Pascal Obispo's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Pascal Obispo, the nocturnal North-western quadrant, consisting of the 4th, 5th and 6th houses, prevails in your chart: this sector favours creativity, conception and some sort of specialization or training, with helpfulness and relations as strong components. You need others' cooperation in order to work properly, although you are not very expansive: creating, innovating and thinking are what matter most to you because this self-expression enriches you and totally satisfies you.

Your Dominant Modes and Elements

Pascal Obispo, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Like the majority of Earth signs, Pascal Obispo, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

Pascal Obispo, Fire is dominant in your natal chart and endows you with intuition, energy, courage, self-confidence, and enthusiasm! You are inclined to be passionate, you assert your willpower, you move forward, and come hell or high water, you achieve your dreams and your goals. The relative weakness of this element is the difficulty to step back or a kind of boldness that may prompt you to do foolish things.

Air is under-represented in your natal chart, with only 5.86% instead of the average 25%. Air symbolizes the values of communication, exchanges with others, but also adaptability and flexibility abilities: if you don't get out of your cocoon to talk, to show interest in others, and to socialize, you may have problems understanding others. Because of your lack of flexibility or of your refusal to adapt yourself, you may be suddenly overwhelmed by events. You should get into the habit of talking, of phoning, and of thinking in terms of "mobility, flexibility, adaptability, change" in every circumstance. It will spare you so many troubles!

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

The Mutable mode is the most emphasized one in your natal chart, Pascal Obispo, which indicates a mobile character that is curious and thirsty for new experiences and evolution. You are lively and flexible, and you like to react quickly to solicitations, but don't confuse mobility with agitation, since this is the danger with this configuration - and with you, stagnation is out of the question. Security doesn't matter as long as you are not bored. You optimize, you change things, you change yourself... all this in a speedy way.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Pascal Obispo, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are Mercury, Mars and the Moon.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

Mars is one of your dominant planets and provides you with its efficient energy and enthusiasm: with a powerful Mars in your chart, action - but also will and ability to undertake - is not an empty word for you. You are active, dynamic, willing to fight, courageous, and you are never afraid to move mountains, even though risks are part of the adventures that you start with determination.

However, your patience is not always up to your boldness and a kind of feverishness, or even anger, can tarnish the quality of your achievements. That would be a pity since the Marsian is a champion in matters of efficiency! Mars symbolizes display of action, conquering spirit that favours discipline and order - beware of not being fussy - and lies at the frontier between action and brutality, between conquest and potential aggressiveness.

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive, and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total

self-control.

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Virgo, Sagittarius and Pisces. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

Virgo, associated with perfectionism, numbers and reason, is among your dominant signs: you inherit its sense of responsibility and tidiness, a clear mind, an unfailing logic, as well as a need to be useful and to fulfil your task to the best of your abilities. Obviously, people may think that you are too modest or reserved, suspicious or pessimistic because of your exceedingly critical mind, but aren't logic and wisdom great qualities? Of course, they are. Moreover, you keep your feet on the ground, you never behave irrationally and you are helpful and hardworking - what more can you ask for?!

Sagittarius, an adventurous and conquering fire sign, is dominant in your chart: you are enthusiastic, enterprising, optimistic, very sociable, and mobile - you have itchy feet, both physically and mentally. Nobody gets bored with you because you are always planning things and suggesting excursions, at least... when you are around and not already gone on a trip! Obviously, so many movements for one man may scare people off, and some of them may even criticize your brutality or your tendency to lose your temper, but you are so warm and genuine, so expansive, isn't this a good thing? And all the more so, since your sense of humour is overwhelming...

Pisces is among your dominant signs and endows your personality with unlimited sources of emotions, dreams, imagination, and sensitivity, to the extent that you literally swim in a cloudy ocean of delightful impressions. These impressions are so intense and overwhelming that you don't really need to take

action concretely, to show your dynamism or your willpower, since you already live so intensely with your feelings - you are as keen as a radar, always on the alert! That is why some people may not like your carelessness, and the lack of clarity in your opinions or actions; however they quickly notice your artistic talents, your poetic or artistic side, and your total lack of wickedness. Besides, you feel compassion for people in pain - empathy is one of your great qualities. Thanks to your flexibility, your intuition, and your generosity, you may spend an important part of your life helping others. And if you are creative or if you have well-known artistic talents, everybody will forgive your little flaws: absent-mindedness, lack of energy or of will, too dreamy temperament...

Your Dominant Houses

Houses 4, 7 and 1 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With an important 4th house in your chart, your private life, your intimacy, as well as your family and home, play a fundamental role. Your security and your family unit, the one you come from, but also the one you set up when you get married and start a family - or even as a bachelor living alone in your sweet home - are necessary for you to blossom. According to the Tradition, your father may play an important role in your life.

Your 7th house is one of your dominant houses: it symbolizes other people, marriages, associations, contracts, and partnerships. Your personal achievement and maybe your problems - depending on the rest of your chart - are mainly influenced by your rapports with others, the area in which you tend to commit yourself a lot. You appreciate communication, and you give importance to others' opinions. Success requires the support of others, which seems obvious and natural to you. Your marriage generally contributes to your fulfilment.

With a dominant 1st house, your magnetism is powerful, and your individuality as well as your willpower are out of the ordinary. You are a determined, strong-willed, and assertive person, with this relative criterion at least.

It is likely that you never go unnoticed when you are in a crowd or in a reunion: an important 1st house

suggests that you are a charismatic person with above average vital energy, especially if the Sun is present in this sector.

