Paula Abdul's Astrological Portrait

Introduction

To fully benefit from this portrait, we suggest that you read its introduction and its preamble carefully, and then that to take the time to soak up the interpretations of each chapter. Given the large number of texts, which mirrors the human being's complexity, you may need to go through the contents several times, so as to get a good grasp of their meaning and to know yourself better. This will reward your patience.

The purpose of this report is to describe your psychological portrait and to highlight the most fundamental features on the personal area. The report begins with the analysis of your planetary dominants and outlines your personality's general traits before going into further detail. Minor dominants are analysed at the end of Annex 1, for purposes of clarity. Your report then delineates the various facets of your personality:

In general, even when relationships are not involved, we express ourselves and we feel according to our character and our personal motivations: this is indicated by the Ascendant and the Sun sign which both give details on the way we function. They shed a tremendously important light which allows to figure out your personality. Here, we describe your Sun sign (your inner self), your Ascendant (your behaviour as seen by others), and the ruler of the Ascendant (interesting additional pieces of information about the style of your personality). These descriptions alone cover nearly a third or a half of your psychological signature, depending on your natal chart characteristics.

Then, we address your sensitivity, or in other words, the way you receive things and how you express your emotions ; it works as a constant filter for all your exchanges, even when it becomes a more secondary element in your amorous relationship, because at that moment, affectivity prevails. Sensitivity is the way you perceive things, it is your radar, your daily mood, and at the same time, it indicates how you react to your entourage, on a daily basis. It is what others immediately see of you. In the second paragraph, we explain in which areas of life your sensitivity and your emotions are strongest, therefore, where you are most vulnerable.

After this, it is your affectivity, the way you love and how you charm, that comes into play as soon as you fall in love: the first part indicates its basic structure or its main form. The second part describes the areas where it is best expressed and how you display it, according to your personality.

A third fundamental area deals with your mode of action and your sexuality: how you behave, how you manage to obtain what you want, what kind of desires you have. There are twelve possibilities, very

different from one another. The study discloses the specific one that applies to you. In the second paragraph, we explain in which life areas you may most efficiently take advantage of your capacity for action and for conquest.

Your ways of communicating and of thinking are obviously among the major elements that must be integrated into the delineation and the description of your personality. Indeed, they influence your general behaviour and may modify or enhance the image your project (for instance, extraversion may “compensate” a weak affectivity, but a huge number of cases are possible). An additional chapter indicates the favourite areas where you enjoy communicating, thinking and meeting with people.

Besides, we analyze an even more personal aspect that is important to define and understand what may occur within your couple: each of us have a centre of interest, a privileged manner to be fulfilled or to achieve our destiny; this main motivation is indicated by the positions of your Sun and your chart ruler in the astrological houses and we provide you with its detailed description.

A natal chart contains the potential for specific fulfilment and a whole range of assets, protections and qualities. How does the lucky factor manifest in your personality? In which area can you best exploit your qualities? The answers are precisely revealed to you in this chapter.

On the other hand, we all feel in us a part of vulnerability, doubts and fears. How does this part of solemnity or serious side play out? How is it possible to handle it in order to evolve and to get rid of useless elements? All this information is provided to you in these two paragraphs.

Then, you can discover three additional traits of your personality that must be considered as secondary ones. They deal with your predispositions, which means that they need to be triggered by external events because they are not influenced by your will; let's call it a part of fate. Please, bear in mind that your destiny can unfold only in accordance with what you are: therefore, even if they belong to your more unconscious self, these characteristics are parts of you, definitely.

The karmic chart complements the psychological portrait or natal chart. It is based on the positions of the Lunar Nodes, the Black Moon, and the Part of Fortune. These elements of the chart, sometimes referred to as fictitious points, provide information about the spiritual meaning of your destiny. Owing to the fact that we all have in us acquired knowledge and the urge to go on a quest, our life is an evolutionary journey... However, these texts must be read with great caution: this is the reason why you will find this analysis in the Annex 2 of your report.

Meaning of Stars

Stars indicate the strength of the aspects. Two solid coloured stars (there are half-stars also), mean that the aspect is powerful enough to be noticed at the first reading.

We strongly advise that you read the paragraphs displaying less than two stars later on, after you have absorbed the full import of the other texts.

The yellow colour indicates a soothing and conciliating aspect, and the red colour, a dynamic and tense aspect. The red aspects enable you to evolve, to take action, and to learn to turn your "weaknesses" into assets through your life experiences. The yellow aspects are innate strengths on which you rely in order to grow better with the former...

Preamble

When interpreting a natal chart, the best method is to start gradually from general features to specific ones. Thus, there is usually a plan to be followed, from the overall analysis of the chart and its structure, to the description of its different character traits.

In the first part, an overall analysis of the chart enables us to figure out the personality's main features and to emphasize several points that are confirmed or not in the detailed analysis: in any case, those general traits are taken into account. Human personality is an infinitely intricate entity and describing it is a complex task. Claiming to rapidly summarize it is illusory, although it does not mean that it is an impossible challenge. It is essential to read a natal chart several times in order to absorb all its different meanings and to grasp all this complexity. But the exercise is worthwhile.

In brief, a natal chart is composed of ten planets: two luminaries, the Sun and the Moon, three fast-moving or individual planets, Mercury, Venus and Mars, two slow-moving planets, Jupiter and Saturn, and three very slow-moving planets, Uranus, Neptune and Pluto. Additional secondary elements are: the Lunar Nodes, the Dark Moon or Lilith, Chiron and other minor objects. They are all posited on the Zodiac wheel consisting of twelve signs, from Aries to Pisces, and divided into twelve astrological houses.

The first step is to evaluate the importance of each planet. This is what we call identifying the dominant planets. This process obeys rules that depend on the astrologer's sensitivity and experience but it also has precise and steady bases: thus, we can take into account the parameters of a planet's activity (the number of active aspects a planet forms, the importance of each aspect according to its nature and its exactness), angularity parameters; (proximity to the four angles, Ascendant, Midheaven, Descendant and Imum Coeli or Nadir, all of them being evaluated numerically, according to the kind of angle and the planet-angle distance) and quality parameters (rulership, exaltation, exile and fall). Finally, other criteria such as the rulership of the Ascendant and the Midheaven etc. are important.

These different criteria allow a planet to be highlighted and lead to useful conclusions when interpreting the chart.

The overall chart analysis begins with the observation of three sorts of planetary distributions in the chart: Eastern or Western hemisphere, Northern or Southern hemisphere, and quadrants (North-eastern, North-western, South-eastern and South-western). These three distributions give a general tone in terms of introversion and extraversion, willpower, sociability, and behavioural predispositions.

Then, there are three additional distributions: elements (called triplicity since there are three groups of signs for each one) - Fire, Air, Earth and Water - corresponding to a character typology, modality (or quadruplicity with four groups of signs for each one) - Cardinal, Fixed and Mutable - and polarity (Yin and Yang).

There are three types of dominants: dominant planets, dominant signs and dominant houses. The novice thinks astrology means only "to be Aries" or sometimes, for example, "to be Aries Ascendant Virgo". It is actually far more complex. Although the Sun and the Ascendant alone may reveal a large part of the character - approximately a third or a half of your psychological signature, a person is neither "just the Sun" (called the sign) nor just "the first house" (the Ascendant). Thus, a particular planet's influence

may be significantly increased; a particular sign or house may contain a group of planets that will bring nuances and sometimes weaken the role of the Ascendant, of the Sun sign etc.

Lastly, there are two other criteria: accentuations (angular, succedent and cadent) which are a classification of astrological houses and types of decanates that are occupied (each sign is divided into three decanates of ten degrees each). They provide some additional informations.

These general character traits must not be taken literally; they are, somehow, preparing for the chart reading. They allow to understand the second part of the analysis, which is more detailed and precise. It focuses on every area of the personality and provides a synthesis of all the above-mentioned parameters according to sound hierarchical rules.

As explained in the introduction of your Psychological Portrait report, minor dominants are analysed at the end of Annex 1, for purposes of clarity.

Your Planetary Repartitions

Each quadrant is a combination of the four hemispheres of your birth chart and relates to a character typology. The Southern hemisphere – the top of your chart, around the Midheaven – is associated with extraversion, action, and public life, whereas the Northern hemisphere prompts to introversion, reflexion, and private life. The Eastern hemisphere – the left part, around the Ascendant – is linked to your ego and your willpower, whereas the Western hemisphere indicates how other people influence you, and how flexible you are when you make a decision.

