourage's behaviour exactly. You do not dissociate yourself from groups or cells (social, family), on the contrary, you frequently adopt flexible attitudes that meet other people's expectations. This may translate into a lack of fighting spirit. You may not dare to go against prevailing fashions and currents. Because you dread unknown situations, you may miss the opportunity to innovate. It is important that you learn to go it alone and to get rid of scruples that hamper your doings: life encourages you to leave aside other people's opinions and, as time goes by, to find your autonomy of thought and action. While keeping your sociable nature, it is important that you develop a sense of individual initiative. In many situations, one can only rely on oneself. In such cases, you have the possibility to achieve the freedom many people dream of, without really giving themselves the means to implement it. Do not allow your entourage to dictate your way of life, over and over again. However, do not fall into the opposite excess: the frenzied individualism of those who value nothing except their own interest! Your life's purpose may be to master your destiny.

## **Lilith or the Dark Moon**

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You decidedly assert yourself as a person made of desires, love and the absolute. If this configuration is not well controlled enough, your thirst for timeless relationships may hamper simple, natural and obvious affairs. You may reject persons whose attitudes do not perfectly live up to your expectations. However, as you keep on looking for your hero, it is very likely that you will find the person to whom fate has relentlessly tied you.

The notion of freedom takes a special meaning: to be free does not only mean being able to move as you please here and there, nor does it mean having a few hours of leisure available. Above all, it means being able to lead a spiritual quest, to access a different dimension in life: to encounter, to travel, to love and to never be hampered by contingencies, never be slowed down by daily life. That'll take some doing! The comfortable routine of the contemporary world, in this regard, puts you off.

## **The Part of Fortune in House**

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 2nd house: acquisition and possession are the keywords for the axis of your activities. You work with a view to grow rich (on the material or on the spiritual plane), to accumulate goods and experiences. As you want to have a fulfilling life, you focus your energy on social projects and you take a fair share of the worldly cake. With your persistence, you will dedicate an unusual energy to your goals.

## **Retrograde Planets**

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

With Jupiter retrograding on the day of your birth, the lesson is about grasping the opportunities that are offered to all of us but that some people take advantage of, while others don't. Persons who quickly adjust to circumstances are more likely to achieve their ambitions than those who need to be encouraged to take action. During your childhood, you may not have efficiently responded to life's concrete enticements, leaving other "luckier" people to achieve what you were dreaming of. You preferred to enjoy yourself, here and now, rather than to look for new paths of development or exploration. It is possible that you were not optimistic enough. Enterprising minds were alien to you... Later, you find out that, indeed, you give little importance to the credit of the frenzied expansion praised by the modern

world. Your path is not oriented towards personal prestige. With subtlety, you integrate non-material values and you accept well the fact that you missed past opportunities.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

**N.B:** modern astrology attaches less and less importance to the principles of retrograding planets.

## Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