Your personal interests are always important and you never forget them, which doesn't mean that you are self-centered, but only that you behave according to what is in harmony with your deep nature!

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Capricorn and your Ascendant is in Virgo

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

It is obvious that presence of mind and good judgment are part of your major qualities. Your Sun and your Ascendant are both in Earth signs and characterised by circumspection and the sense of organisation. Your sensuality is strong, though discreet and highly intellectual. Capricorn appreciates simplicity and genuineness, while Virgo is concerned about precision and pays utmost attention to the smallest details, probably because it constantly strives to improve its skills. Owing to your Virgo Ascendant, you come across as a humble and flexible person. You dislike being in the spotlight, and you prefer to quietly provide people with your wise advice. Your Capricorn inner self, which is known by your close friends and relatives only, is quite different from Virgo in the sense that the former seeks profundity and is more detached towards society and people's judgments. Time is Capricorn's friend. Although you

are a born loner and an ambitious person, you display unfailing loyalty towards the people you care for. In all circumstances, perfectionism and discipline, which Virgo and Capricorn have in common, delight or astonish the members of your entourage.

You were born with the Sun in Capricorn

Psychologically speaking, your nature is introverted and cold, totally controlled and phlegmatic, at least regarding the image you project invariably. You seem unemotional and austere. Actually, due to your secondarity, you chew over your strategies or your reactions required by your environment. You are slow but very thoughtful, solid and balanced. You are as curt as you are cold and you put the entire strength of your character at the service of your huge and long-term ambition or of your detachment from earthly riches and you focus on spiritual values.

Like all the persons born under an apparently reserved and tough sign, your inner personality is often charming and gentle, as if the thick armour, forged throughout childhood, had entirely preserved the purity and the warmth of the soul imprisoned within.

As you are born under this sign, you are serious, cold, disciplined, patient, focused, thoughtful, ambitious, indomitable, cautious, lucid, persistent, provident, steady, introverted, stern, wilful, hard-working, responsible, persevering, honest, realistic, loyal, reserved, resolute, moralistic, quiet, rigorous, attached and reliable. But you may also be curt, withdrawn, calculating, petty, cruel, unpleasant, ruthless, selfish, dull, rigid, slow or sceptical.

Sir, in love, you may feel less interested than the other Zodiacal signs because you repress your feelings and you practice so much self-control. You want to keep situations under full control, in all circumstances, although love is the only area where progress requires a laid-back attitude, where it is necessary to give in order to receive, all things which are difficult for you.

Therefore, you are alone for a long part of your life until you meet with the love of your life, to whom you will be faithful and attached, beyond reproach. Capricorn has very few but intense and lasting love affairs.

Daily life within your couple is responsible and serious. It may not be too bubbling, but your feelings' sustainability and solidity make for your lack of spontaneity and extravagance. You may not be very available, as all your time is taken up by your work and the pursuit of success. You are very keen to marry a person who can share your professional interests, which does not lessen the quality of your attachment at all.

Your home is sound, with an atmosphere of seriousness. The effort-oriented education, which you give your children, is respectful of the best traditions.

Your Ascendant is in Virgo

Psychologically speaking, your nature is nervous and secondary. Before you take action, you cautiously ponder over things and you review any possible alternative and reaction. You strive systematically to find the best possible response to any given problem. You are a perfectionist above all and you have no rest until you optimize a situation, in each and every area, be it professional, pragmatic, aesthetic or in pleasure. You do not accept spontaneity and, to fully enjoy life and go further, you consider that demanding the best is the least you can do, even though it is detrimental to the rough force associated with your instinct. The intellectual element intervenes before both the physical ones and your feelings: it is one of the essential clues to understanding your personality.

As you are born under this sign, you are cerebral, clear-sighted, focused on details and on numbers, analytic, serious, competent, reasonable, modest, tidy, organized, spruce, industrious, provident, honest, loyal, reserved, shy, helpful, willing to progress, talkative, perfectionist, logical, hardworking, tactful, patient, precise, concrete, spiritual. You can also be narrow-minded, calculating, irritating, petty, pernickety, hung up, anxious, cold, repressed or sarcastic.

In love, Sir, your inner self is different from what you seem to be: you are sensual and affectionate and you find it hard to show it because your nature is to be cautious, reserved and analytical. You think too much, which gives you a cold and distant look. However, it is a mask that you wear and take around with you. As soon as you feel in confidence, you become able to take off the mask and to reveal your true face. You are critical and perfectionist and you must be cautious enough to keep your comments to yourself, especially in this particular area.

In the fields of sex and affection, real confidence is an imperative pre-requisite. Otherwise, it is impossible for you to show your true self and to remove the mental screen that proves so efficient in other areas, but that is very burdensome and inhibiting in the private sphere.

When you manage to do so, you become a charming, sensual and endearing partner and you communicate easily thanks to Mercury who rules your sign.

You are loyal, organized, conformist, more suited for celibacy. But once you take your decision, you are quiet and tidy and you will bring up your children according to the best traditional principles.

Because Virgo is a dual sign, there may be two marriages, or there may be a love affair in parallel.