Your Four Quadrants

Paula Abdul, the nocturnal North-western quadrant, consisting of the 4th, 5th and 6th houses, prevails in your chart: this sector favours creativity, conception and some sort of specialization or training, with helpfulness and relations as strong components. You need others' cooperation in order to work properly, although you are not very expansive: creating, innovating and thinking are what matter most to you because this self-expression enriches you and totally satisfies you.

Your Dominant Modes and Elements

Paula Abdul, here are the graphs of your Elements and Modes, based on planets' position and angles in the twelve signs:

Your Four Elements

Cheers for communication and mobility, Paula Abdul! The predominance of Air signs in your chart favours and amplifies your taste for relations and for all kinds of short trips, whether real (travels) or symbolic (new ideas, mind speculations). You gain in flexibility and adaptability what you lose in self-assertion or in pragmatism.

Like the majority of Earth signs, Paula Abdul, you are efficient, concrete and not too emotional. What matters to you is what you see: you judge the tree by its fruits. Your ideas keep changing, words disappear, but actions and their consequences are visible and remain. Express your sensitivity, even if it means revealing your vulnerability. Emotions, energy and communication must not be neglected; concrete action is meaningless if it is not justified by your heart, your intellect or your enthusiasm.

The twelve zodiacal signs are split up into three groups or modes, called quadruplicities, a learned word meaning only that these three groups include four signs. The Cardinal, Fixed and Mutable modes are more or less represented in your natal chart, depending on planets' positions and importance, and on angles in the twelve signs.

Your Modes

Paula Abdul, the Cardinal mode is dominant here and indicates a predisposition to action, and more exactly, to impulsion and to undertake: you are very keen to implement the plans you have in mind, to get things going and to create them. This is the most important aspect that inspires enthusiasm and adrenalin in you, without which you can grow weary rapidly. You are individualistic (maybe too much?) and assertive. You let others strengthen and improve the constructions which you built with fervour.

Your Dominants: Planets, Signs and Houses

The issue of dominant planets has existed since the mists of time in astrology: how nice it would be if a person could be described with a few words and one or several planets that would represent their character, without having to analyse such elements as rulerships, angularities, houses, etc!

The ten planets - the Sun throughout Pluto - are a bit like ten characters in a role-play, each one has its own personality, its own way of acting, its own strengths and weaknesses. They actually represent a classification into ten distinct personalities, and astrologers have always tried to associate one or several dominant planets to a natal chart as well as dominant signs and houses.

Indeed, it is quite the same situation with signs and houses. If planets symbolize characters, signs represent hues - the mental, emotional and physical structures of an individual. The sign in which a planet is posited is like a character whose features are modified according to the place where he lives. In a chart, there are usually one, two or three highlighted signs that allow to rapidly describe its owner.

Regarding astrological houses, the principle is even simpler: the twelve houses correspond to twelve fields of life, and planets tenanted any given house increase that house's importance and highlight all relevant life departments: it may be marriage, work, friendship etc.

Paula Abdul, here is the evaluation diagramme for your planets:

Your Dominant Planets

The three planets that are most highlighted in your chart are the Moon, Venus and Mercury.

The Moon is one of the most important planets in your chart and endows you with a receptive, emotive, and imaginative nature. You have an innate ability to instinctively absorb atmospheres and impressions that nurture you, and as a result, you are often dreaming your life away rather than actually living it.

One of the consequences of your spontaneity may turn into popularity, or even fame: the crowd is a living and complex entity, and it always appreciates truth and sincerity rather than calculation and total self-control.

As a Lunar character, you find it difficult to control yourself, you have to deal with your moods, and you must be careful not to stay passive in front of events: nothing is handed on a plate, and although your sensitivity is rich, even richer than most people's, you must make a move and spare some of your energy for... action!

With Venus among your dominant planets, one of your first reflexes is... to please! Your look, your charm, and your seduction are omnipresent elements in your behaviour.

Your approach to things is connected to your heart, and for you, no real communication can flow if your interlocutors exude no sympathy or warmth. Cold and logical reasoning, clear thoughts and good sense are not important to you: if there is no affective bond with your environment, no connection can be established with the Venusian that you are, and nothing happens.

You have a strong artistic side, and you never neglect subjective but clear concepts such as pleasure, beauty, and also sensuality. However, sometimes to the detriment of efficiency, durability, logic, and... detachment.

With Mercury among your dominant planets, you are certainly cerebral, nervous, swift, curious, quick-witted, and you love to communicate. Your psychological pattern is intellectual, all the more so since Mercury is important, with its whole set of assets but also of weaknesses, obviously.

Your sensitivity, emotions, and heart's impulses give precedence to thinking, which can lead people to

believe that you are a playful and witty but heartless person, intellectualizing situations and juggling with words and numbers whilst ignoring human aspects of things. Of course, it is said that cats always land on their feet - this is your Mercurian strength and your trump card!

Your weakness lies in your nervousness, and you may miss your goal because of your "over-intellectualization" that may be detrimental to other kind of energies such as instinct, spontaneity, heart, sensitivity, etc.

Your Dominant Signs

In your natal chart, the three most important signs, delineated according to the above-mentioned criteria, are, in decreasing order of strength, Gemini, Capricorn and Libra. They are often prominent because your Ascendant and your Sun are posited there. However, it is not always the case: it may be because they are occupied by a cluster of planets, by a planet near an angle other than the Midheaven and the Ascendant, or because two or three planets are very active and form numerous aspects from these signs. Therefore, you partly take on the three signs' characteristics, which are somehow superimposed on your natal chart, and all the more so if any of the signs in question is highlighted.

With Gemini as a dominant sign, your qualities include being lively, curious, mobile, clever, and flexible: you often make others dizzy, and you may come across as a dilettante - a bit inquisitive, shallow, and insensitive because you may be too intellectualizing. However, your natural curiosity, a nice quality, and your quick humour, allow you to demonstrate to everyone how much they may gain from your company, and that your apparent flightiness hides an appetite (particularly mental) for life, which itself conceals a terrific charm!

Capricorn is one of your dominant signs and endows you with a grave and serious style that seems to stick to you constantly. But if you have that reserved and cold side - as some extrovert people may think - on the other hand you possess sturdy qualities: you are strong-willed and tough. Your long-term vision, your sense of duty, and your ambition are not affected by the derisory and erratic motions that seem to upset most mortals less steady than you. Besides, you are like a good wine, you age well and your natural solemnity or serious side paradoxically turns into an almost cheerful appearance, as you grow older. You are actually very sensitive when it comes to love. Faithful, caring, sweet, and sensitive, your behaviour is very different in your everyday, sentimental life. A golden heart beats under your tough and austere appearance...

With Libra as a dominant sign in your birth chart, you love to please, to charm, and to be likeable. Moreover, you are naturally inclined towards tolerance and moderation, as well as elegance and tact, as if you were meant to please! Of course, you always find malcontents who criticize your lack of authenticity or of courage and your half-heartedness, but your aim is to be liked, and in this field, you are an unrivalled champion!

Houses 4, 8 and 10 are the most tenanted ones in your natal chart. To compute their strength, planets and angles are weighed according to various astrological criteria such as swiftness, activity, angularity, rulership etc. From the analysis of the most tenanted Houses, the Astrologer deduces the fields of activity that are most relevant to you, be it because of what you are experiencing, or what you may experience in the future, or because of your deep inner motivations.

With an important 4th house in your chart, your private life, your intimacy, as well as your family and home, play a fundamental role. Your security and your family unit, the one you come from, but also the one you set up when you get married and start a family - or even as a girl bachelor living alone in your sweet home - are necessary for you to blossom. According to the Tradition, your father may play an important role in your life.

Your 8th house is very highlighted: it is the most complex house of the Zodiac. It symbolizes above all passion and transformation, which often go hand in hand. Indeed, you have a tendency to experience everything to the bitter end, and you overstep propriety borders because you want to understand everything, even what is... forbidden. This house relates to complex spheres such as sexuality, possessions and disposessions that don't depend on you (inheritances, donations, sudden financial losses), death too - not yours in particular, so, don't worry! - and understanding of hidden or occult things: here are the fields that affect you generally, because you are naturally interested in them or because life gets you involved in spite of yourself.