The ruler of your chart is in Sagittarius

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Pascal Obispo, is Mercury. It is posited in the sign of Sagittarius and gives you a strong inclination for wide open spaces and freedom. Loyal and benevolent, you put things into perspective, and you understand the true value of things, perhaps precisely because you travel - whether actually or mentally - and that stepping back from your intimate environment enables you to better perceive what is important and worthy.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Pascal Obispo. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Virgo Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★★ Mars conjunction Ascendant, orb 0° 24'

The conjunction of Mars with the Ascendant is the mark of an exceptional energy, Pascal Obispo! You have a natural taste for action, and your audacity often works wonders. With such a great vitality, you are sometimes inclined to appreciate sports. Should it not be the case, then, your decision-making capacity in society, as well as your entrepreneurial skills, remain strong assets throughout your life.

★★★★★ Moon opposite Ascendant, orb -0° 46'

The Moon is in opposition to your Ascendant, Pascal Obispo. It is not a dissonance, strictly speaking, since at the same time, the Moon is in conjunction with your Descendant. Your sensitivity is oriented towards other people, and you are endowed with some sort of radar which enables you - sometimes too quickly - to feel other people's sympathy or hostility towards you. As a consequence, although your behaviour is flexible and adaptive, it is also less self-confident than it would be if you were less concerned about gossips.

★★★★★ Venus square Ascendant, orb -0° 26'

In certain circumstances, Pascal Obispo, you tend to adopt an attitude that is not necessarily in line with your real emotions. This discrepancy between your behaviour and your feelings, caused by Venus, may disconcert the people you mix with. Have self-confidence, don't be too pushy or... withdrawn, and forget your fears. Then, people can have a better perception of your personality, and you can harvest the fruits of your efforts.

★★★★★ Mercury square Ascendant, orb -0° 55'

Sometimes, you find it hard to behave the way you wish, Pascal Obispo. It is because of Mercury who is not really in phase with your Ascendant. You happen to dislike the way you communicate, either because you exceedingly intellectualise everything, or on the contrary, because you do not make the effort to thoroughly analyse the situation when you are with other people.

★★★★★ Sun trine Ascendant, orb -7° 43'

Your will is fuelled by a strong energy, Pascal Obispo. It enables you to take quick decisions which totally match your personal ethics. Thanks to this good harmony between the Sun and your Ascendant, you feel rather good about yourself, and your inner self perfectly matches the image you are willing to show!

★★★★★ Pluto conjunction Ascendant, orb 9° 58'

Pluto is in conjunction with your Ascendant, Pascal Obispo. The planet of taboos, power, secrets, and instinct endows your behaviour with an uncontrollable domineering note which is not negative as such. At the same time, it also provides you with exceptional lucidity. In spite of yourself, Pluto prompts you to discover people's secrets, to provoke them in order to better understand their "truth". Your mysterious and slightly frightening magnetism is definitely part of your seduction!

Your Sensitivity

Your sensitivity is all on edge, Pascal Obispo, and your emotions so deep, your imagination, so lively, that you are often found in the sweet realm of dreams. You create your own fantastical world with entangled fragments of current reality, romantic souvenirs and hidden hopes. Your receptiveness is so intense that it may border on mediumship or, more disturbing and rare, you may have hallucinations. Your character fluctuates according to the stimulation of the moment but in general, you are a nice person, full of gentleness and romanticism, always ready to understand and to dedicate yourself. You have real healing powers, would it be only through your ability to instinctively understand other people's sufferings. Your affective structures can be likened to a roving radar. You are vulnerable, hurt by the slightest aggression and easily influenced because you are unable to step back from people and events; therefore, you may start to be doubtful and lose the self-confidence that you so badly need to progress.

You are dependent on your relationships for a large part, Pascal Obispo, and generally, you can open up only with people you are close to. Contacts are very important for you, however, you tend to listen to the one who spoke last. In fact you are easily influenced.

You will certainly find your dream wife and you will develop a close and intense relationship with her.

You are moody and impressionable. Your relationships with your audience are always put on a pedestal and you have a tendency to constantly change your personal image according to the persons you are dealing with and the reactions you get from them.

★★★★★ Moon opposite Mars, orb -0° 22'

The Moon-Mars dissonance suggests touchiness and sometimes, aggressiveness. You are irascible and very sensitive to all sorts of threats and dangers. You react very quickly, too hastily. To protect your well being, you must learn to control your mood, to coordinate your actions and to balance your opinions. You are often disturbed by plain facts: Either you seek refuge in your intimate realm and refuse to face the truth or, on the contrary, you are engaged in altercations, which forbid all tranquillity. It is important that you balance these two tendencies and that you alternate moments of action with phases of carelessness and relaxation. These two attitudes are relatively irreconcilable.

★★★★★ Moon square Venus, orb -0° 2'

With this Moon-Venus aspect, passion and sensuality may often upset your well being and your tranquillity. Your way of loving is dual. You either accept life simple joys, or you live through intense emotions and consuming fevers. It is difficult for you to reconcile your daily life with your affective or sensual desire. Habits kill passion, whereas passion forbids the carelessness that is yet indispensable for your fulfilment. This aspect suggests the traditional mother/woman and father/lover antagonisms that are incompatible although it is possible to experience them alternately. It is important that you balance these antinomial desires: you may let the turmoil of your heart break the monotony of an amorous life devoid of excitement but it does not mean that you must forsake the reassuring values of a couple, or family cell, where you can rest at will and give free rein to your intimate behaviour. You may indulge yourself but don't forget that you must deserve love.

★★★★★ Moon trine Neptune, orb 5° 53'

This harmonious Moon-Neptune aspect indicates an exceptional receptivity. You are sensitive to ambiances and you can grasp what is at stake in any given situation. You can pick up things in the general atmosphere that the majority of people miss out. Your deep intuition allows you to feel the

subtlest details, that « little nothing » which is the key to behavioural patterns. Inspiration is your guide and imagination accompanies your daily rhythms. Mysteries, psychology, esoterism, fantasy, the supernatural... one of these fields, at least, is of concern to you. You pay utmost attention to your inner life, to moments of tranquillity when you relax, when you allow your mind to wander at will. The danger is that you may seek refuge in the imaginary and that you shirk reality.

★★★★★ Moon opposite Pluto, orb -9° 11'

This planetary configuration causes distrust (Plutonian distance) towards individuals, groups, or your own family environment (lunar values). It may bring about a feeling of affective or relational wound. The feeling of security is absent, or fragmented or illusive. How is it possible to feel integrated whereas you know that you are different and on your own? It is the myth of the « ugly duckling », with its different specific characteristics, an alien to its origins and its roots. It is important that you accept your differences and that you have them accepted by others, without forsaking your essential values. This is how you can exercise your group ownership without allowing them to exclude you or to repress your secret determinations. When this aspect is well integrated, it is a factor of lucidity for your emotions. You perceive without gullibility what is really at stake in your intimate relationships and the flaws of your environment. The fact that you do not readily trust people spares you many traps and delusions.

Your Affectivity

In your chart, the Sun is in Capricorn and Venus, in Sagittarius. Capricorn structures the couple, idealizes it and protects it against intruders. It is likely that your affective models prompt you to stand for the image of the couple as an indissociable unit, a safe investment, the realm of your private secrets. You do not really need words in love. The relationship is based on an essential closeness that may be biased by any attempt to describe it. However, Venus in Sagittarius gives an inclination for affective discoveries. As time goes by, the desire may fade away when it is not fuelled by new stimulations. There lies the ambiguous way in which your affectivity or amorous life works. And its dangers: whatever you discover under the spur of your desire is integrated, structured, digested, in a way. And the object of desire flies away or gets locked up in a simplistic pattern. However, it is possible to highlight the complementarity of these two modes, antinomical in their principle. Venus in Sagittarius undertakes to fuel the desire that the Sun in Capricorn organizes into an enduring one. In order to experience this configuration constructively, it is important that you fully respect the rigour of your concepts (a rigour that Venus finds austere). You must also quench your thirst for experiences, without which you may shut yourself away in a secret melancholy. Do not cut your desire off inside an ivory tower.

On the affective plane, Pascal Obispo, you are open, straightforward, spontaneous and you make friends easily because your enthusiasm is expressed jovially, directly and is respectful of well-established moral values. In some cases, you may be opposed to your natal environment or to your family because of your taste for freedom, exoticism or all forms of independence and emancipation. Your feelings are burning and you often get carried away quickly. However, your ability to make friends easily is likely to favour some instability; in other words, faithfulness is not your top priority as long as you have not yet found your soul mate. Ideally, for you, life together must have some degree of mobility and include travels and fresh air. Within your relationship, you need to feel freedom and independence, which you need since your childhood. Under such conditions, harmony and faithfulness can be achieved.

Pascal Obispo, for a fulfilling sentimental life, you need a stable and securing family basis from where

you can eventually look at the outside world and give free rein to your love agitations: even though you have had a loving and caring family environment during your childhood, and you now want the same secure and warm feeling to endure, at any cost, or if, on the contrary, fate had turned your childhood into a painful period with lots of emotional loneliness and you now want to obtain, at any cost, what you had been deprived of in the past, for the rest of your entire life, the harmony of your family structures will remain an absolute necessity for you, lest you feel unable to do your utmost. As a matter of rule, you also need security in the literal sense before you can be at your best and, as you start a serious relationship, one of your first preoccupations is to purchase or to beautify the necessarily cosy and opulent-looking nest for your new couple. You value interior decoration as much as security and you will spend lots of time hunting refined artistic works that will match your inner feelings: secrete, warm, reassuring but not extravagant.

★★★★★ Mercury conjunction Venus, orb 0° 29'

This aspect sensitizes you to games of seduction. You like to multiply romantic undertakings, you invent new reasons to seduce or to be seduced. Although your romantic life is not a model of stability, it is full of discoveries, varied emotions, both sensual and cerebral. You know how to earn your entourage's liking through your acute sensitivity. You play around with feelings, with relationships and with love... Mercury and Venus commonly share the capacity to sensitize to human topics. Your receptivity towards others is high. Your broad-mindedness goes hand in hand with your heart's generosity. You pay particular attention to the way people look at you and the effect you make when you meet or exchange with someone. Actually, you expect a lot from others: acknowledgement of your qualities, as well as esteem and consideration. You may also be touchy beyond what you may give to think. In many instances, relationship games may turn out to be more serious than expected.

★★★★★ Venus square Mars, orb -0° 01'

This Venus-Mars aspect indicates a sensitivity all on edge and an impulsive character. Emotions and heart impulses cause a marked tension. Life is an affective battlefield. Love is omnipresent but often fragile: impulsiveness reigns over the realm of feelings. The object of desire may become irresistible and implacable, or the sense of confrontations prevents affective tranquillity. However, the richness of your emotional responses is to be noted: you are more inclined than others to be guided by amorous fevers and you live intense passionate experiences. Your overwhelming impressionability must be contained. Romantic people seldom enjoy tranquillity!