With a prominent 10th house, your destiny's achievement may be very notable: the 10th house represents your career, your public life, and your ambitions. A good deal of your energy may thus be used to successfully implement what you have in mind. Instinctively, you are very keen to make your dreams come true. Sooner or later, you will deal with the public, and your personal achievement will go through trials and ordeals: other people and visible actions.

Your Style, Behaviour, and Peculiarities

What is commonly known as "sign" indicates the position of the Sun in the Zodiac. The Sun highlights all the characteristics of the sign he tenants. According to astrology traditional rules, these characteristics are all the more pure and exact when the Sun is strong in the sign, or when the sign is particularly highlighted within the chart. Here, we indicate the pure characteristics of the sign but you must bear in mind that they may only shed a light on a particular aspect of your personality. Indeed, the sole sign of the Sun, or of the Ascendant, can never describe an astrological chart because it depends on the degree of strength of the said sign in your chart.

Another important point must be underlined. Contrary to the Ascendant, which clearly describes your appearance, your vitality, your physical constitution, your spontaneous behaviour and the image you project, your Sun sign describes your inner self, which you may not completely be aware of, and which may emerge gradually as you mature: it is about your inner personality that you reveal only to the members of your entourage whom you trust. The Sun sign is likely to be the final form of your personality, once it has evolved in line with the energies of the other parts of your chart, the beginning of which is seen in the Ascendant, your external "bark".

The Ascendant is one of the major components of your natal chart. It is the zodiacal sign that rises in the East at the very moment of your birth. To calculate it, it is therefore necessary to know your exact time of birth.

It provides with a wealth of information on your personality. It is one of the key features that allows the analysis of several parts of you, such as your appearance, your character as it is initially perceived and your immediate behaviour. It describes the external aspect of your personality which you always display, but it also describes your physical constitution in the long-term, in other words, your health.

Please be aware that, in spite of the importance of the Ascendant, the accuracy of its description depends on how strongly highlighted it is in your natal chart. We use the entire set of astrological rules to assess the strength of the Ascendant. In most cases, the Ascendant is as revealing as your "sign", i.e., the sign where the Sun is posited at the time of birth.

You were born under the sign of Gemini and your Ascendant is in Libra

Before broaching the details of the meaning of your Sun and your Ascendant, as a preamble, we offer a brief generic interpretation of their combination in your chart:

Gemini and Libra are Air signs, an element symbolising communication, relations and the thought process. This sign combination suggests that you are particularly sociable and clever in the management of your contacts in general, and swift in your practice of intellectual gymnastics. Your Libra Ascendant, which influences your outward appearance and your instinctive behaviour, projects the image of a friendly and courteous person who has the talent for maintaining harmony within a group, or who avoids unfair discrimination and harsh judgments in order not to harm people's interests. Your Gemini inner self also rejects, or even just ignores, the behaviours marked by indifference and narrow-mindedness which prevent from embracing the outer world. Indeed, Gemini is much more spontaneous and eccentric than Libra and can be described as the Joker wearing an attractive and respectable mask...

You were born with the Sun in Gemini

Your mobility is such that you are in every place where you are not expected. You spend lots of time asking questions and... answering them. Your curiosity and your quick-wittedness are insatiable. Your mind is in constant turmoil, hopping from one topic to another, solving problems, accumulating anecdotes and knowledge within a short range of time. Your mobility is mostly mental, it takes you afar and turns your daily life into a mosaic of intense and pleasant moments that are not necessarily related to one another...

As you are born under this sign, you are nervous, expressive, lively and adaptable, with a quick mind and a good sense of humour. You are bubbling, playful, sociable, clever, curious, whimsical, independent, intellectual, flexible, ingenious, fanciful, imaginative, charming, cerebral, and you are into everything. You may also be whimsical, unfocused, quirky, superficial, indiscreet, opportunist, unmindful, selfish, sarcastic or mercurial.

In love, Madam, you are full of intelligence and liveliness. You are so subtle, so whimsical, that you could be seen as a “teaser” because you can seduce in any situation. The more complex they are, the more numerous the contacts, the better.

Among all the Zodiacal signs, you are the outstanding one who can “manage” several simultaneous love affairs. It is not a matter of vice, but only of voluptuous pleasure of the instant. If they do not take place at the same time, your amorous encounters may be short-lived. But their number is very considerable because you constantly want to keep boredom and monotony at bay and you frantically run away from any source of peace and calm.

You will probably marry more than once. For you, the Sun symbolizes first the father then the husband: Gemini being a double sign, and your father being unique, it is likely that you will have two or more husbands. However, this is not a fatality and the rest of your chart can easily tell you more.

Your Ascendant is in Libra

Psychologically speaking, your nature is sanguine and communicative or nervous and introverted, depending on who prevails, either Venus, the principle of harmony, extraversion, desire to seduce, easy and airy communication, or Saturn, the principle of rigour, introversion, self-control, concentration and meditation. Unless Saturn is very strong in the rest of the chart, Libra is very delicate and charming. She easily adjusts in society, particularly with her perpetual search of compromise. It is the reason why you may seem to be hesitant and weak. You do not dare to insist or to assert your views: you prefer to intervene as an agent for harmony, of rally and equity, even to the detriment of your self-assertion. You loathe violence and you strive with all your heart to pacify, to smooth things over, and to adjust to the situation with flexibility and grace.

Since you are born under this sign, you are sentimental, charming, courteous, delicate, refined, loyal, pacifist, fair, distinguished, light, romantic, cultured, airy, likeable, spruce, perfectionist, caring, gentle, quiet, tidy, social, artist, with strong aesthetic tastes, tolerant, lenient, sociable, seductive, elegant, kind, respectful, balanced, but you may also be hesitant, weak, wavering, selfish, fragile, indecisive, timid, indolent, cold or even insensitive.

In love, Madam, you are the seductress of the Zodiac: love is your major area of concern and to please is

the very expression of your whole being. You are so charming, so considerate, you multiply your conquests with lightness and you are on top form while you are awaiting the love of your lifetime. You have every chance to find him because all your talents are oriented towards communication and meeting with people who, invariably, think that you are charming and distinguished, pleasant and educated, with a lot of good taste and that you manage to make your interlocutor feel comfortable.

As you are exceedingly demanding, it is very likely that you will be disappointed by many lovers and admirers, however, you will never be tired of starting over again your nice soul mate hunting.

You are mildly narcissistic and you have an instinctive need to charm and to see the effects of your seductive powers. The danger is that you may be selfish or that your frenzied need for compliments cannot be fulfilled by your partner who is not able to praise you as well as you expect him to...

You are more sentimental and aesthetics-oriented than Taurus, who is more physical or sexual. The relationship with your partner must include many intellectual exchanges and a deep closeness regarding your artistic tastes or your daily lifestyle.

In general, you will marry only once, in spite of your capacity to charm and to have romantic encounters.

The ruler of your chart is in Leo

The ruler of the Ascendant, also referred to as the chart ruler, brings a few interesting nuances to the meanings provided by the Sun and the Ascendant. The sign in which the ruler of the Ascendant is posited fine-tunes the style of personality described by the Sun and the Ascendant. It may strengthen it if the sign is identical to either of them.

The ruler of the Ascendant, Paula Abdul, is Venus. In the sign of Leo, it may endow you with authority and a certain inclination for prestige. Generous and noble, you loathe pettiness. You are not aware that you sometimes irritate the members of your entourage because of your excessive pride or your self-centredness.

Aspects to your Ascendant

Several planets form an aspect with your Ascendant, Paula Abdul. Therefore, in their specific way, they modify your behaviour and your personality, which do not take on the pure characteristics of your Libra Ascendant only, but which are a blend of its characteristics with those of the said aspects.

★★★★☆ Moon square Ascendant, orb 2° 19'

Sometimes, Paula Abdul, your sensitivity clashes with the image you want to project. As a result, you may feel vulnerable and suffer if you let yourself be disheartened. Try to put things into perspective and to confront your emotions without fearing your external image. This is how you can compensate for this minor dissonance between the Moon and your Ascendant.

★★★★★ Jupiter bi-quintile Ascendant, orb -0° 23'

Jupiter in soft aspect with your Ascendant naturally endows you with a reassuring, calm, and benevolent side, Paula Abdul. You honour your commitments without qualms, and thanks to your heart of gold and your generosity, your behaviour is protective and nice. You like to please other people, and whenever it is possible, you enjoy finding compromise solutions to all problems.