The Way You Take Action and Your Sexuality

Pascal Obispo, you skilfully make use of your energy and you are like the arrow that reaches its target with great precision: with piercing eye and sharp mind, you take action meticulously and efficiently. Like the surgeon with his scalpel, you know exactly what you want and you belong to the category of specialists, not the generalists. Critical, pernickety, extremely organized, you want to foresee and to analyze. You prefer to master your business too well rather than not enough, even if you must put a huge, sustained, long lasting effort into it. Sexually, you remain fanatical about cleanliness. You may be prone to fantasies such as fetishism. Your love life is fine if you avoid the unforeseen events that you loathe.

You are by nature an active person, Pascal Obispo. This is the only position that does not give a particular orientation towards any specific area of life. It is the most powerful placement and it indicates that your personality is precisely combative, conquering and action-oriented.

You are on the move, with the impetus which urges you, more than anyone else, to transcribe your thoughts and your projects into the real world.

The danger may be that you overdo and you turn into a warrior! This generous flow of energy is an invaluable asset that you use properly as you mature. The danger is also that you may come across as quarrelsome and too domineering to persons who may be scared by your punch and your pugnacity.

★★★★★ Mars conjunction Pluto, orb 9° 34'

You have a very personal way of taking action and of experiencing confrontations and struggles. The laws of the world are subtle, often with complex and hidden mechanisms. For these reasons, you prefer to act behind the scenes rather than openly. You manage your daily life in a distant and subtle fashion while you try to understand the logic underlying observed facts. You may also provoke events although you act as if you were not concerned. Your interventions will be as efficient as they are discreet. You may secretly transform your life and you live through the inexpressible motivations that connect you with the invisible realm. Things, which cannot be formulated, must be experimented and felt. You test experiences that your entourage find uninteresting and meaningless.

★★★★★ Sun trine Mars, orb -7° 19'

This planetary Sun-Mars aspect reinforces courage, determination and energy. The need for action is obvious. Whatever your will designs is implemented with fieriness, despite all oppositions. You are decisive and wilful, even foolhardy. Your behaviour may be heroic: you know how to face adversity, to stand for your rights and your decisions, regardless of the confrontations you may have to cope with. The only danger may be that you overestimate your chances and your strength. But your audacity turns out to be rewarding, more often than not.

Your Intellect and Your Communication Style

Your thirst for learning is considerable, Pascal Obispo, and you can spend a lifetime studying languages, geography, philosophy and law, particularly. You are open-minded and you want to abolish all kinds of frontiers. The humanist, who is dormant in you, may turn into a “frequent traveller” reaching out to others in order to understand them and communicate with them. You express your opinions and your beliefs with honesty and clarity and likewise, you receive others' views with enthusiasm. You have numerous centres of interest and you may be perceived to be superficial, heedless and over-optimistic. However, if you manage to control your tendency to scattering, all your encounters, all your discoveries can positively influence your philosophical life approach.

It is usually in the private sphere that you can communicate and think for your best interests, Pascal Obispo. Your family is very important to you, and your intellectual interests incline you towards real estate matters, asset management, family business, etc.

You may also work at home, and in any case, you are generally more outgoing when you are in a safe and private environment. When you are outside, you come across as unobtrusive, either because you don't pay much attention to events that are not directly related to you, or because you are just shy and on the defensive when it comes to worldly things or public domain.

★★★★★ Moon square Mercury, orb 0° 08'

The Moon suggests relaxation, whereas Mercury implies a discoverer's mind. They both make sense and each one requires special attention, as they are sometimes upsetting. This Moon-Mercury aspect is likely to bring about nervousness or instability. Nervousness stems from the multiplication of the spots of interest and the perpetual restlessness of your mind, which prevents relaxation and well being from settling in. The outside world constantly appeals to your attention and you shift from one issue to another, to the detriment of your tranquillity. Therefore, it is important that you find the balance between two antinomical attitudes: letting-go versus curiosity, tranquillity versus communication. The new persons you meet with are not necessarily trustworthy and there is no certainty that the contact is harmonious. It is important that you use both influences alternately.

★★★★★ Mercury square Mars, orb -0° 3'

This Mercury-Mars dissonance brings about impulsiveness into relationships and contacts. Your sense of controversy and criticism leads to blunders and thoughtless actions. Your verbal violence may harm the efficiency of your actions. You certainly display your views without circumlocution. Your straightforwardness would be commendable if it did not cause those blunders that spoil many situations. It is important that you learn to control your decisions, to coordinate your mental abilities and your fieriness, so as to fully express the quickness of your mind and of your action. Learn to count to ten before you say anything, as it is an excellent exercise for you!

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 4th House

Unless salient factors indicate otherwise, Pascal Obispo, your nature is not very extroverted and your tendency is to keep to yourself emotions that may run very deep. Your will prompts you to create some sort of security, or cocoon, around you.

You are deeply attached to your family and to your initial home. You need this cosy and warm atmosphere, your parents' love and your family security, and later you reproduce them in your adult's home. Such strong bonds with your family and your home benefit your self-assertion as they combine professional efforts with presence at home. Working at home is particularly suitable, as are, indirectly, professions related to genealogy or even more, to real estate, because you are comfortable with the security aspects of the places you visit.

Your father often plays a major role, possibly an excessive one, with the danger that he may smother your desire for freedom and autonomy and contribute to aggravate your already strong natural introversion.

You are what is called belated and it is mainly during the second part of your life that you can concretely and efficiently exercise your will. Your assets lie in your determination to build a stable and comfortable home. However, family conflicts may exist and you may quarrel with your father over authority matters or over your projects; later, you may even undergo this sort of troubles in your own home if you are not flexible enough.

The ruler of your chart is in the 4th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in its House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your Ascendant is in the same House as your Sun. This specific feature of your chart strengthens the Sun's characteristics previously delineated.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Mercury opposite Midheaven, orb -0° 08'

This opposition of Mercury to your Midheaven is also a conjunction with your Imum Coeli, Pascal Obispo. Therefore, it is not strictly speaking a dissonance, on the contrary, it is a valuable asset for the management of your home and the interests of your family, even though somehow, it may be to the detriment of your social ascent. Actually, you feel more comfortable when you communicate with your close friends than in society.

★★★★★ Venus opposite Midheaven, orb -0° 2'

Venus is in opposition to your Midheaven, Pascal Obispo. It is not strictly speaking a dissonance since at the same time, this aspect is also a conjunction with your Imum Coeli which symbolises your home, your roots, and your family. Thus, it is obvious that your charm and the way you express your feelings work better in private circles than in society. When you do not feel in security, you are quite reluctant to display warmth, which may give the impression that your career or your destiny is a bit in the background, compared to what it might be if you did not feel this vulnerability, which is incidentally quite nice...

★★★★★ Moon square Midheaven, orb 0'

There is a dissonance between the Moon and your Midheaven, Pascal Obispo. It may indicate a discrepancy between your sensitivity and the goals you set for yourself in life, although this dissonance seldom plays out dramatically. You may feel that your emotions sometimes catch you off your guard in society, and that the level of your popularity is not too satisfactory, without your knowing the reasons why. In some cases, females may thwart your social ascent.

★★★★★ Mars square Midheaven, orb 0° 22'

Because Mars is in dissonance with your Midheaven, in some circumstances, you may feel misunderstood, Pascal Obispo. In society, you may even feel hostility towards you as you try to climb up the steps of your professional life, or when you strive to reach a higher social status. Your efforts may be resented. You must be twice as careful as you usually are and tone down your behaviour in order not to be rude to other people, even though from your viewpoint, and it is actually most often the case, it only has to do with misunderstandings or some eagerness on your part.

★★★★★ Sun trine Pluto, orb 2° 14'

This harmonious Sun-Pluto aspect indicates an exemplary clear-sighted mind. Without destabilizing your appearances or your personality mask, Pluto makes you aware of your subjective and questionable

character, as well as of your manner. You never take yourself completely seriously. You have a good grasp of human nature's complex games, without gullibility, without excessive simplification. Because you can perceive hidden elements underlying any situation better than anyone else, you are acknowledged as perspicacious. This aspect allows you to distance yourself from difficult circumstances and to remain impassive when you must overcome pitfalls.

★★★★★ Sun trine Jupiter, orb -2° 2'

This harmonious Sun-Jupiter aspect indicates an optimistic background that usually wins the entourage's adherence. It also suggests ambition and generosity and favours social integration and success. The desire to earn general consideration prompts you to display energy, joviality and benevolence. However, opportunism may be the other side of the coin. As you strive to win everyone's esteem, you may fall into disrepute. It is important that you remain clear-sighted so as to persistently pursue your long-term aims without believing that you should always « grab each and every opportunity ». However, this aspect remains an element of success because it allows you to adjust your objectives to the context, to whatever the situation offers or, on the contrary, to force your way through events and to achieve your ideals.

★★★★★ Sun sextile Neptune, orb -1° 03'

This harmonious Sun-Neptune aspect indicates a highly developed intuition and clear-sightedness and sometimes, a sixth sense. Mental images or information drawn from the unconsciousness impress your mind. What was only a muddled feeling turns into certainty and deep conviction. You do not necessarily need to justify your attitudes: you take a decision because you feel that you have to do so, although you may not control the underlying logics. The danger is that you may follow fanciful or adventurous roads. Beliefs you cannot explain may prove wrong or over-optimistic. However, your intuition is seldom misleading. One last comment: there is often a keen curiosity for the « bizarre » and the paranormal with this planetary aspect.

★★★★★ Sun trine Uranus, orb 3° 47'

This aspect reinforces the determination as well as the will to further your original, sometimes revolutionary, ideas and designs. Your capacity of innovation is important for your image. You have the soul of a leader. You display a forceful and synthesizing mind. You may tend to oversimplify or to schematize situations. In most cases, you know where you are heading to and how to reach your goals. Your determination is two-edged... not everybody will appreciate your contrasted standpoints. It is yes or no, black or white! This planetary configuration indicates certainties. When it comes to acting according to your inner motivations and to respecting your models, you can show an unusual willpower and sweep aside all obstacles lying on your path.

★★★★★ Neptune bi-quintile Midheaven, orb 0° 06'

Thanks to this soft aspect of Neptune to your Midheaven, Pascal Obispo, your intuition is very sharp, as far as your possibilities for success are concerned. Thus, you have no difficulties in finding your professional or social path, and your nose tells you whether something is good or not for you, even before you start to analyse it. Your imagination and your visionary qualities accompany you along your journey towards success.

★★★★★ Saturn trine Midheaven, orb -6° 38'

Thanks to this soft aspect between Saturn and your Midheaven, your long-term efforts and your perseverance are rewarded, and you gradually climb up the stairs of success. Time is your ally as far as

your career and social destiny are concerned. Carry on the good work, and rest assured that your seriousness and your obstinacy are appreciated. They are instrumental in your success, especially during the second part of your life.