★★★★★ Mercury trine Ascendant, orb 6° 58'

You are endowed with quite good adaptation capacities, Paula Abdul. Thanks to Mercury, your behaviour matches your intellectual concepts, or your style of communication, which is quite an effortless one.

★★★★★ Saturn trine Ascendant, orb -8° 05'

Saturn is in soft aspect with your Ascendant, Paula Abdul. This harmonious configuration brings about a responsible, loyal, persevering, and patient behaviour, and in a word, reliable. Your seriousness is appreciated, and owing to your capacity to easily analyse situations, you come across as a sincere and trustworthy person.

★☆☆☆☆ Mars inconjunction Ascendant, orb 2° 38'

When Mars is in dissonance with the Ascendant, Paula Abdul, in some particular circumstances, it may translate into hastiness, and even hostility on your part, which your entourage may not understand. You have audacity galore, but it is up to you to show alertness, so that you don't come across as a short-tempered person unable of self-control.

Your Sensitivity

Your sensitivity is withdrawn, Paula Abdul: more than anyone, you tend to lock yourself in your ivory tower, as you are aware of a kind of superiority that may be real, though overrated. Your moods are not perceptible because you control them with a tight fist. It is difficult to know if you are happy or upset because you show nothing. You avoid situations which compel you to reveal your emotions because you are not demonstrative. Please, be aware that it is not your amorous behaviour that is being analyzed, but the daily expression of your sensitivity. You dread the crowd and you need calm, and even solitude, to feel comfortable. You are well-equipped to remain balanced in all circumstances, but it may prove beneficial if you progressively take a relaxed attitude and show more dedication, as you are worth it; it is easier for you to exteriorize your feelings when your projects or your ambitions justify that you do so. You do not practice gratuitous outpourings, particularly when you are with a group, because you are afraid to open up, as if you were on the defensive, without any reason most of the times.

Your family, your home and often your mother, Paula Abdul, have a strong emotional importance. You feel attached to your roots and the intimate surroundings in which you live are essential; you are deeply fulfilled by this continuous source of affective charges: your home and private life are sacred for you, and you can feel very uncomfortable or unsafe if you are deprived of your haven of peace.

Paradoxically, the Tradition indicates that you are predisposed to frequent home moves.

★★★★★ Moon trine Mars, orb -4° 57'

Your vivid imagination goes hand in hand with your desire to make your dream come true and to fight, so as to remain true to yourself. You easily mobilize your energy and your resources. This harmonic Moon-Mars aspect indicates the will to keep your intimate balance under all circumstances. You thrive in action; you court danger, particularly when your regular environment is endangered. In the private sphere, you exhibit complete straightforwardness. This planetary configuration allows you to quickly get back on your feet within a new context. You adjust well to unprecedented situations. Your capacity to integrate events rapidly can only increase your adaptation abilities.

★★★★★ Moon bi-quintile Uranus, orb -0° 11'

This harmonious Moon-Uranus aspect indicates that your well being depends on the original quality of your charm and on new-ness. You are not influenced by prevailing trends and fashion. You have a personal view of what a balancing private life should be. You enjoy unexpected situations, even extravagant ones. But if you feel that your living environment hampers your freedom, you suddenly change your attitudes and your habits. Independence is your true realm. You may show an exceptional inflexibility when your intimate life moves away from the patterns you need, deep down. Your entourage must get used to your demands and to the values you are determined to keep with all your might and on which you are uncompromising. This determination does not allow for a laid-back attitude, or an indolence that so often causes degradations. You keep your own daily rhythms under control.

★★★★★ Moon sesqui-square Pluto, orb -1° 37'

This planetary configuration causes distrust (Plutonian distance) towards individuals, groups, or your own family environment (lunar values). It may bring about a feeling of affective or relational wound. The feeling of security is absent, or fragmented or illusive. How is it possible to feel integrated whereas you know that you are different and on your own? It is the myth of the « ugly duckling », with its different specific characteristics, an alien to its origins and its roots. It is important that you accept your differences and that you have them accepted by others, without forsaking your essential values. This is

how you can exercise your group ownership without allowing them to exclude you or to repress your secret determinations. When this aspect is well integrated, it is a factor of lucidity for your emotions. You perceive without gullibility what is really at stake in your intimate relationships and the flaws of your environment. The fact that you do not readily trust people spares you many traps and delusions.

Your Affectivity

In your chart, the Sun is in Gemini and Venus, in Leo. Your solar and Venusian tendencies share the will to charm. Gemini charms for the fun of it, “just to see”. Venus in Leo wants to shine. She is traditionally considered to be attached to panache and to luxury. If you are not cautious, this configuration may prove ostentatious... There is no room for mediocrity here. Your sentimental life is extraordinary, amazing and brilliant, full of surprises and boldness. You probably have a dramatic side, which is the agent for a charming and intense affective life, but which gives precedence to panache over more essential things. The danger with this configuration is that your amorous zeal becomes excessive and that appearances win over primordial matters. “Chatty and superficial loves”, say the malicious gossips. Superficial? That remains to be seen. Grandiose, undoubtedly! Better than anyone, you know how to infuse fieriness into your couple— passion but no neurosis, lyricism but no tragedy. The strength of this zodiacal duet lies in Gemini’s ability to play and to relativize the exclusive and burning affectivity of Venus in Leo. There is no excessive tension here, since love is but a game! A fascinating game whose subtleties are to be mastered. You readily practice the art of flirting and of charming – sometimes there is nothing at stake except the sheer pleasure to conquer and to discover.

You are so proud and generous, Paula Abdul, that the power of your love contains in itself your vulnerability. However, this is precisely what makes you charming and original. You are loyal and straightforward and you need to love as much as you need to be loved. Both feelings are tightly linked and there is a real danger that love is broken up by trivial misunderstandings, just because your touchiness is affected. You are demonstrative, brilliant, and even dramatic, with a legendary generosity. For you, everything is, or must be, excessive: gestures of love towards your partner, your presents, your comfort and the luxury, which marks your outings and your travels. You are physically a lion, at least, you have its sexual appetite; you are voluptuous and passionate. Flexibility is the only thing that is out of your reach, in the ways you show your love, as well as in your responses to annoying events.

If there are no tense aspects with other planets in your chart, this configuration suggests that you are prone, Paula Abdul, to create a link between your career and the sentimental area, even though it may come under various guises: you may be in favour with women in general and enjoy their support as you climb the social ladder and you achieve success more quickly making use of your charm and of your seductive ability. Sometimes, you may mingle love and career (or marriage), thus combining business with pleasure and indeed even... with your destiny. In other cases, you will be interested in Venusian occupations such as the arts, aesthetics, decoration, luxury trade or diplomacy. Whatever your activity, you will appreciate it tremendously and you will feel very much at ease. You will enjoy affective popularity and consequently, an aura of the luck of the devil that can propel you to the top or, at least, to where you dream of being. You are often a perfectionist and the careful zeal you dedicate to the attainment of your objectives greatly contributes to their achievement. Never do you forget them, and nothing pleases you more than to rub shoulders with important people in the higher spheres of diplomacy, politics or business. You love to act as the mediator or the go-between and to have your irresistible charm duly acknowledged and rewarded. In some adverse circumstances, you may lack

constancy or perseverance in love, or this area may, to some extent, contradict your career objectives, owing to your carelessness. You may be dominated by women, lack authority or you may find yourself doing a balancing act between your love life and your professional life, and being unable to make a choice, thus damaging both.

★★★★★ Venus opposite Saturn, orb -7° 35'

This Venus-Saturn dissonance indicates a demanding, complex and often challenged affectivity. You are wondering about the meanings of love, pleasure and emotions. Your passions take an absolute character right away. No compromise, no sham must stain your sentimental life. In such a context, doubts abound. This aspect prompts you to review the roots of your affectivity, so as to find the assurance you lack and to soothe your dormant sentimental anxiety. Love is an eternal and endless quest. Because you are doubtful of the affection people have for you, you may never feel that you are really loved. Your affective behaviour reveals your uncertainties: tests and challenges follow one another until, eventually, you are certain to experience a love that meets your demands. It is obvious that on the sentimental area, you are not looking for the easy way out.

The Way You Take Action and Your Sexuality

Paula Abdul, the way you take action gains in power and in precision what it loses in rapidity and spontaneity. You are “slow”, certainly. But when you get started, you put all your ingenuity and your persistence into it and you love to see a job well done. At the end of the day, owing to your ways, you are the winner. In your sex life, similarly, you are generous and instinctive and your slowness is not an obstacle. It may even bring fulfilment to you, but above all, to your partner! In love, as well as in your exchanges in general, you tend to keep your worries to yourself because you are extremely patient; you don't say anything, you stand all the hits and one day, you explode into outbursts of anger that are as violent as they are rare, thanks God.

Paula Abdul, this atypical configuration in your natal chart is one of the most complex to describe because of the very nature of the 8th house, the house of transformation, of crises leading to personal reconstruction, but also the house of sexuality, hidden knowledge, investment and inheritance.

In addition, the 8th house always deepens emotions and quickly brings passion into the previously mentioned areas. In this house, the quality of Mars' expression depends on the rest of the natal chart.

In order not to make mistakes, it is safer to talk about a possible range of fields of predilection: your energy can be expressed efficiently in areas dealing with financial investment, death, possessions and sexuality.

This configuration may also simply increase the intensity of emotions connected with these hidden topics and, depending on the rest of your natal chart, it may or may not translate into life assets. More than with any other placement, you can be born again from your ashes, like the phoenix. After having undergone a few major ordeals, it is likely that you will have the strength and courage to do so.

★★★★★ Mars opposite Neptune, orb -5° 1'

You behave like a bohemian person and you are led by an ideal that you may not control. Your passions are undoubtedly sincere. However, you may target wrong objectives. You engage on hopeless struggles

and meaningless confrontations. It is important that you watch out for fanaticisms from all sides and that you remain clear-sighted in the face of your exalted feelings. Your sincerity may work wonders when you champion lost causes. The most difficult thing is probably to keep your exacerbated sensitivity under control. Because you are deeply moved by facts, because you are sensitive to injustices and to the world's woes more than the average people, you embark on incessant battles, at the risk of undergoing a few delusions, on occasions.

★★★★★ Mars sextile Jupiter, orb 3° 44'

Coordinated action wins over almost all obstacles! You mobilize your energy and your fighting spirit advisedly and you take timely action. This is the reason why you are efficient in situations requiring courage, determination, swift responses and diplomacy, altogether. You do not fear confrontations but you never provoke them unnecessarily. You take advantage of your chances and you adjust your behaviour to concrete situations. You empirically handle events with relevance. The only danger is that you may be overzealous to seize any opportunity... even those that are not necessarily good in the long run. You should take the time to carefully consider the facts and their consequences. The swiftness of your reactions must remain an asset.

★★★★★ Mars square Saturn, orb 5° 26'

Why should you take action? And how? The surrounding world is not to be trusted. Past events have taught you to question simple situations and to intervene after thorough consideration. You are vulnerable to the traps of life, to confrontations and struggles. You may complicate your behaviour at will, often missing your target due to your self-censoring. Your interventions may lack spontaneity. You must overcome your doubts and acquire the certainty that you are able to handle realities and facts. If you make that effort, you can understand that there are many ways to make life simpler for yourself.

Your Intellect and Your Communication Style

Paula Abdul, an enquiring intelligence, an instant understanding and a wide range of interests prompt you to go towards other people in all circumstances with a view to exchanging ideas and to show your talent for repartee. Ideas and actions must be quick and you are likely to be impatient, even critical and sarcastic with people who cannot match your frantic rhythm. You are very adaptable, you can do several different things at the same time and also think of a future action because you constantly need to be on the move. You may be criticized for your superficiality, for spreading yourself too thin and for your propensity to conceal the truth, but you always get out of tricky situations incredibly well because you are very astute, shrewd and charming.

You need to understand, to explore the unknown, to shed light on mysteries and to immerse yourself into the hidden fields of the unconscious or the afterlife, actually, into whatever escapes you, Paula Abdul. You are not content with what seems obvious because you are on Earth to evolve and not to stagnate or remain in a mindless state and a lack of understanding.

Interestingly enough, astrology connects the spheres of death, after-life and mysteries with the spheres of other people's possessions, investments, inheritances etc. This analogy probably comes from the fact that in those two fields, everything remains inaccessible right away. It might be the reason why such mysterious topics are so attractive to you.

Your investigative mind enables you to easily express your feelings and to explain the inner mechanisms of your whole being, almost as if your own self was a specimen to study, without modesty and with the only motivation to go as far and as deeply as possible.

★★★★★ Mercury square Jupiter, orb -0° 35'

You play with social norms and you scoff at them. Your morality is seldom questioned: you adopt the most rewarding behaviour, precisely the one that wins you your entourage's consideration. But you sometimes cheat. You are an opportunist and you act according to circumstances, particularly because your moral stand is only a superficial mask. You enjoy concealing your beliefs: life is a social game and you change its rules to suit your convenience. Your flexibility and your adaptation abilities are appreciated. However, it is important that you do not behave inconsistently. A stable and transparent course of conduct may help you avoid many pitfalls or delusions. Beware of words spoken thoughtlessly, of empty promises, and do stick to your indisputable cleverness.

★★★★★ Mercury trine Saturn, orb 1° 06'

Your vision of the world is rigorous and objective. An exemplary logic characterizes your mental attitude and your human relations. Your discerning faculties overlook no detail. You need to know the whys of your life and to explore the backstage of your surrounding world. The deepness of your relations dismisses superficial connections. It may be the reason why your interest is aroused when you are in touch with elements that are alien to your mode of functioning. You have the soul of a researcher, regardless of the form that your investigations may take. It may be an exacerbated curiosity for human topics or a will to understand relationship stakes. It may also be a hobby or a course of study that introduces you to a riddle. It does not matter! Life is a perpetual quest for the unknown. Your critical mind is highly developed and you take commonplaces for granted only after thorough consideration.

★★★★★ Mercury square Pluto, orb -4° 05'

Forget simplicity! You definitely enjoy acting behind the scenes and dealing with what is going on underneath. You play games and you operate in the dark. You leave the front of the stage to others and to the gullible ones. You don't display much sociability. When you are nice, it is because you are looking for flaws. This Mercury-Pluto dissonance mingles unconscious fantasies with reality. When it is kept under control, this aspect becomes an unparalleled source of discernment. To that aim, you must overcome your strong tendency for provocations. It is certainly amusing to play destabilizing games but it may also be dangerous. Keep this treatment for your opponents only.

★★★★★ Mercury inconjunction Neptune, orb -0° 51'

With this Mercury-Neptune dissonance, relations may be distorted by the mirages of sensitivity. You have to make an effort to keep your objectivity. If this aspect is not well integrated, it may harm your good evaluation of human stakes. Your intimate beliefs may limit the dialogue, as if a very specific sensitivity prevented true communication. It may be difficult to find the right wording to express fragile and ineffable experiences. Imagination in power is not easy to share and the poetry of your speeches may be beyond your audience's understanding!

Your Goals, Motivations, Career, and Destiny

Your Sun is posited in the 9th House

Paula Abdul, early in life, you apply to yourself the saying "No man is a prophet in his own country". Since you were a little girl, you had the impression that something in you was different and could not be understood by your close friends. Your natal environment prompts you to venture into unknown territories and remote lands, where you hope your real talents and qualities will be acknowledged.

You are more comfortable when you are away from home because of your rebellious mind, because you feel different or because of an awareness which stems from your good sense: what attracts you is far too original, compared to what your family or your roots may offer or may apprehend.

This peculiarity may take various forms, depending on your destiny and your personality: an inclination or a strong aspiration for distant trips, higher and abstract studies, higher knowledge, spirituality, philosophy, religion, moral or culture. You are also interested in occupations allowing you to meet your need to be elsewhere, physically or intellectually, such as for instance, the positions of ambassador, judge, exporter, philosopher, researcher, university teacher, reporter or in any job with the clergy.

It is clear that your social status can be improved in places located far from your home. Your ambitions are not hampered because you are favoured and predisposed for international contacts, or for contacts that are different from your natal environment. You have no problem learning foreign languages and you study this area with the certainty that you are forging valuable assets for the rest of your life.

Your self-assertion and your success go through experiences abroad or connected with foreigners.

As you mature, there is a spiritual, moral or intellectual brilliance linked to higher knowledge that radiates from you. It may also be due to the fact that you are dedicated to a noble cause for which you sincerely spare no effort.