★★★★★ Sun semi-square Saturn, orb -1° 24'

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

Your Assets and Your Part of Joviality

Pascal Obispo, your practical abilities to organize and to increase your material security are enhanced with the planet of Greater Fortune in this peaceful and warm sign. Your affectivity is strengthened, and so are your taste for comfort and your needs... Undeniably, the possibilities for affective and material fulfilment are favoured. The other side of the coin may be an exaggerated form of materialism.

Pascal Obispo, the planet of Greater Fortune in this house is a heaven-sent present. It indicates inheritances, intense and fulfilling sexuality as well as a strong and secret intuition. You may be content! Your feelings also are magnified and deep. Undeniably, you are very lucky with this position of Jupiter in your chart.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Taurus amplifies your practical sense and your capacity to improve your material life. You can experience a long-lasting fulfilment. You are often a bon viveur who likes life's good things. You manage and develop your patrimony with a lot of luck and generosity. Your taste is very good and your loyalty is genuine.

Your Serious Side

The side effects of melancholy or isolation are the capacity to accumulate wisdom and the ability to step back. Therefore, if you really mean it, you have the possibility to make a better distinction between the concrete values that enable you to progress in actual life, and sugary daydreams that only bring some virtual pleasure and no real meaning.

The association of the astrological house of effort with the planet symbolising concentration and the necessity to overcome one's fears is not negative in itself. In your daily life and in your work, Pascal Obispo, more than anyone else, you are dependent on your courage and your persistence.

The danger is that you underestimate yourself psychologically, or that you give up a task just because you think that you cannot live up to people's expectations. Your challenge is to gain self-confidence and wisdom and to pursue your effort because in the long run, they will be rewarded.

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Pisces limits your ability to feel other people's emotions or to profusely express your own feelings. For this reason, you are less vulnerable but at the same time, you can revel in isolation. On the other hand, you are genuine, you cannot be satisfied with chimeras and you remain far away from illusions but also... from dreams!

A Few Special Points

Your Uniqueness and Your Utopias

It is within a setting of secrecy or of isolation that unexpected events may suddenly occur. Sometimes, it may be on the occasion of unpredictable events that isolation settles, be it a context of exile, forced solitude such as illness, or imprisonment caused by enmities or by fate.

Great satisfaction may also occur in a secret context. It may be a hidden love affair, an activity carried out in the dark or an association with a person whose identity cannot be revealed.

The areas of the occult or of secrets (espionage, police, secret society, etc.) are frequent causes for change in the course of your destiny. Reversals and incomprehensible disruptions may give you the opportunity to understand that the persons whom you considered as your friends do not side with you, or sometimes, more happily, you realize that the persons whom you considered as your sworn enemies are actually of invaluable help and support, and that they even become... your friends!

Your Inspiration and Your Illusions

Your relationship to money is particularly vague. You tend to avoid analyzing your financial resources, as though this topic were neither important nor real. You belong to the category of people who never know how much they have in their bank account and in their purse.

This approach is positive in that, if you have a strong sixth sense, you can get good bargains more easily than other people... It may be some sort of blindfolded fortune, although there are real dangers of losing a lot and of being deceived.

Beware not to overstep legal boundaries, lest someday your carelessness in the financial area gets you into big troubles. It would be a pity if what you earned, thanks to your sixth sense, were taken away from you.

Your Passion and Your Authority

You have an unconscious desire to experience your ordeals to the bitter end, regardless of their consequences for your future.

Your clear-sightedness and your investigative capacity enable you to solve mysteries in a deep and intuitive way. But they may also lead you into conflicts, crises and confrontations with enemies who are ruthless, at least in your opinion; having said this, you precisely have the ability to cope with them and to deeply evolve in the process.

You are predisposed to go through ordeals, on the human plane or in the area of health. The pains thus triggered contribute to transform you more rapidly than the majority of people. Your destiny is certainly to progress forward and, above all, to consider such ordeals as stepping-stones instead of signs of some unhealthy fatality.

The Tradition indicates that you may be prompted to take action in humanitarian causes, all the more so, because your personal ordeals incite you to readily help others, even though this tendency is not at once visible.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees

respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

In your natal chart, Saturn is unaspected

Saturn, the planet of time, prudence, and effort, may express himself in a tricky way when he is unaspected. Inhibition, inferiority complex, melancholy, and failures are the negative characteristics of this planet of ill repute.

Having said this, many authors have a contrary opinion and believe that Saturn's damages are lessened when he is unaspected. Like all collective planets (Jupiter, Saturn, Uranus, Neptune and Pluto), caution is required for the interpretation of this configuration.