When great planetary configurations of tension are formed in very few moments of your life, you may be affected by illnesses or fevers contracted abroad; or in your profession, where foreign matters are involved, you may have to bear the consequences of conflicts that tarnish your prestige or your honour. What constitutes your strength does not exclude cautiousness. Too much ease may lead to unforeseen situations: even though this applies obviously to all life areas, it is certain that, when exotic trips are involved, or figuratively, when you take intellectual, moral or spiritual stands, you must cautiously step back and show restraint.

The ruler of your chart is in the 10th House

The ruler of the Ascendant, also referred to as the chart ruler as explained in a previous chapter, is also posited in one of the twelve Houses of the chart. Just like the Sun in his House, the ruler of the Ascendant provides certain abilities, or it makes you appreciate more keenly certain areas of life.

The ruler of your chart is in the 10th House, Paula Abdul. Your career - or your social status if you are not working - is highly important to you. You are driven by a certain ambition. You are endowed with the predisposition to lead, to shine, and to climb the hierarchical ladder. When you take action, you bear in mind the possible consequences for your social elevation.

Aspects influencing your ambitions

Regarding your destiny or your career, the following aspects of your natal chart allow to fine-tune what has just been said above:

★★★★★ Moon opposite Midheaven, orb -0° 26'

The Moon in opposition to your MC does not create a real dissonance in your natal chart, Paula Abdul. Actually, the Moon is also in conjunction with your Imum Coeli which represents your roots, your family, and your home. In fact, you take pleasure in letting yourself go when you are with your entourage, in the privacy of your home, rather than in society, where you keep your guard on, for fear of criticisms. Thus, your emotions are not at the service of your career, but rather exclusively dedicated to your family circle.

★★★★☆ Sun sextile Uranus, orb -0° 46'

This aspect reinforces the determination as well as the will to further your original, sometimes revolutionary, ideas and designs. Your capacity of innovation is important for your image. You have the soul of a leader. You display a forceful and synthesizing mind. You may tend to oversimplify or to schematize situations. In most cases, you know where you are heading to and how to reach your goals. Your determination is two-edged... not everybody will appreciate your contrasted standpoints. It is yes or no, black or white! This planetary configuration indicates certainties. When it comes to acting according to your inner motivations and to respecting your models, you can show an unusual willpower and sweep aside all obstacles lying on your path.

★★★★☆ Mars sextile Midheaven, orb 4° 31'

Your energy serves your professional goals and your social ascent in general, Paula Abdul. This beneficial aspect of Mars to your Midheaven endows you with strong dynamism, and it rewards your sustained and efficient efforts. You enjoy taking action, and your results are gratifying most of the time.

★★★☆☆ Sun sesqui-quadrate Neptune, orb -2° 05'

If this Sun-Neptune dissonance is not well integrated, it may bring about confusions and errors of judgment. It is the signature for Don Quixote in search of chimera, pursuing impossible dreams. Your intuitions may lead to an incorrect estimation of facts. Bohemian life is certainly pleasant. But it is often necessary to remain realistic, lest to be exposed to delusions. Carelessness and letting-go is not suitable. In order to properly integrate this aspect, you must control the possible drift of a wandering and fabulous sensitivity. This aspect favours poetic and romantic inspiration. But you must not let it rule your concrete actions. It is important to allow your intuitive capacities to be fully expressed while keeping a lucid mind, simultaneously.

★★★☆☆ Sun sesqui-quadrate Saturn, orb 2° 21'

The Sun-Saturn dissonance indicates frequent questionings. For the sake of lucidity, you are doubtful of everything that makes up your life environment, as well as of your entourage and of yourself. Past events are the cause of your distrust. Your motivations are not based on conventions or established norms. They may produce a feeling of loneliness or of revolt. However, you withstand difficult situations. You are pre-adapted to changes of direction and you are able to question the very basis of your life. Doubts are often overwhelming and hamper your steps. It is important that you accept facts with more simplicity and that you take life as it comes, without constantly questioning the validity of this or that option. It does not imply that you must lose the lucidity that is your characteristic. It only means that you have to build the self-confidence that you are lacking.

★★★★★ Jupiter trine Midheaven, orb 8° 15'

Jupiter is in soft aspect with your Midheaven, Paula Abdul. It means that you are often lucky, or that you receive support in your career or your social destiny. You trust your abilities to overcome obstacles coming up in your way, and you respect authority and laws. So, thanks to this configuration, you make your way in the world with the feeling that you move forward rather quickly, as compared to average people.

Your Assets and Your Part of Joviality

Paula Abdul, your sensitivity, your emotions, and your artistic capacities, particularly regarding music and rhythm, are strongly increased with this position of the planet of Greater Fortune in this borderless sign. It endows you with an artistic and endearing side as well as with flexible and mobile ways to consider your relationships and your environment. Your dreamy state of mind and your sensitivity to other people's sufferings may prompt you to get involved with compassion in great humanitarian causes.

For you, Paula Abdul, nature's present includes pleasant satisfactions in the area of leisure, entertainments, creations and love. Anything with a hint of pleasure is favoured. A marvellous world exempt from constraint and obligation illuminates your life. According to the Tradition, your luck also applies to your communication with children and your descent is harmonious and successful.

The planet Jupiter symbolizes expansion, broadness and generosity. Jupiter is associated with the functions of synthesis, enthusiasm and optimism. In your natal chart, his house position is more important than his sign position because, like Saturn, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Jupiter in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Jupiter in Pisces increases your natural generosity and your dedication capacity. Your empathy is strong and you are inclined to offer your strength and your enthusiasm to the most deprived people and to give unlimited assistance to others. Your imagination is powerful and your feelings may flare up easily: with your sensitivity on the alert and your unbridled affectivity, you belong to the category of people who intuitively detect other people's sufferings and most valuable qualities of the heart, as if you were a human radar.

Your Serious Side

Solemnity and concentration are at the service of your projects and your altruistic ideals. To the detriment of your own individuality, you become demanding with time, and you learn to better define the human values that are really important to you. Struggling in order to better assert your individual qualities can be highly profitable.

Paula Abdul, you worry when you are at home, in private. You may feel, wrongly usually, that your family does not love you, that they do not understand you, that you are lonely, and that your father is too strict.

You are often attached to the past and to painful souvenirs. Your challenge is to understand that the

present can become light and pleasant and that the burden of your sufferings comes from your own doubts and not from your family environment. If you succeed in doing so, you will win on all counts since, at the end of the day, you become responsible, stable and... happy at home!

The planet Saturn symbolizes contraction, effort, time, limitation and concentration. Saturn eliminates anything that is not authentic, sooner or later. It is impossible to cheat him as he gives an irresistible desire to form a coherent whole with oneself, in responsible and wise ways. He is the great purifier. He represents our limitations but also our truth. In your natal chart, the house position where Saturn is posited is more important than his sign position because, like Jupiter, Uranus, Neptune and Pluto, he is a slow planet. Many people born in the same period have Saturn in the same sign. This is the reason why the sign occupied here is less meaningful than when it is occupied by the so-called fast planets, i.e. the Sun, the Moon, Mercury, Venus and Mars. Therefore, some caution is to be exercised as you read what follows.

Saturn in Aquarius endows you with the capacity to deliver in collective areas, humanitarian causes or avant-gardist projects. Your sensitivity is withdrawn but it is offset by your ability to handle human relationships in a daring and efficient way, which allows you to achieve your goals for the sake of a cause.

A Few Special Points

Your Uniqueness and Your Utopias

Powerful protections, friendships, and supports are granted to you at a jerky rhythm throughout your life. There may also be break-ups that are as brutal as they are easy to forget because you manage to ensure that your contacts are brilliantly revived.

The friends you meet have strong personalities, or they may be quite special persons; indeed, you think of friendship as a rich and varied soil in which everyone must bring one's own contribution with one's touch of originality and difference. Otherwise, what's the use?

The danger is that you may embark upon projects that you cannot see through in the long run because they are too utopian. You may also count on partners who are too eccentric to be reliable. Or, on some occasions, you may show too much independence of mind or a boldness that is too strong to really last.

With this typical configuration, your popularity may fluctuate and disappear as quickly as it comes. It is up to you to set the limits of originality that you must not overstep, lest you should undergo unfortunate consequences.

Your Inspiration and Your Illusions

You are particularly sensitive, intuitive, and you have very fertile imagination. You may seem mysterious to others, actually to yourself, too, and you may be unaware of the consequences your actions may trigger because you are wrapped up in nebulous impressions and cut off from the material world.

Your behaviour may be surprising because your sixth sense is so developed that you may adopt a completely different attitude and amaze your entourage by your very sharp perception of things that is

often beyond ordinary mortals' understanding.

You are interested in new experiences that may not be respectful of proprieties or moral standards, just for fun and due to a certain degree of carelessness... You feel that you are beyond the law and rules, and your emotionalism may take you too far.

Your Passion and Your Authority

Your approach to friendship is peculiar, and your affective tendency is to commit yourself in an intense and passionate way. In other words, you do not want to, or you cannot be satisfied with a light and superficial friendship where you lose sight of your friends or meet with them sporadically. It is all or nothing, with you. Preferably all, of course, with the potential for evolution and transformation for both you and your friends.

In most cases, all is well, as long as your friends' character puts up with a relationship that may appear as burdensome, or even threatening, due to your desire for domination. You tend to influence your friends and to show your might. When they resist you or antagonize you, it is hard for you to remain cool.

Passion and friendship certainly get along well and, more generally, you may exercise your influence and play a major role in team works, within collective projects.

Your friendships, as well as the supports and protections granted to you, are likely to bring about both the better and the worse. If you are aware of that, you may become able to choose only the better.

Your Isolated Planets

In general, the ten planets of the chart are connected to other planets by major or minor astrological aspects. It is owing to those ties that the planets' energies can manifest in the chart owner's personality and play out within safeguards according to a specific tonality.

It seldom happens that in a natal chart, a planet is totally disconnected from the nine other planets.

Astrologers have observed that when such a case occurs, the person feels the energy of the unaspected planet in quite a singular way, very jerky and powerful at the same time. Thus, for instance, the famed astrologer Jean-Baptiste Morin de Villefranche wrote that "an unaspected planet heralds that something strange or extraordinary will take place regarding the meanings of the house in which the said planet is posited" (source : l'astrologie selon Morin).

Rules for detecting an unaspected planet: among all the testimonies that we have reviewed to this day, based on our experience, we tend to agree with American astrologer Janis Huntley who accepts seven aspects, which involve the zodiacal twelve sections of 30 degrees. The aspects to be considered are the conjunction (0 degree, cooperation or tension), the semi-sextile (30 degrees), the sextile and the trine (60 and 120 degrees respectively, aspects of cooperation), the square and the opposition (90 and 180 degrees respectively, tensed aspects), and the quincunx (150 degrees, slightly tensed). In this detection, the chart's angles are not taken into account.

In any case, it is important to remember that an isolated planet clearly expresses its influence when it is a personal planet. Thus, when the Sun, the Moon, Mercury, Venus, or Mars is isolated, it is certain that the effects described by Jean-Baptiste Morin de Villefranche will become manifest. As for Jupiter, Saturn, Uranus, Neptune, and Pluto, one must be cautious because the volume of cases documented is not yet large enough.

Your chart has no isolated planet, and this particular case does not apply to you.

Annex 1: Your Minor Dominants

The five following dominants are less significant than those described at the beginning of your report. They may not be strongly felt. In some cases, they add several minor details to the analysis of your character, but they are rather for curiosity purposes. It is not necessary to take them into account when you first read your portrait.

Your Planetary Repartitions: Northern, Southern, Eastern and Western Hemispheres

The axis linking the 1st house's cuspide (the Ascendant) to the 7th house's cuspide - the Descendant - divides the zodiac into two bowls, a superior bowl, in the South, and an inferior bowl in the North. Quoting an expression by the famous American astrologer Rudhyar, the Southern part and the Northern part correspond to two functions: "being" and "doing". Other concepts are also associated with this North and South distribution, such as introversion - Northern hemisphere - and extraversion - Southern hemisphere - being or appearances, inner life or external life, reflection or action, dreaming one's life or living one's dreams, the abstract or the concrete, backstage or limelight.

This is not about determination but about personal inclination: thus, some people will be thrown into public life despite a prominent Northern hemisphere. If this happens, however, it will not be due to their will, their taste or their deep nature. Conversely, a prominent Southern hemisphere will not bring about a famous destiny to its owner, even if he tends to turn the spotlight on himself, or if he looks for a more active life. It is a matter of deep nature and natural inclination. Of course, none of the typologies is "superior" to another.

In your birth chart, Paula Abdul, the ten main planets are distributed as follows:

Your Northern and Southern Hemispheres

Paula Abdul, the planetary elements of your chart are well balanced between the North and South hemispheres. As a result, your public destiny and your inner life are harmonious, and there is no conflict between your actions and your thoughts. Your private and public spheres coexist in harmony and naturally match your temperament.

The birth chart is divided into two other parts, Eastern and Western, by the axis linking the Midheaven to the Imum Coeli.

The Eastern part, on the Ascendant side, shows the person's ego, will, magnetism, and vitality, whereas the Western part, on the Descendant side, symbolizes other people, communication, relationships and their influence, as well as flexibility and adaptability.

Paula Abdul, here is the planetary repartition in your Eastern and your Western hemispheres:

Your Eastern and Western Hemisphere:

The predominance of planets in the Western hemisphere of your chart means that you are quite flexible, capable of empathy, convivial and communicative. An excellent factor for many professional activities or for your social or sentimental life for example.

A definite asset... provided that you are not at the centre of the decisions you must take in your life: you may be tempted to listen to the last person who spoke, and your flexibility won't always get you out of the tight spot. You are therefore advised to learn to decide alone and to cope with the consequences of your actions with courage and without regrets. This attitude will allow you to combine flexibility and action, adaptability and absence of hesitation.

Your Yin and Yang Polarity

The twelve signs are divided into two polarities, called active or passive, or sometimes masculine and feminine, positive and negative, Yang and Yin. This classification corresponds to two quite distinct tonalities, the first one bringing extraversion, action, self-confidence and dynamism, the second one, introversion, reactivity, reflection and caution. None is superior to the other, each group has its own assets and shortcomings. Odd signs - Aries, Gemini, Leo, Libra, Sagittarius and Aquarius - belong to the first group, whereas even signs - Taurus, Cancer, Virgo, Scorpio, Capricorn and Pisces - belong to the second group.

Your Yin and Yang Polarity

According to the disposition and qualities of your planets and angles, you are rather influenced by Yang energy, the active polarity, Paula Abdul: more concerned about actions than reflection, you sometimes rush without standing back and without the deepness that is needed. However, your spontaneity prompts you to take fresh starts, even after repeated failures caused by your rashness.

Your Houses' Accentuations

Houses are split up into three groups: angular, succedent and cadent.

The first ones are the most important ones, the most "noticeable" and energetic houses. They are the 1st, 4th, 7th and 10th houses. Their cuspides correspond to four famous angles: Ascendant for the 1st house, Imum Coeli for the 4th house, Descendant, opposite the Ascendant, for the 7th house and Midheaven for the 10th house, opposite the Imum Coeli.

Planets are evaluated according to a whole set of criteria that includes comprehensive Western astrology rules. At their turn, planets emphasize specific types of houses, signs, repartitions etc., as previously explained.

Your Houses' Accentuations

Your angular houses, namely, the 1st, 4th, 7th and 10th houses, are very emphasized in your chart, Paula

Abdul: according to the Tradition, they are the strongest and most dynamic houses. Should the rest of your chart concur, angular houses suggest that you are an enterprising, energetic and assertive woman. Indeed, angular houses are said to generate impulsions and to give a powerful and domineering personality.

Unusual fates are often linked to a predominance of angular houses, but this is only a partial indication...

Your Esoteric Decanates

Each sign contains 30 degrees and can be divided into three equal parts: the decanates. The Tradition indicates that specific meanings can be associated to each of the three decanates. Their sphere of activity is usually limited to the Sun sign, however, it is even more interesting to observe the distribution of all the planets in the chart to get an idea of the respective importance of the three decanates, which can complement the description of the personality.

These meanings must be considered with the greatest caution. Indeed, they are minor characteristics that can only underline other outstanding traits of character.