However, one can guess that the phenomena of personality structuring and of constructing long-term projects might be less powerful than when Saturn is strong and harmonious. In compensation, he endows with a less rigid character.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Pascal Obispo, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Pascal Obispo, the predominance of planets in the Northern hemisphere prompts you to reflect and imagine rather than to exteriorize your actions and to be at the forefront of the stage. So, should you wish to remedy this situation, it is up to you to force your nature to take action in broad daylight, to communicate, and to assert yourself... then, you can move forward in this concrete life and enjoy your newly won situation.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven

to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Pascal Obispo, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

Pascal Obispo, the East and West sides are well balanced in your chart. This means that you are not too determined or authoritarian, and that you are neither impressionable nor fragile. You are capable of taking decisions, in full awareness, without anyone's help when circumstances so require. However, you have no problem taking your entourage's viewpoints into consideration, with tact and intelligence.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yin energy, the passive polarity, Pascal Obispo: you are quite introverted, imaginative and sometimes discreet, but you are a deep and wise person who is not content with just noisy and flashy things. At times, you doubt but you think that those who don't are a bit... thoughtless. Allow yourself to take more laid-back attitudes and put your reserve aside, because good equilibrium is always healthier.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Pascal Obispo: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive man. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The third decanate, which means the part between 20° and 30° of any zodiacal sign, prevails in your natal chart, Pascal Obispo. It contains the degrees of spirituality, traditionally more delicate to deal with, since they incline towards evolution and therefore, destabilizations. Individuals with an emphasised third decanate may have deeper sensitivity than most people, which often brings ordeals but also spiritual rewards.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

The Lunar Nodes highlight all types of discoveries and explorations. There is a strong desire for travels, whether actual trips or spiritual, inner ones. Since your childhood, you are particularly interested in unlimited spaces and total freedom. You never trusted smothering attachments and you always allow your thoughts and actions a free hand. The danger is that your life may be unstable because you so badly need to evolve and to discover... Life is an eternal quest of something else, some vital but hidden dimension that is beyond you. Therefore, it is difficult for you to blossom when your family or work environment is routine. However, it is important that you control your wild tendency (the other side of the coin of the wonderful freedom of thought): life requires more sociability. It does not mean that you must accept a conformism that is too far from your inner aspirations. More than other people, you need to develop your relations, your exchanges and your dialogues. In this regard, your destiny is marked by communication.

Your destiny hinges on spiritual values. Early in life, you developed relationship abilities and you showed a healthy curious mind. You are insatiable when it comes to exchanging new concepts but you limit your horizon line to tangible and useful facts. As time goes by, you feel the desire to leap further and to discover new territories or different philosophies. You may have a growing interest in metaphysics or in religions, or you may travel, so as to keep up with your desire for evolution. Never mind! What is essential is that you never stagnate and that the vagaries of life do not take precedence over your thinking process or your spiritual growth. You dream of getting rid of everyday constraints and of reaching another dimension of life pertaining to large spaces and to ideals. You need to live intensely, to discover again and again. You long for a better world? The danger is that you may get trapped in illusions and utopias. But life would be so dull without an ideal!

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your

life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You have the feeling that you are different from your entourage because you are in charge of both a special mission, and an extraordinary destiny. This configuration may indicate an immoderate pride (when the Black Moon is not well integrated enough). However, when she is well integrated (and she will be, as time goes by), the Black Moon forges an exceptional destiny that implies sacrifices, asceticism and solitude to some extent. The danger is to show too strong an intransigence and to be unable to forgive your entourage's weaknesses as well as your own. But it is also where your strength is found: an innate sense of duty, regardless of the price to be paid for a slow ascension.

One of the main drives of your life is your rejection of mediocrity: the intention is commendable although it is two-edged. You attach so much importance to charisma that you may reject a person whom you deem – wrongly – unworthy of your esteem! If you avoid this trap, the requirements that you demand from yourself as well as from your close friends become an exceptional springboard for evolution.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 10th house: you give top priority to your social status and to the level of your "rank". You are very ambitious and you have every chance to achieve social and professional successes. You identify yourself with the part you are to play and with the expectations of your environment. Therefore, you can fully blossom through the adherence to the collective pattern that you are the first one to understand and that you personify. In other words, deep down, you are what your entourage admires and respects: you have a job that is "under the spotlight" and you fulfil your responsibilities as if you were in charge of a "mission".

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

With Jupiter retrograding on the day of your birth, the lesson is about grasping the opportunities that are offered to all of us but that some people take advantage of, while others don't. Persons who quickly adjust to circumstances are more likely to achieve their ambitions than those who need to be encouraged to take action. During your childhood, you may not have efficiently responded to life's concrete enticements, leaving other "luckier" people to achieve what you were dreaming of. You preferred to enjoy yourself, here and now, rather than to look for new paths of development or exploration. It is possible that you were not optimistic enough. Enterprising minds were alien to you... Later, you find out

that, indeed, you give little importance to the credit of the frenzied expansion praised by the modern world. Your path is not oriented towards personal prestige. With subtlety, you integrate non-material values and you accept well the fact that you missed past opportunities.

Uranus was retrograding on the day of your birth: you have the soul of a rebel and your behaviour may often be tyrannical or extremist. Your manner has brought you setbacks. You lack the flexibility that spares you the pain of forcing your ways through events. The danger may be that you get trapped into rigid patterns and into personal logics incompatible with others'. This is precisely what your life's lesson is about: as years go by, your judgments are more qualified and your attitudes become less cut-and-dried, less stubborn. You must lose the essentially individualistic character of your childhood and be more open to other people's ideas and problems. In other words, a path of love. Without losing your remarkable resolution, you must practice some form of renunciation and be sensitive to various logics that constitute the wealth of your social life.

Pluto retrograde suggests power issues and mishandled relations: for you, everything comes down to power struggles, submission and domination, Machiavellian manoeuvres, including within your couple... The results are complex behaviours and an obsession for the power to influence people. Yet, life teaches that you must simplify your relations and adopt more transparent attitudes and healthier desires... As years go by, you will tend towards more simplicity and you will slowly discover that human energy can, and must, be at the service of the good, or of well being, in compliance with our individual progression.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