Traditionally, the first decanate highlights the characteristics of the sign where a planet is located. The two other decanates correspond to sub-dominant planets, depending on the nature of each sign. This system leads to a multiplication of meanings and it is impossible to have a clear understanding: here, we prefer to give only the meaning of one decanate in comparison with the other two, within the birth chart as a whole. Again, the greatest caution is needed with regard to this minor indication as it is not always reliable: it is not essential that you read these texts in the beginning. You can get back to them later on, once you have read more important interpretations

Your Esoteric Decanates

The second decanate, which means the part between 10° and 20° of any zodiacal sign, prevails in your natal chart, Paula Abdul: these 10 zodiacal degrees emphasize logical thought and mental values. Therefore, you may be drawn to some kind of scientific activities, research, writing or any sort of expression where you have to... think a lot.

Annex 2: Karmic Study

The karmic theme is a good complement to the psychological portrait, or natal chart. This analysis is based on the positions of the Lunar Nodes, the Black Moon and the Part of Fortune: they are also called fictitious points and describe the spiritual purpose of your destiny. Because there is in all of us an experience and a quest, our life is an evolutionary journey... provided that we head towards the right direction, of course! Indian astrologers highly prize the Nodes axis (North Node and South Node). It is the Ariadne's thread that we are invited to follow. The Black Moon indicates the sector where we are most likely to transform or to transcend, whereas the Part of Fortune points out the area where we can easily express our specificity.

The Lunar Nodes: a spiritual path

Lunar Nodes have their roots in the Indian tradition and they are based on a simple concept: each of us have a mission of their own, here on earth, a destiny, a course. According to the Indian philosophy, life is a school: the nodal axis describes our past experiences (South Node, our karma, our spiritual inheritance or our previous lives), and our aims on earth (North Node, our Dharma, the purpose of our current incarnation). This is the reason why the study of the lunar nodes is called "Karmic astrology". Here, we shall not step into hypothetical past lives. Wherever our current trends may come from, all that really matters is that we become aware of the purpose of our life, its finality and our dharma. We are likely to understand our life purpose around the age of 37, when the Lunar Nodes return to their natal position.

You make friends easily and you earn your entourage's confidence and esteem. Very early, you develop an acute sense of fraternal relations, generously receiving and giving. This spirit of mutual aid may lead to a happy-go-lucky attitude that may border on carelessness... As you rely too heavily on friendship, there may be a danger to undergo a few setbacks: idealism and spontaneous dedication may meet with ungrateful reactions or the indifference of the very persons whom you try to help. Your destiny is probably marked with a quest of individual achievement. It is of utmost importance that you create, that you beget a fruit, a work or a child. Little by little, you become independent, without selfishness, but with the strength of those who know that they can only rely on themselves. Do not hesitate to live your dreams to the end and to engender, over and over again. Creation, whatever its form, is the path to your fulfilment. You slowly discover the pleasure to design as you please, without outside interference. It is important that you find an area for your personal expression and, as the poet says, "before the eyes, constantly, night and day, either a great labour or a great love".

Your life is marked with the major challenge of developing your social image, of asserting your personality... and of leaving your shell. Your childhood and your family roots are very present. You have an inclination for quietness, protections and intimacy. You enjoy at will the moments when you feel "at home", in known territory and familiar situations. But you must learn to thrive in society, to give of your best, to socially shine, particularly when you feel that external pressure and opinions are upsetting. Do not fall in the trap of your dreams and souvenirs! Life implies responsibilities and the will to control, otherwise you cannot feel your true self. You may be too dependent and you must learn to slowly become autonomous, free to take decisions and to take action. Your sense of duty allows you to climb all the steps of a perilous, yet thrilling, social ladder. As years go by, you claim more autonomy, more power and more freedom of action.

Lilith or the Dark Moon

The Black Moon is the spark of refusal and distance that is dormant in all of us. Depending on the sign where she is found in your chart, she highlights the desire to transform and to sublimate a part of your life. The Black Moon is unfathomable and mysterious. She gives a different dimension to the sector she touches. Her manifestations are subtle; nonetheless, she is powerful, implacable, demanding to the extreme... The Black Moon is also called Lilith. She is the inner flame of your heroism and insubordination.

You are a person thirsting for precision and perfection. Your rebellions are frequent: any mechanism that is not running perfectly smoothly is dismissed. Any person whose attitudes seem inconsistent becomes the object of your refusal. Better than anyone else, you can ridicule social stereotyped models, too conventional and ineffective. It is likely that you often succeed in giving a logical dimension to the craziest situations.

It is in the humanitarian field that rebellion is best expressed. Your dream is to become the spearhead for a different project of society, the Quixote of altruism. Each individual must be independent, really free to think and to act. Any hindrance to free will makes you indignant! The danger is that you may not tolerate any external constraint. This is probably the price to be paid for a freedom of thought that constitutes the core of your progression.

The Part of Fortune in House

The Part of Fortune is a very ancient fictitious point that depends on the lunar phase at the time of birth. The astrological house tenanted is particularly strengthened. In your chart, the Part of Fortune is in the 7th house: you need the presence of the other one (whether the object of your desire, your husband or your partner), as the indispensable mirror of your life. You are in search of privileged contacts, of fusion and harmony. At each step of your life, there is an important relationship that is always experienced with intensity and in an absolute manner, regardless of its positive or negative consequences. Like all the persons born shortly after the full moon, you are particularly interested in the relationship with your loved one, your double and your model.

Retrograde Planets

The karmic tradition insists on the issues related to the so-called retrograde planets. They are considered to be the inheritance of a past that was not well experienced, a sort of unfinished business. The interpretations of the retrogradation may seem negative or excessive to you. However, you may relate to a scenario that you have often and repeatedly experienced... as if you underwent several setbacks that all have the same cause. Until the day you become aware of it and you can free yourself from it! Through the slow integration of these planetary energies, you will be able to overcome your difficulties and to pay your karmic debt. Actually, each retrograde planet highlights an opportunity for evolution. Nothing can be achieved without the will to grow spiritually and to defeat your own demons.

The karma associated with Saturn may border on self-censorship: during your childhood, particularly, you were doubtful of your abilities and your talents. You had a propensity to put yourself in a no-win situation and to under-estimate yourself. Obstacles abound: taboos and prohibitions of all kind slow down your evolution. Little by little, you learn to re-evaluate your possibilities and to gain more self-confidence. Your personal rigour then turns out to be constructive: you are not destabilized by life ordeals and you practice a self-discipline that favours steady evolution. Although your path may be steep,

it is nonetheless safe.

Neptune retrograding concerns spirituality. You may have expressed early in life a few reluctances about the subtle world of faith. You may have ignored destiny's signs and winks and you preferred to stick to your certainties, to a rigorous and objective control of your life. You dread your own aspirations and you readily trust others': this causes a lack of autonomy and the feeling that you may not receive as much as you give. However, several delusions teach you that you must relativize your calculating and methodical attitude and open up to the irrationality of love in order to find an inner and more spiritual progression. Embracing the invisible is a process that unfolds as years and experiences go by. Your own generosity increases as you become aware of your entourage's generosity.

N.B: modern astrology attaches less and less importance to the principles of retrograding planets.

Conclusion

A few remarks are needed here in order to allow you to fully take advantage of your astrological portrait: firstly, do not forget that a birth chart is also a photograph of the sky at birth and a structure that not only contains the personality's characteristics, but also its potential evolution.

We all know that, in real life, people begin to know themselves when they are in their forties, or even later. Likewise, several traits of character in a portrait may seem surprising: in most cases, it means that such features are not yet developed.

Some personalities reveal themselves late in life, whereas others are more precocious. It must be remembered that psychological structures are in a state of continuous evolution because they are influenced by unfolding events and gradual maturity. We can never underline strongly enough the "mobile" nature of the personality, throughout a lifetime.

On the other hand, it is difficult to discriminate what is "already present" at this moment in your life when you are reading your chart's interpretation, from what will appear later in the logic of your evolution: you must sort out all the pieces of information provided and, in most cases, you will see that your astrological portrait is helpful for your endeavours to know yourself better.

Finally, several readings of an astrological portrait are usually necessary in order to absorb all its different meanings and to evaluate the relevance of each character trait.

In any case, better self-knowledge obviously contributes to faster personal blossoming, and it is undoubtedly one of astrology's major roles: contributing to know oneself better, in order to improve more rapidly, to deal with one's weaknesses and to avoid its drawbacks, and to take advantage of one's assets as efficiently as possible.
